

MISSOURI TIGERS DEFEAT NEBRASKA AT COLUMBIA

Lindenmeyer and Studebaker at Tackles Spoiled Several Chances for Coach Bearg's Men to Take the Ball Across the Line.

ROOTERS GO WILD AT FINAL 9 TO 6 SCORE

Fumble by Locke in First Part of Fourth Quarter Cost Huskers Their Chance for Victory When She Had Ball Within Six Inches of the Goal.

COLUMBIA, Mo., Oct. 10.—(Special to The Daily Nebraskan)—Cornhuskers went down to defeat under the heavy paw of the Missouri Tiger here this afternoon 6 to 9, on Rollins field before 10,000 people. The Tiger rooters went wild. Nebraska had her chance to come back at Missouri in the first part of the fourth quarter when she had the ball on the Tiger six inch line. Locke got the ball down there, but fumbled as he was about to go over. From that time on the Huskers were not dangerous.

Lindenmeyer and Studebaker were the things that bothered Bearg's men. The two Missouri tacklers stopped Rhodes time and again; and Studebaker's punting spoiled several chances for Nebraska, too. Sammy Whiteman and Clark in the Tiger backfield were consistent ground gainers. They plowed the line for substantial gains and made up a great part of the Missouri passing machine.

Locke was the greatest gainer for Nebraska and made the longest runs of the game. He clipped off forty yards once to be called back by the official and thirty yards at another time. "Nebraska's fastest human" could usually be counted upon to make a gain.

Husker Harriers Trim Missouri Distance Men

COLUMBIA, Mo., Oct. 10.—(Special to The Daily Nebraskan)—Lawson won the dual cross-country run here today for the University of Nebraska. He came on the track at the finish two paces behind Steele of Missouri, but gained on the stretch and crossed the tape three feet in the lead. Steele placed second, Zimmerman of Nebraska third, and Captain Jimmy Lewis of Nebraska fourth.

Score Early In The Game.

Nebraska's only touchdown came in the first few minutes of play after Mandery blocked a kick on the Tiger thirty-yard line. Rhodes failed to gain, but Ed Weir took the ball and lugged it to the five yard line. Rhodes gained half yard and on the next play "Jug" Brown sneaked across. He failed at the try for point.

Missouri was held scoreless until the third quarter when she scored on a pass. Clark and Whiteman made several substantial gains and a pass, Stuber to Clark, put the ball over. Whiteman added the extra point. Missouri's other two points came after she had knocked down a Nebraska pass behind the Husker goal line.

Rhodes didn't carry the ball much in the first period but waited until the end of the first quarter before he began to plunge into the Tiger wall. Rhodes worked hard, but his gains were usually offset by other losses. Locke didn't go in until the second quarter, when he did get in the game he immediately showed the Missourians his heels. Time after time he reeled off good gains and once broke through for forty yards, to be called back for a Nebraska offside.

Hutchinson, usually that Nebraska tower of strength in the middle of the line, was clearly off his game. (Continued to Third Page.)

Jane Addams of Hull-House Will Speak at St. Paul Church Monday

Lincoln will have an opportunity to hear Miss Jane Addams of Hull House, Chicago, philanthropist, author and lecturer, who comes to speak at St. Paul's church on Monday, October 26, under the auspices of the Council of Women's Organizations in Lincoln. The subject of her talk will be "Recent Movements Toward Peace" and she will put particular emphasis on the World Court, its activities and its purposes.

Jane Addams is the founder of the Social Settlement of Hull-House in Chicago, a community center known for its work among young people and immigrant groups. As stated in the charter the object of this institution is "to provide a center for a higher civic and social life, to institute and maintain educational and philanthropic enterprises, and to investigate and improve the conditions in the industrial districts of Chicago."

Many social workers take their training at Hull-House. A number of University of Nebraska graduates

MAKE MILITARY CARNIVAL PLANS

Annual Fun-Fest Sponsored by Scabbard and Blade To Come on Nov. 14.

