

KANSAS SQUAD DRILLS FOR CORNHUSKER TILT

Nebraska Eleven Will Have Jayhawkers Outweighed By 15 Pounds

LAWRENCE, Kan., Oct. 31.—The University of Kansas football squad is drilling intensively for the hardest obstacle of the season, when they clash with the giant eleven from Nebraska in the feature of the Homecoming celebration.

Nebraska should run rough-shod over the doughty Jayhawkers, if dope runs true to form, but Kansas will be playing at home before a Homecoming crowd, and that will help a lot to even the score.

The Husker line should average around 200 pounds, with plenty of reserves fully as big, while Kansas musters only 150 to 185 pounds each in the line. In the backfield Nebraska again is supplied with several big 180 to 210 pound men, while Kansas averages 175 pounds at the most.

Passing is the threat that the Kansas will depend upon, according to Coach "Bill" Hargiss in a conference after the Iowa State game Saturday. Don Cooper, Art Lawrence, Virgil Faden, Ed Ash, Paul Fisher, Stewart Lyman and Foster Payne are all excellent tossers and should complete a lot of successful heaves against the Huskers, Saturday.

No injuries have been reported from either camp thus far, so both Nebraska and Kansas should be able to muster their select forces.

Officials chosen to handle the game are as follows: Referee, J. C. Grover, Washington; Umpire, B. L. McCrery, Oklahoma; headlines, man, Ira T. Carthters, Illinois; field judge, Pete Welsh, Drake.

SPORTS SCHEDULE FOR INTRAMURALS MADE

Rules And Regulations For Season Are Released By Athletic Office

EVENTS ARE CLASSIFIED

Complete schedule for the 1928-1929 University intramural season has been recently released by the athletic office. The schedule includes all rules and regulations for competition, with the point scoring table of the various sports included.

Two of the sports, cross country and hare and hound have been in progress for some time, while the water polo season is scheduled to start today at the city Y. M. C. A.

The sports are divided into three classes, major, intermediate, and minor, the point dividing table being made to correspond in accordance to that division.

Three Major Sports

Three sports are included in the major sport class, Class A basketball, mid-winter track, and baseball being included in this division. In the intermediate sports are cross country, hare and hounds, water polo, Class B basketball, wrestling, boxing, and track (spring). Handball, horseshoe pitching, basketball free throw, carnival relays, tennis, golf, and rifle shooting make up the minor sport class. Each organization will have two teams, a single and double one in handball, horseshoe pitching, and tennis.

A special ruling forbids any student to compete for his fraternity in any sport in which he competes outside of the University.

Any player who competes on his fraternity's Class A basketball team is forbidden to play on the Class B team, but a player may play on the Class B team and be promoted to the Class A team, but he cannot go back to Class B competition.

Mid-Winter Meet Planned

In the mid-winter track meet, one contestant may compete in only two of the following events: 440, 660, 880, 1 mile, and 2 mile runs. No man can compete in more than six events and only two running events above and including the 440.

The following rule on forfeits is added to supplement the one in the rules found in the handbook of the athletic board of control of the University: "In order for a team to claim a forfeit they must have presented a notice of the game scheduled to the athletic office previous to the game with the signatures of both team managers. The team claiming the forfeit must have a complete team ready for play with all two-man teams; not more than one man short for teams composed of from three to nine men and not more than two men short for teams requiring more than nine men."

HOME EC DISPLAY HAS ATTRACTIVE EXHIBIT

French Doll Representing Alfreda Has Costume of Renaissance

In the exhibit case on third floor of the Home Economics hall, there is this week, a very beautiful French doll dressed in an Italian Renaissance costume, representing the lovely Alfreda, one of the leading characters in the King's Henchman by Edna St. Vincent Millay. This lovely doll was costumed by Marie Dierks, '28 in her study of costuming for pageants and plays. The gown is gold velvet with a graceful train and rich petticoats of yellow satin. A sheer cream muslin chemise is revealed at the neck and peeps out in the cunning slits in the Renaissance sleeve. There is a gold lecket and a long gold cord girdle. Be sure to stop on third floor and see this lovely fifteenth century lady.

