

## VARSITY TAKES EASY WORKOUT

Track Men Prepare for Meet At Manhattan; Entire Squad May Go

Nebraska varsity track men took things fairly easy in Tuesday afternoon's practice as Coach Henry F. Schulte wants his men to save themselves for the annual Kansas-Kansas Aggie-Nebraska triangular meet to be held at Manhattan, Kansas, Saturday, May 5 on the Aggies' stadium track and field. Coach Schulte will announce the team which he will take to the meet today or Thursday.

According to the Husker mentor Nebraska will be represented by the entire varsity track squad in the Manhattan contests if finances will permit. Student manager Harold Miller will also make the trip. Nebraska has good chances to win the triangular affair according to comparative performances of the three competing teams so far this season.

**Jayhawkers Have Stars**  
Captain Cooper, quarter miler; Poco Frazier, distance man; Spangler, broad jumper; and Grady, present Missouri Valley 100-yard dash champion, are the Jayhawk mainstays this year. The Coach Huff charges should provide some strong competition Saturday.

Moody, distance man, is the Kansas Aggie's biggest pre-meet threat. Last fall the Huskers defeated the Wildcats in an indoor dual meet staged in Lincoln but only a small squad represented the Aggies in that meet.

**Aggies Have Improved**  
Many new men have been working out for track at the Manhattan school this spring and the Aggies will provide much keener competition in the coming meet than they did earlier in the season.

Last year the meet was won by the Kansas Jayhawkers, who edged out the Cornhuskers by a points with their 63 total. The Aggies finished last with 34 points. According to Coach Schulte the men will continue to take light workouts the remainder of the week.

## Phi Gam Team Takes Game by 12-6 Score

Phi Gamma Delta baseball nine won from Delta Theta Phi Tuesday afternoon by a score of 12 to 6 in a five inning game. Roberts was on the mound for the Phi Gams with Kivet catching. Rissler, Miller, and Simmons were the batteries for Delta Theta Phi.

## Lewis Announces Net Games for Thursday

Pairings for tennis games to be played on Thursday, May 3, have been announced as follows: North court—Zeta Beta Tau vs. Delta Chi, 1 to 2:30; Delta Sigma Lambda vs. Xi Psi Phi, 2:30 to 4; Kappa Sigma vs. Phi Sigma Kappa, 4 to 5:30.

South court: Phi Kappa Psi vs. Omega Beta Pi, 1 to 2:30; Theta gi vs. Lambda Chi Alpha, 2:30 to 4.

According to Jimmy Lewis, director of intermural athletics, games that were scheduled for May 1 were re-scheduled for May 2.

## Delta Sigma Deltas Win Ball Game, 5-4

Delta Sigma Delta took a close game from the Delta Upsilon nine by a score of 5 to 4 in one of the games of the interfraternity tournament. The game was featured by the tight pitching of Harding for the winning team, who struck out eighteen opponents and allowed but one hit. Harding and Blum formed the Delta Sigma Delta battery, while Jorgensen and Wostcupal served for the losers.

## Great Many Materials Poured Together Form Roof of Andrews Hall

Reinforced concrete, buckets of red-hot pitch, rolls of tar paper, more bubbling pitch, and tons of course gravel go to make up the roof of Andrews Hall. General construction of the building can be seen, but few realize the work and materials put into the roof of a building. The roof of Andrews hall was completed yesterday afternoon.

To the layman the work done on a roof is interesting. After the huge steel girders have been set to support the roof, a steel meshing is put down. Onto the meshing was poured tons of concrete, which, forced into the meshing and left to set, provided a very substantial roof.

**Pitch Is Heated**  
Barrels of refined pitch, weighing about six hundreds pounds each, are sent up the material elevator to the roof of the building. The barrels are chopped open and the pitch taken out in great chunks. These chunks of raw pitch are cast into a caldron which is heated by a pressure flame. Red-hot pitch, so hot that it fairly boils, is drawn off from the caldron and spread about on top of the reinforced concrete.

Workmen spread the steaming pitch about with large swabs, while other workmen put down tar paper on top of the newly-spread pitch. This is allowed to set, and a second layer of pitch is spread, into which coarse gravel is thrown while the pitch is still warm. A roof that is weather resisting is thus finished.

The roof of Andrews hall is now completed, and the interior work is safe from spring rains which might

come. Ten saw-tooth skylights and several hip skylights protrude from the otherwise flat roof. There is a gentle slope to assure adequate drainage.

## Convention Delegates Give Report to Co-Eds

Mary Ball and Ruth Shallcross, Nebraska delegates to the tenth national convention of the Y. W. C. A., held at Sacramento, Calif., April 13-20, reported the convention at Vespers service Tuesday evening. Mary Ball was a Y. W. C. A. representative and Ruth Shallcross a member of the Rocky Mountain council. Mary Ball told of her impressions

of the convention and the personalities of Reverend Phillips, Mrs. Hammond and Dr. Arbuckle. Ruth Shallcross discussed the new purpose of the Y. W. C. A., based on cooperation, not a theological foundation.

## Shanafelt Will Speak To Parent-Teachers

"Seven League Boots," an illustrated lecture will be given by Miss Marjorie Shanafelt this afternoon before the Parent-Teacher association of the Bancroft school, which will meet in Morrill hall. The lecture and slides will cover a trip across the southern part of Nebraska and back through northern tiers of counties,

with special emphasis being placed upon Sioux county.

## Surveyors Camp Will Be New 1929 Feature

Sophomores in Civil Engineering Will Be Required to Attend New Training School

College of Engineering is announcing the summer surveying camp to be conducted by the Civil Engineering department as a part of the regular first term session of the university, beginning in the summer of 1929.

Attendance at this camp for six weeks will be required of sophomores

in civil engineering in preparation of their regular junior schedules. Material for booklets descriptive of courses to be given, camp regulations and other parts are being prepared. Fees, expenses, and personal equipment needed will also be listed.

What Shakespeare says about Coca-Cola

OTHELLO Act II, Scene 2

Drink Coca-Cola Delicious and Refreshing

"Your name is great in mouths of wisest censure"

Othello had his faults. But we can forgive him everything because he gave us a perfect captior for an opinion the United States Supreme Court was one day to hand down on Coca-Cola:

"The name now characterizes a beverage to be had at almost any soda fountain. It means a single thing coming from a single source, and well known to the community."

The Coca-Cola Company, Atlanta, Ga.
