

TRACK PROGRAM IS UNDER WAY

Coach Schulte Says He Will Work Men Hard Until Thanksgiving MEETS ARE PROPOSED

Coach Henry F. Schulte will soon get his fall track program under way and an interesting schedule leading up to Thanksgiving will be drawn up for the eager aspirants. Jimmy Lewis, assistant athletic director, announced Saturday.

Coach Schulte himself declares that he will work the men hard until Turkey day and following that day the work will be slackened until preparation for the winter campaign commences.

One of the big gaps to be filled in the Husker clubber team this season is the half-mile race. With Johnson gone the main strength of this department took a drop. There are places in particularly every event except the hurdles to be filled this year, the Husker mentor indicated.

The fall track program will consist of various meets, according to Coach Schulte, but the dates of these events have not been decided upon as yet. It is proposed to hold a freshman-sophomore meet with the result counting toward the freshman-sophomore olympic contests.

PROFESSOR FLING RELATES EXPERIENCES

Continued From Page 1.

Archives, in the National Library in Paris, in the Departmental and Municipal Archives in Marseillaise, and in the library in the Academy of Aix, which now possesses a great collection of manuscripts. Mr. Fling copied part of this material and arranged to have some of the documents photographed.

"My second interest, which was also business," continues Professor Fling, "was the great Historical Conference at Oslo, Norway. It is a world congress of historians representing all countries of the world, and it meets only once every five years. During the last session from August 14 to August 18, eleven hundred members were present and three hundred papers were read. My paper on the problem of world history was given in the section of historic method."

In a later session of this conference, Mr. Fling was the presiding officer. He says, "Of course, one of the most valuable and interesting parts of such a conference is the personal meeting of men from all over the world, who you know previously only by their works."

"I am certainly a thorough convert to air travel, now," declares Professor Fling. "One of the most interesting trips I have ever taken was the airplane flight from Paris to Malmo, Sweden. We left Paris at 10 o'clock in the morning, and arrived in Malmo at seven that night."

"We were in the air about seven and a half hours, for we stopped an hour in Amsterdam for dinner, and had to change planes at Hainburg. In this time we had passed over the whole of western Europe: northern France, Belgium, Holland, northwestern Germany, and the Baltic Sea from central Germany to Sweden."

"One of the most impressive speeches given was that of Chancellor Mullen of Germany. Mr. Mullen criticized the military situation of today. While Germany has disarmed, the victorious nations have not yet reduced their arms, he stated. The speech was given, from manuscript, in German and had to be translated first in French and then in English. Most of the speeches were given directly in French. English was used next commonly."

"Another important speech was given by Premier King of Canada. He talked of the hundred year's peace between Canada and the United States, and the long frontier between the two countries that has gone without guarding. It was very interesting to hear him assure the gentlemen who suffer from the expense of large standing armies, that one of the chief explanations of the economic suc-

cess of Canada and the United States was because they were not obliged to spend money on military defenses of each other, and could spend this money for productive uses."

"In every way I had a most interesting summer and from the scholar's viewpoint it was exceedingly profitable," concluded Mr. Fling.

FOURTEEN PARTS ARE OPEN FOR KOSMET PLAY

Continued From Page 1.

Requested to designate the time they wish to try out. Although some of the parts are entirely speaking, musical talent will be acceptable also, according to the Klub.

Date for presentation of "The Match-Makers" has been set for October 19 and 20. Annual "Kadet Krawl," presented by the Military Department, was scheduled for that date but the committee in charge consented to postpone their dance until October 28.

BORAH GIVES ISSUES

Continued From Page 1.

come forward and demand them," the Senator emphasized.

Mr. Borah is a university man himself, having attended the University of Kansas, where he was a member of Beta Theta Pi fraternity. His interest in college students continues, as evidenced by his petition to students to exercise their right of franchise.

The Senator didn't mention individuals or parties. He ignored personalities. He talked simply and strongly on the need of the young people of the country to realize the significance of voting and taking an active part in politics.

"It is as much the duty of the young men and women of this country to vote as it is their right to demand protection and privilege under the law of the land," explained the Senator. "They must support this constitution which has gathered benefits to them, educate themselves politically and if any changes are needed, help them for improvement, and not for detriment."

LAWYERS WILL SPORT HATS AND CANES

Continued From Page 1.

pleat on the campus." Apparently we misprinted when we remarked about somber expressions.

There are one hundred and eighty-four in the Law college, we are informed, but only an even hundred will sit in the law section. They don't want too much of a good thing.

The black hats will be like the Cornco's white ones. Freshmen will have a white hat band, junior's wine red, and seniors' blue. Only the seniors, it appears, will carry canes. They will sit on the forty-yard line next to the cheering section. If you need any legal advice drop around.

DEAN PUBLISHES ELIGIBILITY RULES

Continued From Page 1.

barred from representing the university in any capacity.

"Furthermore it shall be understood that correspondence extension courses cannot be counted, except when such courses are taken to remove a condition or a failure, and then only upon the consent of the instructor of the course in which the condition or failure occurred."

currer. A student who fails to pass in twelve hours at the end of a semester is debarred from representing the university in any capacity the semester following.

In case a student in any of the above named student enterprises fails, any semester, to carry satisfactorily the work or any part thereof for which he is registered, the Scholarship Committee may at its discretion lessen the hours of such student's registration."

Eligibility rules do not apply to such class activities as band, chorus and similar activities, as such. But in order to take any trips or to be in such activities other than classroom work, all eligibility rules apply.

To explain, a student may be in the band (attend classes, and receive credit) without complying with eligibility rules. But in order to partake in extra-curricular activities (such as taking a trip as a member of the band) the student must comply with all eligibility rules.

According to Dean Thompson summer school credit hours will be counted on the 27 hour rule for the preceding year. A student, however, must have 12 hours the preceding semester and be carrying 12 hours in good standing for the current semester, regardless of summer school credit hours. This same rule applies to extension night courses, but correspondence courses do not count on the 27 hour rule or on the 12 hour semester rule.

There are some eligibility rules that are made by the student council and not by the dean of men. A student, to be eligible to election to the student council must have a standing average of at least 75 per cent for all preceding semesters in school and have no standing delinquencies.
