

## ENGINEERS TO HAVE PARADE

Convicts, Monkeys and Ocean Liners Will Be Part of Exhibition to Go Up O Street at Noon Today.

### ALL DEPARTMENTS THERE

Many Interesting Floats Are Arranged for Annual Custom as Part of Engineers' Week.

Convicts, monkeys, and ocean liners will feature in the Engineers' Week parade which will glide up O street at 12 o'clock today.

A ship, forty-five feet long, with drafts of eight feet, has been designed and constructed by mechanical engineering students, after the model designed by a German inventor. It represents a sailing ship in which revolving cylinders take the place of sails. The air currents blowing against the large cylinders, or rotors, causes a vacuum on one side and a pressure on the other that propels the ship. In the future this method of navigation may come into general use on the ocean. Ed Wanek, '26, is chairman of the committee; other members are E. O. Morton, '26, and George Horacek, '26.

"The Oil Game" and "The Geological Family Tree" are the names applied to the two floats to be staged by the department of geology. "The Oil Game" shows caricatures of the promoter, the driller, the lessor, the lessee, the investor, and the geologist. "The Geological Family Tree" is a jumble of drawings in which fish, frogs, monkeys, and human beings all have their share in ridiculing the theory of evolution. A sign above the pictures proclaims "Tennessee or Bust!" which refers to the recent law passed in the state of Tennessee against the teaching of the principles of evolution. Frank Pospisil is chairman of the geology float. Those who did most toward the drawings are Richard Young and L. I. Tucker.

"Highwaymen" will be the sign above the civil engineers' float, in which two convicts, watched over by a guard, will be at work on a finished stone road represented on the truck. The vehicle will be draped in streamers and bunting. Walter Jensen, '26, and G. F. Sudman, '26, will take the part of the criminals sentenced to hard labor, while Murray Miller, '26, is to impersonate the guard. Leslie Peters, '26, is float chairman for the "C. E.'s." Others on the committee are Walter Johnson, '26, D. D. Lewis, '26, and Leonard Little, '26.

The electrical engineers' float is to present a "maiden of the tropics" among her native palm trees, whose guitar music will pass into a microphone. Charles Bryan, an electrical engineer, is in charge of the entire parade. Those instrumental in the staging of the electricals' float are Charles Harris, '26, and Frank Meis.

A reproduction of the "Cathedral of Learning" to be built at the University of Pittsburgh has been chosen as the architectural engineers' float. This building of gothic style is fifty-two stories in height, and represents the most modern ideas in collegiate architecture.

All classes of this institution of 10,000 students will be housed in this building, the cost of which is at least \$10,000,000. Leslie Shields, Earl Ege, and A. Leicester Hyde are in charge of the model.

Chemical engineering students' contribution to the parade will be a truck driven, they claim, by a new motor fuel made by atomic disintegration. Gases from a flame which can be seen occasionally are collected and passed through a chemical scrubbing machine, then given a violet ray treatment, condensed, passed through copper coils, and collected in a gas bottle called a carboy.

The agricultural engineers will not take part in the parade. Among the engineers' displays which fill a number of windows on O street is the electricals' demonstration of the transmission of power by wireless at Latsch Brothers'. Another display of the Westinghouse big transmission line insulators. The mechanical engineers' window display shows a machine in the stages of being built, in patterns, castings, and shop work. The geologists' window display in Perkins' and Huffman's furniture store, takes the form of a Teapot Dome model. It also includes oil derricks built to scale, minerals and rocks, oil fossils, and the model of a mine. A collection of perspective and orthographic drawings comprises the architectural engineers' drawings in Tucker and Shean's window.

A twenty page pamphlet has been published by the scholarship committee at Stanford University which explains the deficiencies, honors, and scholarship awards.

## Says Chinese Women Have More Freedom

As national physical director of the Young Women's Christian Association in China, Miss Vera Barger, who recently arrived in the United States on her first furlough, and who is visiting the University of Nebraska as a guest of the Y. W. C. A., changes affecting the physical freedom of Chinese girls.

"In ten days travel recently in China, a man told me that outside of mission schools, he did not see a single girl or woman with unbound feet," states Miss Barger. "This custom is dying out in port cities, but inland the custom of binding and distorting the feet of little girls is still deeply rooted." She cited an incident that brings out the fact that the binding of girls' feet is rapidly dying out in port cities.