ON ONE DALLEY

By Jack Elliott

"Buss" Haskins, the diminutive Oklahoma Sooners triple-threat backfield ace, displaced Bob Merritt, Tiger scoring ace from the top rung of the conference scoring. Haskins is now leading the Big Six scorers by scoring three touchdowns against Kansas Aggies in last Saturday's game at Norman. Haskins' playing in the Aggie-Sooners game was a feature of the game and his total of 21 points puts him out in front of Blue Howell, Nebraska's scoring ace, who accounted for two touchdowns in the Missouri-Nebraska game. Howell now has 18 points to his credit and Merritt has 12. But in non-conference games, Howell continues to lead the pack with 24 points which brings his total to 42 for the season.

Coach Noel Workman, football tutor of the Iowa State Cyclones, is still displeased with the showing of his football squad. Although the Cyclones have quit the losing streak for a tying brand of ball, the Iowa coach is drilling his proteges to wreck the conference hopes of the Oklahoma Sooners when they come to Ames this Saturday. The Sooners are still holding on to a first place position and the Ames crew is down around the cellar and Workman hopes to wreck the Sooner championship hopes.

Since the return home of the Missouri Tiger, Coach Gwinn Henry is drilling his Tiger squad very carefully lest a crop of injuries spring out in the camp of the "limping" Tiger. Coming back from Nebraska, the Tiger squad is battered and worn from trying to hit the powerful Husker line that held like a wall in Memorial Stadium. None of the Missouri injuries are serious but Coach Henry is working his team cautiously lest something should hamper the preparation for the Drake Bulldogs this week.

Tuesday night the Kansas Aggie Wildcats waded snow to practice in the open for the coming Missouri game. Although Coach "Bo" McMillin has two weeks to prepare for the Tiger game, he is not stopping for an open week end. The Kansas Aggie team has developed an inferiorly complex and McMillin is starting to slay that before the Big Six game with Missouri.

A new backfield may start against the Jayhawkers at Lawrence this week according to the way the scarlet clad men re lining up on the practice field. McBride, Husker back may get the call for the starting lineup against Kansas as Coach Bearg intends to save his regular material for the road game with the Sooners the following week.

The University of Kansas football squad is drilling intensively for the big home game of the season with the powerful Nebraska Cornhuskers. The dope bucket favors a Husker victory but that does not daunt the spirits of the Jayhawkers crew.

MANY CO-EDS ARE SELF-SUPPORTING

Salt Lake City. (IP)—Figures obtained from Dean Lucy Cott's office show that about three-fourths of the women students at the University of Utah are either supporting themselves or helping to do so while attending school.

University co-eds are engaged in as high as seventy different occupations. It is estimated, among which are dancing on the stage, story writing for magazines, show card writing, selling dolls and satuary, beauty culture, stenography, cooking and housework and laboratory technicians.

Educational psychologists have found from experiments throughout the nation that the student earning his way through school is benefited from two to three times more in cultural, utilitarian and training value than in any college subject he pursues.

Nineten Negroes Are On Faculty at Bennett

Greensboro, N. C., Oct. 29.—(IP)—The faculty at Bennett college for women is comprised of nineteen negro college women, three of whom hold master's degrees and ten hold bachelor's degrees from some of the best universities in America.

Miss Gladys B. Johnson, who has her master's degree from Northwestern university, is the first negro girl ever to receive that degree at the Evanson institution.

Miss Carol B. Cotton, dean of the school, holds an M. A. degree from Columbia university.

Miss Alice G. Taylor, who received her bachelor of arts degree at Morgan college, and her master's degree at Columbia, has taught for eight years in the public schools of Maryland.

Turkish Girls Must Wear Skirts Inch Below Knee

Constantinople.—(IP)—The first modesty edict of the Turkish government has gone into effect with the reopening of the public schools at Stambul, requiring all Turkish girls to pass in review before their teachers, who sent home all those wearing skirts above their knees, with orders not to return until the skirts were below the knees one inch.

Concerned over the European skirt, President Mustapha Kemal however, looks with more favor on the western type of hat. In order to induce the still veiled Turkish women to adopt these hats, he has engaged a milliner to evolve a type of hat which will intrigue Turkish girls.

Sorority co-eds of Ohio State university have this year adopted new rushing rules, including rushees taking themselves to the parties and not being able to split dates.

