

FINAL PLAY OF SEASON GIVEN

Last Production for This Year, "The Devil's Disciple," Is Success.

AUDIENCE THURSDAY NIGHT APPRECIATIVE

The final offering of the University Players for the present college year, "The Devil's Disciple," by Bernard Shaw, was presented to an appreciative audience Thursday evening at the Temple Theater.

The blemishes of hypocrisy and the fine nature of the man judged by the hypocrites are brought out in excellent manner, both by the play and by the players. Motivation in the plot is subtle, effective, and entirely lacking in obviousness. Delineation of character, mood, emotion and action is at no time affected or unreal.

Herbert Yenne, "Devil's Disciple," according to his own notion and admission, as Richard Dudgeon, the smuggling, poaching, black-sheep son, thought by his relatives to be entirely lacking in worth-while characteristics, gradually swings the sympathy of the audience to realization of the true fineness and firmness of his character. Surrounded by those he had thought were the best of the religious classes, the most strict Puritan in action, yet whom he knew to be of evil tendencies in spite of their protestations of religious ardor, he rebels against their kind of life. He is shunned by all.

Background Is Historical. He lives his life, which is incidentally presented in a correct historical background, until his chance to live the kind of life he has dreamed of comes. He can sacrifice for a cause that is just. He is taken to be hanged, but he goes in the place of the minister.

Soldiers of Major Swindon's army have been making examples of the finest men in the land, and he is to be made the example for his community by a cruel mockery of fate. He is saved by the return of the minister, who has come to realization of his own hypocrisy. The true character of the individuals comes to light, and the play ends in a settled way—except for clarity in the relations of Dick Dudgeon and Judith Anderson, the minister's wife, played by Dolores Bosse.

Major Swindon, played by Harold Sumption, and General Burgoyne, Darrell Starnes, carry the weight of the third act in a manner that effectively supports the leading parts. Essie and Christy, played by Pauline Gellatly and Ray Ramsey, furnish excellent opportunities for fine work that are taken advantage of in an understanding manner.

Announce Ticket Sale. Announcement was made that season tickets for the seven performances to be given next year will go on sale March 31. The same price will be charged as this year, \$4.00 for evening, and \$3.00 for Saturday matinee seats. They may be reserved at the office of the University Players in the Temple.

The cast follows: Mrs. Dudgeon—Marion Sargent. Essie—Pauline Gellatly. Christy—Ray Ramsey. Rev. Anderson—Hart Jenks. Judith Anderson—Dolores Bosse. (Continued on Page Three.)

KOSMET MEMBERS ENTERTAIN CAST

Actors, Actresses and Business Assistants Invited to Party Tonight.

The entire cast of "Tut Tut," annual musical production of the Kosmet Klub, business assistants, alumni, and members of the Kosmet Klub will be entertained tonight at the University Club.

The annual dinner for Klub members and alumni will begin at seven o'clock. An excellent four course dinner will be served and there will be dancing between the courses. Several novel ideas have been worked out for entertainment during the meal. It is imperative that all members of the Klub be there promptly at seven so that the program for the evening may be completely worked out.

An augmented orchestra will play for the regular dancing which will begin about nine, at which time the cast and business assistants will be entertained by the Kosmet Klub. According to Marion Woodard, '27, chairman, members of the Klub hope to entertain every person connected with this year's production. A color plan of black and gold will be followed in decorations on the tables and in the ball room. Captain and Mrs. Forbes, Professor and Mrs. Wilcox, and Major and Mrs. Erickson will chaperone the party.

Geology Professors Leave for Wichita

Dr. E. H. Barbour and Prof. E. F. Schramm of the department of geology left yesterday for Wichita, Kansas, to attend a meeting of the American Association of Petroleum Geologists, March 26-27-28. They will return Sunday.

Y. M. C. A. ELECTS OFFICERS TODAY

Balloting Will Start at 9 O'clock and Last Until 5 This Afternoon.

NAMES SUBMITTED BY NOMINATING COMMITTEE

Balloting for the University Young Men's Christian Association election of officers for the ensuing year will be held from 9 until 5 o'clock today, in the "Y" rooms of the temple.

All men who have been nominated for the offices are active in the work of the Association. They are also participants in other student activities and are well equipped to make this a banner year for the Y. M. C. A. With the exception of Eldred Larson, '28, Ashland; and Frank Mooney, '28, North Platte; the nominees have been cabinet members for the past year. The nominees for secretary held the offices of president and secretary, respectively, of the Freshman Council, a new organization interested in the Association's work.

