

PI KAPPA ALPHA AHEAD IN TRACK

Delta Tau Delta and Alpha Tau Omega Advance In Competition

MEET ENDS SATURDAY

Pi Kappa Alpha maintained its lead during the fourth day of the inter-fraternity track meet while Delta Tau Delta and Alpha Tau Omega advanced into second and third positions respectively. The leader has piled up a total of 10,309 points gaining 6,011 since Tuesday. Delta Tau Delta remains 143 points behind the leader.

In Thursday's competition Johnson of Theta Chi won the 660-yard dash, clipping off the distance in 1:27.5. Davenport of Delta Tau Delta took second with the time of 1:30.4 and Kelley of Pi Kappa Alpha was third in 1:31.1 minutes.

In the pole vault Reneau of Beta Theta Pi, Schoenman of Delta Tau Delta and Lynn of Pi Kappa Alpha tied for first at ten feet.

Friday's events will be the 440-yard dash and the broad jump.

The athletic office announces that eight fraternities have not yet paid their registration fee of one dollar and that they will be expected to do so today.

The standings are:

1. Pi Kappa Alpha	10,309
2. Delta Tau Delta	10,166
3. Alpha Tau Omega	9,079
4. Sigma Nu	8,882
5. Alpha Sigma Phi	8,612
6. Theta Chi	8,587
7. Sigma Alpha Epsilon	8,136
8. Farm House	7,889
9. Sigma Phi Epsilon	7,638
10. Phi Sigma Kappa	7,528
11. Tau Kappa Epsilon	5,860
12. Beta Theta Pi	5,352
13. Kappa Sigma	3,118
14. Pi Kappa Psi	3,007
15. Delta Chi	1,770

KANSAS ANNOUNCES NEW TRACK COACH

H. J. Huff, Now of Grinnell, Will Take New Position With the Jayhawks

LAWRENCE, Kan., Feb. 11.—Dr. H. J. Huff, whose appointment as head trainer for all athletic teams, and head coach of track teams at the University of Kansas has just been announced, is not only an athlete of note himself, but is an expert trainer of athletes. For the past twelve years he has been director of athletics at Grinnell college, Grinnell, Ia.

With the smallest enrollment of any Missouri Valley school, Grinnell, under Huff's training, has developed track stars and track teams with enviable records, especially in the sprints and relays.

In the national intercollegiate track met in Chicago last June, the Grinnell track men made more points than any other Missouri Valley team, and were topped only by two of the Big Ten.

Morgan Taylor, world champion distance hurdler and exceptional broad jumper, was developed by Dr. Huff, as were Hoyt and Paul. Haas, in the 440 is also a pupil of Dr. Huff. Doctor Huff himself was national champion in 1907 in the 100 and 220, and was a member of the American team in the 1908 Olympics at London.

Doctor Huff was graduated from Grinnell college in 1909, and after three years in the east, returned to his alma mater as track coach. Two years later he became director of athletics.

The well established Kansas Relays and the wealth of track material available at the University of Kansas were factors inducing Doctor Huff to come to Kansas. He will spend a short time on the campus just before the Relays, April 17, when the new football coach, Franklin C. Cappel and his assistants are here. Doctor Huff will move his family to Lawrence during the summer, and will assume his duties September 1.

"Dr. Huff is most highly recommended as a man, a leader, and a successful coach," said Chancellor E. H. Lindley, in announcing the appointment. "The athletic board feels that the University is most fortunate in obtaining the services of Doctor Huff."

IN THE VALLEY

...by...
"Zim" and "Zim"

Surely, though Oklahoma is the present leader in the Valley basketball race, the Jayhawkers from Kansas are only slightly behind. It seems to be precedent for the Kansas school to have basketball players. "Fog" Allen knows basketball from beginning to end, and there seems to be no doubt about that.

The other evening Kansas met the Drake Bulldogs. That isn't half of it. From the results one would suppose that they were unkind enough to go right on by. Allen put fifteen men into the line up that evening, or in other words all of their second and even third string players.

Drake was unable to stop the rush as the score would indicate. Now Drake has a mighty good basketball combination. In pre-season contests they took the great Illini of the Big Ten into camp with ease, and then downed Chicago.

Kansas has developed some wonderful athletes in other branches of the field of sports too, but none so shining as their tossing quintets. Winning teams it seems become a habit with a given institution in a given sport. To Kansas it is basketball. Nebraska was one time king on the gridiron, while Oklahoma has been a leader in baseball until late years.

