ACTION NECESSARY.

tion made for the widening of R selves After a Victory." street and the extension of the ornamental lighting system about the can be persuaded that the work is possibly could to take advantage of this opportunity to get together. advisable. While an intensive campaign is to made for a one-fifth mill levy, this help can be secured in the future should not obscure through its magnitude the possible smaller improvements that may be made immediately. It would not be out of place for the University to point out these needs to the city offi- Lincoln. cials.

RESTRICTION HELPFUL.

The new immigration law of the United States has been so often and so utterly condemned by citizens of nearly every nation in the world that Americans are inclined to be suspicia famous newspaper.

there."

Many Americans of Jewish faith have no sympathy with the Zionist movement so far as immigration from this country is concerned, but most of them recognize the advantage of a Jewish homeland in Palestine for those who wish to immigrate be held, Thursday at 4 o'clock in the from European nations.

If the American immigration laws turn some of the more desirable Jewish immigrants to the Holy Land the work of world Zionist organization in rehabilitating Palestine will be materially aided.

Perhaps the law will show additional benefits for other nations as well as the United States as it is given a thorough trial.

A SKY-SCRAPER COLLEGE.

A new idea in higher education is the proposed sky-scraper college that is planned by the University of Pittsburgh. The proposed structure is to be fifty-two stories high, will be 360 by 260 feet at the base, and will house 12,000 students and all their activities.

The sky-scraper idea, opposed to the usual method of spreading three or four-story buildings about the campus, is the result of three years of work by several engineers, it was announced recently.

There are numerous advantages to be derived from housing a university in such structures, but students and faculty will be alarmed at this appearance of "efficiency vs. beauty" at a leading university.

The chief reason for this change at Pittsburgh is the high cost of land. So, while we deplore this modernity, we are not likely to encounter it in thewest for many years to come.

ENDURANCE LOW.

Average American athletes, although better coached than Europeans, are not as fit, in the opinion of Walter M. Christie, University of California track coach, says the Daily California track coach, says the Daily Californian. Christie was head field coach of the United States 1924 track team in the Olympics. Coach Christie was quoted:

"International races held at the Olympic track meet which required physical endurance were won by the Europeans. Foreigners develop a strong physique because they live a plain simple life. They haven't 'jazzmania' like the Americans.

have no automobiles, little tobacco, and few of the luxuries of life. The do not dodge hard work."

Almost the same reasons were given recently by Coach Knute Rockne of Notre Dame for his consistent development of winning football teams. The men at Notre Dame go to bed early, Rockne said, and that accounts for their supremacy on the gridiron.

It is more likely that these men are right. The average American college student has too many activities. He doesn't study during the hours of day, when he should; he reads his assignments after 9 o'clock in the evening, if he reads them at

Life may be more interesting in the American college because of Teams, report to Gallery Range, 304 these numerous activities, but the in- Nebraska Hall, by Tuesday, Novemphysical endurance.

Midwick Stripes A new Society Brand idea in overcoat fabrics

There have been plaids and plain shades in overcoats, but never stripes. It sounds extreme, but it isn't; merely a very new —and very good—idea. The effects are beautiful blends of light tan against dark tan, blue against gray. We predict a great demand and we're ready for it.

A rich variety of Society Brand Clothes \$40 to \$65
