

THE DAILY NEBRASKAN

VOL. XXV, NO. 100.

THE UNIVERSITY OF NEBRASKA, LINCOLN, NEBRASKA, THURSDAY, MARCH 4, 1926.

PRICE 5 CENTS.

FIRST DAY OF COPPOCK DRIVE OBTAINS \$325

Contest Between Teams Close; Winners Given Banquet After Campaign

ALL MONEY IN BY FRIDAY

Luncheon at Ellen Smith Hall for Workers All Week; Different Speakers Daily

Three hundred and twenty-five dollars had been raised by the workers in the Grace Coppock campaign by noon on Wednesday, which falls short a hundred dollars of the amount raised on the first day of the drive last year. The report was made at the luncheon of workers in the drive held on Wednesday at Ellen Smith Hall.

Contest For First Place

The team captained by Wilhelmina Schellack heads the list with \$45.50 turned in, and Ruth Barker's team is second with a total of \$24.50. The Y. W. C. A. cabinet will entertain the winners in the team contest at dinner sometime after the drive, and all the money to count in this contest must be turned in by Friday evening at 6 o'clock.

Cyrena Smith led the devotionals at the luncheon on Wednesday noon at Ellen Smith Hall which was attended by about one hundred and fifty women. Arvilla Johnson, who was chairman of the drive last year, was the speaker. She stressed the importance of approaching the women who are being asked for money in the right way, and she also talked about Miss Vera Barger and Miss Grace Coppock, their lives and their work.

Remembrances of Grace Coppock

The devotionals on Thursday noon will be led by Wilhelmina Schellack, who will introduce the speaker, Mrs. E. L. Hinman, who will tell something about her remembrances of Miss Coppock on the campus of the University of Nebraska.

The speaker at the last luncheon on Friday noon will be Kingsley Ches, a Chinese student. The devotionals will be led by Elsie Gramlich. The luncheons, which are being served by the social committee of the Y. W. C. A. and are held to keep up the enthusiasm in the drive and also to give the workers an opportunity to check in their money.

This year the Grace Coppock committee decided that they should not ask for any certain amount but would leave the question to the ability and interest of the individual. The team workers are trying to arrange for a personal interview, and in this way to explain something about the drive and answer any questions about Vera Barger or Grace Coppock that the person interviewed wishes to ask.

Graduate of Nebraska

Grace Coppock, in whose memory the Grace Coppock Memorial fund was established, was graduated from the University of Nebraska with the class of 1905, and went to China soon after her graduation where she became national secretary of the Y. W. C. A. in China until after her death in 1921.

A clipping in one of the papers at Shanghai, China, the city in which the Y. W. C. A. has its national headquarters, says about Miss Coppock at the time of her death, "Miss Coppock's death takes from China one of her greatest women leaders. The loss will be felt in every province and section of the country in China."

Miss Barger on Staff

Miss Vera Barger, whose work is being supported by the Grace Coppock fund, was one of the staff workers in China under Miss Coppock. She is not the successor of Miss Coppock in China but is her successor in the interest of the Nebraska Y. W. C. A. She is the national physical education director of the Y. W. C. A. and uses the money sent her by the University of Nebraska Y. W. C. A. to promote physical education programs all over China.

Good Students Favored

Iowa University is trying out a system whereby exceptional students will be graduated in less than four years without carrying extra work. Special classes are provided for those who show unusual ability.

Pipe Organ at Colorado

In one of the largest pipe organs in the world, erected at the University of Colorado, there are 60 pipes controlled electrically by more than 80,000 miles of wire.

Debaters Widely Challenged

Denver University debaters have been challenged by 23 different colleges and universities in 15 states.

WEATHER FORECAST

Thursday: Cloudy and unsettled.

Weather Conditions

Fair weather prevails throughout the country except for light rain in New Mexico and light snow in northern Minnesota and in the lower Lake region and Pennsylvania. Temperatures are below normal from the Mississippi and lower Missouri valleys eastward to the Atlantic coast, and somewhat above normal in the western half of the country. The south-western storm area is extending northeastward from New Mexico to the middle Missouri Valley and is expected to cause cloudy and unsettled weather in Nebraska tonight and Thursday.

Meteorologist.

