

# THE DAILY NEBRASKAN

VOL. XXVIII—NO. 114.

LINCOLN, NEBRASKA, WEDNESDAY, MARCH 27, 1929.

PRICE 5 CENTS

## MAY 9 IS DATE SET FOR ANNUAL GREEK BANQUET

### Charles Lawlor Will Serve As Chairman of Affair For Fraternities

### GIVEN AT SCOTTISH RITE

### New Plans Have Been Made For This Year; Will Give 15 Plaques

Interfraternity banquet will be held Thursday, May 9, according to the committee of the Interfraternity council in charge. Charles Lawlor, chairman, Gordon Larson and Douglas Timmerman are members of the committee.

Efforts to obtain a speaker of national importance are being made and the announcement of his identity will be made in a few days. Scholarship awards to the fraternities making highest averages will be made during the course of the banquet. The Hainer scholarship trophy which goes to the highest ranking fraternity and fifteen plaques will be distributed at that time.

### Will Secure Orchestra

New plans have been formulated by the committee for this year's banquet. A well-known orchestra has been obtained to furnish music during the affair and a novel program is being arranged.

A later date than usual has been selected this year because the scholastic ranking of the fraternities will be known until about May 5. Although the Interfraternity banquet has been held on the same date as the Pan-Hellenic banquet heretofore, the two affairs will take place on different evenings this year.

Tickets to the banquet will sell for \$1 and all fraternities are urged to close their tables and turn out for the annual Greek dinner. The banquet will start at 6 o'clock and will be held in the Scottish-Rite temple.

## Y. W. INSTALLS NEW SEMESTER OFFICERS

### Charlotte Joyce Is Head Of Agriculture Unit Of Organization

New officers and other members of the Y. W. C. A. were installed at a meeting on that campus yesterday. Charlotte Joyce is the president, succeeding Marjorie Brinton. Georgia Wilcox assumed the position of vice president and Helen Weed took over the duties of secretary for the organization. There is no treasurer for the Y. W. C. A. on the campus of the College of Agriculture as all finances for the entire organization are handled through the general treasurer.

The girls chosen by the new president, Miss Joyce, to act as chairmen for the various committees throughout the ensuing year include Clarice Moffitt, who has charge of Vespers, and Winnie Powell, director of World Forum.

### Williams Is Social Head

Elizabeth Williams is chairman of the social committee and Mable Bignell supervises the work of the conference group.

Mable Johnson will conduct the Grace Coppock drive, and Margaret Hallstrom will head the committee in charge of church relations.

Dorothy Luchsinger has the chairmanship of the finance committee, while Genevieve Brehm directs the poster work. As head of the membership committee is Lydiellen Munsell, and the direction of all publicity for the Y. W. C. A. on the campus of the College of Agriculture is left to Marguerite Hagerman and her committee members.

## University Infirmary Reports No New Cases Of Contagious Disease

No additional cases of scarlet fever or small pox have been detected among the students since the four patients were reported yesterday, according to Dr. R. A. Lyman, dean of the College of Pharmacy.

Three cases of scarlet fever and one of small pox are being treated at the infirmary. A patient was placed under observation for scarlet fever this morning but he was found to be suffering only from a cold.

Members of the fraternity and diseases who were exposed to disease from the small pox patient were warned yesterday to report to the dispensary for free vaccination. Fifteen members of the fraternity and ten others have been vaccinated, according to the nurse in the dispensary. It is expected that the spread of the disease has been checked.

## L. A. Becker Will Speak At Sigma Delta Chi Meet

L. A. Becker, city editor of the Lincoln Star will speak to the members and pledges of Sigma Delta Chi, professional journalistic fraternity, at its regular meeting Thursday evening in "U" hall 105.

## Lights of Chemistry Experiment Cause Students to Turn in Alarm

(By GEORGE THOMPSON)

Intermittent flickerings of light in a corner room of Chemistry hall led several passersby at night to send in fire alarms to the night watchman. These lights playing within the room do indeed resemble flames licking upward from some burning object.

This same nightly phenomenon has been going on for several weeks and hundreds of persons have undoubtedly wondered what could be taking place within this room with the blinds down and rising and falling light casting varicolored designs of light and shadow upon the walls and window shades.

### Light Flickers Day And Night

All is well, however. There is no fire. A chemical experiment is being performed within this room and the light is an accessory to it. In daytime as well as at night the light flickers the same, but it is not noticeable to persons outside the building.

Those in charge of the experiment have tried to keep the light in by lowering the blinds and by keeping the ordinary lights burning during the night, but the flick-

ering shows through and causes undue anxiety to those who may happen to pass by. Fear that firemen might break in and destroy the mechanism of the experiment, believing that there was a fire in the room, is the only cause for concern expressed by the chemists.

