

# THE DAILY NEBRASKAN

VOL. XXIV—NO. 149.

THE UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, FRIDAY, MAY 22, 1925.

PRICE 5 CENTS

## ROUNDUP WEEK WILL BE BUSY

Hundreds of Alumni Planning to Return to University for Three-day Celebration in Their Honor.

### MANY EVENTS FOR IVY DAY EXERCISES

Meetings of Classes, Luncheons, Banquets, Shows, Athletic Contests and Many Other Affairs Planned.

In less than a week the fourth annual Cornhusker alumni Roundup will be in full swing on the campus. Ivy Day ceremonies, reunions, sporting and social events, and the Commencement exercises, will fill Thursday, Friday, and Saturday for the hundreds of alumni who have signified their intentions of coming.

Thursday, the traditional student day, will hold the planting of the ivy by the senior class president, John Kleven, and the crowning of the May Queen, on the new Gothic setting symbolic of the days when the planting of ivy was begun. The Kosmet Klub will award a cup in the "Interfraternity Sing," when scores of men's voices will be blended in competitive melody. In the afternoon the thirteen outgoing Mortarboards will mask their successors, and thirteen retiring senior men will tap the new innocents.

The alumni council will meet in the Temple at 9:30 Friday morning to discuss alumni association business. At a meeting of the alumnae in Ellen Smith Hall the problems facing University women of today will be taken up. At ten o'clock the interfraternity finals will be played in the stadium. At noon the law barbecue will take place at the Lincoln Auto-Club park.

The "Compet" exercises of the R. O. T. C. will occur on Friday afternoon, when hundreds of cadets will parade, in the company of the honorary colonel and the sponsors of each company.

Alumnae and seniors of each sorority are invited by the new Lincoln Pan-Hellenic association to a tea at Ellen Smith Hall between 4 and 5 o'clock. Dinners, dances, luncheons and smokers are included in the open-house plans of campus organizations.

"Whispering Wires," a tense mystery play, will be presented by the University Players at the Orpheum theater Friday evening. Alumni and their families will be admitted free of charge.

Saturday has been chosen as a day of "All-University reunion," with general headquarters in the east concourse of the stadium. Class booths will be decorated gaily, with emblems to mark the position of each group. C. E. Hinds is in charge of the reunion arrangements. Mrs. Max Beghtol has been appointed general hostess of the day. Among the hosts and hostesses who will assist her will be: Mrs. Ray DePutron, chairman of the Round-up, Mr. and Mrs. Ralph Thiessen, Mr. and Mrs. Charles Roberts, Mr. C. F. Ladd, Mrs. Maurice Deutsch, Mrs. Fred Dewese, Dr. and Mrs. Sam Waugh, Mrs. A. G. Warner, Mrs. E. J. Faulkner, Prof. A. A. Reed, O. J. Fee, C. E. Hinds, Mrs. F. E. Beaumont, Mr. and Mrs. Harvey Rathbone, Mr. and Mrs. Merle Rathburn, Mr. and Mrs. Elly Davis, Mr. and Mrs. Harold Holtz, Mr. and Mrs. Earl Cline, Mr. and Mrs. Charles Matson, Mrs. F. E. Lawrence, Carl Junge, Jack Whitten and Mr. and Mrs. Roy A. Bickford.

Memorial Day services will take place at 12 o'clock in the stadium. Mortimer J. Brown, '85, Niagara Falls, N. Y., will speak.

Nearly a thousand alumni will seat themselves at the long line of tables extending along the west concourse of the stadium for lunch at 12:15. At a general alumni meeting afterward Chancellor Avery will give his annual report and the business transacted by the Council will be brought up for ratification and approval.

The Women's Athletic Association dance drama, with colorful costumes and graceful dancing, will be an event of the afternoon. Valkyrie will promote a student circus in the Armory, with several feature stunts besides the sideshows, roulette wheels and dancing. Fraternity alumni will play for the championship in a tennis tournament later.

An old-time mixer, supervised by Mrs. Fred Sidles, will fill the evening. Confetti and old-time dances will lend spirit to the occasion.

