

NINE TEAMS GET STARTED

All Valley Basketeers Have Had Chance to Show Wares.

NEBRASKA LEADS IN CONFERENCE STRUGGLE

Missouri Valley basketball got into full swing last week and every team on the circuit got into action in what appears to be one of the most hectic and harrowing races of Valley history.

At the end of the second week the records showed Nebraska to be sharing the top berth with Washington University of St. Louis, who played their first game Friday night and won over Oklahoma, 32 to 30.

Two surprises were pulled during the week's conflicts. Kansas fell before the Kansas Aggies at Lawrence by a score of 40 to 28, and Drake drew a close victory over Grinnell, winning by one point.

The Aggies gave Kansas the hardest beating in years. They romped over the Jayhawks throughout the game and during the last frame Coach C. W. Corsaut felt safe enough to send in his seconds. Reports from Kansas state that "it is doubtful if any team in the country could have beaten Kansas Aggies that night. It was simply their night and they won."

Whether the Aggies enjoyed an unusual spurt or not will be told when they meet Nebraska again, February 13, at Lincoln. Corsaut's cagers trounced Ames Friday night, 33 to 19, and bid fair now to be strong to the front.

The Cornhuskers won their first home game with little difficulty. The defense was working good and the offense piled up enough points to allow several of the second string men to go into the game. The Drake men scored only one field goal in each half, although they got enough free throws to swell their total to eight points.

Washington got into the race at St. Louis Friday night, defeating the invading Oklahoma Sooners who met defeat at the hands of Nebraska a week ago. Washington's strength can partially be judged by that.

The Sooners won from Missouri and finally broke into the win column. The second placers last year had been unable to get started until the Missouri game but finally seemed to have hit their stride.

This week's games pit Drake against Washington and Missouri and call for Grinnell at Ames.

Twenty Years Ago

The Cornhusker basketball team won the first game of the series on their northern trip when they defeated the Omaha Y. M. C. A. team by the score of 24 to 21.

The matter of dedicating the Senior Annual was brought up at a class meeting and it was decided to limit the members of the faculty consid-

Coach Tracksters

"CED" HARTMAN. "MUD" GARDNER.

"Ced" Hartman and "Mud" Gardner, track stars of last year's team, are coaching the squad in all branches of the cinder sport this year. Gardner was captain of the team last year and ran the middle distances. He placed second in the Missouri Valley outdoor meet 880-yard run last year and proved a valuable man on the team. Gardner is coaching the men on all running events. "Ced" Hartman was premier weight man on last year's team. In the shot put he placed second in the Missouri Valley outdoor meet, following Richardson of Missouri when the latter set a new Valley record. Hartman is coaching in the shot for Schulte.

ing all assistant professors and instructors. In the balloting to decide who took the book should be dedicated to a close race was found. The entire strength of the engineers was thrown for Professor Richards, but the final vote gave Professor Fossler the honor by but a few votes.

Manager Beers of the basketball team had been negotiating with eastern teams in regard to an eastern trip for his team. Two teams of the Big Nine were being considered and the Y. M. C. A. of Chicago, who had been runner up in the game for the national championship the year before. This trip would send Nebraska over a new route and against new teams.

A wave of social reform had hit the women of the University. Resolutions had been passed that no woman was to attend any class, University, or fraternity function on school evenings.

One student from the University of Nebraska was among those who were taking the Rhodes scholarship examinations. The first part of the examination was the translation of Latin to English for two hours, then translating English prose into Latin for two hours, and finally a general test in mathematics for two hours.

The public is invited to the freshman-sophomore track meet this afternoon. The first event is at 3:15 on the indoor track in the east wing of the stadium. The meet is the second of Coach Henry F. Schulte's track matinees. Another will be given Thursday when the men who are out for track put on an exhibition.

CLASSMEN TO MEET TODAY

First and Second-year Men Will Hold Track Meet On Indoor Track.

IS SECOND OF SERIES OF TRACK MATINEES

Representatives of the freshman and sophomore classes will meet today in the first freshman-sophomore track meet to be held on the new indoor track. Entries have already been received and many classmen have been working out daily. Entries will be received until 3 o'clock this afternoon.

The meet will be run off beginning at 3:15 p. m. The following is the schedule:

Fashionably smooth hair

This has caused the great change in the appearance of men's hair

YOU cannot go into a classroom, or a club, or a fraternity house, without noticing it—

Somehow, college men have found a way to make the hair, the most conspicuous part of the appearance, look just as they want it to look at all times.

It was not always so. Before Stacomb was introduced, they tried countless methods to make their hair lie smoothly and stay that way—from old-fashioned pomades, which only matted the hair and made it greasy, to plain water, which kept it in place an hour at the most and then left it drier and more brittle than ever. Small wonder that they greeted Stacomb with such instant enthusiasm! Here at last was something that would make the hair stay in place without harming it or making it sticky and unnatural-looking.

Today the great change which Stacomb has brought about is noticed everywhere. Men whose hair used to be out of place an hour after being brushed, men whose otherwise correct appearance used to be spoiled by hair that was hopelessly unkempt—today they keep their hair constantly in perfect order.

Use Stacomb tomorrow morning—and look your best all day. A delicate, invisible cream. Non-staining and non-greasy. In jars and tubes at all drug and department stores.

UNIVERSITY OF TEXAS—Two students have found the ideal job. They not only get paid for sleeping, but they sleep within fifty feet of the entire gold reserve fund of the State of Texas. The jobs require nothing but slumber. The men sleep in the state treasury in the capitol, between the hours of seven o'clock in the evening till seven in the morning. Study tables, bookshelves, and beds are arranged in the room guarding the iron doors to the vaults. The law required that someone must be on watch every hour of the day, over the state's treasury.

A Memory Tonic

It is surprising how the ever-readiness of Eversharp prompts the jotting down of passing thoughts and facts—and how quickly the habit of "writing it down" improves the ability for accurate remembrance.

Six new features make Eversharp a finer writing instrument than before—non-clogging rifled tip, quick reloading, complete interchangeability of parts, are the most important.

Put a new Eversharp in your pocket. And for complete preparedness, match it with a Wahl Pen.

Prices \$1 to \$45, at all dealers.

The New PERFECTED WAHL EVERSHARP

Is he a hard taskmaster or a loved leader?

IF you are a good soldier, you take orders from the major. But there is a great deal of difference whether you find the training an irksome routine or an enjoyable development.

When you follow the right major in your course, the work can become vitally interesting, and your college career will be more worthwhile.

"But what is my right line of work?" may be a puzzling question. All the thought you can give to finding the answer will be fully repaid. Analyze yourself and you will surely discover your natural aptitude.

And when you've found what line you feel you ought to follow, stick to it. Stand by your major and your major will stand by you.

The VAN CRAFT Shirt

Patented

Made in 3 superb fabrics—poplin, mercerized cotton, pongee, and every fine broadcloth.

\$3 to \$5

COLLEGE MEN like collar-attached shirts because they're so comfortable—even if they are slightly messy.

And from now on it's very likely that you'll insist on the Van Craft Shirt, because it has the Van Heusen Collar attached. That makes all the difference in the world, as you will see. All the solid comfort of your old collar-attached shirts, without their wrinkles and tendency to wilt and crumble.

Van Craft is smart and cool and crisp. Play in it, dance in it, lounge in it. It's all one to the Van Craft.

No bands or seams in the collar, no starch to irritate the neck. Cannot wilt. Fussless fit without a wrinkle—plus the Van Heusen—more comfortable than a soft collar, better looking than a stiff collar.