### Degering in Charge

Ed F. Degering in charge of this experiment which may be termed an Iron Pyrophosphate Catalyst experiment to determine the mechanism of the oxidation of glucose. Because glucose furnishes our bodies with nearly fifty percent of glucose is changed into a form their energy, and since improper useable by the body be understood. Herein is the object and the significance of the experiment.

As for the apparatus used, an array of tubes full of glucose and jars filled with acids, of red rubber hose connections and fastenings, and most prominent, a large thermostat filled with water, take up most of the center of the room where this experiment is being performed.

Half submerged in the water is a

Continued on Page 2.

## E. J. Marsden Accepts a Government Position

Instructor in poultry husbandry at the College of Agriculture for nearly eight years who will become an associate poultry husbandryman of the United States department of agriculture beginning April 1. Mr. Marsden will be stationed at Miles City, Montana.

## ENGINEERS PLAN INSPECTION TRIP FOR APRIL 15, 16

### Omaha Will Be Destination Of Annual Itinerary for Industrial Visit

### MEETING HELD FRIDAY

### Gas, Ice Plant, Power Co., Machine Shops Will Be Listed on Tour

More than eighty students will go on the engineers' annual inspection trip to Omaha April 15 to 16. The students will visit about fifteen of Omaha's leading industrial plants, and will also go to Blair, Nebraska, where they will inspect the new bridge across the Missouri river.

Among the concerns the students will visit are The Baker Ice Machine company, Omaha Municipal Gas and Ice Plant, Nebraska Power company, Omaha and Council Bluffs Street Railway company, the Union Pacific Railroad Machine Shops, Northwestern Bell Telephone company, American Smelting and Refining company, the Municipal Water Works at Florence, the Ford Assembly Plant, and several office buildings, which are under construction.

### Meeting Held Friday

A student meeting will be held Friday evening, March 29, for making final arrangements for the trip. Students will be informed at this meeting of the cost of the trip. The committee will want to know if the students want bus transportation to or from Omaha and if he will want hotel reservations made for him in Omaha.

Six faculty members comprise the committee in charge of the arrangements for the trip. The chairman of the committee is Prof. J. P. Colbert, of the department of architectural engineering. Other members are Professors Arthur Anderson and P. F. Keim, of the department of agronomy; C. J. Frank-

## University Club Has New Rival in Drinking House

The University Club which makes its headquarters in the Stuart Building has had a "namesake" in Lincoln for some time, although in no way connected with it. The secret was only uncovered Monday afternoon in Judge Chappell's court. The high and mighty purpose of this club was to keep beer to drink in order to keep from drinking wine and whiskey. The club was discovered on March 2, when the house of J. I. Tamnosian, at 2601 Randolph street, was raided by officers.

Tamnosian, a former evangelist, was charged with manufacturing liquor. He pleaded not guilty, saying that he was merely the custodian of the beer being manufactured by one of the officers of the club. Constable Anderson, when testifying, said that Tamnosian claimed he made the beer for friends at the University. At this point Tamnosian gave Anderson a talk on honesty and said the club made it and he was only the custodian.

Tamnosian claimed the boys were all members of some university fraternity and asked Police Officer Rowden, when on the witness stand, if it were not true that a prominent officer's son was among those arrested. The officer said he did not know. Rowden did testify, however, that the boys were all from eighteen to twenty-five years old. The officer said they were put in jail over night but released the next day. There were sixteen boys arrested, according to police.

## CLUB WILL SPONSOR HONOR DAY AFFAIR

### Phi Mu Epsilon Offers Prize Of \$10 to Student in Mathematics

Phi Mu Epsilon, national mathematical fraternity, is awarding a prize of \$10 for excellence in mathematics. A candidate to be eligible for the prize must have completed or be completing calculus during the current school year.

The basis for award will be determined by a special examination. The examination will be given prior to Honor day exercises, so that the student qualifying for the prize may be announced at that time. The time and place of examination will be announced later.

The Phi Mu Epsilon society has decided to make this an annual affair and beginning next year is offering a similar prize of \$10. Students who have completed analytic geometry during a current school year or are completing it in the current school year are eligible to compete for this prize.

## Ohio Representative Interviews Students

Robert A. Kranz of Akron, Ohio, assistant to the vice president of the Firestone Tire and Rubber company held interviews with graduating seniors Monday. He intends to return later in the year for another visit. Mr. Kranz stated that he was well pleased with the group of students that he met here.

## SENIOR WOMAN WINS SCHOLARSHIP IN EAST

### Ruth Shallcross Receives Appointment to Bryn Mawr College

Ruth Shallcross, 29 Bellevue has recently received official notice of her appointment to the Carola Woerhoffer scholarship in sociology in the department of social economics at Bryn Mawr college, Bryn Mawr Pennsylvania.

