

Phi Beta Kappa Offers Prize
 "Contagious intellectuality" is regarded as so important to the education of the youth of today by Phi Beta Kappa, national honorary society, that it is offering a grand prize of \$100,000 every year for distinction in teaching, as a part of its national campaign for better scholarship.

B. J. Siegler, secretary of the Chamber of Commerce of Scottsbluff visited the University Wednesday on business.

Four-H Club Party October 8
 A Four-H Club party will be held Friday, October 8, at Machinery Hall, Agriculture College campus. All former members of Four-H Clubs are urged to be there. The party will start at 8 o'clock.

All men at Dartmouth college are required to take part in some athletic activity three times a week for the entire year.

Intercollegiate alumni hotels have been established in thirty-seven principal American cities by the united effort of eighty college alumni associations.

"Giants of the North," will be a rightful title for Minnesota's future gridiron teams if the turnout of freshmen at their first practice is any criterion. Of the 135 yearlings who began their work under Coach Sherman Finger, some 37 men measured six feet or over while many tipped the beams at 200 pounds or more.

WALTER CAMP DAY WILL BE NATIONAL

No Date Is Set, But Sections Are Asked to Help Raise Fund For Memorial Gateway

"Walter Camp Day" will be observed in every section of the United States this year, in memory of the Father of American Football," according to announcement of the Walter Camp Memorial Committee of New York City. No one day will be set aside for the purpose of celebration, but, in accordance with the wishes of athletic councils, each community has been allowed to set aside its own date for the memorial.

The observance of "Walter Camp Day" is a part of the plan whereby the National Collegiate Athletic Association and the alumni of Yale hope to raise a fund of \$300,000 for the erection of an appropriate memorial gateway as a tribute to Walter Camp. It is to be known as the "Walter Camp Memorial Gateway." Every college and university where football is played is urged to contribute to this memorial, in order that it may be truly a national tribute.

November 25, the day of the Nebraska-Washington game will be Walter Camp day on the west coast.

ALUMNI ARRANGE SEATTLE ROUND-UP

Pacific Coast Graduates Engage Choice Section of Seats for Thanksgiving Game

Pacific coast alumni have engaged a choice section of seats in the stadium at Seattle for the old grads, who will attend the Washington-Nebraska game on Thanksgiving day.

The Alumni Association here has furnished the northwestern branch with a list of all alumni now residing in Washington and neighboring states. They are putting on a drive to get every old grad in the Northwest to attend the game. The Nebraska organization at Seattle has asked for the latest Nebraska songs. Indications show that there will be a huge crowd in the stadium cheering for the Huskers. Many old grads of that section have expressed the desire of seeing our team in action, and particularly against such a worthy foe.

It is believed by these loyal Nebraskans of the Coast that no greater stimulus could be given the team than by having a large and noisy delegation on hand at the train upon its arrival. Exact plans are subject to the approval of the Nebraska coach.

Mr. Harold F. Holtz, secretary of the Nebraska Association will probably precede the team to Seattle, in order to help with the meeting there. Three clubs, Spokane, Portland and Seattle, are joining forces in an effort to hold a real Nebraska round-up. Indications show that this affair will gather more Nebraska alumni than have ever assembled with the exception of the June reunion.

Should the team return through San Francisco the Berkeley, Oakland, and San Francisco branches will plan a reception for them and show them the town.

Brigham Young University Freshmen Wear Green; Rule Recently Adopted

Distance lends enchantment to the wearin' o' the green! Such might logically be the reaction of the freshmen of the University of Nebraska when told that compulsory "freshness of apparel" prevails also among the freshmen of Brigham University in Utah.

In the latter Mormon collegiate center, certain rules have been adopted recently by the student body in order to offer more incentive for Freshman cooperation.

These rules summed up provide simply that the men and women of the freshman class shall wear the green cap and green arm band, respectively, on the campus during the entire first quarter. The campus is defined as all rooms, halls, grounds and other properties of the university and the only exceptions made are (a) when in attendance at devotional, and (b) when attending evening meetings.

