Laws Punish Culprits Who Play Traitor

"The law of the clan shall not be broken." Three members of the Law college who broke faith with their group to the extent of assisting the Engineers in repairing the dirigible E-27, partially destroyed by fire in a near-riot Wednesday morning, were summarily punished during the intermission between ten and eleven o'clock classes yesterday morning.

The irate lawyers forced the culprits, Wendell Cameron, Robert Powell, and Arch Weaver, to run a gauntlet of paddles as atonement for their misdemeanor. A double rank of paddle-wielders lined the sidewalk south of the Administration building to take part in the ceremony.

A large group of Engineers gathered for the occasion, in anticipation of further attempts to wreck the dirigible, but no trouble developed between members of the two colleges at that time.

Y CONFERENCE SCHEDULED

STATE MAY ALLOW REQUEST OF FOSTER

College of Medicine, Through Dean Foster, Asks for Change in Graduation Rule

The State University College of Medicine, through their legal advisor, Dean Henry H. Foster, dean of the College of Law, has asked permission to grant diplomas to its graduates who complete the course in seven semesters providing they have attended one summer session during their course.

In answer to Dean Foster's inquiry, Secretary Frost of the state department of welfare has answered that he believes it is in compliance with the law. Attorney General Spillman, Frost stated in his letter, quotes the law as saying "at least four courses of lectures of eight months each, no two of such courses to be held within one year."

Attorney General's Opinion The attorney general's opinion in full, as quoted by Frost was as follows: "Allow me to say in answer to the question asked by Mr. Foster that in my opinion the proposed plan meets the requirements of the statute as to the time when the several courses of lectures shall be given."

Secretary Of War Asks Enlisted Men To Write Home on Mother's Day

Colonel Frank F. Jewett, of the Military department, has received the following letter concerning Mothers' Day from the War department. He has expressed the wish that all men in the local division of the R. O. T. C. would comply with the wishes of the Secretary of War.

The letter follows: "You are directed to bring to the attention of every officer in your command the desire of the Secretary of War that every officer and enlisted man write a letter to his home on Mothers' Day, the second Sunday in May, May 8, 1927, as an expression of the love and reverence we owe to the mothers of our country."

OPEN HOUSE IS VISITED BY 2000

Annual Pharmacy Night Open House Attracts Hundreds Of On-Lookers

Approximately 2000 persons viewed the exhibits last evening at the seventh annual Pharmacy Night Open House. A spirit of interest and enthusiasm dominated the crowds as they passed from one laboratory to another where various experiments were being conducted by the students.

Pharmacy Night has become one of the important events in the week's celebration, and is looked forward to by the people of Lincoln as well as the students.

This morning at 11 o'clock, a picnic at Antelope Park opens the events of the closing day of Pharmacy Week. A baseball game will be one of the features of the outdoor sports which will figure largely in the day's entertainment.

Banquet Tonight A banquet starting this evening at six o'clock at the Cornhusker Hotel will close the events of Pharmacy Week. Stanley M. Long of Cowles Nebraska, member of the Board of Regents of the University of Nebraska, will be the principal speaker.

Other members at the banquet will be: Judge Lincoln Frost, head of State Department of Public Welfare and Judge E. B. Chappell, of the Municipal Court.

In viewing the exhibits last evening, one group of people would be interested in one phase of pharmacy while another would show interest in something entirely different. Each experiment was well explained by the students making it both interesting and instructive.

The medicinal subdivision of drugs was carried out by grinding, cutting, bruising and precipitation which produced a finer state of the drug.

BIZAD DAY TICKET SALE IS PROMISING

350 Tickets Sold by Close of Initial Campaign; Brink's Team Leads Conveyance Needed

The initial campaign for the sale of tickets for Bizad Day closed Thursday evening with a total of three hundred and fifty tickets sold. This brought to an end the brisk campaign that covered every class of students in Social Science building both Wednesday and Thursday.

A new plan was used by the ticket sales committee in which the instructors of every class allowed the salesmen the first ten minutes of the class period to put over their ticket sale direct to the students in the rooms.