The largest faculty ever recorded in the history of Wesleyan university enables the faculty-student body ratio to be that of one professor to every ten students.

Kansas Quarterback

PAUL FISHER

Paul Fisher, sophomore quarterback on the University of Kansas football team who will direct the Jayhawkers backfield against the Cornhuskers at Lawrence this Saturday. The Husker and Jayhawkers eleven meet in a Big Six conference football game.

GRID-GRAPH WILL BE INSTALLED FOR GAME

Husker-Jayhawker Game to Be Put on Board at Coliseum

In order that Cornhusker football fans may receive adequate reports of the Kansas-Nebraska football game next Saturday afternoon, a giant grid graph has been installed on the stage of the Coliseum and a leased wire has been run from the field at Lawrence to the Coliseum.

The arrangements for the second football party, according to Carl Olson, in charge, are nearly completed and the returns will begin coming in on the wire at 2 o'clock Saturday afternoon. The loud speaking unit will also be in operation.

The chart will show the position of the ball, names of players on both the Nebraska and Kansas lineups, and names of the officials. The chart is large enough to be seen from any place in the Coliseum without difficulty.

KEAB will install a direct wire from the Jayhawk stadium to the Coliseum. The Nebraska Buick auto company station, KEAB, will broadcast the game through the state for radio listeners. A system has also been arranged so that the scores of other important games will be recorded on the chart as they are received over the wire. Cards on each side of the chart will give the names of players on both teams, identification cards will be required for admittance to the grid party.

WILD TIMES DO NOT EXIST IN COLLEGES

Saturday Evening Post Staff Correspondent Thinks Tales Overdrawn

Ithaca, N. Y., (IP)—"I have no sympathy whatever for the people who constantly decry the so-called 'wild times' of the present day college," said Kenneth L. Roberts, staff correspondent of the Saturday Evening Post, now on a tour of American colleges for the purpose of writing of present day college life, in an interview with a reporter of the Cornell Daily Sun here.

"I think," he continued, "that if the persons that do all the criticizing could see the life at colleges for even a short time, they would soon reverse this false impression. The sooner these persons learn the truth about college life, the better it will be."

"I believe that the Cornell of today is a better school than it was twenty years ago when I graduated here," he added. "In many respects the school looks the same, but there seems to be a better class of men. In the days of '08 there was a great deal of the riotous good times that people are now accusing the college men and women of having. The fellows of my time would go down to town and drink openly whenever they pleased. Most of the 'wild times' now are caused by returning graduates."

Architect Visits Campus For Building Inspection

Mr. C. O. Schlieder of New York City, a German architect, inspected the architecture on the University of Nebraska campus yesterday. Chancellor Burnett made the trip of inspection with Schlieder and later was his host at luncheon. Mr. Schlieder brought a letter from the Institute of International Education at New York. He left Lincoln shortly after noon.

A beauty contest is being staged on the University of Texas campus. Candidates have been nominated by sororities, boarding house and other organizations. There is a possibility of the Prince of Wales acting as judge.

Hazing is forbidden at French universities and military colleges, following an edict forbidding practical jokes and hazing sent out by M. Herriot, minister of public instruction, and M. Painleve, minister of war.

Japanese children born in the United States are noticeably larger than those born in their native country, according to a study completed by Dr. Leslie Spier, head of the department of anthropology at the University of Oklahoma.

Hare And Hound Race Indefinitely Postponed

Hare and hound race, which was to have been run yesterday afternoon, has been postponed until further notice. At no time during the afternoon were weather conditions such that hounds would be willing to chase hares, if the hares did choose to run.

IOWA COACH CHANGES FIRST STRING ELEVEN

Three Regular Players Are Shifted To Second Team Lineup At Ames

AMES, Ia., Oct. 31.—Coach Noel Workman testified his dissatisfaction with the performance of his Cyclones last night by pulling three first string men out of the lineup and promoting in their place three substitutes. The change will probably find a different Iowa State eleven facing the Oklahoma Sooners on State field Saturday for Iowa State's homecoming.

