

HUSKERS HAVE EASY WORKOUT

Team Has Light Practice During the Early Part of This Week

PLAYERS NURSE INJURIES

It is a battered team which is practicing on the field south of the stadium this week. The bugaboo of injuries has at last hit the Husker camp, and a number of hurts have followed in the wake of the invasion of the Washington Huskies last Saturday.

Work in preparation for the Kansas game this week has been so far been light, but some strenuous practice will undoubtedly be the order for Coach E. E. Bearg's proteges from now on.

Dope of course favors the Huskers, but word from Lawrence indicates that Kansas is putting forth extra efforts for a more finished squad to make the trip to Lincoln.

The Jayhawkers have few injuries to bother them, and Coach "Potsy" Clark will bring an aggregation trained for one feat—to beat Nebraska. In Kansas-Nebraska games the Huskers have a large margin of victories, which provides all the more incentive for a Jayhawker victory this year.

It is doubtful whether Kansas can weather the storm of the Nebraska team, but at the same time Coach Bearg is letting no instruction go by. The practices this week are just as much in earnest as those of last week.

The Huskers pulled a good trick when they held the Washington team to a tie; yet the game showed in a startling fashion defects which must be remedied before a championship aggregation, or anything like that, is produced.

NUMERAL MEET HOUR CHANGED

Events Will Start at 4 O'clock To Accommodate Those With Classes

VARSITY NOT ELIGIBLE

The time for the numeral track meet to be held Thursday afternoon, has been changed from 3 o'clock to 4 o'clock in the afternoon to accommodate those who have three o'clock classes, according to a statement by Coach Schulte Tuesday. The date for the second numeral meet has been set for Thursday, October 29.

The men who cannot report for the field events and running events at the time they are scheduled may run for time at the close of the meet and their time will score them places in the events according. However, in the sprints and hurdles all men must report for the first race as this arrangement is not possible for the shorter events, according to Schulte.

The meet starts at 4 o'clock and will end at 5:30 allowing plenty of time for each event. Varsity football men and Varsity cross country runners will not compete, Coach Schulte explained. The idea of the meet is to allow the new men and men of lower caliber a chance to win the numeral honors in the sport.

In the spring there are estimated to be 300 men out for track of which only about thirty receive the coveted

Husker Football Fans Are Turning Their Attention to Valley Games

With the Washington game over, Nebraska football fans are turning their attention to the Missouri Valley teams which the Cornhuskers meet during the remainder of the season. The game with the Kansas team Saturday will bring together two rivals who have battled on the gridiron for years. These Homecoming opponents are bringing to Lincoln an aggregation of football warriors who are filled with determination to gain the first victory over the Cornhuskers since 1916.

Kansas this year has a line made up of six men who top the six foot mark. And the seventh, an end, is five foot ten inches tall. They are a fighting bunch of gridsters who have learned a lot of football since the start of the season despite their defeat at the hands of Iowa State College and the Kansas Aggies.

Kansas always points for the clash with Nebraska, and never have the Cornhuskers been able to gain a victory over the boys from the state to the south without a hard fight. Even in the years of 1921 and 1922 when the Nebraskans won fame for their defeats of Pittsburgh and Notre Dame, respectively, the Kansas game proved to be one of the hardest hurdles on the Nebraska campaign. And in 1923, when Nebraska again downed the fighting Irish of Notre Dame, Kansas held the strong team to a scoreless tie.

Oklahoma is Threat
Behind the Kansans is commencing to loom more formidably than at any time this year the threat of the

ed award the "N." As a result, in order that the men who have marked ability and have worked hard, may get recognition for their efforts, Coach Schulte devised the numeral system several years ago. With the opportunity to devote his entire time to track, Schulte has extended the period of numeral winning into the fall training period.

"A new numeral was devised last spring which is more in keeping with the sport," said Schulte. This numeral is a scarlet-winged track shoe, with '26' in white felt on the front. It is worn on the regular track competition jersey.

The schedule for the meet Thursday will be the regulation Valley meet arrangements used in intercollegiate competition.

The order of events:
100-yard dash.

Heavy Kansas Tackle Has All-Valley Honors

REGINALD SMITH
This 210-pound tackle, given all-Missouri Valley honors last year, will be a menace to the Huskers when Kansas and Nebraska clash in Lincoln October 24. Smith is captain of the K. U. eleven, and is playing his third year.

Call for Tennis Practice Reports

All practice reports for women's tennis must be handed in at the W. A. A. desk, in Armory 203, not later than Thursday, October 22, unless the time has been extended on account of the weather. The drawings will then be made and the Women's Athletic Association fall tennis tournament will open on Monday, October 26. It is necessary to have five practices, one hour in length to be eligible for the tournament. In handing in a practice, include the date, time, and the name of the player.

Signals!

—vital in electrical communication, too

"41-7-27-3," sings out the quarterback; and the football goes on towards a touchdown. "Madison Square 32198," says a voice in San Francisco; and a message starts on its way across the continent.

But the similarity between football and the communication art doesn't stop there. In each case signals have unleashed a great force. Coordination has scored the goal.

And this was made possible only through years of preparation. In one instance, on the gridiron. In the other, in the college classroom and the laboratories of industry.

That, in short, is why men who've learned their fundamentals and how to apply them at the snap of a signal are qualifying for positions of leadership in the greatest field of signals known to man—the field of communication.
