Are you feeling sort of blue and don't know just what the matter is?

There In A Corner Window

of the Lindell Hotel building a hat smiled out at me, while overhead swung a hat box, tied with a ribbon bow and in electric letters "Millinery". I made up my mind then I'd go in sometime to satisfy my asthetic taste. I knew well enough hats couldn't live in THAT place long without acquiring an atmosphere all their own. Nor was I disappointed when I pushed open the door of the little grey shop. I found an innovation in the field of felts. Can you imagine georgette over felt? There is was; a cutout pattern in the georgette outlined in gold, and the softest of felts shown through. The best of hats this year receed from the brow, and pull close over the ears like a bonnet. You'll find them at The Band Box. Next time you pass lift the cover and peep within.

Ride The Waves

-over the ocean deep with a shipload of college folks just like yourself? Swimming and deck tennis (as though anyone needed recreation to while away the hours on an ocean voyage), a college orchestra and dancing on the S. S. Majestic, the largest ship on the Atlantic! Doesn't it sound good? A week in London, ten days in Paris, and three weeks in Italy. Of course you'll visit the Lido--just out of Venice-which is one of the fashionable watering places of the world. There people lounge in pajamas all day long, and spend most of their time on the beach. YOU can see Europe in collegiate company if you sign up with the Bureau of University Travel. Call Elizabeth Sawyer (F2836) now and find out more about it.

\$10.00 For These

Are you looking for a clever pair of campus shoes? Something that you can wear with your suit, but would still pass at the door of the most exclusive of tees? I walked into Magee's yesterday and they were just unpacking a new shipment of blond calfskin oxfords and sport pumps, with square, stubby toes and box heels. Plain, they are, or with tan or brown contrasting leather applied in a cutout design; and no girl who knows what she is about will attempt high heels for campus wear when she can have a pair of these for 10.00. They are as good looking as anyone could ask and comfortable? Well I for one am glad to see a moderate heel and welt sole come in that I can wear just anywhere. And speaking of Magee's, have you seen "The Kollege Room-

Orkin's smart shop for women announces the arrival of new Irene Castle models for spring wear, and you know an Irene Castle dress is always good. Better wander down, Elice, and indulge in a dress or two. You'll want a light georgette or crepe for Jimmy's house dance next | week end. He'll die of the shock if you wear that blue one many more times. Black coats and white for dress are awfully good, but tweeds and plaids in sports coats are running a close second. And while you are there look at lingerie. Orkins have just put in a new line of fluffy crepes and georgettes for underneath wear, and you can't really feel apring-like unless you are dressed for spring all the way through.
