

# SCHULTE SELECTS TRACKSTERS FOR IOWA STATE MEET

## Final Tryouts for Dual Track Match Are Held; Many Men Compete

## AFFAIR PROMISES THRILL IOWA Coach Is Bob Simpson, Missouri Valley Hurdle Record Holder

Final tryouts for the Iowa State Nebraska dual track meet, scheduled for this Saturday on the Cornhusker indoor boards, were completed Tuesday afternoon with Coach Henry F. Schulte and his assistants on hand to make their final selections as to the personnel of the scarlet jerseyed athletes who will perform Saturday.

### Coach Remains Silent

Young and Kenagy jumped for honors in the broad jump with Kenagy making the best leap for a distance of 29 feet 10 inches. Coach Schulte has not made any definite announcement as to who will represent the Scarlet and Cream this week end but the personnel will no doubt be practically the same as those opposing the Kansas Aggies.

Mays led Nestor and Riteher to the tape in a special quarter mile event to determine who will be the fourth member of the mile relay quartet with Campbell, Krause, and Wyatt. Mays time was 53.2 seconds.

The Ames-Husker affair promises to be a thrilling meet as both teams have displayed quite a bit of strength in early season attempts. Bob Simpson, holder of the Missouri Valley hurdle records, is coach of the Iowans and has assembled quite an array of talent for the Iowa State school's first season in the Big Six.

### Kansas City, Mo.—(IP)—

Every morning before the school day opens at Elmora, Kas., the boys go to the principal's office and park their guns for the day. When school is out they go and get their guns again.

The practice, however, is not the calling of a truce between warring factions during school hours. The boys are earning their spending money by catching wild animals in traps on the way to and from school, and the guns are to kill the animals with.

# Miss Conklin Relates Interesting Events of Nebraska Campus in 1892

## Head of Department Digs Into Old Records to Find Names of Noted University Students

Miss Clara Conklin, chairman of the department of romance languages, was engrossed in the business of recording some material to a file, when the reporter entered her office, at 11 o'clock, Thursday morning. His mission was Charter day material and Miss Conklin's thirty-seven years at Nebraska was bound to furnish some interesting observations.

"I entered Nebraska in 1892, when the enrollment was about 1,000 students," she ruminated for a preliminary statement. Then the curtain went up revealing a wealth of interesting experiences and observations since that year.

### Recalls Old 'U' Hall

"At that time," continued Miss Conklin, "the German and French departments were combined and both were taught in University hall. My office was on the third floor, room 302, and I taught both French and German." She left her desk and selected one, from a complete roster of class schedules kept since 1892.

"Let me see, my first class was—a first year German class, between 9:20 and 10:30 o'clock I had a class of sixty-nine students." She glanced at the role. "It included many men and women who are now famous. For instance, here is just one name, Irving S. Cutler."

Dean Cutler of Northwestern university is only one of many men whom Miss Conklin has seen leave Nebraska to attain position and success in the world.

### Tells of Former Classes

"My second section in German had an enrollment of fifty-seven, and third had forty-six students. My first French class was small with twenty-three students. We marked the grades alphabetically instead of by numbers in those days," she added.

An old time card, yellow and dog-eared with age was found within the pages of the schedule and Miss Conklin paused to glance down its columns, a meager approach to the faculty directory and class schedules that exist today.

"Oh, there is Dr. Lloyd, who introduced sugar beets into Nebraska, and Dean Edgren, who was once head of the department of modern languages and a nationally famous linguist. There are too many names to mention."

Placed in Charge in 1901

In 1901 Miss Conklin was placed in charge of the department of romance languages. "There were 237 students in the department

# Pershing Rifles Hold Tryouts Again Tonight

## Rifle Range in Andrews Hall is Not Open to Interfraternity and Interscholastic Practice

Rifle Range in Andrews hall is not open to interfraternity and interscholastic practice, nor will it be open to such practice until the latter part of April. At present it is open only to the rifle team and also those trying out for a berth on the team. Freshmen R. O. T. C. classes are also trying out in the east targets.

# BASEBALL SQUAD SETS FOR INDOOR PRACTICE

## Lay Out Regulation Infield On Coliseum Floor for Early Practice

## SIXTY MEN WORKING OUT

A regulation infield will be laid out on the Coliseum floor the latter part of this week for the use of the varsity baseball candidates. The laying out of this infield will allow pitchers, catchers and infielders to get some practice before they begin outside about April 1.

