Hermes, of London, who is representing the European students at the National Student Federation of America, on her first trip to the United States.

"In England," she explained, "people are apt to treat each other in a more reserved manner. If one has been away for a while, he is not likely to be treated with the same degree of friendliness when he returns here, one is treated the same all the time; English people make allowances for differences which absence brings, but Americans seem to be cordial all the time."