Yale University is planning the erection of the largest and best equipped university library in the world.

## LAW STUDENTS WILL HOLD BARBECUE

Annual Affair Friday of Round-up Week at Auto Park

The Law students of the University, on the Friday of Round-up week will hold a barbecue at the Lincoln Auto Park. All Lincoln lawyers, and alumni from out of town are invited to the big "feed" and the stunts which form part of the day's program.

The committee has not yet lined up a complete program of the day's entertainment, but they are planning a baseball game between Phi Alpha Delta and Phi Delta Phi.

## SENIOR ENGINEERS TO HOLD BANQUET

Annual Affair Will Take Place Tomorrow at 6 O'clock at Lincoln Hotel

The annual banquet for seniors in the department of mechanical engineering will take place at 6 o'clock tomorrow at the Lincoln Hotel. Professor J. W. Hanev will preside as toastmaster. Prof. W. L. DeBaufre, chairman of the department, and Mr. Tyler, of New York, student chairman for the American Society of Mechanical Engineers, will speak. Responses will be made by Dean O. J. Ferguson of the College of Engineering and Prof. C. A. Sjogren, and by the sixteen seniors of the department. They are: W. W. Arnold, C. L. Brown, H. Burns, J. Carlson, E. R. Grassmuck, E. T. Gustafson, J. E. Helsing, G. Jefferson, M. A. Johnson, F. F. Kislinsky, S. E. Olson, O. Olson, J. W. Phelps, J. M. Ralsch, W. Scheel, and R. R. Slaymaker.

## FRESHMEN RUN OFF TELEGRAPHIC MEET

Fast Time Is Made in Several Events by Yearlings in Spite of Heat.

The third freshman telegraphic meet of the season was run off at the stadium Thursday afternoon. The heat made it slow work for the distance men but some good marks were set in the jumps and sprints. Davenport was high point man taking first in the 100, 220 and 440-yard dashes and placing third in the broad jump.

A number of the freshmen were unable to compete yesterday because of outside work and no hurdles or relays were run.

The results of the freshman competition at Kansas and possibly at Missouri will be telegraphed in and the results of the meet tabulated.

The results:  
100-yard dash: Davenport and Hulsker first, Pressnell third. Time 10.3.

220-yard dash: Davenport first, Pressnell second, Pate third. Time 22.7.

440-yard dash: Davenport first, Beck second, Walters third. Time 53.9.

880-yard run: Roberts and Johnson tied for first. Time 2:03.9.

One mile: Reller first, Kelly second, Frederichs third. Time 4:48.3.

Two mile: Searies first, Chatfield second. Time 10:48.3.

Broad Jump: Danielson first, Pate second, Davenport third. Distance 21 feet 1 inch.

High jump: Hulsker and Beck tied for first. Distance 5 feet 3-4 inches.

Pole vault: Watke first, Townsend second. Distance 10 feet 8 inches.

Shot put: Stiner first, Durisch second, Fischer third. Distance 38 feet 7-1-2 inches.

Discus: Durisch first, Stiner second. Distance 118 feet, 3 inches.

Javelin: Stiner first, Pressnell second. Distance 134 feet 5 inches.

## Graduates Visit Dean Ferguson

Visitors at the office of Dean O. J. Ferguson of the College of Engineering this week have been Edwin Bartunek, '24, and L. A. Cutshall, '05. Mr. Bartunek is associated with the Bell Telephone laboratories at Chicago. Mr. Cutshall is sales representative for the Automatic Electric Company, Chicago. Both men are on their vacations.

## Final Convocation For Engineers Today

The final convocation of seniors in the College of Engineering will take place at 10 o'clock in Mechanic Arts 106. Dean O. J. Ferguson will make an informal farewell address.

## Tournament In Archery To Be Held

The first archery tournament at the University will be held tomorrow in the Stadium. Although it was previously announced that the contest may be changed to an earlier hour. In case of a change, the new time will be announced some time today.