CONDRA HEADS NEW COMMITTEE

Governor McMullen Organizes Forestry Division to Make State Beautiful

MANY INQUIRIES BY MAIL

To bring together the various forestry activities in the state, Governor Adam McMullen today announced the appointment of a state forestry committee, of which Dr. G. E. Condra, director of the conservation and survey division of the University of Nebraska, is chairman. The governor is deeply interested in tree planting for wind breaks and for beautifying farms, ranches, and state institutions. He believes the state should have pines and broadleaf trees to be supplied free by the federal government.

Plan System For Forestation

The problem of the committee will be to devise a plan of systematic forestation and to coordinate the present activities. Every day's mail brings a number of inquiries about tree planting.

E. A. Nieschnitt, a graduate of a leading European university, who has studied in one of the best forestry schools there, has been engaged as state forester. His office is in the state conservatory and soil division at the University of Nebraska.

Encourage Tree Planting

The federal government has planted to-date over 10,000 acres of seedlings in the sandhills. The nursery at Halsey which was named after Dr. Bessey of the University of Nebraska department of botany, raises millions of seedlings every year for distribution in the sixth congressional district. The state in cooperation, it is contemplated, will produce seedlings for general distribution. This will encourage tree planting, and it is believed will create a larger market for private nurseries.

The members of the committee besides the chairman are Director V. H. Brokaw of the Agricultural College extension division; Prof. W. W. Burr, assistant director of the agricultural extension division; George Marshall of Arlington; Jay Higgins, superintendent of the federal nursery at Halsey; and state secretary of agriculture McLaughlin.

Future Football Player Arrives

A future Cornhusker football player was born to Mr. and Mrs. Clarence E. Swanson, 2936 Sewell Street, on Monday afternoon. Clarence Jr. may not have tried out his magic toe yet, but he is likely to follow in the footsteps of his father, who was the captain of the 1921 Cornhuskers, one of the great grid teams of Nebraska.

Never Too Much Education

"There is no such thing as too much education," said President Coffman of the University of Minnesota, at the annual observance of Charter day of that institution.

Summer Courses at University of Berlin Open Under American Plan

The German Institute for Foreigners at the University of Berlin offers to Americans summer school courses organized upon the American plan, from July 15 to August 25. These courses include German language and literature, German political and social history, German art, and civilization, political economy, and sociology. The courses are arranged for four classes of students.

1. Undergraduates who are preparing at college for their B. A.
2. Postgraduates who are working for their M. A. or Ph. D.
3. Teachers who desire to continue their professional studies.
4. Civilians who merely wish to take cultural courses.

Courses will be conducted by uni-

DUTEAU TELLS OF EVILS OF PRESENT LIFE

World Forum Discussion Is of Phases and Faults of Social System

NO SOLUTION OFFERED

Law College Is Only Campus Group With Unity; Need Greater Community of Feeling

Declaring that the University of Nebraska should remain not only a vital part of our youth but also of our personality, Ellsworth F. Duteau, junior in the arts and science college, and leader in the movement to overcome the car renting evil, in his address yesterday noon to the World Forum, on the subject, "Some Evils of Present University Life," said that to remove present evils, community of interest among the student body must be fostered.

Mr. Du Teau stated that he had no tangible solution to offer but he hoped he could point out a few of the things that needed remedying.

Quoted Philosophers

The Greek philosophers, Mr. Du Teau pointed out, early formulated the expression "Know thyself." "This is a matter of contact and social environment. It is necessary to develop in a suitable social environment. Students coming here have two aims, development of the mind and development of the personality. We form our habits before the age of twenty-one. It is desirable to make our habits our friends rather than our enemies.

"Superfluous social customs are so interwoven that it takes as great a fight to overcome them as for an individual to overcome his habits." Mr. Du Teau then proceeded to call attention to social defects now existing. He stated that most of his material was taken from questions asked him by students.

Old Unity Is Lacking

"Where is the old unity that used to characterize the students of the University? One student asked me if congeniality and friendship hadn't become matters of cliques only. This view point may be exaggerated but it indicates the problem.

"We students in the University lead a two-fold life. The campus is our place of business. There is nothing on the campus to bring the student body together. We have dissociated into small groups. The library is not a place where students can gather socially. It is repulsive and of necessity so since its purpose could not be fulfilled otherwise.