The announcement of the nominating committee made known Wednesday afternoon, is as follows:

President, Douglass Orr, '27, Lincoln and Hugh B. Cox, '26, Lincoln. Vice-president, Judd W. Crocker, '27, Omaha, and V. Royce West, '27, Cozad.

Secretary, Eldred Larson, '28, Ashland, and Frank Mooney, '28, North Platte. Inter-collegiate representative, Robert Shields, '26, Wymore.

LECTURE GIVEN BY FRANKFORTER

Names of Men Selected for Phi Lambda Epsilon Also Announced in Meeting.

At the open meeting of Phi Lambda Epsilon, honorary chemistry fraternity, last evening in Chemistry Hall, Professor C. J. Frankforter lectured on "The Manufacture and Use of Explosives." The lecture was well attended by the public. The meeting was opened by R. W. Maxwell, president of the fraternity, who explained the purpose of the meeting which was to announce the names of the students elected to membership for this year.

The six men elected to membership are Ernest G. Almy, Donald J. Loder, George M. Bahrt, Elmer E. Fleck, Royce H. LeRoy, and Henry S. Stubbfield. The requirements for membership in the fraternity are high scholarship standings.

Professor Frankforter explained that the field of explosives was far too extensive to cover completely in an evening so he selected only the most interesting parts of the subject. He first gave a short resume of the history of gunpowder telling of the discovery by the Chinese in ancient times. Gunpowder was first used in warfare and it was not until recent times that its use in the fields of industry was discovered. Very little was done toward the advancement of explosives until 1860. The basic principles in the manufacture of gunpowder have changed greatly since this time but the materials remain the same.

"There are two classes of explosives," said Professor Frankforter, "low explosives acting slowly in comparison to high explosives such as nitroglycerin and T. N. T."

The uses of explosives are varied. Dynamite may be used in a great number of ways; the principle uses are in mining, quarrying and the clearing of land. The kind of explosive used and the method of placing the charge is determined to a great extent by the character of the work to be accomplished. In coal mining it is necessary to use an explosive that will break the coal up into fine pieces and that will not give off any amount of poisonous gases.

The lecture was illustrated by a number of experiments showing the explosive powers of different powders and by two reels of films. The films were donated by the Industrial Department of the Y. M. C. A. and by the Schilles Powder Company.

Violations of the hazing rules at the University of Minnesota are punishable by indefinite suspension or expulsion from school.

RALLY PLANNED FOR TRACK MEN

Big Send-off Will Be Given Cinder Artists When They Leave Tuesday Night.

STUDENTS TO FORM AT BURLINGTON STATION

A rally at 6 o'clock at the Burlington station will be held next Tuesday evening to send off the Husker track team on its western trip to Stanford University in California and Albuquerque, New Mexico. It will be sponsored by the Innocents, and is the first pep gathering to be held since the football rallies in the fall.

Captain Everett Crites of the team and Coach "Indian" Schulte have been asked to give short talks at the station before the train pulls out. There will be no parade to the station. The University Band will be present and play selections as at former rallies.

Twenty-two men will be taken on this trip, the first long one of the year. It is not known yet who they will be, but that will be decided at the final tryouts Saturday afternoon. "We don't know how long we will be gone," Coach Schulte said yesterday, "but we will probably be back the following week-end, after we have kept out two engagements."

Because of the weather yesterday, few men were working out. Those who were in suit stayed indoors most of the time.

CONDRA PRESENTS MOVING PICTURES

Views of Fruit-growing Industry and Parks of State Shown Legislators.

The fruit-growing industry in Nebraska and the picturesque parks of the state were shown in the moving picture reels and lantern slides which Dr. G. E. Condra, director of the conservation and survey division of the University of Nebraska presented to an audience of legislators and others in Representative Hall of the Capitol, Wednesday evening.

Legislators who assisted Dr. Condra in his explanations of the scenes included representatives E. K. Dutcher, Earl Towle, E. E. Auxier, J. A. Dick, J. W. Lundy, John Thomson, L. A. Aurand, Chas. Yochum, and Dr. A. S. Main. J. W. Ludy supervised the seating.

Representative A. M. Nelson, who presided, described Nebraska as a lonely prairie by way of introduction, in contrast to its present agricultural development.

The first reel showed the orchards of southeastern Nebraska, in blossom time, and in the processes of spraying, ripening, harvesting, grading and marketing of the fruit.