Orville Carrington, chairman of the ticket sales committee, stated that he believed the new plan was a great success, as the result of the first sale was very encouraging.

Sale to Continue The committee will continue the sale of tickets until Bizad Day but the sale will be conducted outside of the class rooms. It is expected that the four hundred mark will be reached before Bizad Day, Friday, May 13. Tickets may now be obtained from any of the following men: Leslie Brinkworth, Glen Spahn, Orville Carrington, Nick Amos, and Robert DuBois.

At the close of the Wednesday sale the team captained by Wayne Gragny led the field by a net sale of fifty-three tickets while the team led by Victor Brink was second with a total of fifty-two. Thursday the order was reversed and Victor Brink's team led with a sale of ninety-nine tickets while Wayne Gragny's team in second place. The members of the leading team are: Victor Brink, captain, Leo Carpenter, and Maurice Lee.

ENGINEERS RAID P. A. D. HOUSE IN NIGHT DEBACLE

Mob Forces Way Into Fraternity in Hunt for Laws After Airship Is Wrecked

LEGAL STUDENTS TUBBED

Delta Theta Phi House Escapes Unscathed; Police Riot Squad Is Called

The dirigible advertising Engineers' Week was torn down and the P. A. D. house raided last night in a renewal of the ancient feud between the engineers and lawyers. Police were summoned to stop the fighting at the P. A. D. house, and firemen dispersed the mob outside by the use of water.

The trouble started about ten o'clock when the lawyers drove up in a machine and attacked the dirigible constructed by engineers in front of the Administration building. Engineers left their positions in the laboratories and hurried to the scene.

They organized into a mob and headed for the P. A. D. house where they surprised the lawyers in the act of carrying eggs down stairs in readiness for the attack. They proceeded to scatter them in a somewhat broken condition about the house.

Someone, evidently seeing the flare of a torch carried by the engineers, sent in the fire alarm. The trucks left but returned a few minutes later and the firemen used their equipment to disperse the mob which had gathered to witness the battle.

Many onlookers were soaked and the crowd was soon dispelled. Virtue and Wilson Tubbed Clarence C. Virtue and Hugh Wilson, the two lawyers taken from the house were taken to the campus and ducked in the Pharmacy pool, around which the engineers gathered to plan further aggressions.

They then went to the Delta Theta Phi house in search of more lawyers. They were unsuccessful in finding any of the men wanted so left the house undamaged.

It is estimated that the damage done in the P. A. D. house will total \$1,000, including broken doors, windows and furniture and damage done to floors and rugs.

The dozen lawyers in the house at the time of the raid had locked the doors in anticipation of the attack but the indignant engineers broke doors and windows to force admittance. It was in the course of the search of lawyers believed by engineers to be hiding in the house, that the damage was done.

Mickey Aids Professor Clarke E. Mickey came to the aid of the police in stopping the riot by admonishing his engineers to go back and take care of their laboratories and leave the settlement of the lawyers with the proper authorities.

The men left the house and returned to the campus but were soon on their way to the Delta Theta Phi house to get every lawyer they could find. Bill Mutschulla, house manager, used his argumentative ability to talk the gang out of making such a mess of their house as they did of the P. A. D. house. A compromise was made whereby the engineers agreed not to destroy any property if allowed to make a thorough search of the house for lawyers. None were found so they left without further fighting.

Four Delta Theta Phis, Duke Jones, Chet Irwin, Walter Schrun, and Dwight Riasler were picked up on the street and ducked in a mudhole back of Morrill Hall. Hugh Wilson, P. A. D., was ducked in one on R. street.

Camera Men on Job Camera men were on the scene after the riot taking motion pictures of the P. A. D. house and the crowd surrounding it.

The efforts of Ed Jolley, Engineers' Week chairman, to prevent the riot proved futile against the indignant engineers who had been waiting further movements by the lawyers all day for the opportunity of clearing out the law college. A conflict was narrowly averted Wednesday morning when the lawyers set fire to the dirigible.

Things had quieted down by midnight although engineers were still hunting laws at a late hour. Faculty and student leaders could not be found after the fracas to give their opinions on the affair.