Milton D. Kubicek, Elma, who has been a second string guard of great possibilities, is being trained for the pivot position in the place of Jesse Doty, Lake City. Harry Johnson, Dubuque, fast end, supplemented Ed Kreckow, Marcus, who has been playing rather inconsistently at right end. The other substitutes came in the backfield. Richard Wilcox, Stanhope, took the right halfback position held by Bob Stevenson, Colorado. Elmer Larson, Sergeant Bluff, will be placed in this position for the Oklahoma game, providing his shoulder has improved by that time, Coach Workman intimated.

Orrie Roe, Ames, veteran Cyclone in guard, who received a back injury in preseason practice, was in uniform yesterday for the first time since his injury. Roe probably will see action in the Kansas Aggie game, Nov. 17.

Today's practice session promises to be a concentration on the development of an unbeatable passing attack. The new plays given out by Coach Workman Monday are being rehearsed daily. They wrought havoc in the ranks of the second string yesterday afternoon.

Blanche Hyde Is Author of New Book on Sewing

"The Sewing Book," by Blanche E. Hyde, extension clothing specialist for the Colorado agricultural college, has just come from the press as the newest book in the vocational series of the Century Publishing company.

"Even those who boast that they 'always buy everything ready-made' need to know the fundamentals of sewing," the author states in her forward, adding: "How is one to judge as to the quality of work on ready-to-wear garments unless one is equipped with a knowledge of what good sewing means?"

"Moreover, even the best of 'store clothing' frequently requires alterations and repairs, and if a girl or woman is capable of doing this work herself, much money, and often considerable time, will be saved."

Has Full Index
The arrangement and classification of the subject matter, supplemented by 175 illustrations, and a full index, make the book one in which needed information can be located quickly.

According to Dr. Charles A. Prosser, who is the editor of the series, and who has written the Introduction, the book will be valuable not only as a textbook but as a helpful guide at every stage of sewing. "In short, it is a veritable compendium on the subject," Dr. Prosser writes.

Student's Work Is Riding Top Of Locomotive

Milwaukee, Wis.—(IP)—Riding the pilot of a speeding Santa Fe passenger locomotive day after day for nine months was the experience of Gilbert S. Kessler, of Fort Madison, Iowa, enrolled as a freshman this year at Marquette university.

Three o'clock in the morning was more than just a song to Kessler, for it was at that hour he started each morning for the yards of the Santa Fe railroad at Fort Madison. At 3:15 he was on the pilot of the engine—Instruments were checked as the big locomotive puffed out of the shops and into the shed. By 3:30 the 235 mile run to Chicago was under way. At 8:30 the first lap of the journey was at an end. That was Kessler's routine through nine months of "riding the pilot"—that and the return trip, leaving Chicago at 10:45 a. m. and arriving at Fort Madison at 3:30 p. m.

Started in Shops
Kessler, an engineering student, entered the apprentice school at Fort Madison five years ago. In order to complete his course he was required to spend 9,280 hours in actual labor at various railroad jobs. He started on the machines in the Santa Fe shops and gradually worked his way to the more difficult position. It took him four years to put in the necessary number of hours. It was during his second year at school that he was selected to ride the pilot in a general power test on a passenger locomotive.

Two years later another locomotive was to be given a general power test and Kessler was again selected for the perilous but thrilling task, and for a period of five weeks rain or shine, fulfilled the position. It was during this time that he rode the pilot when the train was travelling at a speed of 76 miles an hour.

"Dangerous? You have to be on your toes every minute," says Kessler. "Thrilling? Well, I've had an airplane ride, but it can't begin to compare with the thrill of riding the pilot of a fast locomotive."

BAND RECEIVES GIFT FROM K.C. MERCHANT

Robert L. Mehorney Sends \$4 for Fund to Send Band to Army

E. C. Hardy, once a member of the University R. O. T. C. band back in the time when Lieutenant John J. Perahing was commandant here, has just received a letter and four dollars from Robert L. Mehorney, prominent merchant of Kansas City, Missouri, to place in the band fund.

Mr. Mehorney was very much interested in the band and football team when he was here to see the Husker-Tiger clash Saturday. Though disappointed in the outcome of the game, he wished to help the band to go to West Point. He said in part: "More power to your team and more power to your band, and may this little token of appreciation help them both with the Army."

This help from an outsider shows that the band is appreciated and that this section of the country is interested in seeing the band go to West Point.