ASSOCIATIONS PLAN SECOND JOINT PARTY

University Y. W. C. A. and Y. M. C. A. Arrange Novel Entertainment for 150 Couples

The University Y. W. C. A. and Y. M. C. A. will entertain the students of the University at a joint party to be held at Ellen Smith Hall this Saturday evening, March 6th, starting at 8:30 o'clock. This will be the second joint party given by the two associations this year, the first being held during the first semester. Plans are being made for one hundred and fifty couples.

Elsa Kerkow and Judd Crocker, the "Y" social committee chairmen, are planning a bit of novel entertainment for the party which includes several musical numbers throughout the evening. Refreshments will be served and numerous games have been arranged for entertainment during the program.

The chaperones include Miss Erma Appleby, Mr. and Mrs. Arthur Jorgenson, and Rev. and Mrs. Dean R. Leland.

Engineer's Week Will Be Topic at Meeting

The American Society of Civil Engineers will hold a business meeting on Friday at 10:00 o'clock in the Mechanic Arts building, room 210.

The purpose of the meeting will be to discuss Engineers' Week. Exhibits and how and where to exhibit them, will be discussed, as well as the prizes that are to be given.

INDOOR TRACK TRYOUTS TODAY

Coach Schulte Undecided How To Enter Men in Meet Under New Rules

FRESHMAN EVENTS FIRST

Try-outs for the Missouri Valley indoor meet to be held at Ames on March 12 and 13 will be run this afternoon at the Stadium. Coach H. F. Schulte invites all track fans out to witness the events and promises them some real races. They will start promptly at 4 o'clock and will be run off in the usual order.

Coach Schulte is in some perplexity as to how to enter the men in the indoor meet, for the new rules are that not more than two men may enter an event. This makes it necessary to change the men around somewhat so as to bring out the best possible scoring team and still keep the men to their usual events. It is possible that Lewis and Roberts will run in the half mile, while Johnson and Ross will compete in the mile. In the other events the entries are undetermined.

Nebraska May Be Favorite

No outstanding team can yet be picked in the valley but Nebraska is probably the closest to a favorite because of her victory last year. The outstanding races of the meet will undoubtedly be in the sprints. Captain Locke is the heavy favorite in these, for he has held the title for the last two years. Farley of Missouri, and Wongwai of Kansas are capable of stepping the distance in record time and will press Locke to win. Wyatt should be able to place well to the front if Coach Schulte sees fit to enter him in the sprints, for Farley was the only Valley man to place ahead of Wyatt at the Illinois relays.

Team Rested Since Relays

The team has been taking it easy since their return from the relays and tonight should find them in fine form to put forth their best efforts. A freshman numeral meet will be run in connection with the try-outs, but their events will be run off one hour earlier than the same event for the varsity. Coach Schulte is anxious to see every possible candidate for the track team out in suit, for he is bent on winning the indoor title again this year, and wishes more men out competing in the try-outs.

A. W. S. HOSTESSES AT THURSDAY TEA

Motif of "Mad March Hare" Taken From "Alice in Wonderland" Typifies Season

Members of the Associated Women's Student board will be the hostesses at the weekly tea on Thursday from 4 to 6 o'clock in Ellen Smith Hall. The tea, which will typify the season, will have for its motif "The Mad March Hare," adapted from "Alice in Wonderland."

The decorations, refreshments and program have been worked out along the motif of the tea. The program is: dance, Jean Tucker; reading from "Alice in Wonderland," Joyce Adair; and music for dancing by Olive Fletcher.

FERGUSON RECEIVES BOOKLET

Chicago Institute Pamphlet Describes Salaried Engineering Course

An interesting booklet from the Chicago Central Station Institute has been received by Dean Ferguson of the Engineering College. The booklet describes their college graduate course to which they admit electrical engineering graduates. The course is a combination of experimental and class-room work lasting about a year. A salary is paid during the course.

The institution is supported by several Public Utility companies in and about Chicago. Nebraska has in former years sent several men in to this course. Several of them are now on the engineering staff of its supporting companies. The booklet may be seen at Dean Ferguson's office, Mechanical Arts 204.

