

TRACKSTERS TO START WORKING

Indoor Cinders Are in Shape for Workouts; to Begin After Vacation.

SCHULTE HAS HARD TASK BEFORE HIM

Upon the opening of school following Christmas vacation, the Husker track men will start training in earnest for the indoor season. This year the Husker team will be in a position to train in spite of the severe cold. The indoor track will be in good shape by the first of the year, and the room under the east stand is heated. The Husker prospects as they look from the distance are only fair, and Coach H. F. Schulte has a hard task in filling the gaps left by graduation last spring.

The Huskers will be weak in the field events this year, and in the half-mile and two-mile running events. "Sed" Hartman, winner of the shot-put at the Drake and Kansas relays on several occasions, will be missed when the scores of the meets begin to come in. He was also a consistent winner in the discus and javelin events.

Need Jumpers.
Howard Turner's absence in the high jump means a hard place to fill, while the broad-jumpers will have trouble making leaps equal to the record set by Hatch. Hatch was also a sprint man of ability.

In the 880-yard run, there are no letter-men returning who might be able to fill the place of Gardner, former captain, or of Higgins, also a letter-man in this event. It is probable however, that Lewis, harrier captain, will be run in this event instead of in the mile.

Two-milers are also scarce. Slemmons of the medical college has completed his three years of competition, and no man of quality has yet appeared to fill his shoes.

Strong in Sprints.
In the sprints, the Huskers are strong as usual. Captain Crites can run any event from the 440-yard dash on down the list, with winning form. Besides that, he is capable of running both of the hurdle races. Curtis won the 440-yard dash at the Missouri Valley indoor meet last February.

Locke, winner of the Missouri Valley sprint championship, will be back with perhaps more speed than ever.

Heln, the Husker midget sprinter, has been working in the sprint events all fall, and will show some class when the 1925 season begins.

In the hurdle events, the Husker prospects are fair. Ed Weir, football captain, is a hurdler of the championship type. Though a big man, he has lots of speed and the usual "Schulte" hurdle form.

Numerical Men Compete.
Beerkle is also a letter winner in the hurdle events who will be back this year. Besides, there is Daily, Mandary, and Reese, last season numerical winners who will give anyone a good race.

"Red" Layton, the Husker Olympic star, will be missed in the short races this year. "Red" ran the sprints and hurdles with equal skill. His biggest races for Nebraska were in the quarter-mile and the mile relay. There should be some good material coming up from the numerical winners to take the place of Whipperman and Layton, on the relay teams this year.

In the mile run are Ross, and Lewis, cross-country men and track letter-men, who won consistently last season. Besides there are some new cross-country men of ability. Lawson Hays, and McCartney, are all prospective milers. In the two-mile, Zimmermann and Cohen will be out to win. Johnson and Searchette are harriers of ability who will try the two-mile run in the spring.

Gleason Is Back.
Gleason, who broke the Varsity record in the pole-vault last spring, will be among the best in the Valley this season. Davis, also a letter-man in this event, will be back.

Rhodes has a large field of activities in track and the pole-vault is one of them. "Choppy" is also a high-jumper, and broad jumper of ability.

In the weight events, there will be material from the football players to select from. Krimmelmeyer has been working in the weight events this fall, while Pospisil can throw the discus over 130 feet consistently. Molzen is another prospect in this branch of the sport. Meyers is a man of ability in the weights.

Coach "Indian" Schulte has an enviable track record at Nebraska. During six years of coaching at the Husker school, he has won the Missouri Valley outdoor championship for the past four years, and has placed second with his team in the

THE ACTIVITY HOUND.

We are told by some that unless one engages in some activity on the campus other than the pursuit of learning, one loses at least half of the joy of attending college. And to prove that time spent managing the glee club or being chairman of the refreshment committee of the junior prom is not wasted, statistics are forthcoming which show that Peter McDuffus, who was graduated in 1913 and who held those positions, is better off, financially, than Don Smith of the same class who did nothing but go to school.

The fallacy of the proof is that Peter McDuffus owes his success not to the training he received managing the glee club, but to his own ability, which made him manager of the club and made him succeed outside also. The second condition does not depend upon the first, worthies.

Now it so happens that one goes in for activities for one of two or three reasons. One is a poser, perhaps, and would be in the public eye. Well, one attaches one's self to the staff of the Booster's Club, or joins

indoor meets since they were first started.