Water power projects in various parts of the state, particularly on the Big Blue river, were shown in the second reel. An additional reel gave views of Camp Strader, Horkey's Park, Camp Kiwanis, Lake Quinnebaugh, the Lincoln, Omaha, Seward, and Oakland campus and various other Nebraska beauty spots. By means of lantern slides Dr. Condra illustrated the need for parks in the state, and the importance of planting and preserving trees. The final reel set forth the picturesque details of Arbor Lodge State Park.

RADIO LECTURE GIVEN BY REED

Speaks on Association of Colleges and Secondary Schools over WFAV.

"The North Central Association of Colleges and Secondary Schools" was the subject of an address by Prof. A. A. Reed last evening over the University Broadcasting Station WFAV. Assistant Prof. M. H. Wesen delivered his weekly talk on business English.

Following was the musical program broadcast by students of the School of Fine Arts:

Rondino—Kreislner; Meditation from Thais—Massenet; Arioso—Bach; Kathryn Warner, violinist; Helen Root, accompanist. Sunset—Buck; Trees—Rasbach; Cuckoo Clock—Grant-Schaefer; Nina Wakelin, contralto; Medora Mallory, accompanist. Romance—La Forge; Dorothy Deines, pianist. Sextette from Lucia—Donizetti; Grace Modlin, cellist; Elga McFerrin, accompanist.

COUNTRYMAN IS OFF PRESS

Monthly Magazine of College of Agriculture Issued

The Cornhusker Countryman, published at the College of Agriculture, for March is off the press and ready for distribution. "Changing India," an article written by Parbhuhai L. Patel, a student from India, at the College, is a feature of the issue. "Pastures," by P. H. Stewart, of the Department of Agronomy, and "Farmer's Standards of Living" by J. O. Rankin are other articles of interest in the number.

The regular departments "Agro-Corncocks," "Klub and Shovels" and "Home Ec" also appear. The issue contains twenty-six pages.

ADDRESSES PUT INTO BULLETIN

School of Journalism Issues Special Publication Containing Recent Speeches.

The School of Journalism has just published as a special forty-page bulletin entitled "Journalism-Week Addresses by Nebraska Editors, 1925" the six addresses given especially for Journalism students the first two days of the first Journalism Week, February 17-21. "Although these addresses were reported, practically in full, in The Daily Nebraskan, official publication of the University," states Prof. M. M. Fogg, director of the School, in a prefatory note to the bulletin, "it is felt that their quality warrants their publication in a more permanent form and for a wider circulation among newspaper workers and Journalism students."

The bulletin has been sent to all the editors and publishers of Nebraska newspapers (which number about 425) and has been given wide distribution among universities and colleges and journalism publications.

The following addresses are contained in the bulletin: "A Profession of Power and Purpose" by Joseph G. Alden, editor of The York Republican in Nebraska, 1870-1925" by the "dean" of Nebraska editors, M. A. Brown of the Kearney Daily Hub, who celebrated his seventy-second birthday Journalism Week; "The 'Colym'"; Ole Buck, field manager of the Nebraska Press Association and writer of the "Buck-Shot" Column; "The County Newspaper Editorial Page," Frank O. Edgecombe, Nebraska Signal, Geneva, who in 1923 won the National Editorial Association's first prize for the best editorial article and in 1924 its first prize for the best editorial page; "A Ten-Letter Word Meaning Success," J. P. O'Furey, The Cedar County News, Hartington, winner of the National Editorial Association's third prize in 1924 for the best community service and of the Nebraska Press Association's front-page and field-manager's cups for 1924; and "Country Newspapering: A Woman's Opportunity for Service," by Mrs. Marie Weekes, editor of The Norfolk Press, president of the Nebraska Press Association, 1924-1925—its first woman president.

The address on "The Development of the Weekly Newspaper in Nebraska," which Senator E. R. Purcell of the Custer County Chief, Broken Bow, was prevented from making Journalism Week, will be given later to the School.

Copies of the bulletin may be had by applying to the Director of the School.

To the Minnesota university student who sells the greatest number of year books a trip to Los Angeles is being offered.

ALL-UNIVERSITY PARTY PLANNED

Last Entertainment of the Year Will Be Held Saturday Night in Armory.

The last All-University of the year will be held Saturday night at 8:15 in the Armory. During the past season the All-University Party committee has promoted a series of seven parties, all of which have proved very successful from both the standpoint of numbers attending and entertainment furnished. This party is to be the annual All University Spring party.

