SIGMA DELTA CHI ISSUES PETITION

(Continued from Page One.)
 above. But the defendant refused and still refuses to pay, although often requested to do so, this sum to the plaintiffs.

4. That acting in good faith upon this award the plaintiff has incurred debts that he otherwise would not have incurred and that the failure of the defendant has embarrassed and damaged him to the extent of twenty dollars.

Therefore: the plaintiff prays the court to render judgment in its favor and to require payment of the justly awarded prize, to wit twenty dollars, and for such other and further relief as the court may deem best.

Trial Will Take Place April 19

The trial will take place Tuesday, April 19, with the Student Council acting as jury. The place of trial has not been definitely decided upon. It was originally planned to hold it in the law college moot court room, but so much interest has been shown the case that a larger room is necessary.

The controversy is over a skit presented by Sigma Delta Chi to the University Night Committee, to be presented at University Night. According to members of the journalistic fraternity, the committee, acting for the Y. M. C. A., agreed to pay Sigma Delta Chi \$20, the prize offered for the best skit presented, and which the fraternity is said to have won.

Defense Considered Prize Cancelled

According to the defendants, the skit could not be presented by Pi Epsilon Delta, national collegiate players, on account of a conflict with "The Merchant of Venice", and that since the skit could not be performed

before the University Night audience, the committee considered the prize to be automatically cancelled.

Members of Sigma Delta Chi, on the other hand, charge that other arrangements for putting on the skit could have been made, and allege that it was deliberately suppressed because of its nature. "Durham Time" is said to have been a startling expose of fraternity politics.

Some members of the committee have answered these charges with replies to the effect that the award was fraudulent because of the numerous members of Sigma Delta Chi who were members of the committee also.

Robert F. Craig and Lloyd Marti, attorneys for the defense, will pro-

baby file a demurrer in the near future. Attorneys representing both litigants have met already and stipulated conditions for the trial.

Ames, Iowa, March 31.—Special: Betty Becker, women's diving champion, will have to look to her laurels

if 10-year old Carroll Underwood of Ames continues her present pace, according to the prediction of Coach Jake Daubert of Iowa State College. Little Miss Underwood annexed first in the juvenile fancy diving contest at the Mid-West National A. A. U. swimming meet at Omaha a week ago, although competing against much older children.

Talks of eating at the Central CAFE

Avoidable Waste (continued)

In our last instalment we spoke of the losses sustained by hotel and cafe operators because of pilferings by guests. To a very large extent small articles are carried off by guests without larcenous intent. That is to say, many persons believe that "swiping a souvenir from a hotel or cafe is really not stealing—merely an interesting game of hide and seek. And still others carry off small articles inadvertently.

But regardless of the intent, the hotel or cafe proprietor loses, and is obliged to recoup his losses or go into bankruptcy. And the public—or those who patronize hotels and cafes—pay the bill in increased prices. This is inevitable.

At the Central Cafe there is one form of waste which adds considerably to the cost of operation: (man or woman comes in with the morning newspaper and takes a seat at one of the tables, opens the paper and becomes immersed in the news. By dint of keeping at it, the waiter succeeds in getting the reader's breakfast order—probably toast and eggs and coffee.

The order is delivered without loss of time, eggs, toast and coffee piping hot, and set before the consumer of the latest news about Browning and "Peaches" or the latest K O delivered by Monte Munn. Minutes pass, the food grows tepid or cold, and then the reader's gastric juices begin clamoring for something to digest.

"Bah, g-r-r-h," growls the breakfaster, "don't want my food cold—take it away and get me something hot." And the garbage can gets what was a good breakfast when delivered, but ruined through no fault of the chef or waiter.

Noon Lunches

Just a few of our new select combinations listed below for your approval. Lunch at The Owl Pharmacy and save money.

Fresh Beef Sandwich 15c
 Midnight Sandwich (Beef or Pork) 25c
 Fresh Pork Sandwich 15c

ELEPHANTS

"Elephants a-pilin' teak, In the sludgy, squidgy creek, Where the silence 'ung that 'evy You was 'arf afraid to speak!" —Kipling's "Mandalay"

The elephant is man's most intelligent helper. But—consider this interesting comparison: An elephant is much larger than the electric motor of a "yarder" or logging machine. The "yarder" has the power of twenty elephants; it handles clusters of logs; it works dependably, twenty-four hours at a stretch, if necessary.

Twenty elephants would eat daily 10,000 pounds of green food, which a corps of attendants must gather. A motor "eats" nothing but electricity, supplied at the throw of a switch.

Power used in the modern industrial world is applied through electric motors—tireless "iron elephants" that are relegating antiquated machines to museums, along with such oldtime household articles as wash-tubs and ordinary irons—and stuffed elephants.

Two million elephants could not do the work now being done by General Electric motors. Whatever the work to be done, whether it needs the power of an elephant or the force of a man's arm, there is a General Electric motor that will do it faithfully for a lifetime at a cost of a few cents an hour.
