

SOCIETIES OF JUNIOR CLASS SPONSOR PROM

Silver Serpents and Vikings Will Entertain Seniors on April 16

REVIVE FORMER CUSTOM

Affair Will Be Informal and Will Usher in the Spring Party Season

Reviving a former custom of the University, the Silver Serpents and the Vikings are sponsoring a Junior-Senior prom to be held on April 16.

This party, which will be informal, will usher in the spring party season, and will take place at the Scottish Rite Temple. A special orchestra is being secured for the occasion.

Tickets will be sold to anyone in the University.

The juniors will be in charge of this party to honor the seniors, and the plans are being made by the men's and women's honorary junior class organizations. The committee in charge, appointed by the Vikings and the Silver Serpents follows: general chairman, Wendell Cameron; in charge of tickets, Stanley Reiff; decorations, Lloyd Mousel and Kathro Kidwell; favors, Richard Brown; chaperons, Virginia Taylor; publicity, Gretchen Renard.

SCHMIDT TO GIVE FACULTY RECITAL

Instructor of Piano Will Present Program Monday Evening in the Temple Theater

Herbert Schmidt, accredited instructor of the School of Fine Arts, of the University, and member of the piano faculty of the University School of Music, will give a faculty recital Monday evening, January 18, at the Temple Theater. The public is cordially invited.

The selections he will play are: Handel—Fantasia, C Major. Bach—Prelude and Fugue, A flat. List—Variations on a Theme by Bach.

"Walling, crying, mourning, sighing."

Brahms—Capriccio, Op. 76, No. 2. Intermezzo, Op. 117, No. 2.

Rhapsody, Op. 79, No. 2. Bridge—The Dew Fairy.

Stojewski—Chant de l'Amour.

Saint-Saens—Tocatta, Op. 111.

Chopin—Sonata, B minor, Op. 58.

Allegro maestoso

Scherzo

Largo

Presto, ma non tanto.

Experiment on Cases For Museum Displays

Plans for the display cases in the new museum are now being worked out by members of the museum staff, and will be included in the specifications for the new building. Several experiments are being made with shelves and lights to determine the most satisfactory arrangement.

Picture of Morrill Hall in Catalogue

The new catalogue of the University School of Fine Arts will contain a picture of Morrill Hall as it will appear when completed. The new building will house both the School of Fine Arts and the University Museum.

Vacancies on Daily Nebraskan Announced

Applications for appointment to the following positions on the staff of The Daily Nebraskan will be received until noon, Tuesday, January 19:

Editorial (first half of the second semester): editor, contributing editors, managing editor, news editors, assistant news editors.

Business (second semester): business manager, assistant business manager, circulation manager.

Application blanks may be got at the office of the chairman (Administration Building 207) and at the office of Secretary J. K. Selleck (Armory).

Applicants are expected to submit—in clear, concise form as possible—evidence as to their qualifications for filling the positions for which they apply. (Material already on file in this office need not be duplicated.)

M. M. FOGG, Chairman Student Publication Board.

RECEIVE ORIGINAL ETCHING

Donor States That He is Planning Collection for School

William C. Gregg, ex-'84, of Hacksack, N. J., has sent the University School of Fine Arts an original etching by Paul Cadmus entitled "Sarah." Prof. Paul Grumann, director of the school, has received a letter from Mr. Gregg stating that he is contemplating a collection of such etchings for the school and will send examples from time to time. The group will be placed in the University gallery and will be known as the William C. Gregg exhibit. Mr. Gregg is also the donor of a painting, "Venice from the Canal of San Glogio" by E. W. Cooke, which is now a part of the University's collection.

SCOTT SPEAKS TO ENGINEERS

History of Portland Cement Traced Down to Present Time

GIVES ILLUSTRATED TALK

"Many of our modern improvements would still be unknown but for the invention of Portland cement a century ago," stated H. A. Scott in his illustrated story of the manufacture of cement, at the meeting of the American Society of Civil Engineers Friday morning. He traced the history of cement from early times down to the present.

A crude cementing material was invented by Joseph Aspdin, mason of Leeds, England, in 1824. The Thames river channel, 1828, and the London drainage works of 1859, are early instances of its use. It was first made in the United States in 1872, the Drexel building in Philadelphia being the first great skyscraper to use American Portland cement. There are now 140 plants operating in 29 states, and in 1924 they shipped 145,747,000 barrels of the material.

Finer Than Flour

"Commonly made from solid rock, cement is actually finer than the flour your grocer sells," stated the speaker. "To secure this result, unique manufacturing processes are employed. After its manufacture, it is shipped to the user in sacks that are tied before they are filled."

