

THOUSANDS VIEW DRUGGISTS SHOW

Entertained By Exhibits of Pharmacy Night, Main Feature of Week.

SEE DEMONSTRATION OF LABORATORIES

More than five thousand spectators viewed the exhibition display in Pharmacy hall last night, according to estimate. The display was a part of Pharmacy Night, the main feature of the week which the druggists are celebrating. Exposition of all laboratory duties of the druggists was made for the visitors, including methods of preparing prescriptions. Some 2,500 bottles of a perfume named "Cornhusker Lilac" were distributed as souvenirs, and many other toilet articles, all made by the department, were shown. Classifications of drugs of different sorts, from home remedies of the common type to the most exotic of herbs were also part of the display.

Expose Poison Prescriptions.
Educational value of this display was embodied in an expose of some prescriptions which might be taken for harmless drugs, but which were actually poisonous concoctions. In an illustrated lecture by John A. Strahle, films showing organic structure of vegetable compounds were presented to make clear the importance of securing expert service when prescriptions are to be filled.

All dispensaries and laboratories of the College of Pharmacy were opened for inspection, and information concerning every conceivable type of drug was laid out to enlighten the visitor.

One hundred and twenty-five pharmacy students were employed as guides and care-takers in the building. The demonstrations were also handled by the students.

Festivity is colorful.
Vari-colored decorations brightened the interior of the building, and colored lights illuminated the approach to the scene of the festivity, the atmosphere of which was aided by music from an orchestra composed of pharmacy students and which played throughout the show. Pyrotechnic displays added greatly to the entertainment, also.

TO MAKE MIXER BIGGEST OF YEAR
Committee Ads Entertaining Features to Spring Party Programs.

Plans are being made to make the spring varsity mixer, the last all-university mixer of the year, to be held in the Armory, Saturday, April 19, the biggest one of the year, and several entertaining features have been added to the program.

A special dancing act will be given during the intermission and the University quartet will give a short five-minute program. The spring motive will be carried out in the decorations, and a special "Spring punch" will be served.

The Kandy Kids will furnish the music, and several feature dances including a tag dance, and a "Spring-time Waltz" will be played. The regular admission of forty cents will be charged.

Several sororities have signified their intention of attending the mixer in a body, so there will be plenty of opportunity for the young man who dances to find a dancing partner.

Discuss Plans for Engineers Week

Plans for Engineers Weeks were discussed at the meeting of the Nebraska Engineers society yesterday morning. Reports from committee chairmen were given disclosing all the plans for the coming week.

Luis, Notable Tropical Visitor is Summoned to Eternal Rest

All the wide corridors of Bessey hall are hushed, and students tiptoe silently to their classes. Far from home and friends, farm from native forests, in a colder climate, and among a harder people, Luis, five-foot boa constrictor, lies cold and stiff in his cage.

A heavy hush pervades the atmosphere and Bessey hall is in mourning. Silently, Luis' friends and admirers file past his cage to pay their last respects. Sadness has descended on the University.

Inquest this Morning.
An inquest will be held this morning in the office of Dr. R. W. Wolcott, chairman of the department of zoology, and best friend of Luis in his last days.

The body was found in the cage early yesterday morning. It is not yet known definitely what caused his sudden death. Since his milk bath two weeks ago, he had been feeling decidedly better, and his friends were

PUBLISH WRITINGS OF UNDERCLASSMEN

English Department Issues Freshman Scrapbook As Literary Magazine.

The Freshman Scrapbook, a magazine containing literary material written by freshmen in the literary department of the University of Nebraska and published under the direction of the heads of the English department, has been received from the printer and placed on sale.

Contained in the first number are the best writings which have been handed in by freshmen during the past two years. The narratives and descriptions are varied with bits of verse and poetry on various subjects and even by a page of nonsense verse. The material represents the best writing done in the courses.

The foreword of the book contains the following explanation of the purpose of the magazine:

"Members of the English Department of the University of Nebraska have long wished for some medium through which the writings of students might appear in printed form. The benefit to the student of seeing his work in print is obvious. Matter for this purpose has been several times prepared for issue in past semesters, but for unavoidable reasons publication has been delayed. With the development of the University printing plant this project has become practicable."

