

TRUE RELIGION LOOKS AHEAD SAYS INGLIS

Lincoln Pastor Speaks to Forum on "Religion And Progress"

TWO CHRISTIAN VIEWS

One Group Always Holding Back, But Others Have Faith In The Future

"Progress comes only through men and women struggling, working, and making the extreme sacrifice and through their relationship with their God," declared Rev. Ervine Inglis, of the Vine Congregational church, at the World Forum luncheon Wednesday noon at the Grand Hotel. This was the fifth of a series of discussions on "progress" and dealt with the relationship of religion to progress.

"There are two distinct views in the Christian conception of religion," Rev. Mr. Inglis pointed out. "First, there is the priestly point of view, which looks backward; then there is the prophetic point of view, which looks forward. The priestly type considers it the duty of the individual to conserve all the good things that have ever occurred. One should be careful lest the religion of the past may have grown old and useless. The prophetic type looks entirely to the future.

"The trouble with the Lutherans," he continued, "is that they have followed Luther but have failed to leave him and continue with his work—they have stopped where he stopped. The prophetic religion would look further into the future and eventually would come into possession of something looking toward progress."

Spencer Proved Wrong

Herbert Spencer believed that progress to be automatic, all one had to do was to fold up his hands and higher levels would come about. In 1914 Mr. Spencer's theory was proven wrong—religion was right. Progress is not automatic nor drifting but it is a struggle, a discipline, a control of all morals—the realization of the highest of ideals.

"Progressive religion," Rev. Mr. Inglis explained, "is not fighting evolution as a document of progress. Science and religion must go arm in arm, digging upward or the drift will be downward. Religion is a necessity to progress and must find expression in some manner before progress can be definitely realized. After six thousand years of the development of this great and complex it is not likely that religion would be done away with, but we must realize its importance in the progress of our country, for progress comes only through men and women and their relationship to their God."

Wealth No Indication

Automobiles, luxuries, and wealth do not necessarily indicate a country's progress. Religion holds that progress depends on the higher controls and unless these are firmly implanted in mankind there will not be progress, but a drift backward.

"It hasn't been long," Rev. Mr. Inglis said, "since the time when religion would not have been given a place in the series of topics on 'Progress'."

A round table discussion followed the address and Rev. Mr. Inglis answered questions.

Dr. Hattie Plum Williams will discuss "Sociology and Progress" at the luncheon next week.

CHANGE METHOD OF CIRCULATION

Awgwan Distributed Only From Station A Postoffice in the Book Store

The "Bromide," February, issue of The Awgwan, was placed on sale yesterday. Because of conflicting lists the plan of distribution from the booths was discarded, and the distribution will be confined to the Station A postoffice in the College Book Store.

"Butch's Bedtime Story," a tale of modern time, with a setting in China, "where every hen track has a meaning all of its own," is the feature of the issue. Claire Montresrey's page, "A Tub of Tea," contains interesting and clever novelties. "The Sling and the Harp" column, a recent addition to The Awgwan, reviews several new books.

Cooking Course For Brides

DePauw University has a most unusual course in the department of home economics. It is entitled "The Bride's Cooking Course," and is open only to senior girls.

Former Kansas Star Is New Basketball Coach

CHARLES BLACK

Charles Black, who will become head basketball coach and assistant backfield coach at the University of Nebraska next fall. He comes to Nebraska from Grinnell College, where he has had similar duties for the past two years.

Black is a former Kansas athlete. While at the Jayhawk school he starred for three years in football, basketball, and baseball. The University of Kansas considers him its greatest living athlete.

GISH IS READY FOR TOURNEY

Plans to Handle Crowd of High School Athletes Completed

226 EARLY RESERVATIONS

Thirty-three teams have sent in their applications for entrance in the Nebraska high school basketball tournament to be held on March 11, 12, and 13, under the auspices of the University, according to Herbert Gish, acting director of athletics, and 225 have made reservations at the various hotels.

