

1928 CONFERENCE SCHEDULE FINISHED

Nebraska Football Team Will Play Iowa State in Opening Game Of Next Season

The Nebraska football schedule for 1928 and 1929 has been completed. At a meeting of the athletic directors of the newly organized "Big Six," the schedules were drawn up for two years in advance. The name of the conference may be changed from the adopted name, but not at present.

According to the new schedule, each conference team will play all other members of the conference during the season. Dates will be open for games with non-conference members. Championship play for the season of 1928 will begin on October 13. Herbert D. Gish, director of athletics at Nebraska, attended the meeting which was held at Kansas City.

The following two year schedule was drawn up for the conference teams:

IN THE VALLEY

By JACK ELLIOTT

Many comments were heard after the game at Missouri Saturday as Nebraska rooters left the field. One Mizzou fan was heard to say, "Well the Tigers beat the best team they probably ever will beat and I don't know whether the best team won or not." Remarks like this were heard among the crowd that left the stadium. But it was a great game, one of the greatest the Cornhuskers ever played. Glenn Presnell won an All-American place in the mind of every Missouri rooter. He made a name on the Mizzou field that will not soon be forgotten. Presnell was the byword during the second half and after the game. Two 30-yard runs by the brilliant Husker back were the outstanding plays of the afternoon. One end run around the left wing with Presnell carrying the ball and Blue Howell running interference was the best exhibition of football seen in the Valley this season. Presnell carried the pigskin for 32 yards before he was downed by a Tiger back.

The students on the Nebraska campus who only heard the game over the radio are asking those who went to the game "What was the matter with our Husker team?" From the press box the Husker even looked plenty good but lacked the final punch to put the oval over the line after it had been advanced down the field by brilliant line and end runs. The Husker backfield went through the Tiger line at will and took the ball almost the entire length of the field in the second quarter only to lose it on the 20-yard line. When Nebraska was well into the Tiger territory, Coach Gwinn Henry's line held like a stone wall, forcing Nebraska to try for a place kick or a forward pass.

The passing combination of Flamank to Clark is just about as perfect as a forward passing machine can be and against the Husker eleven it proved to be the stumbling block for Bear's backfield. Bert Clark, the Tiger quarterback, has an uncanny accuracy of snagging passes out of the air with any number of opposing players trying to break it up. The Tigers could gain but little ground through the Husker line or around the ends, so depended entirely on their passing game to do the work. Coach Henry inserted Clark into the lineup just at the psychological moment and for a second time Clark scored against the Huskers to win. After the touchdown Clark was taken out as well as Captain Flamank who was on the heaving end of the passing machine.

T. N. Metcalf, athletic director at Iowa State comes forth with his first statement since the break up of the Missouri Valley conference. Trouble in the old organization was more evident to those on the inside than to the public, according to the Ames athletic director. "For years the members of the conference have realized that the present organization was unsatisfactory, and was, to a considerable extent, defeating its own purpose. The 'play whom you like' plan of schedule making left some schools without fair representation in the conference, while some of the members, for financial reasons, have chosen to fill their schedules with non-conference rather than Valley schools. In the Big Six it will be possible for each football team to play every member of the conference and no team will be able to take first place through a light schedule as was done last season."

The Husker's opponents for Thanksgiving took a lop-sided score in Saturday's game with Alfred. When the final gun sounded the slaughter Chick Mehan's Violets had piled up a count of 65 to 0. The New York eleven scored 19 in the first quarter, 26 in the second, 7 in the third and 13 in the last. So far the eastern coast team has gone through this season without a defeat.

The Missouri Valley champions for last year continued their losing streak by taking a beating from the Minnesota Gophers Saturday taking the small end of the 40 to 0 count. The Oklahoma Aggies were powerless against the Minnesota reserves and throughout the first three quarters the Aggies were held without a first down.

Kansas was the second Missouri Valley team to fall before a Big Ten team Saturday. Wisconsin took the Jayhawkers to a 26 to 6 defeat on the Kansas Stadium field. Cochran's 90-yard run in the last ten minutes, to score for Kansas, was the outstanding feature of the day for the Jayhawkers.

The University of Southern California has caused widespread interest among educators and students by including in their curriculum a four-year course in technical training for the motion picture industry. The plan was developed under the advisement of the Committee of College Affairs of the Academy of Motion Picture Arts and Science, of which Douglas Fairbanks is president, and Milton Sills chairman. The curriculum has been endorsed by Will Hays, head of the organized motion picture industry.

YEARLINGS WORK ON BLOCKING TACTICS

Freshmen Mentor Shows First Year Men How to Send Clever Forward Passes

A good sized squad of yearlings spent the Monday afternoon football session in blocking and passing tactics. "Choppy" Rhodes, freshman mentor, was on the sending end of the passes and was responsible for some clever forward flips. A large number of ends were going down for his efforts.

Assistants Lehman and Keim were occupied in repulsing attacks by the various linemen. "We can't expect them to do it right if we don't show them how" was their version of the affair. Charging and blocking practice kept the forward wall men busy. The warm climate slowed up all the candidates somewhat, but the assembled coaches continued pushing the players through the prescribed course.

Late in the afternoon, a tackling drill was put out for the benefit of all the players. If this was destined to take off surplus weight it certainly accomplished its purpose. Several of the linemen, Wittwer and Reid for instance, lost some.

South field, where the youngsters hold their practice battles, is in fine condition. A sawdust covering helps the footing but is rather disadvantageous when the wind blows as strongly as it did during last night's drill. Sprinklers are being placed on stadium sod to make it in prime condition for the game with Grinnell this Saturday.

Every student enrolled in the University of the Philippines will be required to sign a pledge of loyalty and obedience to the rules and regulations of the University, according to a ruling passed recently by the executive committee of the university council.

Courses in native dances and folk songs were offered at the last summer session of the National University of Mexico. A few of the courses

which ordinarily require a knowledge of Spanish were given in English for those not familiar with the Spanish language.

The University of Texas received royalties amounting to \$357,625.50 from their oil lands during the month of September. This money has been added to the permanent University fund.

At Vermont university, the women students seem likely to crowd out the men in numbers. This year 723 men and 599 women are registered at the university, but the trend is decidedly in favor of the fair sex, because in 1926 only 566 women entered.

A silver loving cup and medal will go to the winner of a mile and a half swim in the Wabash river. This is an annual event at Purdue University, and is to be held early this fall.

Entrants in the race will be accompanied by boats over the entire route.

Students in Pharmacy at Morgantown, West Virginia, may slide out of the two years Latin that used to be compulsory.

Massachusetts Institute of Technology
School of Chemical Engineering Practice

INDIVIDUAL and practical training at five industrial plants are important features of the Graduate Course in Chemical Engineering Practice. Field work is carried out at Bangor, Me.; Boston, Mass.; Buffalo, N. Y.; and Bayonne, N. J.; in plants producing sulphite and soda pulp, paper, caustic soda, chlorine, heavy acids and salts, sugar, coke, gas, steel, petroleum and other chemical products.

The more important operations of Chemical Engineering, as typified by the above processes, are studied systematically by tests and experiments on actual plant apparatus, thus fixing in the student's mind the principles of Chemical Engineering and correlating these principles with practice.

The work is non-summative and independent of plant control, the whole attention of the students being directed to study and experimentation.

Registration is limited, as students study and experiment in small groups and receive individual instruction by resident members of the Institute's Faculty.

Admission requires adequate preparation in chemistry and engineering. Able students can complete the requirements for the Master of Science degree in one and a half years.