Miss Shallcross has majored in sociology in the University and will receive her A. B. degree in June.

She is especially interested in the field of industrial relations and will pursue graduate work in that line of work at Bryn Mawr.

During the summer of 1927 Miss Shallcross worked on an industrial experiment in Chicago, investigating the working conditions of girls there. She submitted her report of this investigation in her application for her Bryn Mawr scholarship.

### Carried on Work in Lincoln

Miss Shallcross carried on an investigation on the "Study of Wages Among Working Girls in Lincoln" this winter. This report was also considered by the officials of the college.

The Carola Woerhoffer scholarship in economics has been won four times by women of the University of Nebraska. Miss Genevieve Hughes, '15, held the fellowship for two years from 1917 to 1919.

Miss Ada Kuhn, '15, also held the scholarship for a year. She received her M. A. degree at the University of Nebraska in 1915. Miss Josephine Zrust, '19, received her appointment to the school after her graduation from the University, having received her master's degree.

## FRANKFORTER TO TAKE CHARGE OF C. M. T. C.

### Chemistry Professor Will Command Battalion of 800 Young Men

Prof. C. J. Frankforter of the chemistry department, who is lieutenant-colonel of infantry of the organized reserve and second in command of the 335th infantry, has been selected to command a battalion of 800 young men at the C. M. T. C. camp at Fort Crook in August.

Of the four weeks the boys spend at camp the 335th infantry has charge of the training the last two weeks. The 254th infantry has charge of the first half of the course.

A majority of the officers in charge of the course this summer will be former University of Nebraska men. Professor Frankforter is selecting his officers, including four captains and eighteen lieutenants from Nebraska men. Several of this year's graduates will be included among those chosen by Mr. Frankforter.

## Call Is Issued for Varsity Tennis Men

All persons desiring to try out for the Varsity tennis team are requested to meet in the Trophy Room at the University Coliseum at 3 o'clock this afternoon. Gregg McBride is in charge of the team.

## Rev. W. C. Fawell Opens Holy Week Services With Evensong Meeting

That the authority or power of Jesus is available in a very real sense to anyone who avails himself of its source, was the opinion expressed by the Rev. W. C. Fawell, Methodist student pastor, at the opening evensong meeting of Holy Week in the University Episcopal church Monday evening.

"Monday in Holy Week is thought of as a day in which Jesus exercised His authority as the Son of man and the Son of God. This authority, while received in a sense from the Father, differs from what might be delegated to an officer of the law.

"We are told that on this day Jesus links His authority or power with faith and with prayer, and calls His disciples to a faith that will make them men of authority and power. When the disciples were in danger on the sea, and again when Peter started to walk upon the waters to come to the Master, the power of faith was shown. It was as if the Master had said: 'Peter, you have failed

## SCHULTE TAKES LARGE SQUAD TO TEXAS CARNIVAL

### Cornhusker Track Mentor Selects 21 Men to Make Relays

### LEAVE AT 1:50 TODAY

### Southern Outdoor Will Be First Meet in Open For Nebraska

Twenty-one Nebraska track athletes will bear the Cornhusker Scarlet and Cream to the S. M. U. and Texas Relays at Dallas and Austin this Friday and Saturday in the first Husker southern invasion. Announcement as to the personnel of the squad to be included on the trip south today was made Tuesday by Coach Henry F. Schulte and insures a Nebraska entry in practically every event.

Easter, Lowe, Eller, Wyatt, Captain Campbell, R. Krause, Griffin, Garvey, Etherton, True, Janulewicz, Lamson, Fleming, Thompson, Ashburn, Rowley, Bevard, Faytenger, Tomson, Oestlan and Nestor will be the Nebraska entrants in the relay and individual events.

### Will Enter Many Events

The Husker cinder athletes will enter the 440, 880, mile, two-mile and four mile relays, mile shot put, pole vault, javelin, broad jump and the high hurdle open events will have Nebraska entrants.

The size of the squad selected by the Nebraska mentor would indicate that he is bent on making a successful invasion of the southern games and does indicate from the past week's try-outs that Nebraska will come in for her share of honors.

### The Texas Relays are becoming

Continued on Page 2.

## SIX NEW NET COURTS ARE BUILT ON CAMPUS

### Additional Tennis Room Will Accommodate a Larger Number of Players

Six new courts have been added to the tennis playgrounds. These courts are located on the east and west sides of the Coliseum. They will be ready for service this week according to Harold Sherman, student caretaker of the university tennis courts.

The courts were built last fall to take the place of those formerly extending across the east end of the parade grounds. The building of Andrews hall made necessary their removal. Because of bad weather conditions and mischievous youngsters, the new courts were effectively put out of condition for fall season.