Contributors of prose matter in the first issue include Reva Rosseter, Clara Palafox, Thyra J. Pierce, Lamar Burling, Blanche Stevens, Threna J. Haugen, George L. Jackson, Lucille Grattan, Ruth Schad, William Card, E. M. Putney, Ida Whitten, Frieda Lemke, and Marie Macumber. Verse written by Joyce Adair, Jere Mickel, J. F. Stevens, Lucille Sprague, W. Graffney, Everett Nieberg, Celia Klotz, Lyndall Deming, Landis Nealy, Lyell Hunt and Paul W. Thomas is included also.

The magazine will appear periodically and will be placed on sale at the Regents' Book store.

LOVELAND TO HEAD EASTERN SERVICE

Director of Weather Bureau Will Leave June 1 for Boston.

George A. Loveland, director of the Nebraska section of the U. S. Weather Bureau, will leave June 1 for Boston, Mass., where he is to head the New England Weather Service. Mr. Loveland has been head of the Nebraska bureau for thirty-six years, coming to Nebraska in 1888 when the weather service was located at Crete.

Thomas A. Blair, now at the Honolulu bureau, is to take charge of the Nebraska service. Mr. Blair will probably take over Mr. Loveland's classes in meteorology.

Mr. Loveland will arrive in New England in time to attend his class reunion at the University of New Hampshire.

hoping that he would recover from his strange antipathy to food and live the life a boa constrictor should live.

Advance Two Theories.
Two theories have been advanced to account for his death. The first, and most obvious, is that he starved to death. Because his only food since coming to Lincoln over a month ago was that which he may have been able to absorb in his milk bath, this theory seems tenable, except for the fact that he was feeling so much better the last few days. This would have hardly been the case had lack of food caused his death.

The other theory is based on the fact that strange lumps were found on his sides after death. It is believed that some sort of reptilian parasite may have caused these.

Pending funeral arrangements, the body is being held at the office of the chairman of the department.

The Executive Dean has not yet decided whether a half holiday will be granted the day of the funeral.

Bizad Girls Will Hold Rummage Sale

A rummage sale will be held by the Girls Commercial club at 410 North 10th street all day Saturday. Helen Palmer has charge of the sale. Anyone having articles to donate is asked to bring them to the Armory, Friday. Final plans for this sale were made at the regular weekly business meeting of the Commercial club held Wednesday.

The next regular meeting will be next Wednesday. Amendments to the constitution will be voted upon, and officers for the coming year will be elected. The nominating committee consists of Grace Dobish, Janet McLellan, Minnie Schlichting, and Josephine Schramek. Following the business meeting there will be a banquet.

AGS ATTEND RALLY FOR FARMER'S FAIR

Are Given Chance to Understand Size and Value of Project.

A large crowd of enthusiastic Ags attended the Farmer's Fair rally held at Agricultural hall at 11 o'clock yesterday under the auspices of the Ag Club, to give the students an opportunity to understand what a big undertaking the Fair is and how much work is needed to make it a success.

Dean E. A. Burnett, Prof. H. P. Davis, and Prof. H. E. Bradford gave short talks relative to the Fair, and Allen Cook, Fair manager, reported the progress made so far on the carnival. Moving pictures of the 1922 and 1923 Fairs were shown to illustrate their size.

Reports from the committee on the Wild West show indicate that the attraction will be as large as ever. Several bad horses from the West have recently arrived for use in the show. None of them have been successfully ridden. "Fire Eater," the bronco that defied all attempts made to ride him last year, will again be ready to take on all comers.

The long-horn Texas steers for the show's steer-riding and lull-dogging contests will arrive soon enough to give them an opportunity to become acclimated before the big day. Fancy riding and tire roping will be added features on the program. Numerous sizes are offered to the best riders and all cowboys are invited to compete for them.

The Serenaders, Nebraskans, and Kandy Kids will furnish the music for the day. A canvas-canopied floor, 70 by 100 feet in size, will be used for one dance, and the floor in the Engineering building for the other. The dances will start at 3:00 and continue until 11:30 with a short intermission for dinner. Merry-makers will be able to enjoy a long dance for the sum of five cents.

Dr. H. B. Alexander and Dr. E. L. Hinman, both of the department of Philosophy, left last night for the annual meeting of the Western Branch of the American Philosophical Association which will be held at Chicago. Dr. Hinman will give an address before the meeting on "The Life of Emmanuel Kant."

WILL BE HOSTS TO TRACKSTERS

Cornhuskers to Receive Valley Athletes at Annual Meet.

CROWD EXPECTED TO BREAK RECORD

The University will be host to all Missouri Valley Conference athletes on May 24, when the sixteenth annual Missouri Valley track and field meet will be held in Lincoln.