"In 1921 we gave an exhibition in our mission school in which a thousand girls took part. They gave the drills and played games with all the buoyancy and freedom that a normal use of one's feet unbound and unhampered gives. The grace and beauty of movement greatly impressed the audience and I believe it must have had a future effect on their point of view toward footbinding of

their own children," added Miss Barger. "The exhibition was a part of the Far Eastern Championship Games, held in China and the Philippines."

"The costume of the Chinese girl is made up of a skirt and a loose upper garment. All of their clothes display the artistic temperament of the Chinese girl in the color combinations and selections. Many people do not realize that styles change in China from year to year, just as they do in the United States. Very few of the Chinese girls wear American costumes, even those who have attended school in America, do not wear the American costume after they return to their native land."

"Many of the girls have had a struggle with the family," added Miss Barger, "over the idea of attending the Y. W. C. A. school. Some families still think it is more lady-like to take small steps and be frail and flower-like, but the educated families have quite changed their viewpoint." One Chinese lady said to Miss Barger, "I was considered quite a model child for I sat all day and never ran or played. I realize now (Continued on Page Three.)

## PLANNING FOR MAY BREAKFAST

Committee Promises to Have "Real Food, Not Hamburgers" for All-University Party May 8 and 9.

### WILL HOLD SORORITY SING

W. S.-G. A. Board Asks All Fraternities, Sororities and Dormitories to Close Tables for Event.

"Good food, not hamburgers," is the promise made by the food committee for the May morning breakfast May 8 and 9. A delightful menu has been planned which will be served by members of Mystic Fish, Xi Delta, Silver Serpents and Tassels.

All fraternities, sororities and dormitories have been asked by the W. S.-G. A. board to close their tables and attend the breakfast in groups. All mothers of University students are invited and will be guests of the organization.

The inter-sorority sing will be the feature of the program. The sorority that wins the cup three times in succession will be given the cup permanently. Gamma Phi Beta won the silver loving cup last year. The judging last year was based on the originality of the song, the distinctiveness of the words, and the manner of performance.

A prize for the best original University song is being offered by the W. S.-G. A. board. The song may be written by any group or individual member.

Frances McChesney, who is general chairman of the breakfast, has announced the following committees: Entertainment; Katherine McWhinnie, chairman; and Helen Anderson.

Arrangements: Ruth Wells, chairman; Neva Jones and Winifred Steele.

Food committee: Marguerite Forcell, chairman; Mary Doremus, Mary Langevin, and Mary Rothenal.

Advisory committee: Frances Mentzer, Rosalie Pictner, and Mabel Lundy.

Publicity: Eloise MacAhan, Louise Austin, and Oral Rose Jack.

## MISS VERA BARGER SPEAKS AT VESPERS

Tells of Advancement in Physical Education Among Chinese Women.

"The big contribution of the West to the Orient has been through physical education," declared Miss Vera Barger, traveling secretary of the Y. W. C. A. and a missionary to China, Tuesday evening at the Vesper service which was conducted by Carolyn Buck. "The Young Women's Christian Association is carrying out the same big purpose in lands far away as here in the United States. The Association stands for abundance of life. We cannot have an abundance of life if we do not have the right physical life. We must learn that our bodies are sacred, that they are the temples of our spirits."

Miss Barger pictured the life in China, as the representative of the University Y. M. C. A.

"Physical education is a real part of the whole missionary movement," she asserted, as she described the need for education in health among the Chinese women and girls and told how she explained to them the American conception of physical education.

There has been little in the religion taught in China about the sacredness of the human body, she stated.

"Grace Coppock was one of the biggest women I ever knew," Miss Barger declared. "Nebraska can be proud to have given such a woman to China." Few, to begin with, could do what the missionary thought should be done, she said; and among the biggest needs was the establishment of a physical education school.

"Many of the girls who came to this school have never heard of Christianity before, have never heard of God," she continued, as she described the physical education school at Shanghai, which she called "the beacon light of China." She told of the joy among the Chinese girls when they celebrated Christmas and heard the story of Easter for the first time. Miss Barger said that the spirit has been changed completely; that the girls have already begun teaching in other schools and have gone out real Christians.

Under a ruling recently made by faculty members, no student of Notre Dame University is permitted to operate an automobile.

## Will Appear In Moliere's Play

Darrell Starnes

Darrell Starnes will play the part of "The Imaginary Invalid" in the Friday afternoon and evening shows in the University Players presentation of the famous Moliere Comedy, "The Imaginary Invalid." Mr. Starnes is a well known University Player.

## WILL PRESENT MOLIERE PLAY

University Players to Appear May 8 and 9 for Last Time This Season.