About sixty men are working out daily from 2 to 4 o'clock under the direction of "Choppy" Rhodes. Bunting practice and easy throwing are the limit of the activities for the present time. Pitchers and catchers are working together and getting the kinks out of their arms. A dirt mound, 6 by 3, is to be placed on the floor for the pitchers.

### Balls Get Away

Two balls got loose from the infielders on Monday afternoon and broke two of the windows in the doors at the south entrance of the building. Tuesday afternoon a heavy canvas curtain was stretched across in front of the doors to prevent any more such damage.

The fact that a man may letter in only one current sport may limit the candidates for baseball. The rule was passed in 1925, the last year Nebraska had baseball, which prevented men from lettering in both track and baseball. It is a queer incident that the last man to letter in both sports, "Choppy" Rhodes, is now the coach of the baseball team.

# Journal Publishes Work By Nebraska Graduate

February issue of the "Journal of Geography," contains a series of study problems and tests dealing with the Yazoo Basin in the state of Mississippi, written by Miss Ida Mackie. Miss Mackie graduated from the department of geography in 1926. She is now working for her master's degree.

# ALPHA SIGS CAPTURE BASKET LEAGUE LEAD

## Basketeers Take Game From Kappa Sigs for Forge To Top Position

## URBAN HEADS OFFENSE

Alpha Sigma Phi basketeers outplayed the Kappa Sigma five to win by a 27-15 score in a final round game played last night in the Coliseum. The victory gives the winners first place in the league standing. In another final round game, Phi Gamma Delta pulled out of a tie to win 17-13.

In the Alpha Sig-Kappa Sig game the lead changed back and forth all the first half, the period ending with the Alpha Sigs holding a two-point margin. They were never headed during the second half, and allowed the Kappa Sigs but three points.

Urban was the big gun of the Alpha Sig offense, dropping the ball through the basket seven times from the field to score four points. Wilson led the Kappa Sig attack with nine points.

Phi Gamma Delta held a small margin all through their game with Pi Kappa Alpha, until the last quarter. The Pi Kaps pulled up then, and knotted the count twelve all, but a short rally put the winners out in front. Newby did most of the work for the Phi Gams, playing a good floor game, and scoring seven points. Larsen and Bergerson scored four each for the losers.

### The standings of teams in the final round:

Alpha Sigma Phi	2	2	6	1,000
Phi Gamma Delta	1	1	0	1,000
Kappa Sigma	2	2	1	500
Pi Sigma Kappa	2	2	1	500
Pi Kappa Alpha	2	2	2	500

### Box scores of the games last night:

# Judge J. S. Dales Tells of Time When Classes Were Called by 'U' Hall Bell

It would seem slightly incongruous today to have the College of Agriculture and the College of Arts and Sciences occupying the same building but there is one man, holding a Master's degree from the University, who can remember when that was the case. It is J. S. Dales, corporation secretary to the Board of Regents, and the first person to receive a degree from the University.

Not only did they have the above named colleges in 'U' hall but also the department of physics, the department of botany, the department of geology, etc.

The original college was known as the College of Literature, Science and the Arts. In the following year after the founding of the University, the College of Agriculture was founded. The classrooms for the agriculture course were in the main part of building and the laboratories in the basement.

### 'U' Hall Built in 1870

University hall was built in 1870, a three-story structure with a mansard roof and a tower which towered three stories above the rest of the building. The mansard roof and tower were built of wood and in the early years could not be put to much practical use.

Six hot air furnaces furnished the heat for the old University hall. These furnaces proved to be inadequate to heat the rooms on the top of the building. Two of these rooms were plastered and one of them was used for janitors quarters. After the steam heat was put into the building these rooms could be heated properly.

It was also found impossible to put the tower to much practical use. They couldn't put a bell in it because the wooden walls weren't strong enough. Neither was there

ing. It seems the object of the committee on making the rule moving the ball up a yard on the try for point, had this idea solely in mind. It may, and it may not, induce teams to try for the point by other means than kicking. A rule is a rule and that's the end of it, but a football rule is never a good rule until it is tried out on the gridiron, so we will patiently wait until the opening whistle of the 1929 grid season and see what benefit the rules committee has added to the game.