The greatest assemblage of athletes ever gathered together for track and field competition in the Valley is expected to take part in this big classic. Competition in this year's meet will be much keener than was exhibited in the Valley championships last year at Ames.

Kansas and Missouri are particularly strong this year in all events and Nebraska will have strong contenders for honors in every event. Captain Maurice Gardner, fleet half-mile of the Cornhuskers will be seen in action again this year. Gardner copped first place in the 880-yard run at Ames last year in the Valley meet. He is certain to be a strong contender for a position on the United States Olympic team.

Missouri Out for Business.
Coach Bob Simpson of Missouri is grooming his athletes for the championship this year. He has already developed Keable, the phantom hurdler of the Tiger squad. With such stars as Weir of Nebraska, Blanchard of Washington, and Taylor of Grinnell competing for first position in the hurdles, this race should prove a thriller for everyone.

Up until this time there has been little if any competition between any of the schools on the cinders and it is hard to determine who will be the strongest contender for championship honors. Missouri copped first place in the valley indoor championships at Kansas City this spring and Coach Simpson expects his men to carry home the bunting in the outdoor championships.

Greatest Meet West of Missouri.
The 1924 Missouri Valley meet is certain to be the greatest staged west of the Missouri this year. The winners of honors will be allowed to compete for places on the Olympic team at Boston later in the spring. Every school in the valley will undoubtedly have some representatives on the Olympic team and this will probably be the last chance to see these men in action before the final tryouts for the Olympic squad.

One of the greatest crowds in the history of the University is expected to fill Memorial stadium on May 24 to witness these contests. Coach Henry F. Schulte of Nebraska is planning a number of feature events between outside competitors for the valley meet.

The University of Nebraska has an unusually hard schedule this year. The Kansas Relays are booked for next Saturday and the Drake classic will come the following Saturday. Dual meets with Kansas University at Lawrence and Kansas Aggies at Lincoln will round out the schedule before the Missouri Valley meet. Coach Schulte is predicting a big year for Nebraska on the track and in the field events. The Cornhuskers lost a large number of good men by graduation last spring but the squad has promising material this year.

Delta Sigma Pi Elects Officers

Bennett S. Martin was elected president of Delta Sigma Pi, newly organized professional fraternity of the College of Business Administration, at a meeting held Tuesday night. Other officers elected include: Vice-president, Philip M. Lewis; secretary, Arthur J. Latta; treasurer, Edward LeRossignol; news editor, Victor Brink, and historian, Giles C. Henkle. These officers will serve until this time next year.

Delta Sigma Pi is a national fraternity, Alpha Delta chapter being installed at Nebraska early last month. Its aim is to promote higher scholarship and economic research among its members.

Illinois—Amassing 1,458 points of a possible 1,500 the Scabbard and Blade annexed the annual national rifle competition.

Weather Forecast

Friday and Saturday—Fair with seasonable temperature.

DONATE GENEROUSLY TO STUDENT RELIEF

Nebraska Subscribes Nearly \$500 for Benefit of European Schools.

Approximately \$500 was raised by the two-day campaign for the benefit of European students, according to the co-chairmen of the drive, Helen Kuthrie and Robert Shields. The appeal for contributions was sponsored by the University Y. M. C. A. and Y. W. C. A. Although the amount given by students was not as large as was hoped for, it will mean much to the students it goes to help. It has been estimated that \$500 will feed 10,000 students for a day.

Student friendship drives have been conducted on the campus and throughout the institutions of the country for four years. About \$1,250,000 has been realized from these four campaigns. It is not only a national movement but also an international one, schools in thirty-four countries contributing.

The committee in charge of the drive was composed of the members of the Sherwood Eddy committees and the student volunteer delegation. The forty students who attended the student volunteer convention at Indianapolis during Christmas vacation pledged \$175 of the \$500 realized in the appeal.

ALUMNI SECRETARY BACK FROM VIRGINIA

Has Attended Association Conference At Southern University.

Harold F. Holtz, alumni secretary, returned yesterday from the eleventh annual conference of the Association of Alumni Secretaries and the Alumni Magazine Association held at Charlottesville, on the invitation of the University of Virginia. The two associations met in joint conference for the purpose of exchanging ideas on alumni work.