In a pamphlet sent out to all the high schools in the state the athletic department states: "It is our aim to make this tournament the biggest and best ever, from an educational standpoint, as well as athletic," and that they believe, "that a tournament such as this, participated in by so many high schools, is productive of much good in promoting clean sportsmanship. It is to that end that we are now working on this tournament, the largest of its kind in the United States."

CHEMISTS TO DISCUSS FLOUR

Nebraska Section of Chemical Society Meets Tonight

(University News Service)

The one hundred and twenty-fifth meeting of the Nebraska section of the American Chemical Society will be held Thursday evening, February 25, at 8 o'clock, in the lecture room of Chemistry Hall at the University of Nebraska. Cereal chemistry will be the general subject of the discussion.

Prof. M. J. Blish, chief chemist of the Experiment Station of the University of Nebraska, will speak on "Some Properties of the Proteins of Wheat Gluten." "Chemistry in the Manufacture of Flour," will be the subject of the discussion by Howard H. Johnson, chief chemist of the Goch Milling Company of Lincoln. The meeting is open to the public.

New Book Goes Through Long Process Before It Is Put on Library Shelves

A book—How little we realize the great amount of labor connected with but a book, which teaches us, strengthens us, consoles us. This book may have come to us from clear across the continent. It may have taken a year to get it here for use.

The data must be compiled for the book, or the story must be woven. This takes more time than can ever be imagined. The book must then be printed. This is a long process which involves the work of a great number of hands. After it reaches the library, it must undergo still another long process.

An order card for a desired book comes in from the professor who wishes the book. This card is O. K. ed by the Librarian. The order is then made up direct to a publisher or an agent. The library has agents at Chicago, London, Paris, Leipzig, Berlin and The Hague.

The order is immediately taken care of by the agent and the book

FEW TICKETS STILL ON HAND

Hundred Second Balcony University Night Seats Are Left

EXPECT SOME RETURNED

Only one hundred more seats, mostly in the second balcony, are available for the University Night performance at the Orpheum theater Saturday evening, the business management announced last night.

A dress rehearsal will be held on Saturday afternoon at 2:30 o'clock. It is necessary that everybody in the cast be at this final rehearsal. The tickets for the cast will be given out at that time.

No Long Waits

The arrangement of the skits has been planned in such a manner that there will be no long waits between the acts.

Recent rehearsals of the show indicate that the program will be one of the most interesting ever put on.

Although the sales yesterday indicate that there will be few desirable seats left for Saturday's performance, there is a chance that some of the tickets will be returned before the show. It is only possible that a number of desirable tickets will be returned the night of the performance. Several seats have been reserved by the various societies on the campus, some of whose contracts have not been fully taken up. It is believed that some of these tickets will be obtainable the night of the performance.

STUDENTS ATTEND OMAHA AUTO SHOW

Members of Farm Auto and Tractor Classes See Exhibition; Ford Plant Inspected

The auto and tractor classes at the College of Agriculture visited the auto show at Omaha Wednesday. It has been the custom for these classes to spend one day each year at the automobile show at Omaha. They left Lincoln in automobiles about 9 o'clock Wednesday morning, and they reached the Ford assembling plant about 9:30, and spent the balance of the forenoon there. Guides were furnished to take the classes through. The afternoon was spent at the automobile show where many passenger cars and trucks were on display.

It was impossible for every one to see all the new features on exhibition. Consequently, the responsibility was distributed by having one person pay particular attention to the rear axle, another to ignition systems, another to the horse power, and another to the brakes, etc. When this data is compiled at a later period, all the members will be mutually benefited.

Students Do Repair Work

The classes do a good deal of overhauling on autos and gas engines during the semester in the farm motors laboratory. Recently two small gas engines have been overhauled and are now ready to be returned to their owners. One was brought in from a farm near Wahoo. The owner said that he had been unable to get any further service from it. The machine was in very poor condition when it arrived. The engine was cleaned, bearings repoured, valves ground, gears retimed, and a fresh coat of paint applied. The engine is now practically as good as new. Two Ford motors and one Cadillac motor have also been repaired by the class.