The standard product is made from a variety of materials. Mr. Scott explained, by either of two processes—the wet or the dry process. The raw materials are hammered into powder, burned in a huge rotary kiln, subjected to intense heat of 2,500 to 3,000 degrees Fahrenheit. The resulting clinkers are then ground into cement. Eleven chemical and physical tests are then made to insure standard qualities.

Will Hold Tryouts For Wrestling Meet

Tryouts for the Missouri dual wrestling meet on January 30 will be held Tuesday and Wednesday of next week. Any men wishing to try out should hand their names in to Dr. Clapp at once.

Bishop Waldorf Says Students Should Prepare For Profession

"You have no business to spend four years at the University without knowing what you are going to do and where you are going," said Bishop E. L. Waldorf in his lecture on "Dreams" to students at the University of Missouri.

In the sentence "Behold this dreamer cometh," Bishop Waldorf pointed out the relation of two of the words—"dreamer cometh." "A dreamer is always coming," said the Bishop. "It is the one who doesn't dream who stays still."

"There are two kinds of dreams—day dreams and night dreams. Once it was thought that night dreams were sent from God, and attempts were made to interpret them. Robert Louis Stevenson claimed that one-fourth of his books came to him in dreams. The perfected sewing-machine was the result of a dream of a man who had spears pierced at the ends. Julius Ward Howe dreamed at night the words of the Battle Hymn of the Republic."

Day Dreams Best
"But day dreams are best. A day dream is a plan worked out in colors; it is an idea with a blue print; it is the unachieved, the unattained."

"A day dreamer has his head in the clouds, and his feet on the earth; his eyes are on the stars, but his hands are on the plow. It is the

Chinese Woman Fills Position First Held in Y. W. C. A. by Grace Coppock

Miss Ting Shu Ching is Appointed National Executive Secretary in China; First Native Woman To Hold Position

Miss Ting Shu Ching and Miss Mitchi Kawai, national executive officers of China and Japan. Miss Ching will hold the office once filled by Miss Grace Coppock, a Nebraska graduate.

LOCAL ARTISTS GIVE PROGRAM

Sponsored by Lincoln Branch Of American Association Of University Women

FOR SCHOLARSHIP FUND

The Lincoln branch of the American Association of University Women entertained with a benefit musicale at the home of Mrs. Carlisle Logan-Jones Saturday afternoon. The proceeds will be used for the local scholarship fund. The committee in charge of the benefit was Mrs. Philo M. Buck, chairman; Mrs. Will Owen Jones, and Mrs. Van B. Smith.

A group of Lincoln artists made up the program which included a group of songs by Mr. Roy Wall, baritone, accompanied by Miss Marguerite Klunker, and selections by the Harmonique Trio, composed of Mrs. August Molzer, violin, Miss Lillian Eich, violin cello, and Mrs. Edith Burlingame Ross, piano.

Awards Made Each Semester

The scholarship fund committee, of which Miss Gertrude Jones is the chairman, awards fifty dollars each semester to the University woman they consider most deserving. Candidates for the fund must submit a written application to the committee, showing they have a fair record in scholarship, are interested in general college activities and are of sophomore or junior standing. The names of two faculty members who will recommend the applicant, and one home town friend who is competent to judge the woman's ability, must be attached to the blanks.

The musicale program was as follows:

SeechiLungi dal caro bene

Arr. by Lane Wilson.....When Dull

Care

Handel.....Recitative and Aria from "Rinaldo"

Roy Wall

Cadman.....Trio in D Major

Harmonique Trio

Gertrude Ross.....Roundup Lullaby

Arr. by Robinson.....Water Boy

Head.....The Sea Gypsy

TRACK MEN IN FIRST TRIALS

Preliminary Tryouts Are Held For K. C. A. C. Meet Coming in February

GOOD TIME IN EVENTS

With good time in several of the events for so early in the season, and a fairly large number of men answering the call for the first tryouts by Coach Henry F. Schulte, the Husker track mentor, the preliminary trials for the Kansas City Athletic Club meet, to be held February 5, were very successful. Captain Locke featured in the 50-yard dash, winning easily in spite of a slight leg injury; Wyatt, besides placing second in the first heat of the 50-yard dash, won the first heat of the 440-yard race when he covered the quarter mile in 53.1 seconds, for the best time of the day.

Wirsig, joint holder of the Varsity pole-vault, cleared the bar at 12 feet. Rhodes, who was second, has the other claim to record. Johnson, star of the freshman team last year, led two veterans, Jack Ross and James Lewis, to the tape in the half mile running the event in 2 minutes 5.5 seconds. Zimmerman, Varsity two miler of last season, led the milers to the tape, running the distance race in 4 minutes 48.7 seconds. Searle and Lawson, of the 1925 harrier squad, were second and third.

