PRICE 5 CENTS

ENGINEERS WEEK COMES TO CLOSE

E. E. Howard of Kansas City Is Principle Speaker at Annual Banquet.

FESTIVITIES CONCLUDE WITH DANCE; K. C. HALL

Engineering week closed last night with a dance at the K. C. hall. The annual engineering banquet was held at the Lincoln hotel Friday night with E. E. Howard of the Harrington, Howard, and Ash company of Kansas City as principal speaker.

The dance Saturday night was attended by about 125 couples. Music was furnished by Fowler's seven-piece orchestra. Dean and Mrs. O. J. Ferguson and professors of the engineering college were chaperons.

The banquet at the Lincoln hotel was attended by about 200 students. E. Grant Lantz presided and E. E. Howard of the Harrington, Howard, and Ash company of Kansas City was main speaker with Dean O. J. Ferguson and R. L. Cochran giving short addresses.

Mr. Howard based the greater part of his address on an ancient engineering text called "Vitreous Architecture", which contains engineering principles and problems that are very similar to present day principles. He read from this book interesting stories of the experiences of the world's first engineers. Mr. Howard also outlined to the student engineers several factors which enter into the realization of success.

"In order to succeed one must first have a thorough knowledge of his job. Another element of success is the ability to influence men. It makes no difference how good a scheme you may design, if you don't influence someone to carry it out for you it will not become a reality. Steinmetz was a man of such surpassing genius that in his later years he didn't have to push forth his ideas."

"Courtesy Too Neglected"

The prevailing factor in the cause of numerous failures today, Mr. Howard attributed to lack of courtesy more than to any other cause. "Many men," he said, "do not reach the places they should because they have a habit of putting a sting into everything they do."

"You must have the good will of the men around you in order to get along in engineering," said Grant Lantz. "You may go from school into a laboratory. But where will you go from there?"

"We have shown the public our equipment," he continued, "and demonstrated to them what is useful in the line of engineering. We have also shown the need of a new engineering building."

Dean O. J. Ferguson of the College of Engineering gave a brief address and R. L. Cochran spoke on the growth of engineering and engineering problems. "The highways are a branch of engineering work that has rapidly opened up in recent years due to the growth of the automobile traffic. Taking care of the motor traffic in this country is getting to be a tremendous problem. Within the past nineteen years, expenditures for motor vehicles have increased 100 times, while expenditures on the highways have increased but sixteen times in the same period."

Field Day Abandoned

The engineers field-day program which included a ball game, chain and level races, had to be abandoned because of the inclement weather and instead the engineers attended the Liberty theater after having lunch at the Grace church.

Prof. C. E. Mickey awarded blue ribbons to several model engineering projects through the awards committee consisting of: Ralph Tracy, H. C. Getty, and Robert Fulton, former graduates of the college at the annual Engineering night, Thursday, April 24.

A model of 10th street arch viaduct at Denver, Colo., constructed by J. C. Schmidt was awarded first prize. T. D. Ellermeier's model of a reinforced concrete building took second prize, and Otto J. Gurber's model of reinforced concrete in bridge construction received third prize. Those receiving honorable mention were: Milton Galley, Verne Gibson, and John Simmons. The engineering inspection trip report that received first prize was written by C. F. Rogers.

Weather Forecast

Sunday—Fair with rising temperature.

MANY ARE PRESENT AT GLEE CLUB CONCERTS

Humorous Scene from "Robin Hood" Is Feature of Both Programs

An appreciative audience received the program of the University Glee Club at the Temple Theatre Friday and Saturday nights. A scene from the musical comedy, "Robin Hood" featured the performance along with quartet and solo numbers. The sketch from "Robin Hood" was cleverly costumed by local talent and brought much laughter from the audience.

A specialty of the home concert was a group of two solos by Prof. Parvin Witte, who sang them with pleasing tone and expression.

After the program on Saturday, a dance was given by the club at the Pi Kappa Phi house to celebrate the completion of a successful season.

INTERFRAT COUNCIL TO HOLD LUNCHEON

Final Preparations for Banquet To Be Made at Monday Meeting

An interfraternity council luncheon will be held at the Chamber of Commerce Monday at 12 o'clock for alumni and student members of the council to make final preparations for the coming banquet and to organize in order to insure the success of the event.