Mrs. R. M. Westover, staff member and instructor in archery, will have charge of the contest. Those who plan to participate are largely freshmen and sophomores although all women registered in the archery courses may enter.

Honors will be decided by classes and individuals but no awards will be given. Individual honors will go to the woman getting most points in the first round of the tourney and to the one getting the highest total score.

All women who enter the tournament will meet Mrs. Westover today at noon at S. S. 101 for final instructions and alignments.

## EXHIBIT WILL CLOSE TODAY

Display of Fine Arts Includes Many Interesting Examples.

### WORK SHOWN FROM EVERY DEPARTMENT

The annual Fine Arts exhibit which is being held in the Library this week will close this evening at 10 o'clock. The display includes specimens of work done by nearly every student in art courses. There is no admission charge for the exhibit and it is open to the general public.

One portion of the gallery is given over entirely to creative composition work. Some of this will probably be worked up on canvas later. One of the most unusual displays is that of work done by the china painting and pottery classes. It includes many unique jars, bowls and vases, the patterns being strikingly different.

There are some notable pieces of modeling which were done under the direction of Dwight Kirsch. The poster section of the exhibit has attracted much attention by its originality and variety. Many of the posters are excellent examples of illustration combined with letter work.

There are also many attractive displays in charcoal drawings, oil paintings and interior decorating, which cause much comment from visitors. Some mask work, from the classes conducted by Rose Bagdanoff, is also on display. Hand-tooled leather work, gesso work and batik are features of the exhibit.

This exhibit is said to be the most successful held for several years. Displays are on view from the following classes: Stage design, lettering, interior decoration, life drawing, composition, perspective illustration, design, applied arts, stage arts, china painting and clay modeling.

A professor at the University of Colorado says that the college woman lacks reserve and individuality.

## WILL PRESENT TWO ORATORIOS

University Chorus and Orchestra to Appear Last Time This Year.

### CHORUS COMPOSED OF MORE THAN 250 PARTS

The University chorus, under the direction of Mrs. Carrie B. Raymond and accompanied by the University Orchestra, will culminate an especially successful year with the presentation of two oratorios. "Scenes from the Saga of King Olaf," which was composed by Edward Elgar, will be sung at 11 o'clock Friday in the Memorial Hall.

The story of the oratorio has come from a book of legends of the dead kings of Norway. Thor, the great thunder god, in the first song, issues a challenge to the god of peace, King Olaf, hearing the challenge, answers it and a battle with Ironbeard, Thor's representative, results. The fall of Ironbeard in the struggle causes Thor's followers to question his power and strength and in consequence, they turn to the faith of Olaf. The moral truth embodied in the Oratorio is that peace is greater than war, and love greater than anger. Subtle, intensely dramatic music accentuates the heroic theme of the production. Many of the scores, such as the Conversion scene and Epilogue, are characterized by their depths of emotion.

The role of King Olaf will be sung by Edward Ellingson, that of Ironbeard, by Herman Decker. Other solo parts will be sung by Joy Schaeffer, soprano; Hobart Davis, tenor; and Dwight Merriam, bass. The chorus portrays a group of skalds, or bards, who participate in the narration of the Saga, personifying for the moment important characters.

The theme and atmosphere of "The Creation," which will be presented at 3 o'clock Sunday, is of a vastly different nature from that of "Scenes from the Saga of King Olaf." "The Creation," by Hayden, is drawn from the book of Genesis, and follows the progress of the six (Continued on Page Two.)

## WOMEN TO HOLD TRACK CONTEST

Each of Four Classes to Enter Three Women in All Events Scheduled.

The interclass women's track meet will be held at 9 o'clock tomorrow morning in the Stadium. The selection from the large number of entries of four classes will be posted some time today. Only the events which were approved by the National Women's Athletic Committee will be run off.

The events which will be run off are: javelin throw, basketball and baseball throws, 50-yard dash, 65-yard high hurdles, 220-yard relay and hop, skip and jump. One woman can compete in five of the events. Each class is permitted to enter three contestants for any one event as the meet is for class honors, not individual honors.