The University Players will close their season May 8 and 9 when they will present "The Imaginary Invalid," a satirical comedy by Moliere. The play will be given Friday afternoon and evening by one cast of players and Saturday afternoon and evening by another. Darrell Starnes will play the lead for the Friday shows and Ray Ramsey for the Saturday.

Much of the traditional Moliere business will be used by the players. The play is under the direction of H. Alice Howell. Costumes for the play are being designed and made by students of the dramatic department under the direction of Rose Bogdanoff, the stage-craft instructor from Chicago and Carmel-by-the-Sea, California.

"The Imaginary Invalid" is probably one of the most humorous of Moliere's comedies and is still being played in France under the direction of the French government.

The play is a clever comedy satirizing the quackery of the medical profession of Moliere's time. Moliere mocks the humbuggery of the medical practice of the day. He wrote and presented this play at a time when he himself was very ill. He played the part of Argan, the "imaginary invalid."

The story is built around the life of a hypochondriac, Argan, who wants his daughter to marry a young doctor so that he might enjoy his ill-health to the utmost. His wife wants him to die so that she might get his money. Upon these two facts the play abounds in scenes of hilarious absurdity.

The cast for the Saturday matinee and evening show is as follows:

## Destroy Dormitory To Beautify Campus

To beautify the campus and to make room for future permanent University buildings, are the reasons given for the destruction of the old dormitory on 14th street near Teachers' College.

The old building had lost its beauty, and was getting too old for campus use. The University has no intentions of building a dormitory in the spot where the old one stood. Any future dormitories will be on R street, to the south and east of the campus.

## Barbour Speaks to Curtis Graduates

Prof. E. H. Barbour, chairman of the department of geology, went to Curtis Saturday to address the graduating class of the Curtis State Agricultural School. His subject was "The Value of a Diploma."

## 1926 CORNHUSKER APPOINTMENTS

Applications for the following positions on the staff of the 1926 Cornhusker will be received until Saturday noon, May 9: Editor, junior managing editor, business manager, and two assistant business managers.

Application blanks may be got at the office of the chairman and of Secretary J. K. Selleck. M. M. FOGG, Chairman, Student Publication Board. May 4, 1925.

## Dr. Holland Rose To Talk on World Peace

Dr. J. Holland Rose, of Cambridge University, will be the speaker at St. Paul's Church next Sunday evening at 8 o'clock. His subject will be "The League of Nations and World Peace." Dr. Rose lectured at the University summer school three years ago for two weeks. He is a famous English writer on European History and has followed developments, since the war, of the League of Nations and the World Court. He was a member of the commission appointed in 1918 by the English government to report on plans which had been suggested in the past for world organization.

## INSPECTORS TO ARRIVE FRIDAY

Army Officers Will Grade Nebraska R. O. T. C. for Distinguished Rating.

Lieutenant Colonel Douglas Potts and Major John C. H. Lee of the United States War Department will arrive in Lincoln at 8 o'clock Friday morning for inspection of classroom work Friday and Saturday mornings and review, inspection and a practical demonstration of the entire unit of the University of Nebraska cadets Friday afternoon. Accompanying them will be Colonel C. H. Muller of Omaha, Seventh Corps area R. O. T. C. officer.

This inspection will determine the distinguished rating for the Seventh Corps area comprising Arkansas, Missouri, Kansas, Iowa, North and South Dakota, Minnesota, and Nebraska. Last year Nebraska, Missouri, South Dakota and North Dakota Agricultural College were given distinguished rating.

The inspection board is just completing reviews of the Seventh, Eighth and Ninth areas consisting of all the territory west of the Mississippi river and will come here from the University of Missouri. From Lincoln they will go to North and South Dakota, Minnesota and Iowa.

Chancellor Samuel Avery and as many regents as are in the city will also review the cadets Friday and Saturday.

## OFFER CAMP FIRE TRAINING COURSE

Will Teach Fundamentals of Work in Week's Camp at Milford.

A national training course for Camp Fire guardians and college women interested in girls work, is offered by Miss Edith Kemphorne, national field secretary of Camp Fire, and her two assistants, Miss Janet McKellar, and Miss Margaret Thomas, during the week of June 6-13, at "Magic Hill" near Milford. The camp is equipped with canoes, boats, equipment for archery, nature study, first aid and handicraft. The swimming instructors have their Red Cross life saving certificates, and a trained dietician and nurse are in attendance during the week.

Lectures will be given by Dr. Winifred Hyde and Dr. Herbert Brownell. Miss Delia Marie Clark of the physical education department will have charge of games and pageants. Instruction will be given in archery, campercraft, cooking, handicraft, first aid, boating and swimming.