The interfraternity banquet to be held May 7 will have Chancellor Samuel E. Avery and Prof. R. D. Scott as speakers. The principal speaker of the banquet has not been secured but he is certain to be a nationally known figure, Prof. R. D. Scott said yesterday.

COMMISSION SPONSORS FRESHMAN KID PARTY

Evelyn Shumway and Mable Utter Win Prizes for Best Costumes.

Little girls in gingham dresses, half-socks, and hair ribbons with little boys in knickers and Jackie Coogan caps took in the kid party given by the Freshman commission Saturday at Ellen Smith hall. Prizes for the best costumes were given to Evelyn Shumway for the best little boy and Mable Utter for the little girl.

London bridge, farmer in the dell, drop the handkerchief, and dancing entertained the "kids" all afternoon. A playlet, "Mrs. Stone and All Her Little Bebbles," was given; Louise Van Sickle whistled; Laura Whelpley and Florilla Nye sang "Little Sister Blues"; and Margaret Dunlap spoke a piece.

Lolly pops dressed up like little girls, pop corn, and ice cream cones were served. The party broke up with many a "Good-bye" and "Wish I could stay longer" at 5 o'clock.

Over 100 girls attended. Ellen Smith hall was decorated with red balloons. The committee in charge was Marie Bowden, chairman, Editha Reid, and Laura Whelpley. Olive (Continued on Page 3)

THIRD PAYMENTS ON STADIUM DUE

Rain Interferes with Collection of Installment on Pledges.

PLACE BOOTHS ON BOTH CAMPUSES FOR STUDENTS

Rain during the first few days of the campaign for third installment payments on stadium pledges has interfered with the work of collection. Pledges may be paid at the booth on Twelfth and R streets and at the finance office at the Agricultural campus. The stadium headquarters reports a brisk collection business during the past two days.

Third installments were due Thursday, April 24, and the booths on the two campuses have been open since then. No estimate of the number of students who paid their installments during the opening days has been made. The stadium headquarters expects that the percentage of payments made by the end of this week will be high.

One-fifth of the total amount pledged is due at this collection. Two more installments are yet to be paid on the pledges made a year and a half ago.

Headquarters of the stadium are now maintained in the northeast corner of the Temple building. Students are urged to make their payments at the booth at the headquarters at once. A part of the principle borrowed on the strength of student pledges must be paid off now to save interest charges against the stadium fund, so that more money can be expended in equipment for the structure, according to stadium headquarters.

The value of the stadium as an athletic field was demonstrated last fall, those in charge of the campaign say, and will again be demonstrated when the Missouri Valley track meet is held May 24. But the stadium is valuable for a community center meeting place also, according to the manager of collections. The use to which it will be put when the Minneapolis Symphony Orchestra and the University Chorus puts on a grand open-air concert there May 14, demonstrates its value for other than athletic purposes.

CHOOSE PATRONESSES FOR KOSMET COMEDY

Klub Completes Plans for Two Performances of "The Wishing Ring."

Patronesses were announced Saturday for "The Wishing Ring," 1924 Kosmet Klub production, to be given at the Orpheum, May 2. Those chosen are Mrs. Samuel Avery, Mrs. C. C. Engberg, Miss Amanda Heppner, Mrs. Perry W. Branch, Mrs. W. I. Aitken, Mrs. L. R. Doyle, Mrs. L. A. Sherman, Mrs. R. H. Talbot, Mrs. M. L. Poteet, Mrs. O. L. Ellerbrock, Mrs. Pace Woods, Mrs. J. C. Chapin.

There are a few tickets left for the Lincoln performance. The College Club, an organization of former Nebraska students, will sponsor its presentation at the Gayety in Omaha, May 3. The Club, aided by students in the Medical College and alumni, expects to give the cast a royal reception.

A party will be given in their honor by Pi Rho Sigma, medical fraternity of the University, at their chapter house in Omaha immediately after the show. (Continued on Page 3)

Farmers Fair Announces New Features

The farmers fair board promises a number of novel forms of amusement for this year. The sixth annual frolic will open with a parade on Saturday morning and will continue until in the late evening.

