THE FACULTY AND A GREATER UNIVERSITY

Under this heading, a three page bulletin, was issued to the faculty yesterday by Chancellor E. A. Burnett. Its publication should bring a step nearer the realization that Nebraska has in the chancellor's chair, a man of keen insight and of sympathetic intelligence, with a vision of a greater university, both practical and cultural.

Picked from the bulletin are the following: "Great men and women, great in heart, intellect, and initiative are essential in making any institution great."

"In working with the minds of students we are working with something that has been hallowed by the denials and consecrated by the longings and expectations of parents and relatives."

"One of the constant problems of the instructor is to awaken on the part of the student this consuming desire and determination to make of himself something in the world."

"Satisfaction in life and in one's occupation comes largely from the feeling that one is constantly growing."

"There should be a fine spirit of co-operation between faculties one with another, between faculty and students, and between groups of students themselves."

These bits selected from the chancellor's paragraphs are capable of stimulating both faculty and students. They reveal the sympathetic understanding of an educational leader cognizant of a fact that the University is composed of two vital parts, faculty and student body, both responsible to the commonwealth of Nebraska.

That the chancellor is devoting significant efforts to the stimulation of faculty improvement is a healthy sign. There remains the awakening of the state consciousness of the financial requirements of the University, necessary for the building of an institution best fitted to serve the practical and cultural interests of the state.

didn't develop a healthy knock before the second week in October.

Like the dark ghost in gloomy fairy tales, the quarterlies are coming.

It won't be long now until everyone can have a date. The student directory will be out in a few weeks.

University officials believe in short cuts to learning, thus accounting for the narrow sidewalks on the campus.

Another advantage of the hare and hound race is that there are always a few who are more or less expected to drop out before the finish.

Greyhounds are hereditarily thin, according to tests in the department of home economics, which will be another disappointment to patrons of the diet.

"IN MY OPINION— Help the Corn Cobs"

You girls who attend the football games only because of the thrill and excitement of seeing the team in action, the heart throbs you feel as the notes of the dear old Cornhusker are wafted across the verdant coat of the field, or because it is collegiate to dress up in a new fur coat and a bright hat, and get a sore throat for the evening's affair or ball-ask yourselves if these same thrills would be felt if the gay, peppy, happy youths known on this campus as the Corn Cobs were not ever present, in the near vicinity of your seat, rather than way down on the scene of action.

Do you honestly feel that since the advent of no stunts between halves has really become a fact, a little of the spirit and thrill has been lost from the game? Is it for the love of the technicalities of the game itself that you watch the members of the varsity squad give their whole soul to the winning of a game or is it because you like all these little things that happen at the game, that are as much a part of the fun as the game itself?

The writer has been a part of the school body known as Nebraska co-eds for the past three years and feels that, though the men on the field in action are to a great extent the mainstay for the ticket seller, the yelling, cheering, colorful atmosphere which is exhibited at the game in the stands and at some times on the field, is a factor, without which the team would be minus the support and sympathy of the student body.

Who is it that lends the atmosphere of carefree youth to the scene. Why, of course, it is the Corn Cobs, and without them, the stands would appear drab and lifeless. The aisles would be without the speck of scarlet and cream which has here-to-fore brought the spirit of Nebraska straight home to the heart of every co-ed.

I say that these stands would be without the Corn Cobs, because if the privilege of selling programs is taken from them, the impetus for the members of the organization to be present throughout the whole game will be gone, and the stands will be devoid of their fun makers, as is the field now, between the halves.

M. E. T.

MORE POLITICS

While the "Yellow Jackets" and "Blue Shirts" were devising clever schemes for each other's downfall, and then were occupied in meeting each other's attacks, another force was moving craftily and silently upon the same coveted end. That force was steered by one Allan Williams, who shows excellent promise in the intricacies of politics. The significance of the event is impressing itself upon the two established factions. The rise of a third party or faction in campus politics might revolutionize Nebraska's elections.

Efficiently organized, such a faction, made up chiefly of non fraternity men, would have the same effect on campus affairs that the sudden commercialization of monstrous Russia would have on World affairs. The Balance of Power on our campus would be uprooted. Secret negotiations and alliances between the two old rivals might come to pass. Anything, to alleviate the alarm of the disturbed powers at the appearance of a powerful new rival might be expected.