Because of the limited space only fifty girls can be accommodated, and as women from Kansas, Iowa, and Colorado are planning to attend, it will be well for those desiring the course to register soon. The fee for the entire course except expenses for handicraft materials, is \$18. Three dollars must be paid at the time of registration and the remainder is due at the camp.

Further information may be obtained at the Camp Fire office, 451 Fraternity Building.

## Russian to Speak To History Class

Anatole Abraham Mozer, a graduate of a Russian Gymnasium and at present a student in the College of Arts and Sciences, will address Dr. Laura B. Pfeiffer's European history classes today on "The Russian Revolution and Soviet Russia."

Mr. Mozer lived in Russia until two years ago when he made his escape to Italy on a League of Nations ship. He has spent three years in the service of the Red army and has traveled extensively. He speaks English fluently.

A psychiatrist is employed by the college to bring about adjustment of the mental and emotional problems of Dartmouth students. When beset by disturbing emotions or doubts, students may ask his help freely.

## GREEK BANQUET TO BE MAY 13

Date Finally Set for Annual Event at Scottish Rite Temple, Chairman J. Raymond Tottenhoff Announces.

### WILL PRESENT PLACQUES

President Carl Gray of Union Pacific Railroad May Be Speaker — Regent Judson Also to Make Address.

The date for the annual interfraternity banquet has been definitely set for Wednesday, May 13, it was announced by Raymond Tottenhoff, chairman of the committee, last evening. The banquet was planned for this evening but due to the fact that the Scottish Rite Temple had been reserved by the DeMolay, a new date had to be secured.

Plans are complete for the yearly event. Prof. R. D. Scott will act as toastmaster at the dinner. Regent Frank W. Judson of Omaha will be one of the speakers and efforts are being made to secure Carl Gray, president of the Union Pacific Railroad, as another. Chancellor Avery will also be on the list of speakers.

The banquet will begin at 6 o'clock and last until 8. The Kandy Kids, an eight-piece orchestra, will be on the program as an added feature. Presentation of scholarship plaques to fraternities having the highest ratings for the first semester of this year and the second semester of last year will also be made.

At the time of the presentation of the plaques, fraternity scholarship standings for the two semesters will probably be announced. The custom of presenting plaques was started last year as a plan inaugurated by the student and alumni members of the Interfraternity Council to raise the scholarship level of fraternities in the University. The banquet held last year was so successful that it was decided that the affair would be annual. About 800 men were present last year.

Fraternities have unanimously affirmed the proposal that tables be closed on the evening of the banquet. Tickets have already been issued to the different organizations. These bear the date of today but will be taken as admission to the banquet when it is held next week.

## BIZAD FRATERNITY INITIATES

Three Women Become Members of Gamma Epsilon Pi

Three women were initiated into Gamma Epsilon Pi, honorary sorority in the College of Business Administration, at a dinner at the Woodburn Monday evening. The three were Lenora Kruse, '26, Fremont; Katherine Krotter, '26, Stuart; and Etta McKee, '26, Big Springs.

Members are elected to Gamma Epsilon Pi solely on a basis of scholarship.

## Sigma Delta Chi Elects Officers

Sigma Delta Chi, professional journalism fraternity, elected officers for next year as follows:

President, Edward Morrow, '27, Lincoln.

Vice president, William Card, '26, Lincoln.

Secretary, Volta Torrey, '26, Aurora.

Treasurer, Judd Crocker, '27, Omaha.

Quill secretary, Julius Frandsen, '27, Lincoln.

## Randels Elected Sphinx President

Ray Randels, Pi Kappa Alpha fraternity, was elected president of Iron Sphinx, sophomore men's organization, at the annual meeting last night. Other officers were:

Ed Wellmann, Omaha, vice-president.

Charles Heinz, Lincoln, secretary.

Ralph Bergston, Lincoln, treasurer.

Henry Chab, Dorchester, historian.

Glen Preshnell, DeWitt, sergeant-at-arms.

Orvil Carrington, Central City, sergeant-at-arms.

Plans were made for a dance for the new members who were initiated two weeks ago. It will be held May 15 at Knights of Columbus Hall.

## Frankforter Will Defend R. O. T. C. At World Forum

The last World Forum luncheon-discussion of the year will be held at the Grand hotel this noon when Prof. C. J. Frankforter of the chemistry department, a lieutenant-colonel in the infantry of the reserve corps, will defend compulsory military training in the colleges.