GIVE ZOOLOGY SOCIETY CHAPTER OF PHI SIGMA

Banquet Follows Installation By Officer of National Fraternity

The Nebraska Zoological society was installed Saturday night as Xi Chapter of Phi Sigma, the national honorary biological fraternity. The installation was conducted by the national secretary, Prof. C. F. Reed of the University of Kansas, immediately following a banquet at the Lincoln hotel.

Phi Sigma was founded March 16, 1915, at Ohio State University, and now has thirteen chapters. The aims as set forth in its constitution are "to advance the biological sciences and their allied interests, and to create and foster a fraternal spirit among its members." The Biologist, the official journal of the fraternity, is published monthly.

The Nebraska Zoological Society was organized at the University of Nebraska in 1919 to unite those students of special distinction in the field of zoology. Within the last year a few students of botany have been admitted.

Following the banquet and installation, toasts were given by Prof. Donald C. Whelan, on behalf of the resident alumni; Prof. Robert H. Wolcott of the zoological department; Prof. Raymond Pool of the botany department; Prof. C. F. Reed, of Kansas, on behalf of the central governing body; and Miss Elizabeth Schoepel on behalf of Xi Chapter. John A. Cameron presided as toastmaster.

Officers of the new chapter are to be elected on May 15. Following are the charter members of Phi Sigma, Xi chapter:

Prof. Robert H. Wolcott, Prof. Raymond F. Pool, Prof. David D. Whitney, Prof. Franklin D. Barker, Prof. Homer B. Latimer, Lawrence F. Lindgren.

Rita Atkinson, Elizabeth Schoepel, Katherine Wolfe, Adelheit Dettman, Hariow C. A. Walker, John A. Cameron, C. T. Feelhaber, Roland Loder, Raymond Swallow, Julia Joyce Harper, William Bennett, John Kleven, Dagmar Peterson, Eloise Whitmer, Foster Matchett, Orene Nelson, A. R. Everett, Howard Turner, James McNab, Bernice Brenke, Louise Lineman, Julia Stephens, Weston Benjamin, William Hay, Milton Landwer, Dorothy Duff, Ethelwyn Gulick, Milan Kopac, Wallace Buck, Lois Pedersen.

Berge New President of Delta Sigma Rho

Wendell Berge, 25, was elected president and Hugh B. Cox, '26, secretary of Delta Sigma Rho, national honorary society for intercollegiate debaters, at a meeting held Friday noon at the Grand hotel. It was decided not to send a delegate to the national convention of the organization at Ann Arbor, Michigan, the first week in May. The Nebraska chapter will vote by proxy at the meeting.

KANSAS—A wooden larynx of a size as would be found in a man forty-five feet tall is a part of the special equipment used by the students of musical acoustics at the Kansas State Agricultural College.

The Breezemakers quartet will be headliners at the Snorpheum show, which will give both afternoon and evening performances. This quartet has been gaining a reputation in the community for its singing, and appeared at several Ag College convocation and rallies.

The quartet will undoubtedly appear in a radio concert sometime during the coming week and broadcast a few of the selections they will present at the Snorpheum show.

Movies of past farmers fair parades and activities have been shown to audiences of Ag students at various convocations recently. The main purpose has been to acquaint the freshmen with the magnitude of the fair.

The Home Economics designing class has been making quaint posters for the fair during the past week. Many of these posters will be seen in downtown windows, along with window displays which will be shown in several of the large stores. Most of these posters represent a certain act or stunt which will be given the day of the fair.

Jal Olsens minstrels on the Midway will feature a "prevaricating minstrel boy who can stretch the truth farther than Baron Munchausen could throw a brass cannon."

Sambo Johnson, of the "Foot and Mouth" artists is also a member of the minstrel company.

RAIN INTERFERES WITH BASEBALL TOURNAMENT

First Round of Interfraternity Games To Be Finished By Tuesday Night

Rain Friday and Saturday held up the interfraternity baseball tournament. Twelve first-round games, still to be played, will be run off by Tuesday night. Five games were played Thursday.

In the games Thursday, Sigma Phi Epsilon, Alpha Theta Chi, Delta Chi, Phi Alpha Delta and Sigma Alpha Epsilon advanced to the second round. Phi Alpha Delta, 1923 champions, and Sigma Phi Epsilon showed up well, winning their games by large scores.

