

DECISION DELAYED BY SCORING RULES

Inter-Frat Cross-Country Race Winner to be Determined By Ninth Place Tie

The winner of the inter-fraternity cross country meet held Friday afternoon is still in doubt as a result of a question as to the scoring rules. Either Theta Chi and Farm House will tie for first with 28 points or Theta Chi will win with 28 points to 28 1-2 for Farm House.

Cummings, T. K. E., led the field of between sixty-five and seventy starters to the tape. Herring, Mu Sigma, finished a few yards ahead of Dexter, Theta Chi, and half a lap behind Cummings. Othmer, Kappa Sigma, trailed to finish fourth, pushed by Bob Davenport, varsity quarter miler representing Delta Tau Delta. The next ten or fifteen men finished so close together that it was difficult to place them.

Ninth Place Tie Presents Problem

The difficulty in the scoring came when Rooney, Farm House and Anderson, D. U., tied for ninth. Whether cross-country scoring would give each man nine points or four and a half is not clear in the rules. Coach Schulte said that the winner could not be determined until the rules governing the situation could be located. This difficulty had no effect on the scoring of the other teams. The lowest score wins in cross-country.

Following the two leaders was Tau Kappa Epsilon with 35 points, Mu Sigma with 42 points, Alpha Sigma Phi, 59; Delta Tau Delta, 80; Pi Kappa Alpha, 81; Kappa Sigma, 94. Delta Upsilon had only one man finishing. He tied for ninth. Three men had to finish in order to count in the team scoring. Lambda Chi Alpha placed two men eleventh and twelfth; Acacia, two men 37th and 40th, and

Pi Kappa Phi, two men 46th and 47th to place ninth, tenth, and eleventh respectively.

First Men to Cross Line
The first fifteen men across the line were: Cummings, T. K. E.; Herring, M. S.; Dexter, Theta Chi; Othmer, K. S.; Davenport, D. T. D.; Hedges, Farm House; Settles, T. K. E.; Karr, Theta Chi; tie between Anderson, D. U. and Rooney, Farm House; (Heiner, a non-fraternity man finished next but did not count in the scoring); Brand, L. C. A.; King, L. C. A.; Beattie, Farm House; Vordie, Farm House, and Fetterman, A. S. P. Time was not taken on the meet.

Coach Black's Basketballers Make Progress

The Scarlet and Cream Basketballers under the coaching eye of Charles Black are making progress in their usual autumn practice. Four times a week the squad of twenty-five men is working out in the Coliseum getting in shape for the 1927 season. This number will be increased after the close of the football season, as a large number of the sphere tossers are on Coach Bear's fighting Cornhusker eleven.

The squad is now passing through the fundamental stage, drilling on passing, dribbling, pivoting, and guarding; very few plays have been introduced. With five letter men out for practice, the Nebraska quintet bids fair to make the going stiff for the Valley teams this year. "Jug" Brown, Lawson, and Sprague, all letter men, will report for practice at the closing of the football season. Gerelick, Elliott, Anderson and Captain Smaha, letter men, are forming the nucleus of the 1927 team.

Page, the 6' 6" center is making his bid for the pivot position, and

will furnish competition for the remaining center aspirants. Presnell and Holm will also be among the men from the football squad who will be out for practice as soon as the grid season is over.

With the addition of the Coliseum the housing problem at the basketball games this year is solved. The stands will seat 8,500 fans at the games. Also there will be no difficulty in getting in practice games as there are six courts in the Coliseum. There are four courts on the main floor, one on the stage, and one under the stage.

One more game will probably be added to the schedule for 1927. This game will be played during the Christmas vacation and will be played away from home. The Kansas City Athletic Club of Kansas City, Missouri, national A. A. U. champions for several years is one of the teams that is being considered.

JUNIOR HOCKEYISTS WIN EASY VICTORY

Defeat Sophomores 8 to 0 in Third Game of Tournament; Juniors Show Superior Passing

The Junior Hockey Team earned an 8-0 victory over the Sophomore Hockey Team in the third game of the Tournament. Clean, accurate passing by the Junior half-backs to their forwards featured the game. The forward line showed superiority over their Sophomore opponents in dribbling and dodging. The score at the end of the first half was 5-0, but a stiffening of the Sophomore defense held the attacking team to three goals during the second period. Most of the game was played in the Sophomore half of the field.

The line-up:
Sophomore— Juniors
Des Le Dernier, R. W. Snavely
Peterson, R. Isaacson
Clayton, C. F. Olds
Grau, L. Nesladek
Eastabrooks, L. W. Clarke
Hoag, R. H. Kellenbarger
Frohman, C. H. Wheeland
Kunkler, L. H. Robinson
Gohde, R. B. Ayres
Bergstrasser, L. B. Schlytern
Fitzpatrick, G. Darland
Substitutes: Sophomore— Elliott, Etherton. Junior— Wolcott, Carrol, Cypreansen, Morehead.

Wisconsin Engineering Students Hold Annual St. Patrick's Day Fete

Students of the engineering college at the University of Wisconsin, participate annually in a St. Patrick's Day celebration. Headed by their patron saint esconced in a real Irish phaeton and with his queen by his side, the students parade across the campus, displaying a wonderful assortment of floats. Early in the day the doors of all buildings on the engineering campus are thrown open for public inspection. Graduates return for this gala occasion and it has become a day associated with many traditional practices.—Banta's Exchange.