Light-colored streamers and other decorations typifying the season of Spring will prevail at this party. The last party given by the All-University Party committee was a Christmas party during which the holiday spirit prevailed. Special entertainment of a nature different from that of former parties will be furnished. The refreshments will also be of a varied nature. Music will be furnished by the Kandy Kids.

The committees responsible for the All-University Parties given during the past season are as follows:

General chairman, Lattimer Hubka. Refreshments: Helen Kilquist and Charles Warren. Publicity: Marie Wentworth and Harold Palmer.

Reception: Marcel Stenger and Duane Anderson.

Decoration: Mary Gillan and Oliver Sautter.

Entertainment: Alice Thuman and Robert Hoagland.

Checking: Willus Negus

THETA SIGMA PHI PLANS TEA TODAY

Women's Journalistic Society to Entertain in Ellen Smith Hall at 4 O'clock.

Lambda chapter of Theta Sigma Phi, women's journalistic sorority, will give a tea for all women who are registered in the School of Journalism at Ellen Smith Hall this afternoon from 4 to 5 o'clock. Piano and violin solos will be featured on the program. Green and violet, the sorority colors, will be used in the decorations.

The local chapter of the sorority was established at the University of Nebraska in 1915, and has been a means of recognizing the work of women who are seriously interested in journalism as a profession. The purpose of the organization is threefold:

1. Uniting in the bonds of fellowship college-trained women either engaging or purposing to engage in the profession of journalism.

2. Conferring honor upon women who distinguish themselves in journalism either as undergraduates or professionals.

3. Accomplishing definite achievements as an organization in the field of letters calculated to raise the standards of journalism.

The sorority maintains a Chicago bureau known as the Women's Register, which endeavors to provide employment for the members of Theta Sigma Phi. By means of a small fee this bureau, managed by an alumna of the fraternity, is maintained and each year succeeds in securing positions for many women in journalism. The alumnae of Lambda chapter have been active in journalistic work while in the University, and are now holding responsible positions in state or national publications.

Nebraska Graduate Is Given Position

Edward V. Hanson, '24, graduate of the department of geology, has secured a position with the Roxana Petroleum Corporation at Houston, Texas. He will serve as instrument man in a geological party working in the gulf coast country.

PLAN BIZAD DAY MAY 9

Preparations Started for Annual Celebration of College in Spring.

ZAVODNY CHAIRMAN OF EXECUTIVE COMMITTEE

Preparations have already started for the annual Bizad Day, which is to be held this year May 8. Clayton Goar, president of the Commercial Club, has appointed the following members of the executive committee: I. J. Zavodny, chairman; Charles E. Griffith, Jr., Harold Quener, Dr. A. Foresberg, J. W. Crocker, O. H. Keehn, and J. H. Oelrich. Bizad Day has been a yearly event for four years and last year the holiday was celebrated at the Ag College Campus by more than three hundred and fifty bizads. A parade up O street started the celebration, and a picnic was held when the line reached the Ag college.

Games and stunts were arranged for, and a football game between the Aggies and the Bizads was played. The Bizad fall party was held in the evening.

This year the event will be held in the spring instead of in the fall. No definite announcements have been made, but the celebration is expected to be more of a success than ever before.

Other committees are: Finance—Charles E. Griffith, Jr., chairman; C. O. Davis, Wallace Nelson, Aldrich Hanicke, Harold Zennecker, Doris Loeffel, Hope Hanson, LaVerne Curry, and Gwendolyn Templin. Entertainment—Harold Quener, chairman; Mervin Kern, Paul Cogizer, Wilbur K. Swanson, Alice Kauffman, Ella Thompson, and Margaret Thompson. Refreshments—D. A. Foresberg, chairman; Dick Brown, August Holmquist, Lloyd Wagener, Ethelyn Ellis, Ruth Perrin, and Mildred Armstrong.

WILL CONDUCT RESEARCH WORK

Seven Students to Be Sent Out to Secure Data for Bizad Bulletin.

Seven university men are being sent throughout Nebraska during spring vacation by the Research department of the College of Business Administration to secure data for the next Bizad bulletin. The men will secure material and statistics concerning the operating of shoe and grocery stores in the state.

Four sections of eastern Nebraska will be traversed. Charles Hoff and Lloyd Wagener will visit towns in the vicinity of South Sioux City and Norfolk. William Usher and Irvin Jetter will go to York, Kearney and Grand Island. Willard Edberg and W. D. Douglass will go to Falls City and Nebraska City and C. E. Griffith, Jr., will gather data in Fremont and Omaha. All of the men are juniors or seniors in school.