Tie in High Jump

Crocker and Joe Weir were the outstanding performers in the high jump, but were unable to clear the bar at better than 5 feet 6 3/4 inches. Crocker winning. Krimmelmyer took first in the shot-put, heaving the sixteen pound weight 42 feet 2 inches. Locke won two of the dashes, and the third heat was won by Davenport, another of last season's freshmen. Locke was not entered in this event. Bill Hein, sprint star of the last two seasons was nosed out just at the finish.

Ed Weir did not compete in any of the Friday events though he did suit up. Roberts, a promising half miler of the freshman squad last spring was also on the sick list and did not run. Barr, with the time of 55.9 seconds, and Soderberg with the same in the second heat were the other two quarter-mile winners. However, Tappan and Ballah in the fast heat showed good form. In the shot put, Hurd, a former student, and present member of the police force, took second place, with Mollen third.

Another Trial Next Thursday

The javelin and discus men worked out on the indoor devices, but no outdoor workouts were held. Of these Pospisil of the team last year, and Scott, also a last year's member look good in the discus. Almy, letter man in the javelin, and Joe Westupal, have been working on this event. Coach Schulte announced that he would have another trial probably on Thursday of this week.

The results:

50 yard dash (first heat) Locke, first; Wyatt, second; Easter, third; Doty, fourth; Summers fifth. Time 5.7 seconds.

50 yard dash (second heat) Locke first; Doty, second; Beckwith, third; Wickman, fourth; J. Weir, fifth. Time 5.7 seconds.

50 yard dash (third heat) Davenport, first; Hein, second. Time 5.8 seconds.

(Continued on Page Four.)

Prospective Teachers Should Register Soon

Any University student seeking a teaching position should register in the Bureau of Educational Service as early a date as possible. Calls for full work will be coming in within the next thirty days and it requires about that length of time to prepare credentials for use.

The Bureau of Educational Service is at the disposal of all University students, past or present, regardless of the college which the student may be matriculated with. Calls for service are not confined to public school positions only. Many requests are received from colleges, normal schools, junior colleges, agricultural schools and industrial plants. If in need of employment, confer with the director, Room 305, Teachers' College.

PLAN CHARTER DAY PROGRAM

Complete Tentative Plans for Observing Fifty-Seventh Anniversary

BROADCAST OVER KFAB

Tentative plans for the observance of University Charter Day, on February 15, the fifty-seventh anniversary of the day on which the bill chartering the University was passed by the legislature and signed by Governor Butler, have been completed by Robert F. Craig, '24, for the University alumni association.

The program will be broadcast over both the Nebraska Buick station, KFAB in Lincoln, and the Westinghouse station, KFXX at Hastings, from 8:05 in the evening to 2 o'clock in the morning. One of the features of the program will be the ringing of the old University Hall bell, which years ago called students to classes and chapel, announced football victories, and was the butt of scores of student pranks.

The University band and other University musical organizations will provide music, and the University Players will give a short play. Among the speakers will be: Governor Adam McMullen, Chancellor Samuel Avery, Regent George N. Seymour, President Martha Kline Huffman and Secretary Harold Holtz of the University Alumni Association, Dean O. J. Ferguson, Dean Amanda Heppner, Professor Clara Conklin, Prof. F. M. Fling, Prof. M. M. Fogg, Prof. Lawrence Fossler, Prof. Louise Pound, Judge E. P. Holmes, Student Pastor Dean R. Leland, Coach Ernest E. Bearg, Captain Ed Weir, and Wilbur C. Peterson, editor of The Nebraska Alumnus.

Over 400 Alumni Life Members

The total number of life memberships in the University alumni association has passed the 400 mark as a result of several memberships received during the past two weeks. Of the total number, 173 have been received since last July 1.

Visitors at Geology Office

E. P. Philbrick, '23, E. E. Lindblad, '17, C. B. Taylor, '24, and Marcus Banghart, ex-'23, were among the recent visitors at the office of Prof. E. F. Schram of the department of geology.

Two Freshmen at University of Wisconsin "See America" on Skis

(The Daily Cardinal)

Two freshmen who came to the University of Wisconsin from Norway last September have just discovered America. They did it riding on skis at Lake Placid, N. Y., a week ago when they represented the University in an inter-college ski and skating tourney in which they won thirteen of eighteen points for their team and tied for first place with the University of New Hampshire.

Overnight almost they have become famous on the campus and off. Two unobtrusive frosh are therefore rubbing their eyes wondering what movie offers, fraternality bids, newspaper interviews, and all really mean anyhow in this country they have just discovered. Of course they are pretty good skiers even in Norway where skis are as necessary as suspenders, but neither Hans Troye or Knute Dahl can quite comprehend all this fuss.

