

THINCLADS PREPARE FOR K. C. A. C. MEET

Coach Schulte Will Take Large Crowd for K. C. Indoor Classic

TWO ARE INELIGIBLE

First semester exams out of the way, Coach Henry F. Schulte's variety team candidates resumed their work on the indoor track Monday, in preparation for the annual Kansas City Athletic Club indoor meet at Kansas City, Saturday.

The K. C. A. C. games will be the opening meet on the 1929 Cornhusker track schedule and will bring all Big Six schools into competition.

Try-outs for the Saturday meet were held last Saturday and will be completed today. Schulte was undecided Monday as to the number of men he will take or what the personnel would be, but stated that the Tuesday try-outs would enable him to definitely decide.

Huskies Strong in Sprints
Strength in the sprints and hurdles seems to be the brightest light in Scarlet and Cream ranks to date. Easter, who won the 220-yard dash at the 1928 Missouri Valley conference outdoor championships; Lowe, another letter man; Eller and Nestor, sophomores; look to be the best bets in the dashes, and will be candidates for the trip to Lamson, a sophomore; Fleming and Thompson, letter men, have been working on the hurdles and will compete today.

"Timber" Trumble, Nebraska's star hurdler of last season, is having a little difficulty with the scholastic hurdle as is Becker, promising sprint candidate, and it is doubtful if either will be able to make the trip.

A mile relay team of Campbell, Krause, Mays and E. Wyatt will compete and all four will no doubt be entered in the quarter mile dash. Krause, a two letter man, has been transferred from the hurdles to the 440.

Ossian and Witte Vaulters
Ossian and Witte, last year's pole vaulters, are the leading vaulting

candidates while Benbrook and Cook will compete for high jump honors this afternoon. Benbrook is a letter man from last year's squad while Cook is entering his first year of varsity competition.

The K. C. A. C. meet is rated as one of the leading indoor meets in the middle west and will enable followers of the cinder pastime to get an insight into Nebraska's possibilities for the coming season. Athletes from Missouri Valley schools, Big Ten schools, Big Six schools, and middle west athletic clubs will compete for honors Saturday at Convention hall.

Robert F. Smith Gets University Diploma at 18

Robert F. K. Smith, who received his bachelor's degree from the College of Arts and Sciences February 1, has the distinction of being graduated from the University of Nebraska at the age of eighteen. Although he had 126 credit hours last spring, he was not granted his degree until the end of the first semester because of an agreement he had made to attend for four years.

Smith completed his work in Lincoln high school in 1925, after graduating in three and one-half years. He was then fourteen. He ranked second highest in his class, with 172 credits, or twelve more than the requirements.

Smith not only worked his way through the university but also helped support his widowed mother, Mrs. Frances K. Smith, who lives at 2348 Q street. During the past two summers he has worked on dude ranches in Wyoming. He has one sister, Esther, who is a sophomore in the university.

ANNUAL GREEK TRACK MEET IS UNDER WAY

Indoor Track Under East Stadium Is Scene of Winter Events

The seventh annual mid-winter interfraternity indoor track meet got under way yesterday with the mile run, high jump, and fifty-yard dash as features of the afternoon. The meet is being staged on the track underneath the east stands of the stadium. A trophy will be given the winner of the meet.

The contest will last through Thursday and three events are scheduled for each day. The remainder of the schedule is February 5, pole vault, 50-yard lows, 440 yard run; February 6, shot put, broad jump, 2 mile run; February 7, 50 yard highs, 880 yard run. Events will be held at 3:15, 4:15,

and 5:15 on the day's schedule. Fraternities must enter and finish at least two men in each event so as to be eligible for the trophies. Participants are limited to those who have not competed in an intercollegiate meet.

The competition is on the pentathlon basis as in former years and results are posted on the Coliseum and track bulletin boards daily. Fraternities have responded nicely to Coach Schulte's call of "600 men out for track" and indications seem to be pointing for a Big Six track championship for Nebraska.

Graduate Interviews

Engineering Seniors
Edward F. Guidinger, E. E. '09, of the Phillips Petroleum Co., Bartlesville, Okla., interviewed civil and architectural engineering seniors last Friday with reference to employment with his company.

From old kettle to new world

SOMEbody has to believe in the big possibilities of little things. James Watt saw the lid of his tea-kettle dance—and today our civilization is built largely on steam.

In the field of communication, Bell saw the possibilities of a little vibrating diaphragm. Today from the telephone at his elbow a man talks to his next-door neighbor or

across the continent, just as he chooses. Men in the telephone industry, in commercial and administrative as well as technical work, are constantly proving that little suggestions, little ideas, little changes, when smoothly fitted into the comprehensive plan, may be big in possibilities of better public service.