A committee chosen by the Student Body council will enforce these rules. Any rule-breaking which is reported during the fall quarter by the Sophomore policemen to the Senior court will result in such punishments to offenders as raking leaves, scrubbing floors and the use of the paddle on the men.

The purpose of compelling the freshmen at Nebraska to wear the green cap and the green button is practically the same as that of this western university; namely, to bring

them in closer touch with one another and thereby to develop cooperation and class spirit. The latter should not be difficult here at Nebraska for the green cap, itself, as worn by the freshmen of this university, is certainly symbolic of spirit, the spirit of '76.

Be that as it may, the fact remains that, with customs and purposes of Freshman training so similar between two Universities as far removed from each other as Nebraska and Brigham Young, this old country is not so large, nor its sectional customs so varied but what freshmen are simply freshmen everywhere!

The Casa Italiana, Columbia University's Italian House will be opened to the public this fall. The house is planned as a center of Italian culture in the Western World. Art treasures are being collected all over the world for Casa Italiana and will include a portrait of Mussolini by the French artist L. Reni-Mel.

The total registration of universities and colleges in Canada for 1925 was 59,160. Undergraduate and graduate and commerce courses in arts, pure science, letters, and philosophy show a steady increase during the last three years.

Freshmen at the University of Missouri were required to buy a cap when registering. All freshmen not complying with the traditional ruling were assembled and a padding administered.

MEETING REPORTS FEATURE VESPERS

Y. M. C. A. and Y. W. C. A. Conference in Estes Park Last Summer is Described

Vespers, Tuesday at 5 o'clock in Ellen Smith Hall, led by Iva Glene Murphy, was a special service for reports of the joint Y. M. C. A. and Y. W. C. A. conference in Estes Park, August 25 to September 3. Reports of the conference were given by Grace Modlin, Louise Austin and Alice Leslie. Ida Lustgarten played two piano selections.

"We were divided into analysis groups," stated Grace Modlin, in telling about the group study at the conference. "The purpose of the analysis groups was to find out what problems students wished the conference to solve for them. This conference studied the questions and problems in students' minds. The last seven days were given over to the committees, discussing the questions that students had developed in the analysis groups. We also discussed the attitude of students toward the church, and whether we are justified in praying."

Louise Austin gave a list of the most prominent speakers, including: Dr. Laugh from the University of Colorado; Frances Meller, a staff member of the national Y. W. C. A.; Harry Bone, Frances Perry, Ben Cherrington; Grace Loucks; the Rev. Hyst and Dr. Reinhold Neibuhr.

Dr. Laugh feels that all the universe was made by God, and Dr. Neibuhr believes that nature and God are two different things.

Alice Leslie gave a brief talk on the recreational periods at the conference, especially stressing the community singing and fellowship hour. She also told about the general feeling of good fellowship among the students at the conference and the many friendships that grew up during the ten days of the conference.

"Don't Drink Liquor" Is Swimming Rule

In a recently published list of ten rules for swimmers, Dr. Robert F. Legge, University of California physician, has put in the following: "Don't drink liquor and then go in swimming."

Evidently some of the conquerors of the English Channel are believers in his advice. It is reported that Mrs. Gertrude Ederie, the first woman to swim the channel, is an abstainer.

In an article on "Channel Swimmers" the "Son of Temperance," published in Manchester, England, says:

"The first to swim the channel was Captain Webb, in 1875, who abandoned spirits, and took as his staple drink hot coffee. His former experience had shown him that spirituous liquors abstracted heat and reduced strength, and quite unfitted him for an arduous swim. He gave a piece of advice to all who are wishful to become expert swimmers: 'If you are total abstainers—keep so. Thomas W. Burgess, the second man to swim the channel, was a life abstainer.'"

An Inter-Fraternity is functioning at Southern California.