Discovered by Coach

Kay Iverson, coach of outdoor sports at the University of Wisconsin, early this winter found out that the two boys could ski well and he naturally took them along to the Lake Placid meet where a team of five entered competition with some 20 odd colleges in Canada and the United States. Hans Troye, of squat build, and a Harold Lloyd smile, climbed to

the jump and landed 136 feet from his starting point. He did it so well that they gave him first place. He got a lot of violent handshakes and the biggest loving cup he had ever seen in his life.

"When they pushed that big silver pail into my hands," he says, "I could hardly believe it. All my Norwegian trophies looked like thimbles in comparison."

Knute Dahl is shorter than Hans, and much more bashful but an uneasy rascal when he gets on cross-country skis. Well, they put him on a pair of them in the seven mile race and although he started out seventh he came in five yards behind the first starter.

"Gosh," he grinned bashfully, "I was sure I'd beat that guy."

At any rate he won the run and Hans Troye came in second, making eight points for the two of them there alone. And they gave Knute a cup as big as the "pail" his roommate had received in the other race. But that was not all. The boys got into the movies too.

Subs for Movie "Hero"

A group of about 50 players from the Lasky Film corporation were taking pictures for a new release called "Glorious Youth." It is a story about outdoor sports and the hero

NEBRASKA WINS OVER GRINNELL BY 24-14 SCORE

Slow and Uninteresting Game Affords Few Thrills for Spectators

SMAHA HIGH POINT MAN

Floor Work of Jug Brown and Vint Lawson Contributed to Defeat Of the Pioneers

The Husker basketball team started its Missouri Valley schedule with a 24 to 14 win over Grinnell last night. The game was slow and uninteresting and the fifteen hundred people that packed the Armory were seldom given a thrill. Both teams played a defensive game, seldom shooting until they had worked the ball well up under the basket.

The Nebraska defense was working in a smooth fashion and it was not until the second half was well under way that the Pioneers were able to score more than one field goal. Half time found the Huskers leading 8 to 5. After the first few minutes of play Nebraska was never in danger.

Brown, Nebraska floor guard, was the outstanding player of the game. He contributed six of the Husker's points and played a wonderful floor game, time and again breaking up the Grinnell offense by intercepting the ball. Lawson, his running mate, smothered the Grinnell forwards and hurried their shooting until they became erratic. He shared the defensive honors with Brown.

Smaha came up to his last season's form for the first time this year, shooting five field goals which made him high point man for the game. His floor work was exceptionally fine, and the only fault to find with his playing was his tendency to shoot when men closer to the basket were open.

Elliott and Presnell, two of the youngsters on the squad, contributed eight points to the Nebraska total. Elliott caged two field goals and a free throw, while Presnell accounted for a goal from the field and one from the foul line.

Doffing, bespectacled Pioneer forward, played the best ball for the Iowa team, scoring twice from the field, and once on a foul. Moran, the star of the Grinnell quintet, could not get to going, perhaps because of a broken nose he suffered the previous night in the game with the Kansas Aggies. He wore a steel brace over his face to protect the injured member. Doffing likewise wore a guard to protect his glasses.

Grinnell was the first to score when Doffing caged a neat basket from the side of the court. Brown tied the count with a fairly long shot and Elliott put the Huskers in the lead by sinking one from under the basket. Doffing made the score stand 4 to 3 by sinking a free throw on Eckstrom's foul. Smaha put the Huskers farther in the lead by making two baskets in rapid succession. Chase and Mark of Grinnell made the remaining points of the first half each shooting a free throw.

Smaha opened the second half with a pretty basket from the side of the floor and he was followed by Brown with an identical shot from the opposite side of the court. Mark scored the Pioneer's first points of the second half with a field goal. Presnell, who had been sent in at forward, caged a neat goal from underneath the basket and Smaha followed with his fourth basket of the game. Doffing scored Grinnell's third goal from the field when he made a difficult shot from the side.

Brown put Nebraska ten points to the good by ringing one from underneath the hoop and Smaha added two more points to the total with his fifth basket. On Wing's foul Presnell added another point. Elliott made the score read 24 to 9 with a free toss on Moran's foul and a neat basket caged from the center of the

(Continued on Page Four.)

WEATHER FORECAST

Sunday: Partly cloudy; not much change in temperature.

Weather Conditions

The mild and fair weather continues throughout the central portion of the country with temperatures from 10 to 20 degrees above normal in the Missouri and upper Mississippi valleys. Snow has fallen in North Dakota, western Canada and on the western slope of the Rocky Mountains, and rain on the north Pacific Coast. Fair and moderately cold weather prevails in the Ohio valley, the lower Lake regions and the eastern and southeastern states.

THOMAS A. BLAIR, Meteorologist.