Prof. C. W. Smith, associate professor in the agricultural engineering department, sponsored the trip.

First Official Bulletin In The Nebraskan Today

Today's Daily Nebraskan marks the first issuance of the Official Bulletin of the University of Nebraska. It is planned to print this bulletin every day on the second page in the position which it occupies in this issue. Students and faculty members will find in this bulletin each day all of the official notices in a concise form.

This is the first time that anything of this sort has been tried at Nebraska and the staff of The Daily Nebraskan asks that students and faculty members cooperate as much as possible. All notices must reach The Daily Nebraskan editorial office (University Hall 4) by 4:30 o'clock on the afternoon before the day they are to be printed.

PUPPET SHOW TEA FEATURE

Adaption of 'The Three Bears' To Be Given by Teachers' College Students

DANCES ON PROGRAM

A puppet show by a group of students from Teachers' College under the direction of Miss Florence Ostoff will be a feature of the entertainment at the "Circus Tea" at which Mystic Fish will entertain from 4 to 6 o'clock Thursday afternoon in Ellen Smith Hall.

The show, adapted from the story of "The Three Bears," will be given by Adele Howard, Florida Nye, Priscilla Towle, and Eloise McMonies, was written by the students in Education 106. The other numbers on the program will be a clown dance by Katherine Gallacher and a ballet by Dorothy Abel. Music for dancing, which will begin at 4:30, will be furnished by Madeline Jackson. Decorations will be carried out in the circus colors and there will be a number of booths at which refreshments will be served.

The arrangements for the tea were made by the general tea committee which was recently appointed by the Associated Women Students Board.

WRITE-UPS MUST BE IN NEXT WEEK

March 6 Is the Deadline on Organization Material for The 1926 Cornhusker

March 6 has been set as the deadline for all organization writeups for The 1926 Cornhusker. Presidents of organizations having space in The Cornhusker are asked by Editor Donald F. Sampson to have their articles ready by this date, as the book is already being laid out.

The article should be two hundred words long, and should contain an account of the activities of the organization, its purposes, and something of its history. The future work of the group, following the main theme of the book, should be stressed. Officers names should be included.

All questions will be answered by calling the Cornhusker office.

Baylor Students Use Buggies
Because of the ban on "nocturnal automobile joy-riding," Baylor University students may be seen in the good old horse-drawn vehicles. The driver may even do his parking without parking if he drives a dependable Dobbin.

Bird Club Meets Tonight
The Bruner Bird Club will meet at the museum this evening at 8 o'clock. F. G. Collins, assistant curator, will lecture on "Some Recent Bird Literature." Visitors are welcome.

Yale Votes For Chapel
Compulsory attendance at chapel was voted by a majority of students and faculty members at Yale.

WEATHER FORECAST

Thursday: Cloudy and unsettled; no decided change in temperature.

Weather Conditions
The development of a storm area in the Southwest has resulted in light rain in Kansas and southeastern Nebraska and cloudy weather throughout the Mississippi valley. Warm weather continues in these regions and fair and moderately cold weather in the eastern half of the country. It is snowing in Montana, Wyoming, and Idaho, and raining in Oregon and Washington.

THOMAS A. BLAIR, Meteorologist.

KAPPA SIGMA, PHI SIGS WIN

Two Teams Advance to Semi-Finals in Interfrat Tournament

BOTH ARE EASY VICTORS

Results Yesterday
Kappa Sigma 36; Alpha Sigma Phi 5.
Phi Sigma Kappa 26; Phi Kappa 8.

Games Today

Delta Tau Delta vs. Delta Chi, 4:00.
Phi Delta Theta vs. Delta Upsilon, 4:20.

The third round of interfraternity basketball started Wednesday. Two teams advanced to the semi-finals, the Kappa Sigma outfit trampling on Alpha Sigma Phi and Phi Sigma Kappa winning from the Phi Kappa five.