PLAN WILD WEST AFFAIR

The fifth annual Military Carnival will be held November 14, according to Robert M. Scouler, who is in charge of the affair this year. Plans are now being made to conduct the carnival in the same general manner in which it has been conducted in the last five years, but with several new features.

The "Wild Western" idea will be carried out again this year. Also there will be the usual Klondike Currency, roulette wheels, gambling devices, and a genuine old bar with the foot-rail and all. Members of one sorority will be the bar-maids for the evening. They will entertain those who come without partners, and will help to make the evening one that will not soon be forgotten.

Scabbard and Blade, national military fraternity, is sponsoring the carnival again this year. It will be held in the Armory as in previous years, but the committee in charge feels that it will draw a much larger crowd than ever before due to the fact that it comes just after the mid-semester examinations. It is hoped that several new features can be added to the carnival ready been started to bet the gambling devices. It may be necessary to ship the roulette wheels from some distance, since none can be found in Lincoln.

Captain V. F. Huska has been chosen by Scabbard and Blade to be the advisor and will work with the committee in all preparations. The chairman of the sub-committees will be announced in the near future.

Since the date has been announced so far ahead this year, Scabbard and Blade expect that other organizations will not schedule parties for the same evening. In this way everyone will have a chance to attend.

Lewis Is New Cadet Drum Major of Band

Cadet officer promotions in the band were announced Saturday in a special order which promotes Raymond G. Lewis to captain, and James R. Salisbury and James T. Lewis to first lieutenants. Edward L. Elvington is promoted to first lieutenant in the line, assignment to be made Monday. Lewis will also be drum major of the band.

have lived there, among them Miss Edith Abbott, now on the faculty of the University of Chicago, and her sister, Miss Grace Abbott, who is the present chief of the Federal Women's Bureau at Washington, D. C.

The National League of Women Voters has named Jane Addams as one of America's twelve greatest women. Some of her books on political and social life are "Twenty Years at Hull-House," "Newer Ideals of Peace," "The Spirit of Youth and the City Streets," and "Democracy and Social Ethics."

Miss Addams has an A. B. degree and an honorary degree of Master of Arts from Yale University and an LL. D. She recently made a trip around the world in the interests of peace and is now making a lecture tour of this country. Tickets for the Jane Addams lecture will be sold by students on the campus this week. The tickets will also be available at the city Y. W. C. A. General admission price will be twenty-five cents, main and forum fifty cents.

Sophomore Quarterback Does Husker's Scoring

"Jug" Brown

John Brown, who went through center in the first quarter for the first touchdown of the Tiger game and made the only score for Nebraska.

ANNUAL DADS' DAY SATURDAY

Students' Fathers To Be Guests At Luncheon Before Washington Game.

PROGRAM WILL BE SHORT

The fourth annual Dad's Day will be held next Saturday, October 17, the day of the Washington-Nebraska football game. The fathers of the University students will be the guests at a luncheon at the Chamber of Commerce from where they will go to the game.

The October 13 issue of the Daily Nebraskan will be a special Dad's Day number and will be sent to the fathers upon request of students. It will contain a letter from "Son John" to "Dear Dad" which will give the features of the day in detail.

In previous years the luncheon has been held in the Armory. This year it will be held at the Chamber of Commerce where a much larger crowd can be accommodated.

The program of speeches will be very short. It will be headed by an address of welcome by Governor Adam McMullen. The University Quartette will furnish music. It is planned to give the fathers a rousing welcome rather than a tiresome round of speeches.

The Chamber of Commerce will be the headquarters for the day. All students are urged to write home at once urging their fathers to come next Saturday. Prominent sport authorities say that the game with Washington will be the hardest on Nebraska's schedule, so that part of the entertainment should draw a large number of fathers.

RELIEF WORKER TO TALK AT LUNCHEON

Conrad Hoffman Will Explain European Situation At Grand Hotel Friday.