At the meeting last week C. A. Sorenson of Lincoln spoke against compulsory R. O. T. C. work. The luncheon will begin promptly at 12 o'clock. No students who do not hold tickets to the luncheon will be admitted before all those who had previously purchased tickets are accommodated.

## WOMEN CHOSEN FOR XI DELTA

Society Takes Representatives From Sororities and School at Large.

Xi Delta, sophomore honorary society for women, has announced its new members for the coming year. One girl from each sorority and literary society and six students from the school at large are chosen.

The new members will be initiated Thursday evening at 5:30 in Ellen Smith Hall.

The new members are as follows:

Alpha Chi Omega—Lorraine Boucher.

Alpha Delta Pi—Lucile Sorenson.

Alpha Delta Theta—Eleanor Boorson.

Alpha Omicron Pi—Eloise Keefer.

Alpha Phi—Rachel Parham.

Alpha Xi Delta—Blance Allen.

Chi Omega—Henrietta Deirks.

Delta Delta Delta—Caroline Buck.

Delta Gamma—Lucile Refschauge.

Delta Zeta—Viola Shadbordt.

Gamma Phi Beta—Helen Van Gilder.

Kappa Alpha Theta—Frances Harrison.

Kappa Delta—Alice Leslie.

Kappa Kappa Gamma—Edith Sadler.

Phi Mu—Grace Modlin.

Pi Omega Pi—Ruth Barker.

Pi Beta Phi—Ada Modlin.

Sigma Kappa—Nell Daly.

Theta Phi Alpha—Mary McCarty.

Dellian—Vera Coupe.

Palladian—Mary Kinney.

Union—Opal Bowers.

School at large—Louise Freeman.

Kate Goldstein, Ida May Cottrill, Agnes Hansen, Ruth Clendenin, and Helen Lohmeier.

## FIELD DAY FOR ENGINEERS HELD

Contests and Other Amusements Provided for Program at Antelope Park.

"Field Day" of annual Engineers' Week was held yesterday at Antelope Park. Athletic events and contests entertained the several hundred student engineers who attended. Transportation to the Park was handled by several trucks which left the University at 9:30.

A baseball game between the freshmen and the juniors, at 10 o'clock resulted in a 7 to 0 victory for the juniors. The game was scheduled for five innings. The senior-sophomore game which was held immediately afterwards, went to the seniors by a 11 to 8 score. The juniors won the final game 11 to 3.

They succeeded in piling up a lead early in the game which the seniors were unable to overcome. During these games, H. Hahlbeck and Fountain were picked as individual stars by the judges. Prof. Sjogren, Prof. Cushman, and E. Caster. Hahlbeck received a \$5.00 fielding glove given by the Lincoln Sporting Goods Co., and Fountain received a \$5.00 fountain pen, presented by Tucker and Shean.

The horse shoe tournament was held at 10:30 with numerous entries. I. A. Trivelly won the singles and the prize of \$2.00 offered by "Red" Long of the College Book Store. The doubles was won by M. W. Anderson and O. J. Gruber, who were awarded \$1.50 each also by Long.

Lunch was served at 12 o'clock by the ladies of the Grace M. E. church. The inter-class tug-of-war was staged at 1:00 in the preliminaries. The juniors defeated the seniors and the freshmen outplayed the sophomores. The freshmen emerged victorious in their contest with the Juniors for the championship of the College.

The level race was copped by Stenger and Egan each of whom were awarded a \$5.00 laundry ticket given by the Evans Laundry. The chain race, which was staged at 2 p. m. was won by Reiff and Michel, for accuracy and speed in operating the level and bar over a half mile course. Lawlor Sporting Goods Co. awarded two regulation baseballs as prizes in this event.

A fencing exhibition between Moynahan and Clendenin at 1:30 was declared a draw. The 100 yard dash which was run off in four heats was won by Lee in 10 and 4-5 seconds with Hahlbeck a close second. Latsch Brothers gave a \$2.00 notebook as the prize in this event.

Result of the golf finals was: Surber, first; Helsing second. Surber won with 3 up and 1 to go. No prizes were offered in this event.

## THE DAILY NEBRASKAN

Applications for the following positions on the staff of The Daily Nebraskan beginning next September will be received until noon Saturday, May 9: editor, contributing editor, managing editor, news editor, assistant news editor, business manager, assistant business manager, circulation manager.

Application blanks may be got at the office of the chairman and of Secretary J. K. Selleck. M. M. FOGG, Chairman, Student Publication Board. May 4, 1925.