The first game was very uneven, the Kappa Sigma five showing a decided superiority in passing and in hitting the basket. Othmer started the scoring by tipping one in from under the goal. Ullstrom followed with another. Othmer tossed in a free throw. Curtis started the scoring for the Alpha Sigs, after Krawl had made a gift toss, with a nice field goal. Krawl came in for a short shot.

Kappa Sigs Run Wild

Othmer made two free throws and Krawl one. Othmer ran in and tipped an attempt into the ring. Both teams missed on a double foul. Paulsen counted up two points for the Kappa Sigs. Othmer put in a quickly executed shot, and followed with another soon after. Paulsen was feeding Othmer nicely. The Kappa Sigs were getting a lot of short shots, and making most of them. The half ended 19 to 2, in favor of Kappa Sigma.

Ullstrom scored a free throw to open the half. Holmes came up from guard to cage a field goal. The Alpha Sigs seemed unable to hit the basket, although they were getting more shots. Othmer made two more free throws; he was a dead shot on these. Pettefman, Alpha Sigma Phi guard, was put out on personal fouls, Peterson going in. The Kappa Sigs were going better now. Paulsen caged one, Krawl followed with another, then Paulsen again. Curtis scored the first point for Alpha Sigma Phi in the second half, with a gift shot. Ullstrom slipped in a short shot. Konkel added two more to the Alpha Sig column, with a field goal. Ullstrom closed the point making it with another flip from the floor. The final score was 36 to 5.

Second Game Better

The second game was a little closer, at least for the first half.

(Continued on Page Four.)

PARTIES SHELVED FOR PAN-HEL BALL

Five Organizations Cancelling Social Events Planned for March 12

One sorority and four fraternities have cancelled parties which had been planned for Friday evening, March 12, the date announced yesterday for the annual Pan-Hellenic ball.

Kappa Kappa Gamma cancelled its annual freshman house party. Farm House, Sigma Chi, Phi Delta Theta and Acacia are the four fraternities which cancelled parties planned for that evening.

Chimpanzee Four Times As Strong as Man of Same Weight, Says Scientist

(Science Service)

Allentown, Pa., Feb. 23.—A chimpanzee is more than four times as strong as a man of the same weight, according to the results of experiments made by Prof. John E. Bauman of Muhlenberg College. Professor Bauman induced several of the big apes in zoos in various parts of the country to pull a rope attached to a strength-measuring apparatus, and then had a number of football players at Augustana College, South Dakota, try their strength on the same instrument.

It was no easy task, Professor Bauman states, to induce the "chimps" to make the pull. The best method seemed to be to get an ape of a mean disposition, who would haul at the rope in a fit of rage. Good-natured monkeys would merely play with it. Suzette, an ape at the New York zoological park, gave two-handed pulls of 1260 and 905 pounds respectively. Boma, the largest chimpanzee in captivity, and a male,

Bickel Is Journalist Of Varied Experience

KARL BICKEL

Karl Bickel, president of the United Press, who will speak on "Newspaper Work," at 7:30 o'clock Thursday evening in Social Science auditorium, has had a great deal of experience in journalism.

Bickel is a graduate of Leland Stanford University and held important positions on a number of West Coast papers. During the World War he was a battlefield correspondent. He is a member of Phi Gamma Delta.

RHODES MAKES BID FOR TITLE

Husker Athlete Favored to Win All-Around Event At Illinois

TRACKMEN LEAVE FRIDAY

Coach Henry F. Schulte and thirteen Nebraska trackmen will pull out of Lincoln Friday morning on the Rock Island for Urbana, Illinois, where the Huskers will compete Saturday in the Illinois relays.

The Nebraska athletes will make a bid to repeat triumphs that they won in the meet last year. "Choppy" Rhodes, all-around Husker athlete, will bid for national recognition in the all-around championship contest. Rhodes finished second last year. Both men broke all former point records for the Urbana classic. Rhodes is favored to win the title this year.

Captain Roland Locke, Missouri Valley sprint champion, is scheduled to compete in the 75 and 300-yard dashes. He won both events in last year's meet and is the joint holder for the records in those events.