In his policy of "Athletics for Everyone" Schulte has developed many men of good ability in every event, and some stars along with his all-around good teams. As usual he is pessimistic as to the 1925 track prospects.

the Lowell Lit. Or one is forced to go out for some job by one's fraternity. The prestige of the old chapter must be kept up, you know. Or one really believes the hocus that being in activities in college helps prepare one for the stern battle of life.

One or the other of these engaging ideals is the whip that keeps the activity man with nose to the grindstone long after the first glow of being in activities wears off, and in his heart he is sick of the business which robs him of time to get the best out of his carefree college days.—Ohio State Lantern.

Kauffman Revisits Nebraska University

Vincent E. Kauffman, Mechanical Engineering, '19, called at the office of Dean O. J. Ferguson of the College of Engineering Thursday. He is now connected with the Baker Ice Machine Company of Fort Worth, Texas.

Coworkers of Mr. Kauffman from Nebraska are McKinley T. Clark,

THE finest materials, expert designing and careful workmanship make every Stetson a masterpiece.

Christmas Stockings

—The Christmas stocking—the world wide symbol of Christmas Gift Giving.

—Christmas Stockings — the gift that will be welcomed by every feminine heart.

—Such a gift may be as exquisitely dainty or as practical as the taste of one who gives or of the one who receives may dictate.

—Gift Hosiery of all hosiery must be dependable, which is sufficient incentive for choosing from Rudge & Guenzel's wide variety of dependable stocks. Never before have they shown such a large variety of beautiful silk Hosiery as is now on display. The wide variety, the beautiful qualities, the diversified colorings will be of special interest to those who wish to give hosiery. A few of their interesting items are:

Pointex Heel Silk Stockings
—Sheer chiffon with silk tops and feet. The knitting is a work of art, pair \$5

McCallum Chiffon Hosiery
—Gun Metal with a black silk heel splicing. This gives a striking effect to the hose and is very smart in appearance, pair \$3.95

Silk Hosiery
—Sheer as a spider's web describes this Hose. These can be had in black or gun metal with very fine Paris Clocking, pair \$3.50

"Onyx" Sheer Chiffon
—Lace Clocked and Lace Inserts for afternoon and evening in these attractive stockings at pair \$2.95 to \$8.50

—All Hosiery will be attractively boxed without extra charge.

To our Host of University Friends:

A Merry Christmas and the Happiest New Year you've ever known!

FARQUHAR'S

Mechanical Engineering, '17, and former Professor J. E. Rasmussen.

Agree on Removal Of Kickoff Point

ANN ARBOR, Mich., Dec. 18.—Removal of the kickoff point from midfield to the forty-yard line has been agreed upon by members of the

football coaches' association, Fielding H. Yost, Michigan athletic director and chairman of the committee said here today.

The committee is to report in New York December 29. At the meeting of the coaches' association Yost said he was opposed to any limitation of the number of forward passes a team can make during a game.

A new ruling removing the privilege of running with a recovered fumble and instead giving the ball to the team on the spot where it was recovered, was suggested by Yost.

WANT ADS

LOST—A Parker fountain pen Monday, December 15, in S. S. 102, S. S. corridor, on R St. between 12th and 13th, or on 13th between Q and R. Reward. Call B3477.

LOST—Three small padlock keys on a small ring. Return to Nebraskan Office and receive reward.

Merry Christmas

Greet Him With Gifts From the

Christmas Store

THE SAFE THING to do is to buy a Man's Gift from a Man's Store. It's very logical, isn't it, that a Store which caters so successfully to his preferences the other 364 days of each year should be the most practical place to select Christmas Gifts? We've not only planned extensively, but have borne in mind a range of prices that will lend to your each individual requirement. Need we suggest shopping early while the stocks in this store are most comprehensive.

Good news for all lovers of graphic pie

Graphic pie enough to satisfy the hunger of a life-time; no end of graphic mountains to scale and toboggan down. That's what the man who loves to analyze graphs and statistical symbols can look forward to when he comes with the electrical industry.

Economic study is one of many branches in this broad field. If you have thought of electricity as limited to engineers, this other side of the picture will interest you.

The commercial organization with its problems of distributing, selling, advertising; the manufacturing end with its opportunity for trained technical men; the legal and accounting branches—all this and more totals electrical industry.

It may pay you to keep this in mind against graduation.