COACH BEARG STARTS SPRING GRID PRACTICE

Candidates Begin Checking Out Lockers and Suits On March Eighth

FIFTEENTH IS FIRST DAY

Important This Year Use Many Games Schedule Daily

Spring football practice will start on March 15, according to Coach E. E. Bearg. There will be practice at 3:30 every school day including Saturday. The candidates should begin checking out their suits and obtaining locker March 8.

This year spring football will be very important, according to Coach Bearg. Every man who is interested at all in playing football next fall should be out for practice. Owing to the early games that are scheduled for next season, the team will not be able to get much drill before the first game with Drake. For this reason it is desired that every candidate participate in spring football in order that the coaches will be able to get an idea of next year's varsity eleven. Coach Bearg issues a call for all varsity men, and freshman players, and any other candidates, whether they have had any experience or not.

Four Regulars Graduate

Four regulars of last year's eleven will graduate, so that positions left vacant by them will have to be filled, and these places will be pretty well decided during spring practice.

Another point which adds importance to spring football is the tendency to limit practice time. Steps have already been taken in the Big Ten Conference to limit practice to a certain number of hours per day. If such action should be taken by the Missouri Valley authorities, it would place additional premium on spring football.

Same Lines as Fall Practice

The spring practice will be conducted on identical lines of the fall work. All the men will work together, as freshmen will be eligible for competition next fall. It is planned to have three or four games, between teams selected, with full time and usual officials. The first game is scheduled for the third week of practice. Everything will be as much like fall practice as possible, and Coach Bearg emphasizes the fact that work this spring will be very important, probably more than ever before.

Charles Black, newly appointed basketball coach, will be here to aid in coaching the backfield. Candidates can check out their suits and get their lockers at the north end of the stadium.

ACTS FOR "FOLLIES" MUST BE IN MARCH 8

Entertainment Sponsored By A. W. S. Board Offers Prizes for Best Skits Submitted

All skits which have been prepared for the Co-Ed Follies, to be given at the Armory the night of March 26, must be handed in to the A. W. S. office, on the second floor of Ellen Smith Hall, or to some member of the A. W. S. board by March 8.

All girls are urged to write a short act of some sort and submit it, for there is no definite sort of entertainment which is planned. The prizes of fifteen and ten dollars would be well worth the little effort used in planning the act, not to mention the fun of giving it.

The Co-Ed Follies are for girls only, and it is hoped that everyone will co-operate in making this successful.

Saturday Is Deadline For All Group Write-ups

Write-ups of all groups taking space in the 1926 Cornhusker should be in by this Saturday, March 6. The articles can be left with either the editor or managing editor in the Cornhusker office in the basement of University Hall. This ultimatum includes organizations having pictures and those with only space.

The write-ups should be two hundred words in length, containing a history of the organization, the purpose and function of the organization, and should stress the future work and plans.

FARMERS' FAIR PLANS STARTED

All Committees Begin Work on Event by End of Week; Held May First

PAGEANT TO BE FEATURE

All the fifty or more Farmers' Fair committees, published in the Daily Nebraskan February 22, will swing into action by the end of the present week to begin preparations for the Fair, which will be held this year on May 1. Ag students who failed to find out upon which committee they were placed are urged to attend to the matter at once.

The publicity committee met on Wednesday, March 3, and drew up temporary plans for action. There will be a number of new and novel features employed to advertise the fair this year. The committee believes that the Farmers' Fair in itself, is well enough known, and that, therefore, publicity that will create a general spirit of "Good Will" is to be stressed.

Plan For Pageant

Other committees have also discussed their plans for further procedure tentatively. The Pageant Play, whose plans call for the most elaborate and gorgeous production ever attempted in connection with this feature, is already hard at work. Rehearsals will be begun within a week, at which time the cast will have been selected.

The wild west show committee is beginning to round up the "rough riders" on Ag campus, so as to get them in prime condition by May 1. The show will be run off by a regular event schedule this year, which will do away with the long waits between the various events occasioned in the past years.