Mr. Conrad Hoffman, former head of the European student relief under the Student Friendship Fund, will speak at the luncheon in his honor Friday noon at the Grand Hotel. Students may obtain tickets at Vespers and after the World Forum luncheon, according to Robert Shields, who is in charge of the meeting.

Conrad Hoffman spoke at the Mr. Hoffman will explain the phases of relief work still in progress in Europe and will picture situations still existing after seven years of armistice and peace.

Mr. Hoffman will explain the phases of relief work still in progress in Europe and will picture situations still existing after seven years of armistice and peace.

Geology Department Gets Fossils. A. L. Bracer, A. B., '16, has sent a large number of fossils to the department of geology which were collected from the cretaceous chalk in northern Louisiana. They will be prepared for classroom use.

HITCHCOCK TO GIVE ADDRESS NEXT FRIDAY

Former United States Senator Will Discuss the World Court.

PAGE SPEAKS SAME DAY

Comes Here in Connection With Y. M. C. A. and Y. W. C. A. Conference Program.

Hon. Gilbert M. Hitchcock of Omaha, former United States senator, will discuss the World Court and its relations to the United States at a meeting of University of Nebraska students and faculty members, visiting students from other Nebraska colleges, and townspeople to be held at St. Paul's Methodist church at 8 o'clock Friday evening.

The meeting is one of a series to be conducted by a joint committee of the University Y. W. C. A. and Y. M. C. A. working in co-operation with other peace organizations, to bring the facts about the World Court before the public.

Kirby Page to Speak

Kirby Page of New York City, a speaker and author well known in student circles through the country, will speak a few minutes before Senator Hitchcock's address. He will explain the so-called "harmony program"—the compromise basis on which all the peace organizations in the United States have agreed that this country should enter the Court.

Senator Hitchcock and Mr. Page are coming to Lincoln in connection with a series of meetings of students from eastern Nebraska colleges which will be held Friday and Saturday. They will consider the World Court issue with the intention of returning to their schools and putting the issue before their respective student bodies.

The local committee conducting the meetings is working in accordance with the plan suggested by the national Christian associations which have advised a thorough study of the World Court. On December 17 the issue comes before the United States Senate and these organizations hope that public opinion can be crystallized in favor of the Court before that time.

The meeting Friday evening will close before 10 o'clock. There will be no admission charge.

DR. ALEXANDER TO SPEAK AT FORUM

Attendance at Wednesday Luncheon Makes It Advisable to Get Tickets on Monday.

Dr. Hartley Alexander, chairman of the department of philosophy, will speak at the next meeting of the World Forum. Students are urged to get their tickets early for the meeting which comes Wednesday, October 14 at the Grand Hotel.

The subject of Dr. Alexander's address which is to be announced later will be of special interest to students according to World Forum committee, in that the speaker has just returned from Paris where he delivered a series of lectures last semester.

An increase in attendance from 175 to 225 is announced by the committee which points out that this number is about the maximum and tickets should be gotten Monday of each week.

The meeting announced for this week is the third of a series of weekly meetings. Dean James of the Arts College and Mr. George Woods have discussed questions of interest to students in the previous meetings. Other meetings will include addresses on evolution and the educational situation.

Engineering Society Holds First Meeting

The first meeting of the local section of the Society for the Promotion of Engineering Education this year will be held on Friday evening, October 23. Dean O. J. Ferguson of the College of Engineering will give a summary of the progress made on the investigation of engineering education which was undertaken by the society with the assistance of funds provided by the Carnegie Corporation. Plans will also be discussed for the Nebraska-Kansas sectional meeting at Manhattan in November.

Chancellor Attends Convention. Chancellor Avery was in Omaha on Tuesday of last week to attend the national convention of the American Legion.

When Memories Fail

"He's the Man!" "Who's the Man?" The stands roar as a lone figure emerges from a struggling mass of linemen. The ends and tackles have done their duty and only the safety man remains. Can the runner outwit this man? If he is thrown will the team have enough reserve strength to smash through for a touchdown? These pictures of football history—how vividly we retain them in our minds, at least for a time.

