

# The University of Nebraska Official Daily Bulletin

VOL. L SUNDAY, MAY 2, 1926. NO. 43.

## MISCELLANEOUS NOTICES

**Candy Sale**  
The conference staff of the Y. W. C. A. has charge of the sale of box candies for Mother's Day. Sample boxes are on display in Ellen Smith Hall and orders, which will be delivered the first of next week, may be left in Ellen Smith or with Blanche Stevens, chairman of the committee.

## Engineer's Week Starts Monday

(Continued from Page One)

of drawings made by drafting students will be among the displays.  
**Give High Voltage Tests**  
High voltage tests on commercial insulators, electric welding and tests of electric motors and generators will be a part of the Electrical Engineering Exhibition.  
Mechanical Engineers are promising an interesting sight in their laboratories in the Mechanical Engineering building. On the first floor the power lab will be in full operation, with students in charge to explain the operations. The machine laboratory and foundry will also be in full operation, with every machine working. Exhibitions in the fuel and lubricant lab have been arranged on the second floor and visitors may see a complete testing of metals in the basement, along with a liquid air manufacturing plant.  
The Ag engineers will have a display of rural architecture, irrigations and drainage drawing. It is under the direction of William Gottell.  
The University power plant will also be open for inspection by the visitors.

**Parade on Wednesday**  
On Wednesday, the annual parade will be held, starting at 11:45 from North Tenth street and then out O street for several blocks.  
Friday is left open because of the governmental inspection of the R. O. T. C. unit.

On Saturday, the closing day of the week, Field Day at Antelope Park will be held. Trucks will take engineers from the city campus beginning at 9 o'clock in the morning to the park, where amusement enough to last all day has been provided for. Tugs-o-war, baseball games and other events have been planned.

In the evening the annual banquet will be held beginning at 6:30 o'clock at the University Club rooms. Several speakers, all of whom have not been announced, are on the program for the first part of the evening. The "Sledge", engineering paper, will be off the press and distributed at the dinner. This banquet will close the events for the week.

## Nebraskans Give Papers At Academy

(Continued from Page One)

duced by Prof. Walker, on "A Preliminary Report on the Anatomy of the Tomato Plant;" and Anna O. Shepard, introduced by Prof. P. B. Sears on "Prehistoric Ohio Culture Remains in Relation to Environment."

**Four in Chemistry Section**  
Of the chemistry section Prof. B. Clifford Hendricks was chairman. Prof. C. N. Knudson read a paper on "Activated Charcoal as an Absorbent." Prof. D. J. Brown read a paper on "Elementary Presentation of the Factors Involved in Oxidation"

## STUDENT ORGANIZATIONS

There will be a general meeting Wednesday evening in Social Science Auditorium. There will be election of several sports managers, and the installation of the new board chairman.

## Graduates Read Papers

The following papers were read by senior and graduate students: "Studies of Hydrolysis," by H. I. Stubblefield, whose work was under Prof. T. J. Thompson; "Free Energy and Copper Halides," by R. F. Nielson, under Prof. D. J. Brown; "Chemical Constitution and Physical Properties of some Nebraska Clays," by H. A. Rymee under Prof. C. J. Frankforter; "Structure of Metallic Compounds of Benzyl Cyanide," by Robert Maxwell, directed by Prof. F. W. Upson; and "Organic Compounds of Arsenic," by Carter C. Simpson, directed by Prof. C. S. Hamilton.

"Variability of Our Weather" was a paper by Prof. T. A. Blair, meteorologist, in the Barth Science section. F. C. Collins, assistant curator of the University of Nebraska Museum, read a paper on "The South West of England."

**Mathematics in Joint Session**  
The mathematical section of the Academy was in joint session with the Nebraska section of the American Mathematical association. Prof. W. C. Brenke was chairman. Papers were read by Prof. T. A. Pierce on "Notes on Fundamental Units in a Pure Cubic Field," by C. D. Nichols on "Some Summable Trigonometric Series," and by Prof. M. G. Gaba on "Definition of Parallel Curves."