But young blood has been coming up in the coaching staff of various Valley schools. They represent the greatest athletes from great teams—men who have still the mark of the game freshly impressed upon them. These coaches no longer recognize traditional power in a foe. They instill into the minds of their teams the fact that a game is won through the proper mental attitude as much as proper physical training. They dwell on the psychology of the game.

As a result, Missouri sent the great Huskers home defeated. Kansas Ag-

gies last year with a comparatively poor basketball team gave the Jayhawkers basketball squad a severe reverse. Nebraska has consistently left the nationally known Notre Dame gridiron warriors defeated on the field when the supposedly greater teams fell before them.

Last fall, after Missouri had made a clean sweep in football, and Kansas had lost in almost every fray, the Jayhawkers arose and conquered the great Tiger at Lawrence in the final contest between the two teams. Since then the Missouri clan has lost cross country and basketball to the Kansas aggregation.

February 18, the annual indoor dual meet between the two schools takes place. It has been a classic of long standing between the two schools. Missouri has a wonderful track squad this spring. Kansas is comparatively weak. But in the face of the facts, Coach Simpson is leaving nothing unturned to stem the possible rise of the Jayhawkers cinder artists to the occasion.

The Tiger coach has passed a decree forbidding the Show Me athletes to date until after the contest. This is novel in itself. But on the face of it the order would seem unnecessary. There must be strong determination in the heart of every Tiger to win his event. Perhaps even now the strain of nervousness begins to creep into their system.

It seems that with the meet an important one, the Tiger mentor would delay as long as possible the serious thoughts on the race. In a university, an athlete is old enough to know what is right and wrong in training methods. No decree should be necessary, because every man has his heart set on winning. It is the mental adjustment of his men as much as the physical well being that a coach must look after before the big contests.

OKLAHOMA AGGIES WORK ON SAND LOT

Will Play Minnesota Pro-Season Baseball Game Before Opening Valley Schedule

STILLWATER, Okla., Feb. 11.—Priming for their initial bow in Missouri Valley baseball, to be made on the Oklahoma university lot, April 2, Oklahoma Aggies will entertain Minnesota university on the Stillwater diamond, March 29.

Eighteen engagements, including two or three with teams outside of the Valley, tentatively are slated on the bill of fare for Oklahoma A. and M. competition this spring. In addition to Minnesota, St. Mary's college of St. Mary's, Kansas, probably will be met by the Maulbetsch nine.

Oklahoma university, Missouri university, Kansas university, and Kansas State Agricultural college, are Valley schools on the Aggie list. Each of the four will be encountered four times, twice at Stillwater and twice on foreign fields.

Tentative schedule:

March 29—Minnesota at Stillwater.

April 2-3—Oklahoma at Norman.

April 7-8—Missouri at Stillwater.

April 16-17—Missouri at Columbia.

April 23-24—Oklahoma at Stillwater.

April 26-27—St. Mary's at St. Mary's.

April 28-29—Kansas Aggies at Manhattan.

April 30-May 1—Kansas at Law-

rence.

May 5-6—Kansas Aggies at Stillwater.

May 19-20—Kansas at Stillwater.

G. D. Swezey Tells of Organization Of World Astronomers for Research

Astronomy, one of the most important sciences in the Middle Ages, is not being neglected by the scientists of the twentieth century. Professor G. D. Swezey, chairman of the Department of Astronomy, tells of the organization of the observatories all over the world in trying to discover new facts about the heavens and in verifying those already discovered.

All new discoveries made by astronomers in the United States are reported to the Harvard observatory which is the distributing station for this country. There is a similar station in Europe which collects all information concerning the movements of the heavenly bodies gathered there. The astronomers of the world are always on the lookout for new comets and on discovering one report it to the distributing station. This station sends out all the particulars concerning the new comet and its position and strength are verified.

A bulletin published by the Harvard observatory reports the discovery of two new comets on November 17 and December 18. The one was discovered from the Cape observatory located in Africa and the other was reported by Professor Van Biembroek from the Yerkes observatory. Both of these comets have been observed by astronomers in all parts of the world and their position and size have been proved.

A daylight meteor was reported to have been seen in eastern New England and this report has been verified by the Harvard observatory through a questionnaire sent to persons who observed the phenomena.

This is a very rare occurrence and has caused much comment in scientific circles.

The astronomical observatory at the University of Nebraska is not very large. It is equipped with a four inch telescope, micrometers and a spectroscope which may be attached to it, giving elementary students the opportunity of observing the more interesting stars and planets. A large collection of lantern slides is available for lecture work.

National Organizer Will Speak
Thomas Q. Harrison, national organizer for the Fellowship of Youth for Peace, will speak at an inter-denominational banquet of university students, March 18.
