WORKERS OF THE TWILIGHT.
If all the world's a stage and we
are the players, strutting up and
down the colored scene, mouthing
speeches with silly seriousness and
bombast, it would pay well to turn
away from the spotlight where all
are pushing and shouting for recognition
and look to the dark circle of the
backstage where actors obscure in
twilight are working out their destin-
ies.
Minnesota has them: these people
of the backstage, these workers in the
twilight. In the succession of clim-
axes that work out thrilling com-
edy of life, they let others, possessed
of driving natures and intruding per-
sonalities, take the place in the sur,
and are relegated themselves to the
dim zone of the unnoticed, and their
work so quietly done is unheeded. In
moments of tenseness when the chief
actors feel the glory of their major
roles they turn puffed up by egotism
to those in obscurity and consider
them kindred in dust.
But what colossal stupidity to over-
look the great works that the spot-
light misses. To forget the heroic
struggles with poverty that take
place all around us. To pass by the
tenacious fights with physical short-
comings and defects in native equip-
ment. To be unimpressed by strong
character and devotional to family
and friends.
Though noisy actors overwhelm
the chorus of good works, we can't
help knowing the worth of these
deeds done quietly. If we have right
values for things, we will give them
tangible appreciation of their worth!
The lifts, the assistance that one
fighter can lend another who is tack-
ling a harder fight.—Minnesota
Daily.

UNIVERSITY OF CHICAGO—
The University of Chicago is consid-
ering the establishment of a school of
Politics which, besides teaching poli-
tical science and political theories,
will train political leaders through a
study of the forces in practical poli-
tics of political psychology, the art of
politics and of leadership—training
the citizen to a better understanding
of the actual working of political
leaders, which involves a study of
methods. The object is to recognize

some of the extra-legal growths in
our political system, how they flour-
ish and how they work—such, for in-
stance, as our political "bosses."

Good news for all
lovers of graphic pie
Graphic pie enough to satisfy the hunger
of a life-time; no end of graphic mountains
to scale and toboggan down. That's what
the man who loves to analyze graphs and
statistical symbols can look forward to
when he comes with the electrical industry.
Economic study is one of many branches
in this broad field. If you have thought
of electricity as limited to engineers, this
other side of the picture will interest you.
The commercial organization with its
problems of distributing, selling, adver-
tising; the manufacturing end with its
opportunity for trained technical men; the
legal and accounting branches—all this
and more totals electrical industry.
It may pay you to keep this in mind
against graduation.

Over-Size Duofold
Holds That Extra Ink
Which Is Just Like Money in the
Bank When You Need It
And Its Man-Size Grip Keeps Fingers
Gently Extended so You Can't Cramp Your Style
MANY a time the Duofold's Over-size
ink capacity will tide you over those
extra pages of writing that you can't foresee
when you go to class, or that come as an
afterthought in your correspondence.
An executive of the Public Securities
Corporation, Los Angeles, writes us:
"I signed my name to 1067 checks with one
filling of my Duofold in just 1 hr. 30 min."
Yes, not only distance writing but speed
as well—the speed and character that win
with the world.
The size of this strapping big, black-tipped
lacier-red bosomy provides you not only
with ink to spare, but also with a man-size
grip that can't cramp your style.
Its symmetry and balance inspires and
steadies the hand—its jewel-smooth point is
guaranteed, if not mistreated, for 25 years'
WEAR.