## Members of Commission At Banquet

About fifty active and alumnae members of the Freshman Commission attended the annual banquet held Thursday evening at Ellen Smith Hall. Martha Farrar, '28 Twin Falls, Idaho, acted as toastmistress. The table decorations were in pastel shades and tiny pencil dolls were given as favors.

The list of toasts given are: "The Ship," Miss Erma Appleby; "The Framework," Caroline Buck, '28, Lincoln; "The Sails," Helen Reynolds, '28, Omaha; and "The Ship Complete," Marguerite Forsell, '26, Omaha.

The committees for the banquet were: Menu and favors, Margaret Walker, '28, Gibbon; Lucille Refshauge, '28, Aurora; Caroline Buck, '28, Lincoln; and Helen Reynolds, '28, Omaha. Publicity, Ruth Barker, '28, Hot Springs, So. Dakota, chairman, and Marion Eimers, '28, South Sioux City. Tickets, Gertrude Brownell, '28, Lincoln; Henrietta Dierks, '28, Lincoln; Mabel Doremus, '28, Aurora; and Lucille Refshauge, '28, Aurora. Program, Irene Lavelly, '28, Corning, Iowa, chairman; Rachael Parham, '28, Billings, Mont.; and Mary Kinney, '28, Missouri Valley, Iowa.

## CUTTER GUEST OF HONOR HERE

Retiring Dean of Medical College At Dinner Given by Pre-Medics.

### NEW MEMBERS ARE NAMED BY THETA NU

Dr. Irving S. Cutter, retiring dean of the College of Medicine at Omaha, was the guest of honor at a banquet given at the Grand Hotel Thursday evening by Theta Nu, honorary pre-medical fraternity. The thirteen members of the fraternity for next year were also announced.

Among the other guests were Chancellor Samuel Avery, Dr. J. Jay Keegan, new dean of the College of Medicine, Acting Dean A. L. Candy of the College of Arts and Sciences, Dr. Franklin D. Barker, adviser to pre-medical students, and W. F. Novak, a student in the College of Medicine at Omaha.

The new members of Theta Nu are: Edward Albert, R. C. Davenport, Warren Ewing, Porter Forcade, Delbert Judd, Donald Malcolm, E. C. Mark, H. Royer, Fred Van Valin, Carl Layman, M. Waggoner, K. J. Drake and Thomas Thompson. Membership is based on scholarship, personality and leadership. Delbert Judd was awarded a medical dictionary for having had the highest grade of any member of the freshman pre-medical class.

Judd, as a representative of the freshmen, and Clayton Weigand, representing the sophomores, spoke, telling of their appreciation of the work of Dean Cutter.

Doctor Candy and Chancellor Avery told of his early work. Dean Cutter was once a student under the chancellor.

(Continued on Page Three.)

## OIKIA CLUB ELECTS OFFICERS

Wilson is Next Year's Head of Rural Economics Organization

Wednesday evening the Oikia club met and elected the following officers for next year: L. Wilson, president; G. A. Buck, vice-president; Richard Rogers, secretary and treasurer. Ray Yates is the outgoing president and Dan Siebold the outgoing secretary and treasurer.

Oikia club is composed of students majoring in rural economics. The club has sponsored a mixer and has had charge of several convocations during the past year.

## VESTALS ELECT NEW MEMBERS

Five Students and Three Faculty Women Chosen by Arts College Group.

Three faculty members and five students were initiated into the Vestals of the Lamp, the women's Arts and Science organization, Tuesday evening at Ellen Smith Hall. Prof. Alice Howell, Miss Dora Schupp and Miss Leata Markwell were chosen from the faculty and Marvel Richardson, Omaha; Leora Chapman, '27 Lincoln; Virginia Raymond, '28, Lincoln; Gertrude Brownell, '28, Lincoln; Josephine Frisbie, '27, Red Cloud, were chosen from the women in the College of Arts and Science.

The initiation of the Vestals is public and generally held in the Temple at the Arts and Science convocation. Because of the late date of the service this year, the initiation was held in Ellen Smith Hall.