Memories are valuable things but most of us cannot recall the details of bygone days with the passing of years. The memories of one's college days stand out above all others. Just what would it be worth in years to come to have in detail the activities of your college life, pictures of all your friends, of all athletic contests and of organizations to which you belonged? Wouldn't you like to be able to look back at a summary of student life? You will say that it would be worth a great deal but wonder how that could be possible.

In just this way it is possible—The University of Nebraska has a yearbook, "The Cornhusker." Everything which pertains to college life is in this volume, and you cannot afford to be without one. Your chance comes tomorrow—be sure of a "Cornhusker" by having it reserved.

Welfare Workers Report at Next Vesper Service

The Vesper services which will be held Tuesday evening at 5 o'clock in Ellen Smith Hall will be led by Marian Eimers. Dorothy Olmstead, '26, Seward and Lucille Gillette of Nebraska Wesleyan University will give short talks on their industrial work last summer. The two women worked for six weeks in a factory in Chicago to get the factory girls' viewpoint on life. A piano solo will be played by Maud Staeger.

GREEN GOBLINS TAKE IN THIRTY

Initiate Freshmen Thursday Night At North End Of High School Stadium.

WILL PLAN FOR BANQUET

Thirty new members were initiated into Green Goblinks at the north end of the Lincoln high school stadium Thursday, October 8. Green Goblinks is the Freshmen's honorary society which consists of one representative from each fraternity and one or more non-fraternity representatives.

Plans for a banquet for the new members will be made at a meeting of the Green Goblinks which will be held on Thursday, October 15. The place of this meeting will be announced in The Daily Nebraskan.

New members of the Green Goblinks, as announced Saturday afternoon by Sigfried North, secretary, are: Aeneas—Durward Barnes. Alpha Gamma Rho—Kenneth Anderson. Alpha Tau Omega—Ramsey Chapman.

Alpha Theta Chi—Emerson Smith. Beta Theta Phi—Frederick Daley. Delta Chi—Steven Stearns. Delta Sigma—Herbert Ludke. Delta Sigma Lambda—Perry Phillips. Delta Tau Delta—William Fleming.

Delta Upsilon—Donald Kelly. Farm House—Harold Hepperly. Kappa Psi—Inar Johnson. Kappa Sigma—Arthur Shrader. Kismet—Joe Girnburg. Lambda Chi Alpha—Monroe Keizer.

Mu Sigma—Merle Smith. Phi Delta Theta—Carl Weber. Phi Gamma Delta—Aulwin Larson. Phi Kappa Psi—Martin Aitken. Phi Sigma Kappa—Charles Miller. Phi Tau Epsilon—James Hoyle. Pi Kappa Alpha—Earl Baldwin. Pi Kappa Phi—Henry Delong. Sigma Alpha Epsilon—Donald Donisthorpe.

Sigma Chi—Elton Fee. Sigma Chi—George Gillespie. Sigma Phi Epsilon—Louis Hancock. Tau Kappa Epsilon—Harold Taylor. Zeta Beta Tau—Arthur Green.

on-Fraternity Representative—Ted Gugler.

TEAM RETURNS FROM MISSOURI THIS MORNING

First Chance to Show Coach Bearg That Student Body Is Behind Him.

WILL ARRIVE AT 10:30

Arrangements Made At Burlington So That Crowd May See And Hear From Players.

The Nebraska football squad returns this morning at 10:30 on the Burlington route.

Last Sunday the team returned from Illinois victorious. Five thousand Cornhuskers met the train. This morning the same team returns from Missouri defeated. It will probably be the best chance of the year to demonstrate "Nebraska spirit."

The Nebraska team has passed it one of the hardest schedules in its history. The team which it meets Saturday is rated as one of the very best on the Pacific coast. A slump in school spirit as the result of the recent Missouri defeat might prove especially disastrous at this time.