Success and recognition for such a new faction, however, would require considerable organization. And organization soon leads to fraternal feeling. What the situation would develop into cannot be conceived. The obvious and existing fact is that an invisible power has awakened to taunt the dreams of our local politicians.

Students, this is realistic campus life, a miniature of the political possibilities in a national way! Follow its trend with a personal interest.

OTHER EDITORS SAY—

AN ACCIDENT

Nebraska parents of members of fraternities and sororities who read with alarm the story from Texas of the electrocution of a young man during a fraternity hazing stunt need not worry about their children at the University of Nebraska. The accident occurring at a sorority house the other evening was unfortunate coming at this time, but anyone who understands the situation will realize the absurdity of any suspicion that facts surrounding the accident were not published.

Under the present system, the two or three days preceding the opening of classes are devoted to "rushing" at which time members of sororities are selected. A week or so later the sorority holds a pledging ceremony, at which time novices are formally pledged. This ceremony is strictly ritualistic and corresponds to the ritual of any lodge or fraternal organization. It was at this ceremony that a young woman was overcome by the heat, the weather being unusually hot for October, and was injured when her head struck the cement floor.

Later in the year initiations are held. Most of the sororities have done away with any violent treatment of pledges during initiations. The ceremonies are, as a rule, impressive recitations of ritual. In some cases the fraternities have abolished physical violence. Some of them still require pledges to perform certain stunts during the week of probation preceding initiation, which, on the whole are harmless, such as catching a cat or a bird after nightfall or conducting a treasure hunt which, at most, involves a great deal of walking. The initiations, strictly speaking, are all ceremonies of a more or less impressive nature, and the probation stunts are becoming less violent year by year.

A STUDENT LOOKS AT PUBLIC AFFAIRS

By David Fellman

A comparison of criminal conditions in the United States and England is interesting and instructive. There are four times as many prisoners undergoing penal servitude in the state of New York alone as in the whole of the British Isles. Fifty years ago there were 20,000 prisoners in the local jails of England; now there are 8,000. Fifty years ago there were 10,000 men in penal servitude; today there are 1,600. The number of local jails in England has fallen from 113 to 31, and the number of penal institutions from 13 to 4. On the other hand, the survey of the National Committee on Prisons and Prison Labor shows that there has been an increase of the prison population of the United States of twenty-seven percent since 1923.

What is the cause of this amazing disparity of condition in the two countries? Part of the explanation lies in the difference in the legal systems used. The English appeal court has every power to correct any miscarriage of justice, and the widest possible discretion in handling appeals. The courts work fast; the average time from the day the appeal is taken, which has to be made within ten days after conviction, to the day of final decision by the Court of Criminal Appeal is less than five weeks.

The courts work fast; the average time from the day the appeal is taken, which has to be made within ten days after conviction, to the day of final decision by the Court of Criminal Appeal is less than five weeks.

The English trust their magistrates, as they are experts in the administration of justice. In the United States, where most of our judges are amateurs, we prefer to trust our juries. "Big Bill" Thompson might learn a few things from King George.

The establishment of a Federal Department of Veterans' Relief, to control all the agencies dealing with the veterans of all wars, was recommended by Frank T. Hines, Director of the Veterans' Bureau. In an address to the American Legion Convention now being held in San Antonio, Texas. At present, the English trust their magistrates, as they are experts in the administration of justice. In the United States, where most of our judges are amateurs, we prefer to trust our juries.

The time of the party was chosen as October 12 since it is the anniversary of the discovery of America by Columbus and his followers. Games, acts and refreshments will provide the entertainment for the evening. Plans for special stunts and acts are being made, but no definite reports have been received about them yet. Gorgia Wilcox and William Lancaster are joint chairmen of the party committee.

The party will open "Y" activities on the Agricultural campus this year. World Forum meetings will soon start, according to Mr. Lancaster, president of the Y. M. C. A.

Faculty Men Will Meet Wednesday for Gym Work

Faculty men who were members of the faculty gym class which met last year at noon Monday, Wednesday, and Friday at the Coliseum, are urged to attend the first meeting of the class Friday in the faculty locker room. Men new to the faculty or to the class are also invited to attend.

The propaganda of the public utilities interests is being invest-

igated by the Federal Trade Commission at the present time. The future of electrical power, the great industry, is being fought out now, just as the control of the railroads and other important public utilities was fought out in the past. Who shall control the great natural sources of power in this country is an important issue in this presidential campaign. It certainly is of vital importance to every American citizen. Surely such methods as subsidizing the American press and purchasing the support of college professors in order to influence the public mind must be suppressed.