DeBaufre's Health Improved
Prof. W. L. DeBaufre's health is greatly improved reports F. W. Davis, research engineer with the engineering experiment station, who recently returned from New York City. Professor DeBaufre is on leave of absence from the University.

Freshman Gate Receipts to Memorial
The net receipts of the Kansas Aggie Freshman game was the University of Nebraska's contribution to the Walter Camp Memorial fund.

IN THE VALLEY OSCAR NORLING

Rumors to the effect that Nebraska will play at Pittsburgh next year were not confirmed by Herbert D. Gish, director of athletics, when interviewed concerning the press information sent out by the Panthers yesterday. He admitted, however, that Pitt was one of the eastern schools with which the Huskers have been negotiating, but that no positive arrangements had been made. With Syracuse already on the 1928 schedule this would place Nebraska in action with two big eastern teams.

The bulwark of football tradition is seriously being threatened as a result of the strained relations between Harvard and Princeton. The Tigers are now awaiting Harvard's reply to the action of Princeton in severing athletic relations with the Massachusetts school, thereby automatically dissolving the "Big Three", the oldest combination in collegiate sports. The bad feeling between the undergraduate bodies of the two universities was given as the chief reason for the break. Harvard and Princeton have been playing football since 1877. Of the twenty-eight games, Princeton has won sixteen, Harvard nine, and three were tied. Harvard will still play Yale every year at the scheduled time. Football followers throughout the country regret that any such action should result in the dissolving of the traditional Big Three rivalry.

EDUCATION CLASSES TO TRY EXPERIMENT

Joint Meeting of Over 400 Students in History Classes is Planned By Dr. Weidman

Dr. Weidman of the Teachers College will conduct a laboratory experiment next Wednesday evening in the Armory. All of the students in the History of Education classes will be asked to be present at a joint meeting of these classes that evening. There are some four hundred enrolled. The affair may be social in its nature or part of the time may be given over to a discussion of the principles of the history course.

This is the first experiment of this nature to ever be tried at the University of Nebraska.

Three committees have been appointed from the various classes, one for entertainment, one for refreshments and one for reception.

Definite details are being withheld until the evening of the affair as part of the psychological point of view to be brought out is the reception of the movement by the student members concerned.

PROFESSOR ROBB TALKS TO BANKERS

Economics Instructor Speaks On Business Barometers at State Convention

Prof. T. Bruce Robb, of the department of business administration, an expert on statistics and business research, told the Nebraska State bankers association convention about business barometers Friday afternoon.

"Bankers are vitally interested in business, for the banker is the financial counsellor of the business man," Prof. Robb said, and added that the relation of assets to liabilities has a bearing on banking relations, but is secondary to the great economic forces which must be considered in relation to business.

"Business Man is Risk Bearer"

"The business man, including the farmer, is the primary risk bearer in economic society. In the first place goods must be produced in anticipation of demand. In the second place it takes time to produce goods. It is this lapse of time between production costs and selling prices that makes the business man so apprehensive of the future."

Then Professor Robb explained the value of the business forecasting agencies, such as Babson, Brookmire, and the Harvard system, and gave the connection between figures and actual existing business conditions.

In the closing session of the convention Clarence G. Bliss of Elm-creek was nominated as president of the association.

Webster Has Two Books Published

Dr. Hutton Webster, professor of social anthropology, has recently had two new books published by the D. C. Heath company. The titles are: "Readings in Early European History" and "Readings in Modern European History." Professor Webster's historical series now includes thirteen volumes.

THE CURSE OF SCHOLARSHIP

Complains Gloomy Gil Dobie, football coach at Cornell University: "Football is utterly hopeless here. We can't pretend to meet our rivals on even terms. Other schools get football players, boys born and bred in the game, who come to the college with prep school reputations. Here all we have are students. Their principal interest is in their academic and scientific courses. The courses are so tough they can't allow football to interfere. And those we get on the football field are not real athletes and never will be."—The New Student.

Kentucky Negotiating for Geneva Coach

A movement is on foot among certain alumni of Kentucky State University to obtain the services of "Bo" McMillin, coach of the Geneva college squad and former all-American quarterback, as a football coach of the Kentucky team.

Parent-Teachers Gain Members

A report of the membership contest of the Indiana Parent-Teacher association held at the convention of Indianapolis recently, showed a total gain of 6,744 members.

Kansas Third in Glee Clubs

The University of Kansas ranked third in the national intercollegiate glee club contest held in New York last year.

Talking the college language

Ever think how strange the talk of two college men must sound to the uninitiated layman? Must seem a new language altogether. College, being a world to itself, has a vocabulary all its own. And it takes a college man to speak it.

Naturally, you get the same sort of difference in clothes—a college man's clothes differ from those of others, not in any obvious way, but quite unmistakably. They have a free-and-easy air about them that no other clothes have.

You can see at once that not every clothing maker would be capable of producing this effect. It takes a first rate designer—one who knows college men and what they want to wear.

That's why we, as clothiers, are especially careful to hunt out the finest designers of college styles. For many seasons now we've chosen Society Brand, and for just as many seasons campus men have given these clothes their okay. Society Brand college models are cut as college men have asked to have them. The result is—they're right! They talk the college language, in every line.