The arts and sciences were acted out by seven of the Vestals, in pastel robes. Five Vestals in yellow and white costumes, went through the audience and tapped the new members. Ruth Moore, '28, Clarinda, took the part of chief Vestal and the spirit of Academe. The whole ceremony was interpreted to the accompaniment of harp music played by Miss Marjorie Shanafelt.

The Vestals give one of the prizes in the annual Essay and Poetry contest. In the meetings held throughout the year, problems of general interest to the Arts and Science college are discussed.

## Sigma Delta Chi To Have Luncheon

At a meeting of Sigma Delta Chi Thursday evening plans were made for a luncheon next Monday noon. Local alumni will be special guests at the affair, which is in honor of senior members. Edward Morrow, president, appointed Julius Frandsen, jr., and Victor Hackler on the committee in charge.

## Mickey Entertains Sigma Tau Members

The local chapter of Sigma Tau, professional engineering fraternity was entertained informally last evening by Prof. C. E. Mickey, chairman of the department of civil engineering, and Mrs. Mickey, at their home at 19th and C streets.

## GLEE CLUB IS ON PROBATION

Action Taken By Committee On Student Organizations Because of Use of Ineligible Men On Tour.

### WERE NOT NOTIFIED UNTIL DAY OF TRIP

Grant Petition to Change Name of Women's Self-Government Association to Associated Women Students.

Announcement was made yesterday that the Glee Club of the University would be placed on probation for one year because it used men scholastically ineligible on its annual tour through Nebraska towns this spring. The action was taken at a meeting of the committee on student organizations held Wednesday.

The petition of the Women's Self-Government Association to have its name changed to Associated Women Students was approved by the committee at its meeting also. The petition was made because similar organizations in all western universities are known by this name, the name Women's Self-Government Association being used at a few eastern schools. It was also thought that the old name was misleading since the association does more than act as a self governing body.

Punishment in case of the Glee Club is more lenient than in the case of the Kosmet Klub, which was recently suspended for the use of students who were not eligible scholastically in its musical production, because of the fact that the Kosmet Klub was notified of the ineligibility some time before the production while the Glee Club did not know that some of its members were ineligible until the morning of the date set for the trip.

In both cases, the individuals involved will be referred to the committee on scholarship.

The Glee Club has a financial deficit which was incurred by its trip to Kansas City this winter.

The Glee Club is in its fourth year of existence at the University. It is composed of men chosen by competitive tryouts held in the fall. Forty are chosen at the tryouts and from this number the director selects twenty-two men who are taken on the annual tour over the state.

Four men are also chosen each year from the Club who act as a University Quartette, furnishing music at football games and at many other functions.

## BALL SQUAD OFF FOR AMES SERIES

Husker Team Hoping for Clean Sweep of Two Games With Iowa Aggies.

The Nebraska baseball squad left Thursday for Ames, Iowa, where it plays Iowa State in the last two games of the season.

Coach Kline believes that thirteen will hang the jinx on Ames so he is taking the lucky number of players.

The Husker split even with Ames in a two-game series played at Lincoln two weeks ago and the men are hopeful of making a clean sweep at the Iowa school.

Domier will probably be given a chance to work in the first game while Lang or Rhodes will take the mound for the second contest.

The two games with Ames close the season for Nebraska, the game which had been scheduled for Round-Up Week having been cancelled.

The men making the trip are: Janda, Eckstrom, Smaha, Collins, Harney, Thomson, Rhodes, E. Lang, B. Lang, Domier, Patton, Andresen, and Jardine.

## Senior Engineers Obtain Positions

James D. Marshall and E. F. Schoenbeck, seniors in the department of civil engineering, have secured positions in the drafting rooms of the American Bridge Company, Gary, Indiana. They will begin work June 15.

## Mortarboards Take Over Silver Moon

Mortar Board, honorary society for senior women, will take charge of the Silver Moon today. A special chicken dinner and "The Mortar Board Special" are extra items on the menu for the event. The thirteen coeds will work from 8 o'clock this morning to 9 o'clock this evening.