The German Nationalists are advocating modifications of the constitution of Germany to change the Reichstag into a bicameral parliament, and to give the president greater power. They are following in their plan the American model. This is significant for the reason that, in the establishment of the new governments of Europe following the World War, the parliamentary, rather than the presidential, form of government has been adopted.

It is only fair to state, however, that the nationalists represent a small minority of the German people. The leaders of this reactionary group themselves doubt whether they have a chance of getting the twenty million votes necessary for the popular referendum.

DISCOVERY PARTY IS PLANNED FOR FRIDAY

First Mixer at Farm Campus Is For Commemoration Of Columbus' Trip

The College of Agriculture's first Y. M. C. A. "Y" "Best acquainted" party this year will be a "Discovery Party" Friday, October 12, in commemoration of the discovery of America. The theme of the program also will be on this plan. The main purpose of this party is to get the new students acquainted with the "Y" officials and with each other.

The time of the party was chosen as October 12 since it is the anniversary of the discovery of America by Columbus and his followers. Games, acts and refreshments will provide the entertainment for the evening. Plans for special stunts and acts are being made, but no definite reports have been received about them yet. AUSTRALIA TEAM WILL DEBATE AT NEBRASKA

Think Shop Crew Prepares For First International Clash of Year

Arrangements are being completed for the debate with the Sydney, Australia debate team on November 27. Meetings of the "Thinkshop" crew are already in progress, though each student expects to try for the first time will develop his own speech.

Eight or ten will be chosen for the debates on the parliament subject. The first trials of the season will be held on Monday afternoon, October 29. All who expect to compete, must arrange with Professor H. A. White not later than October 24.

The exact wording of the proposition to be discussed with Sydney is, "Resolved that Parliamentary Government is Superior to the Presidential Form." Nebraska will uphold the negative side of the question.

Each team will have three members and one alternate. The arrangements have been made by Professor T. F. Thompson of Ohio State University. The Australian team's only other debate in this region is at Hastings on November 25. The team will take part in thirty-one debates in the United States. This year the debate is to be held in the coliseum. A crowd of more than a thousand persons is expected. Amplifiers will be installed if necessary. Because this is the same subject that many high school debate teams are using this year, a large number of high school students are expected to hear the debate.

Upperclassmen are earnestly requested to drag all freshmen away from their books. Friday night, load them into wagons, cars, on horses, or any other conveyance and trip merrily over to the Coliseum for the first rally of the year, and one which will make the countryside reverberate with whoops and howls for Nebraska.

All joking to the rear, it's the duty of every Cornhusker fan, new and old to forget his worries for an hour, collect, or go singly (pairs aren't forbidden, just come) and help shake the rafters in the Field House.

Since Nebraska is entertaining a flock of Bobcats Saturday, the authorities have decided to offer us a chance to assemble some assorted war whoops of our own to scare the fighting Montanans Saturday when they line up against the Cornhuskers. Freshmen especially are offered their first chance to attend one of the well-known Nebraska rallies. In fact, Freshmen are expected to be there; fraternities will see that their youthful hopes are present, but the great silent majority of freshmen must

also don their lawn headgear, and head for the Coliseum. Women will be more than welcomed on the stage will have to have something pleasant to start at when Dix commences to orate and turn jack knives for the crowd. There's going to be a choice program of speeches, with Coach Schulte, football captains of both teams, and some others lined up to harangue the listeners. It's Nebraska's chance to show some real courtesy to their first visiting football opponent, and if every Cornhusker turns out there's going to be more enthusiasm uncoined than if Al Smith were making a campaign speech in Lincoln.

Syracuse university has a student court which convenes on the first and third Thursdays of each month to hear complaints and cases brought before the court.

A BIT OF INSIDE DOPE--MEN
We've just had the pleasure of having with us Mr. Bob Sneath Style Observer and Noted Authority on University Styles. While visiting the campus and several Fraternity Houses he was enthusiastic in his praise of the good taste of the Nebraska Men. Says Mr. Sneath "You may take the first 100 men that come by us here and place them on any eastern campus and lose them—so identical is their dress—Because The Universal University model is the 3 Buttoner worn 2 to button." We call it The NEBRASKAN and feature it at \$35 Other grades \$29 to \$50 and of course it is tailored by Hart Schaffner & Marx