The showing today will give Coach Bearg, the new Cornhusker mentor, his first opportunity to see whether or not the student body is behind him.

Crowd Will Hear From Players. The plans are being made for the crowd to have a chance to see and hear from the players and coaches at the station. Spaces will be roped off so that the squad may pass through the crowd.

The cross-country squad, which defeated the Missouri team at Columbia Saturday, will be with the team.

The Corn Cobs will assist in the reception, wearing their new uniforms for the first time. The band and cheerleaders will be on hand sometime before the arrival of the train.

Visits Departments of Engineering Here

Dr. Gabriel Becker of the Technical University of Charlottenburg, Germany, visited the departments of Agricultural Engineering and Mechanical Engineering last week. Dr. Becker is in charge of the research work at the above institution and is touring this country visiting the various automobile factories and commercial research laboratories.

He made a special trip to Lincoln from Detroit in order to secure first-hand information relative to the research work here in Agricultural Engineering, especially tractor testing. This work is watched very closely by the technical men in Germany and other European countries.

After a tour over this city, Dr. Becker expressed himself as being more favorably impressed with Lincoln than with the eastern cities which he had visited.

Visits Home Ec Department. Ralph Johnson, famous artist who is now conducting a series of lectures in Omaha, visited the home economics department last week.

YESTERDAY'S SCORES

Kansas Aggies 0, Drake 19.
Beloit 3, Notre Dame 19.
Grinnell 6, Minnesota 34.

FIRST AWGWAN OUT TUESDAY

Will Take Care of Late Subscriptions at Post Office Window.

DELIVERED AT STATION A

Copies of the October Awgwan will be distributed to subscribers on Tuesday, October 13, from Station A, in University hall, according to an announcement made Saturday by the staff.

A large number of extra copies have been printed, and late subscriptions will be taken at the post office window. Not all of the campus organizations have as yet availed themselves of the special rates made on "block" subscription rates. Block subscriptions for thirty copies at special rates may be entered Monday or Tuesday.

Results of the Awgwan subscription campaign have been gratifying, but it is felt that more of the organizations should take advantage of the special rates available to them, thereby making possible the publication of an increasingly better magazine.

Many attractive features are included in the forthcoming issue of Awgwan, including a short story and "Interviews with representative freshmen." The art work has been selected with special care and compares favorably with that in any college humorous publication. The cover page, designed by Philip Fent, is one of the most attractive features of the October number and it marks an interesting departure from the conventional style.

Chase Plow Works Are Given Over To Agricultural Engineers For Day

With greasy hands and faces, fifty-three student engineers left the Chase Plow Works, tired and happy, feeling well paid for their half day's work in the factory, a privilege never before given to a body of student engineers.

This was made possible through the co-operation of Mr. W. L. Chase, president of the Chase Plow Works, formerly head of the agricultural engineering department of the agricultural engineering department, and Nebraska student chapter of the American Society of Agricultural Engineers.

The students took complete charge of the factory and were instructed in their jobs by the factory workmen themselves. The work was divided into twenty-two jobs and assignments were made so that each man was given a chance to work at several different jobs.

Mr. Chase gave the men a talk, before they went to work. "This is a new thing in factory circles, he said, 'to a group of students, green in factory experience, should be allowed to take over a plant and run it.' He stated that he felt confident of the outcome because he had been a teacher and felt that he knew them.

He warned the men to use their heads and not do anything until they knew positively what they were doing. Each man working was required to sign a written agreement to the effect that the University of Nebraska and the Chase Plow Works were released from all responsibility in case of accident.

Office work was one of the jobs that looked easy and comfortable, but proved rather heavy brain work. The shop work was a little harder, especially the furnace work. There were over one hundred different operations in the twenty-two jobs. For example it required about fifteen operations to assemble a lister plow. Other furnace work was the stamping of beams and braces. "I enjoyed your visit," said Mr. Chase when the students left, "and hope that you have learned something here that I know is not taught in books or laboratories."