Having scored a clean sweep of victories last week, the University of Nebraska athletic teams will attempt another invasion this week when three athletic teams will swing into action representing the Cornhusker school. To repeat the events of last week would be a record for any school to boast.

This week Coach Charley Black takes his Scarlet cagers on the last road jaunt of the 1929 basketball season when the Huskers go to Ames and Des Moines for a conference game with the Iowa State Cyclones on Friday and a non-conference game with the Drake Bulldogs at Des Moines on Saturday.

The Husker track team will likewise meet the Iowa Cyclones in an indoor dual meet on the Memorial stadium track. Coach Bob Simpson has one of the most formidable arrays of track stars in the Big Six and Coach Henry "Indian" Schulte, Husker track mentor expects a close meet with the Iowa team. The third event is the windup of the wrestling season with the Husker mat squad entertaining the Oklahoma Sooners in a Big Six meet. To the winner goes second place in the conference, Iowa State having clinched the ace position in the Big Six.

Coach Johnny Kellogg is looking forward to a hard battle with the Sooner grapplers and hopes to repeat the victory gained over Kansas last week. The Oklahoma team has only been defeated by Iowa State in the conference and lost a close match to the crack Sooner Aggies of Stillwater, one of the strongest wrestling teams in the country.

The outlook for a clean sweep is not as bright as it was last week, but the Husker athletic teams are favored in the majority of the events. In basketball, Coach Black's scarlet-clad basketeers should turn in a double win on their Iowa invasion. The Staters at Ames should prove a hard foe with the Nebraskans favored to win. At Drake, Nebraska should repeat the victory of last week over the Bulldogs. In wrestling, "Old Man Doe" is not taking part, but the meet is a toss-up. Nebraska has proved to possess some of the strongest point-getters in the conference, consisting of Ecklund, Simic, Peterson and Kish. The Oklahoma meet should be a thriller. In track, the material coming down from Iowa looks to be plenty good, but from the landslide turned in by the Scarlet triathletes against the Kansas Aggies, the Saturday afternoon meet should go to Nebraska. Coach Schulte has a well-balanced team and should hand the Iowans their initial defeat on the indoor boards.

# Election of Tassels' Officers Is Scheduled

There will be an important meeting of the Tassels Thursday evening at 7 o'clock, at Ellen Smith hall. Officers will be elected at this time.

### Occupied Building 31 Years

Judge Dales occupied the building from the time he was made corporation secretary in 1875 until 1906 when the Administration building was built.

Due to faulty material used in the construction of the foundation of the building it was found necessary to take some hasty action to get repairs in 1877. The city of Lincoln came to the aid of the university officials and saved their only buildings by appropriating \$4,000.

The money was appropriated by the city council at the behest of the citizens of the community. About eighty citizens of Lincoln signed a document guaranteeing the members of the city council immunity from impeachment.

The money was meant merely as a loan to the state but according to the records it has never been refunded to the city of Lincoln. Following is an excerpt of the speech of H. W. Hardy, ex-mayor of the city of Lincoln in an address to the State Historical society on January 8, 1901:

"During the summer of 1877 the foundation walls of the first university building, built of rotten brown stone, began to crumble, and the building was condemned as unsafe. Your humble servant put his hand into the city treasury without law and transferred to the university foundation fund \$4,000, and the building was made safe. The money has never been returned to the city by the state. Impeachment medicine was not administered."

### THE WINNER

The basketball tournament is swinging along a merry old pace, and many are the dimpled knees pink with "mercurchrome"—which all goes to prove that the bigger they are the harder they "faw down and go boom." The round-robin schedule will be finished by the end of the week. Two we can't be official, a prominent Sigma Chi is quoted as saying that Delta Gamma has a 4 to 1 chance to come out the winner, because both the Kappas and the Pi Phi had parties last week-end. But then that may have only helped to keep them in training.

"Merrily we bowl along, bowl along Merrily we bowl along, All the live long day."

We think that is what they call paraphrasing—but whatever it is, it's darn good. Anyway the point is that the qualifying rounds for the intramural bowling tournament will be held February 18 to 25, at the Y. M. C. A. The tournament will begin the 26th. Come out, women! Learn to get a deadly aim with the cocoanuts, and you'll not regret it! No more walking home! Just plug a head-light off the Ford—and merrily you'll bowl