Two Relay Teams

Walter Krimmelmeyer will leave the 16-pound shot and Paul Zimmerman will represent the Cornhuskers in the 1500-yard race. Frank Wirsig will do the pole vaulting for Nebraska. In the try outs last week he cleared the bar at twelve feet, six inches.

Two Nebraska relay teams will be taken to the Illinois games. Both teams are composed of men that should give a good account of themselves. The mile-relay combination includes Perly Wyatt, Bill Hein, Frank Dailey, and Robert Davenport. The four mile quartet is made up of Jimmy Lewis, Jack Ross, Glen Johnson, and Oliver Roberts.

The Entries

The events and the men entered are:

75-yard dash—Locke, Hein, Dailey and Wyatt.

75-yard low hurdles—Locke, Weir, Dailey, Wyatt.

PRESIDENT OF UNITED PRESS SPEAKS TODAY

"Newspaper Work" Subject of Address by Karl Bickel This Evening

WILL EXHIBIT PICTURES

Reel Showing How News Gathered In Foreign Countries To Be Shown

President Karl Bickel of the United Press Association, New York, will address the University students and the general public Thursday evening in the Social Science Auditorium at 7:30 o'clock on "Newspaper Work," and he will exhibit a moving-picture "Today's News Today," showing how news is gathered in foreign countries for the United Press, which furnishes news to over 1000 newspapers.

Mr. Bickel, who is on a lecture tour of the West, has spoken at several other universities. He comes to Lincoln this afternoon from Omaha, where he addresses the Chamber of Commerce at noon.

Appointed to the presidency of the world-wide United Press Association four years ago, Mr. Bickel, an Iowan, toured the world studying newspaper conditions. He found that "official" news agencies in foreign countries "flavored" the news in favor of the government; so the United Press now maintains its own news gathering bureau in each country.

Mr. Bickel returned in January from a tour of South America.

PICTURES TAKEN OF STUDENT CARS

Omaha Daily News To Use Photo of Vehicles Used Instead of Rent-a-Fords

It is quite a usual thing of two or three old battered Fords, each containing a half-dozen or more students to be seen parked in front of Social Science building in the afternoon. But yesterday, when students came from their two o'clock classes, there were five obsolete Fords drawn up by the curb. And in them, on them, and around them, were seventy-five or more smiling young men and women. A photographer was officiating over the whole scene.

This was the latest development in the anti-rent-a-Ford campaign. The Omaha Daily News correspondent in Lincoln was having a picture taken to show the sort of vehicles which the students are putting more and more faith in as they continue their protest against an increase in rates on rent-a-Fords by not renting them.

Chi O's Chime In

Although some think that the movement has been losing ground a little, campus leaders behind it are certain that it is gaining in solidity, if not in its spectacular aspects.

The Chi Omega's, whom some averred were not in sympathy with the movement, yesterday made it clear that they were the object of unfair criticism and that they were in full accord with the men's actions.

The whole affair has aroused general interest in Lincoln and the state, as is evidenced by the Omaha newspaper's wanting a picture.

Faculty Men Judge Wesleyan Debate

(University News Service)

Prof. T. B. Robb, professor of statistics and business research, Mr. Gayle C. Walker of the School of Journalism, and Louis B. Finkelstein, Law '22, Lincoln, (member of the 1920 and 1921 teams against Iowa) were judges of the Nebraska Wesleyan-University of Omaha debate at Wesleyan Tuesday evening, on the child-labor question. The decision was two to one in favor of Wesleyan.

Bar 'Tramp Athletes'

The University of Pennsylvania has passed a ruling hitting at the "tramp athletes." The rule forbids any person playing on the team who has represented another college in the same sport.

No Silk Hose For Co-Eds

Silk hose for freshmen girls have been banned at the University of West Virginia. Only plain black cotton hose are to be worn.

Trip For Best Salesman

The person who sells the most copies of the annual at the University of Texas will receive a free trip to Europe.

Men Want Equal Rights

The principle of equal rights for men has been established at the University of California.

(Continued on Page Three.)