In the physics section four papers were read by the following: Maurice J. Brevoort, on "A Simple Microphotometer;" Gerald M. Almy on "Construction of Thermocouples by Electrolytic Deposition;" Henry Margensu on "The Zeeman Effect in the Spectrum of Cerium;" and by Marion E. Russell on a "Single-stage Amplifier for Minute Direct Currents."

## The Liberal Arts College

(Continued from Page Two)

especially exacting in the first year (after students have got adjusted) and in the second year. In the senior college, comprehensive examinations at the end should be stiff, but course requirements and class attendance rules should be lenient enough to permit leisure for reading, conversation, sports, and so on.

**WE ANNOUNCE ADDITION OF 3 new Chrysler Sedans to our line of rental cars. Rates reasonable, special price on long trips. New Fords for rent as always. We will continue to give reliable service, night or day. Motor Out Company, 1120 P Street. B6819. 140**

"Track Athletics" by Henry F. Schulte, Assistant Director of Athletics and Coach of Track Athletics.  
8:05 to 8:30 p. m. "Opportunities for the Young Man in Agricultural Engineering" by Professor C. W. Sjogren, of the Department of Agricultural Engineering.  
"Selecting Your Gift For a Pig Club" by O. O. Waggoner, in charge of Animal Husbandry Clubs.

## Kosmet Klub Announces Members

(Continued from Page One)

best manuscript and music submitted by November first for the annual Kosmet show. All future productions of the Klub will be put on by entire male casts taking all parts.

**Sponsor Inter-Fraternity Sing**  
Numerous requests for information concerning the Inter-Fraternity Sing to be sponsored by the Kosmet Klub on Ivy Day have been received by the Klub members. Complete details and committees together with rules and regulations governing the contest will be announced Friday morning following the initiation banquet, it was said. The Klub members were advising the fraternities to take up the matter in fraternity meeting Monday night and appoint committees to prepare the groups for the competition.

SHOWS AT—1, 3, 5, 7, 9  
MATS—25c NITE—40c

## PROF. BUCK WILL GO TO WISCONSIN

Received Appointment As Professor of Comparative Languages; Has Been Visitor There

Professor Philo M. Buck, formerly dean of the college of Arts and Sciences and professor of comparative literature in the University of Nebraska, has been appointed professor of comparative languages at the University of Wisconsin.

Professor Buck left the university at the end of the first semester and since that time had been visiting professor at the University of Wisconsin.

**Here Since 1910**  
He has been in the university since 1910 and during the years from 1919 to 1924 held the position of dean in the college of Arts and Science. He was also exchange professor to Baroda college, the University of Bombay during the years of 1923 and 1924.

Dean Buck received his degree from Ohio Wesleyan in 1897 and the master of arts degree from Harvard in 1900. He was a professor in Ohio Wesleyan and in St. Louis before coming to Nebraska.

No resignation has officially been tendered the University of Nebraska by Professor Buck and officials had not been notified of the appointment by Wisconsin University. Arrangements had been made here to continue Professor Buck on the university's staff.

## China Is Topic Of Convocation

(Continued from Page One)

had a very efficient civil service but in 1911 the 'spoils system' took its place."

China is fast advancing in the opinion of Professor Quigley. "China has, in the last twenty years, worked out efficient civil, criminal, and commercial codes of law. The courts are quite effective and seem quite just. The supreme court is kept busy and yet it is merely a voluntary appellate court.

**Commerce and Industry Develop**  
"Commerce and Industry is rapidly developing. Cotton and steel mills are growing in number and size and are being run on a western basis. The commercial clubs are fastly becoming a force in Chinese political

life.  
"In the last ten years there has been a renaissance in the literature of China. Educators have attempted to give the people a literary language. They have lately developed an alphabet of less than a thousand characters and it is rapidly being accepted. We must say that China is advancing," concluded Professor Quigley.  
Professor Quigley was introduced by his intimate friend, Professor

Jenks of the University of Minnesota. The convocation, which was attended by a good-sized crowd, was presided over by Professor Grumann.

**Many Chemistry Graduate Students**  
The department of chemistry has the largest number of students in the Graduate College. English and education are also high. The college expenditure is about \$40,000 a year, according to Dean Sherman.

## ORPHEUM THEATRE

Friday and Saturday  
**AMERICAN LEGION POST NO. 3**  
presenting