Stress Educational Exhibits

Every educational committee will have met and discussed plans by the end of the coming week. As the 1926 fair board will stress Ag College educational exhibits more than ever before, committee chairmen are already busy searching for new and novel ideas to incorporate into their displays. The various entertainments and amusements together with new ones will also receive attention on a larger and more elaborate scale than ever before. The old saying, "Bigger and better than ever" will accompany the Ag College students in their preparations for the fair.

Adopt American Football

The University of British Columbia is considering the possibility of adopting the American style of football in preference to the British style of play.

Columbia Students Radicals

Columbia students are the most radical in the United States, according to a Dartmouth professor who made a nation-wide survey of student views.

Fraternities Discuss Violations

Prohibition violation on the Michigan campus was discussed at a meeting recently of the fraternity presidents.

Colleges Begin Student Projects As Result of Evanston Conference

Definite student projects are already under way in a good many colleges all across the country as a result of the Evanston Interdenominational Student Conference which met during the Christmas holidays. Reports of these projects were brought from every section of the United States to the first meeting of the Continuation Committee which recently was held in Columbus, Ohio.

Many of these student-directed undertakings related very definitely to the demand for church unity which was so persistently expressed at Evanston. Thus, at Northwestern University the Young People's Societies in the Evanston churches are moving more closely together in a common use of the project method.

CANVASS ONE NIGHT FOR "Y" SUBSCRIPTIONS

One Hundred and Fifty Men Will Go From House to House Tonight

DINNER TO START DRIVE

First Campaign Last Fall Raised Only One Thousand Dollars, Half of Needed Amount

One hundred and fifty men will take part this evening in a canvass of fraternity and rooming houses which, it is expected, will bring in at least one thousand dollars for the University Y. M. C. A.—enough to enable it to complete its year's work without going into debt. The drive will not be drawn out, but will be completed this evening. All of the workers are asked to report later in the evening on their success.

Begin With Dinner

The campaign will start off with a dinner for all the workers at the Grand Hotel at 6 o'clock. There will be a few very brief talks, after the dinner. Arthur Jorgenson, general secretary of the "Y," and Gerald Davis, finance chairman, will explain the method to be used in carrying out the drive. There will also be short addresses by Prof. O. R. Martin, the chairman of the advisory board, and Ed Weir.

This second finance campaign was made necessary by the failure of the regular student drive last fall. The "Y" hoped to raise at least two thousand dollars in that drive, but only about one-half of that amount was obtained.

Divide Territory Equally

Each of the workers in the drive will be given, after the banquet, a list of men living near him to see. By methodically dividing the territory in this manner, it is expected that the entire University community can be thoroughly canvassed in one evening.

The drive, on which the success of the "Y's" work for the remainder of the year depends, has been strongly commended by Dean Carl C. Engberg.

GRAPPLERS MEET IOWA STATE TEAM

Nebraska Matmen Leave Friday For Ames; May Enter Mid-West A. A. U. March 19, 20

The wrestling meet with the Iowa State College at Ames will probably be the best of the year, Dr. Clapp announced Wednesday afternoon. Both Nebraska and Ames have about an equal number of experienced men. Ames made a little better showing against Kansas than Nebraska but Nebraska showed up better than Ames in their meets with Minnesota.

It all depends upon how the better men come out, he stated. If they come through with falls Nebraska ought to win.

The team will leave Friday afternoon at 1:20 on the Burlington for Omaha, and will take the Northwestern from there, arriving in Ames at 9 o'clock that night.

There is a possibility of sending some of the best men to the Mid-West A. A. U. tournament to be held at Iowa City on March 19 and 20.

Officers of Chorus Chosen for Semester

At the recent meeting of the Chorus, officers were elected to serve for the second semester. They are as follows: Harold Hollingsworth, president; Catherine Dean, vice-president; Claude Strickland, treasurer; head librarians, Franklin Durr and Helen Talcott; assistants, Edith Hibbard, Philip Jorgenson, Theodore Damme, and Stanley Swanson.

Bobbed Hair on Wane

Barbers in Mimeo report an increase in hair bobbing among older women and a falling off among the high school and college students.

Vote on Military Training

A vote on compulsory military training will be taken at the University of Ohio. Each student will be given an opportunity to tell why it should be retained or abolished.

Women Rank Over Men

According to figures compiled at Stanford University, women are two and six-tenths brighter than men, and fraternity and sorority members do not rank very high.