The associations were given an invitation to hold their next year's meetings at Nebraska and the invitation was referred to a committee which will pick the next convention city, at a later date. There were 137 delegates from colleges and universities present at the conference. Out of this number only eleven were from institutions west of Chicago and this fact was given as an argument for bringing the convention city further west.

Mr. Holtz stated that many suggestions of value could be gained from the conference by alumni secretaries of the western states because alumni associations in the East have been in existence for many years and have solved the problems that confront the newer associations. The association at Yale, for example, has been in existence for over 100 years.

An event of national interest took place at Charlottesville, while the delegates were there when Monticelli, the home of Thomas Jefferson, was dedicated as a national shrine. The historical home had been purchased by the Thomas Jefferson Memorial Association, some time before.

After the meetings were over, Mr. Holtz went to Washington where he met a number of Nebraska alumni. On the way back he visited the Chicago alumni association at a luncheon. He says that the Cornhuskers in Chicago are already planning a special train to take them to South Bend next year, to see the Notre Dame-Nebraska game. They expect to have their car attached to the special train from Nebraska when it goes through Chicago.

Art Club Will Entertain At Tea

The Art Club will entertain at a tea dansante Saturday afternoon from 3 to 5 in the art gallery. The tea will close the art exhibition of this week. A special program will be presented and refreshments will be served. Everyone is invited.

OFF FOR KANSAS RELAYS TONIGHT

Cinder Artists Will Leave for First Outdoor Meet At 10:35

LINE-UP RECEIVES SEVERAL CHANGES

Husker track men leave at 10:35 this evening over the Missouri Pacific for their first outdoor meet, the Kansas Relays. Coach "Indian" Schulte has not made out a complete list of the men making the trip owing to some necessary changes in the line-up but the following men have been chosen, and several more will be picked today.

The men chosen for the trip are: Locke, Hein, Beekle, Weir, Crites, Captain Gardner, Higgins, Lewis, Ross, Slemmons, Turner, Hatch, Hartman, Rhodes, Davis.

Two Men Out.
Whipperman, a strong asset to the mile and 2-mile relay teams, may not be able to go on account of an abscess caused from having a tooth pulled last week. "Red" Layton, the mainstay of the mile relay team, is unable to compete, because of a delinquency in one of his studies.

The four-mile relay team will not be taken to Kansas, but will probably make the trip to the Drake relays the week following. Husker runners will enter the 440-yard, 880-yard, mile, and 2-mile relays, besides entering some men in the special events.

The men who will run the 440-yard relay are Locke, Hein, Hatch and Rhodes. The full teams in the 880-yard and mile relays have not yet been picked. The 2-mile relay will no doubt be composed of Captain Gardner, Higgins, Lewis and Ross. The Huskers won this event last year with the fast time of 8 minutes, 8.5 seconds. Two of the members of last year's team, Gardner and Higgins, are the only men back.

Huskers Strong In Specials.

In the special events the Huskers have some strong men. Hatch, who broad jumps nearly 23 feet, and who won second last year, will attempt to better this mark. Turner will give Poor of Kansas a close run for his money in the high jump. Weir in the high and low hurdles is a new man of possibility. Locke, star sprinter has a wonderful chance in the special 100-yard dash. Irwin, of Kansas Aggies, who won this event last year, will make a strong effort to repeat.

"Ced" Hartman, winner of first place at the Drake relays last year in the 16-pound shotput, is the Husker representative in the weight events. Bassett may make the trip. Davis who won second place in the Missouri Valley Indoor meet in the pole vault has a record of 11 feet, 6 inches, this year. Davis is almost sure of a place in this event.

Coach "Fogg" Allen, of the Jayhawk institution, has insured his second annual relays against rain to prevent financial losses. Winners of firsts will receive gold watches while second and third place winners will receive silver and bronze medals.

MORE THAN HUNDRED KOSMET SEATS LEFT

Reservations May Be Made for Second Gallery and First Floor.

There are still a number of reserved seats left for "The Wishing Ring," 1924 Kosmet comedy, which will be presented at the Orpheum Theater, May 2. About 100 good seats in the second balcony are still available and a few are left on the first floor.

The ticket sale for the play has been very successful. Over 100 people were in line Tuesday noon when the window was opened. One man stood in line from 8:30 Tuesday morning. Only one performance will be given in Lincoln, the play showing at the Gayety in Omaha, Saturday, May 3.

The advance sale of tickets in Omaha has been successful and indications are that a capacity crowd will see the Kosmet production there. The sale has been under the direction of the College Club which is making arrangements for the Omaha presentation.