STRIKE AGAINST DEAN OF WOMEN IS HALTED

Plans of Oberlin College Students Are Checked By President

Oberlin, Ohio.—(IP)—A carefully laid plan on the part of the greater part of the Oberlin college student body to exhibit displeasure with the administration of the office of the dean of women here by emptying the chapel on the day when Dean Anna Klingenhagen was scheduled to address the service came to naught when President Ernest Hatch Wilkins heard about it.

The idea was started by someone on the campus, no one knows just who, and spread like wildfire. It was said to have gained the sanction of members of the student council, which was planning to send to the President later a dignified statement, explaining the reason for the action. The names of all students taking part in the "strike" were to have been signed to this statement, and last minute indications were that the majority of the students would have their names thereon.

Information Leaks Out
Shortly before chapel time, however, President Wilkins got wind of the plan, and called to his office, Bryce Hays, president of the student council. The administration, Prexy Wilkins explained, would not be at all pleased with such a demonstration. Hays passed the word along, college officials meanwhile starting out to locate the originators of the idea.

It was said that one of the dozen or so men's dormitories were responsible, but none apparently wanted the notoriety, and to avoid all suspicion decided to attend the chapel in a body. The result was that the chapel service was packed to the doors. Dean Klingenhagen, not unused to being the object of undergraduate disapproval, would not comment, but simply read several passages from the Bible.

Ex-Senator Says Youth Lack National Interest

Oberlin, O.—(IP)—Football games and amusements take up so much time in the American college today, and interest in national affairs is given too little consideration, according to Congressman Theodore E. Burton, alumnus of Oberlin college, and a candidate for the seat in the United States senate which he formerly held, who spoke to Oberlin college students here at a G. O. P. rally.

Burton became interested in politics back in 1872 when, as a senator at Oberlin, he was in charge of the Oberlin Mock Republican National Convention here.

THIEVES BREAK INTO THREE FRATERNITIES

Continued From Page 1.
The robbery is thought to have been between three o'clock and five o'clock.

According to Captain Walter Anderson, chief of detectives, the thieves may still be in town, and because of the large amount taken, he thinks that they most likely remained in Lincoln. Captain Anderson believes that a group of professional thieves, who go from one college town to another robbing fraternities and sororities, were responsible for the robbery. Last week, similar robberies were made at fraternities on the University of Oklahoma campus.

will act as chairman of the meeting. At this meeting, a president, vice president, secretary and treasurer shall be elected. Amendment III, Article XI shall be amended to read as follows: Amendments to this constitution or revision of it may be submitted for adoption to the student body by any regular student election. Amendments may be submitted by majority vote of the Student Council or by petition from one hundred students to the Student Council, provided that the amendment is so submitted ten days prior to the election. A majority of the vote cast is sufficient for the passage of an amendment.

POLITICAL DEBATE IS SLATED FOR TONIGHT

Continued From Page 1.
Both heads the democratic club. Both clubs have been very active this year in politics, and during the last week have been aiding in the arrangements of the debate tonight.

Everyone interested in such a debate is invited and urged to come out Thursday night, get in the parade, and hear about the two political parties' policies and candidates.

COUNCIL PASSES ON NEW RULINGS

Continued From Page 1.
publication to sit on the publication board, with the power of voting, at the time when the editorial staff of his publication is being chosen for the following year; the same applying to the business manager of that publication when the business staff of that publication is being chosen for the following year.

This was adopted by the council with the belief that the editor could advise the publication board as to the requirements a candidate must have to be chosen on the particular staff. However, the majority of the votes on the board will still be held by members of the faculty.

During the course of the other business of the meeting of the council, the Y. M. C. A. finance drive was fully approved. Arthur and Robert Danielson, college of agriculture sophomores were approved by the Student Council for membership in Corn Cobs, University pep organization, upon personal appearance of applicants filing.

The announcement concerning the time for the mass meeting of the student body to vote on the proposed amendments will be announced later by the Student Council, pending consideration by University officials.

Proposed Amendments to the Student Council Constitution

Amendment II, Article VII shall be amended to read as follows: A meeting of the newly elected Student Council shall be called by the outgoing chairman within ten days after the election day.

At the establishment of the Student Council, the first meeting shall be called by the retiring president of the Student Council, who