Y. W. C. A. CABINET MEETS SATURDAY

Discussion of Work for Coming Year Will Feature First Meeting of Group.

The Y. W. C. A. cabinet for 1925-26, which was announced in The Daily Nebraskan yesterday, will meet at Ellen Smith Hall Saturday from 12 to 3 o'clock. A discussion of the work and purpose of the cabinet for the coming year will be led by Elsie Gramlich, the newly-elected president. Final preparations for the installation which is to be held April 1 will be made. The luncheon will be in charge of Marguerite Forsell, the outgoing chairman of the social committee and the incoming chairman, Muriel Flynn.

Sunday morning at 8:30 the old and new cabinets will meet at Emmanuel Methodist church, 15 and U streets for an early communion service. The leader of the service will be announced later. The last meeting of the retiring cabinet will be held Sunday from 4 to 6 o'clock at the home of Miss Irma Appleby, 1500 E streets.

WRESTLE IN SEMI-FINALS

Fourteen Interfraternity Mat Matches Held Yesterday Afternoon.

FINAL BOUTS WILL BE STAGED THIS AFTERNOON

Fourteen semi-final matches in the first annual interfraternity wrestling tournament were completed yesterday afternoon in the Armory. The final matches will be held this afternoon between 4 and 6 o'clock.

Seven fraternities will be represented in the final bouts. Pi Kappa Alpha is leading the tourney with five men placed in the finals. Alpha Gamma Rho runs a close second with three men. Sigma Nu has two contestants, while Delta Chi, Alpha Theta, Kappa Sigma, and Sigma Alpha Epsilon are each represented by one man.

Among the high spots in the semi-finals yesterday was the heavyweight bout between Fisher, Sigma Nu, and Thomsen, Sigma Alpha Epsilon, in which the two wrestled two extra periods. Thomsen held the time advantage of one minute, seventeen seconds, in the first period; while Fisher obtained the time advantage of one minute, ten seconds in the second. Thomsen won the decision by flip of coin.

Preliminaries for decision of third place will also be held this afternoon between 4 and 6 o'clock in the Armory. These bouts will be held at the same time as the finals for decision of first and second place.

Every man who has been defeated by any of the men who are entering the finals is eligible to compete in these preliminaries.

Those eligible to compete for third place are as follows:

115-pound—Rollins, Neble, Warren.

125-pound—Pickard, Kelley, Dickey, Theodore.

135-pound—Randolph, Eckstrom, Schroyer, Winch.

145-pound—Kendall, Gairdner, Yearleay, Hirschman, Moyer, Chamberlain.

158-pound—Whitesell, Kohler, Robertson, Hinton, Lewis, Wells.

175-pound—Ross, Franklin, Dewitz, Toft, Mark.

Heavyweight—Durisch, Casey, Fisher, Mandary.

Results in the semi-finals were as follows:

115-pound. Webb, Alpha Gamma Rho, won from Rollins, Kappa Sigma, by fall in four minutes, ten seconds.

Treadwell, Pi Kappa Alpha, won from Warren, Sigma Nu, by time advantage of two minutes, eleven seconds.

125-pound. Gettman, Pi Kappa Alpha, won from Pickard, Delta Chi, by fall in twenty seconds, using a body chancery hold.

Ford, Sigma Nu, won from Dickey, Delta Sigma, by time advantage of one minute, three seconds.

(Continued on Page Two.)

WILL SHOW MOVIE IN CONVOCATION

"The Single Ridge" to Be Screened Before Engineers in Regular Meeting.

"The Single Ridge" is the title of the three-reel moving picture on the manufacture of insulated wires and cables which will be shown at the regular College of Engineering convocation at 10 o'clock today in Mechanical Engineering 206.

Prof. Clarke E. Mickey, chairman of the department of civil engineering, will deliver the accompanying lecture. The film is sent out by the Okonite Company of New York.

The gathering and treatment of rubber will be depicted in the film, the drawing and treatment of the copper wire, and the two methods of applying the compound. This is usually done by the "tubing" or "spewering" process. The Okonite method, on the other hand, is that of wrapping the compound around the copper conductor before vulcanizing.

Other features to be shown are the tensile strength test of insulation after vulcanizing, and the conductivity test of the completed product. The purpose and the results of the vulcanizing process are also set forth in the film. Various types and purposes of the outer covering are included in the illustrated exposition. The ordinary covering is of braided silk, cotton, or steel wire. The processes of wrapping with steel tape and sheathing with a lead cover under hydraulic pressure, and finally, armoring with steel wire, will be shown.
