Salamanders Have Enemies

Salamanders have many enemies with which they must contend. They are used by the Japanese for food, are used for bait by fisherman, and Stillwater, Okla., February 23 .- are consumed in large numbers by sixteenth century. "One day," he said, "When I was about fifteen cellar where they had been scalding

Mentioned for Olympic Team When Aggie sport critics discussed wrestling prospects last fall, Lake was prominently, mentioned as being sure of a place. Many thought he would be a strong candidate for the Olympic team.

Several days before the first meet of the season, Lake received an injury to his knee. As the season progressed, the knee failed to respond to treatment and it is considered improbable that he will even try for the Olympic team.