Games are being played at the Rock Island park, College of Agriculture, State Hospital, Lincoln high school and Municipal park diamonds. Games of the first three rounds are seven innings but semi-final and final contests will go nine innings.

PHI BETA KAPPA HOLDS INITIATION EXERCISES

Forty-One Seniors Made Members of Honorary Scholastic Fraternity.

Over 100 attended the Phi Beta Kappa initiation Friday at Ellen Smith hall. Forty-one new members were initiated.

Prof. Kenneth Forward was toastmaster. Harlan Coy, speaker for the men had as his subject, "Hidden Springs". Mr. Coy touched upon Nebraska's pre-eminence as compared to other schools. Emily Ross, speaker for the newly initiated women, spoke upon "The Key". Her subject matter was related closely to an ancient poem, "This is the Key of the Kingdom," which promises a great reward after the labor.

Miss Louise Pound talked about "The Infernal Feminine", and very humorously discussed newspaper quotations showing the wit, or lack of wit, in modern publications.

HUSKERS MAKE GOOD SHOWING

440 Relay Team Composed of Hatch, Bloodgood, Hein and Locke Cops First

CHARLES PADDOCK SETS NEW WORLDS RECORD

(Special to the Daily Nebraskan.)

Des Moines, Ia., April 26.—Husker athletes, facing a field of the best track and field men in the middle west, emerged well near the top of the lists in the fifteenth annual Drake relays with one first place, four second places, two third places, one fourth place, and two fifth places tucked away under Nebraska banners. A new worlds record of 12 seconds flat was set up for the 125-yard dash by Charles Paddock, California sprint wonder, who clipped four-fifths of a second from the old record of 12:4 established in 1889 by Scherri of Yale.

Friday was the banner day for the Husker track men who won the only two university events completed that day. The quarter-mile relay team composed of Hatch, Bloodgood, Hein, and Locke, running in the order named, won first place for Nebraska for the third consecutive year in this event, doing the 440 this time in 43 and 2-5 seconds, one-fifth of a second faster than the time made by the Notre Dame team which ran in another section.

Red Layton, Nebraska sprinter and hurdler, running unattached in the meet on account of scholastic difficulties, won first place in the 440-meter low hurdles, the other university meet decided Friday. His time was 59 and 5-10 seconds. Ed Weir of Nebraska was second in this event; and Patterson, Drake negro, who had been touted to win, was third as a result of his failure to pick himself up after stumbling over the last hurdle.

Ced Hartman, Nebraska shot putter, who led the field in the preliminaries Friday with a heave of 43 feet one-half inch, establishing a new Drake record, came out second in the finals. Purma of Kansas State Teachers college was first in the finals with 43 feet 8 inches. Hartman made 43 feet and 3 1-2 inches.

The other second won under Nebraska colors was in the half-mile relays which the Husker quartet composed of Hatch, Whipperman, Hein and Locke ran in 1 minute 28 and 5-10 seconds. Illinois was first with 1:27.9.

Charles Paddock, world champion sprinter, did not compete in the regular 100-yard races and ran only in a special 125-yard dash in which he established a new worlds record of 12 seconds flat, and a special 100-yard race which he finished in 9:9. (Continued on Page 3.)

WORKING STUDENTS TO HOLD ANNUAL BANQUET

Employers and Employees to Be Brought Together by University Y. M. C. A.

The working-student banquet will be held at the Grand hotel at 6 o'clock on Thursday evening, May 1. This banquet is an annual affair held under the auspices of the employment secretary of the Y. M. C. A.

The toast list includes Welch Pogue, toastmaster; J. W. Searson, of the Nebraska School Supply; and Lew Skinner, of the Agricultural Extension Department. The banquet was such a success last year that the business men of Lincoln asked that it be made an annual affair.

The main object and purpose of the meeting is to bring about a better feeling between the employer and the working student. The banquet will also bring back successful business men who worked their way through school. It is estimated that about forty to fifty per cent of the students in school are working their way and a good turnout is expected.

The committee in charge of the banquet consists of Bennet S. Martin, employment secretary of the Y. M. C. A., Audley Sullivan, Thomas V. Garrett, and Wm. G. Aldstadt. Tickets may be secured from either Bennet Martin in the Temple building, or from Thomas Garrett at the Registrar's office. They are fifty cents each.