## Have Many Interesting Plants

The greenhouses of the University of Nebraska are not show places as many of the students believe but they are used for experimental purposes. Most of the experiments are with crop plants.

W. H. Dunman, landscape gardener and head of the campus upkeep department since 1909, is in charge of the University's greenhouses. There is not enough work in the greenhouses to keep one man busy so the campus upkeep department takes care of them.

Plants are grown in the three city campus greenhouses, each fifty feet by twenty feet, for the botany department and several thousand plants are grown as decorative material for the campuses. Several thousand plants were sent to the Nebraska School of Agriculture at Curtis this week to be used in beautifying the campus. The greenhouses are used as experimental laboratories for plant physiology and plant ecology classes. George Swale, who has been here for fourteen years, is caretaker of the city campus and the greenhouses located there.

Dr. J. E. Weaver, professor of ecology and of the Carnegie Institute of Washington, D. C., is using a part of the greenhouse for experimental work. The summer work has just begun and his assistants for the sum-

mer are Dr. Herbert Hanson, Prof. T. J. Fitzpatrick, Samuel Shively, Ruth Vernon and Frank Yearless.

The work is a part of a three-year program on "plant competition." They are experimenting with wheat in an effort to show what water, nutrition and soil have to do with the growth of the plant.

Doctor Weaver and Dr. F. E. Clemens, both of the Carnegie Institute of Washington, D. C., are the authors of a recent book, entitled, "Experimental Vegetation," containing experiments and their results that were performed at the Universities of Nebraska, Kansas and Colorado. A letter received recently by Doctor Weaver from a man in India states that he is using material from the book.

There are about 100 different kinds of plants grown in the three greenhouses, and several of these have many varieties. There are sixty varieties of cactus, twelve varieties of palms, including six species of the sago palm, and eight varieties of ferns.

The orchids, perhaps the most valuable, were sent to Dr. E. R. Walker, of the botany department, about twelve years ago. These plants bloom during the Christmas holidays. A lady-finger banana tree has to be cut and trimmed frequently because space is lacking in the low

greenhouses and it does not get a chance to bear fruit.

A giant cactus sent to Nebraska from Arizona by the late Dr. G. E. Bessey in 1909 must be cut down frequently to keep it from shattering the glass roof. Students have carved their initials on one trunk as they would carve them in a tree.

There is a small aquarium, containing gold fish, where the aquatic plants are grown for the botany department.

A few of the common plants grown in the greenhouses are: lilies, geraniums, nasturtiums, moss, castors, sun flowers, petunias, krotins—the source of krotin oil—tomatoes, beans and cabbage.

A jar containing a plant is placed horizontally on a machine, run by clock-work, that turns the plant around so slowly that it is impossible to see the plant move with the naked eye. This machine is used for experimental purposes.

The College of Agriculture has six greenhouses, each fifty feet by twenty feet. These are used by the horticultural department and plants are grown for the campuses as decorative material. They are used as experimental laboratories by the plant pathology and plant entomology classes. The greenhouses are in operation from October to May, closing during the hot weather.

The greenhouses have elaborate equipment for controlling the weather within the glass shelter. There is an elaborate cooling system connected with the cooling room and one thousand watt lamps are used as artificial suns. The experiments must go on in any kind of weather so artificial weather is provided. There is a close relationship between the weather and prevalence of plant diseases. By controlling the weather conditions, under which plant diseases are prevalent, the diseases and their prevention can be carefully studied.

The plants to be studied are put in special cases; the soil temperature, air temperature, moisture and light are regulated in any combination desired.

At present the greenhouses are being used to experiment with the degeneration of disease of potatoes and the black stem rust of wheat. Dr. G. L. Peltier of the department of plant pathology is in charge of the experiments with wheat rust and Dr. R. W. Gross, of the same department, is in charge of the experiments with the potato disease.

In 1925, 125,000 wheat plants were inoculated with the disease and in one experiment 80,000 were inoculated. Every Monday morning new plants are started, the following (Continued on Page Two.)
