### AN OPPORTUNITY

Duke University of North Carolina is now the best endowed school in the nation. James B. Duke, the tobacco manufacturer, made the school rich almost overnight when he donated to it a large part of his immense fortune. The college, formerly a small and insignificant, is now in a position to rival, or surpass, Harvard, Cornell, Dartmouth, Chicago, or any other of the larger en-

dowed universities of the country. Without financial limitations and with no hampering traditions, the trustees and officers of Duke Univernity have an unheard of opportunity to perform a great experiment in eduention. Other well-endowed schools have been held back because they

very easy to do. Just put a few drops of Glostora will be delighted to see how much on the bristles of your hair brush, more beautiful your hair will look, and brush it through your hair and how easy it will be to manage, when you dress it. You will be surprised at the result. It will give

It keeps the wave and curl in, and leaves your hair so soft and pliable, and so easy to manage, that it will stay any style you arrange it, even after slampooing-wheth-