The youngsters, it may be noted, wore heavy shoes and romped about the courts which were soft and wet in places, succeeding in leaving a multitude of tracks which could not be obliterated. Incidentally the courts were put out of condition for playing purposes.

The additional courts will occasion a relief from the overcrowdedness of the present courts. At present it is the custom for those who wish to play to sign up hours beforehand in order to secure a court. In many instances students are turned away on account of an insufficient number of courts to accommodate them. The new courts should lessen the overcrowdedness and accommodate those players who had been turned away, the caretaker stated.

## Psi Chi Will Hold Meet In Social Science 224

Psi Chi, honorary psychology fraternity, will hold an open meeting April 1, at 4 o'clock, in Social Science 224. The meeting will be devoted to the subject of superstitions and will be in charge of Professor Worcester who will conduct a test on superstition. General discussion will follow.

## Rev. W. C. Fawell Opens Holy Week Services With Evensong Meeting

'his time because you lack faith. Next time, with greater faith in Me, you will succeed.'

### He Offers Encouragement

"A word of encouragement like this is more than unique. If a man should be in the employ of a great corporation, and fail to do some small task assigned to him, it is not likely that a greater responsibility would be offered him, with words of encouragement. We must not think the Master makes use of dependable characters, but He does point out the cause of failure, and challenges the worker to accomplish greater things in the future."

This authority, according to Mr. Fawell, was related by Christ to prayer. Blessings will come to that church or individual who comes to Jesus and asks the cause of failure, and who waits for an answer. During Holy Week, we have the opportunity to come anew to the source of power, and to realize the

## SENATE CONTINUES TO QUESTION MR. DAVIS

### Former Secretary Displays Little Knowledge of Inner Workings

### HAMMOND IS QUIZZED

Senate power trust investigators continued Monday in their questioning when Horace Davis, former secretary-treasurer of the Nebraska division of the National Electric Light association, appeared before the committee. Davis was questioned about the activities of the association and especially with regard to its relations with the engineering and other departments of the University of Nebraska.

Dean Hammond, editor of the Daily Nebraskan, was also questioned briefly as to the advertising policy of that paper.

### "I Don't Remember" is Answer

Mr. Davis, while admitting his connection with the National Electric Light Association, displayed little knowledge of the inner workings of the organization. "I don't remember" was a favorite answer to many of the questions of the committee.

Mr. Davis was connected with the association up to July in 1927. He is no longer connected with that organization, he said, nor with the Nebraska-Iowa Power company.

Students and teachers of engineering and economics in the University derive practical professional advantages from contact with power companies and associations in the opinion of Mr. Davis. He testified that he believed that it was appropriate for university professors to belong to the National Electric Light association. Worthwhile information from the discussion at the meetings could be obtained, he said.

Mr. Davis was also questioned with regard to activities of particular university professors. He testified that in farm electrification development the association co-operated with and assisted the College of Agriculture.

The witness displayed a rather woeful lack of knowledge of the constitution of the organization. Senator McGowan, rather exasperated at his deficiency, reminded him that he had answered many of the questions before the federal trade commission a few months before.

## CERTIFICATE BILL IS REFUSED PLACE

### Superintendent Taylor's Pet Measure Is Left Off Friday Business

Refusing to place Superintendent Taylor's certification bill on the special order of business for Friday the House of Representatives indicated that the bill might meet some trouble before the session is over.

H. R. 417 provides that all state teachers certificates shall be issued by the state superintendent instead of by the normal schools and the University as has been the case heretofore. The bill was one of the pet measures of Superintendent of Education Taylor. It was opposed, however, by the Nebraska Farm Bureau Federation.

Representative Aurand made the motion to place the bill on the special order of business for Friday at 10 o'clock. The motion was defeated by almost 3 to 1.

## Dean Ferguson Attends Engineers Meet in Ohio

Dean O. J. Ferguson, of the College of Engineering, returned early this week from Cincinnati, Ohio, where he attended a meeting of the second district of the American Institute of Electrical Engineers, Ohio, West Virginia, Pennsylvania, New Jersey, Delaware and Maryland comprise the second district.

While Mr. Gustav A. Kostitzky, Mr. Kostitzky (ex '01) is a former Nebraska student of the electrical engineering department. He is now chief engineer of the Bell Telephone company at Cleveland, Ohio, and was in Cincinnati to attend the A. I. E. E. meeting.

## Non-Fraternity Class Scores Sweep in Vote

Non-fraternity students scored a clean sweep in the sophomore minor officer class election Tuesday night when they succeeded in electing their three candidates. Clyde Yost, vice president, Ruth Hatfield, secretary and John Bentley, treasurer were the elected candidates.

The defeated candidates were Lowell Davis for vice president and Elbert Smith and Alan Williams for secretary. The meeting was held in Social Science auditorium.

## EDUCATIONAL RECORD RELEASED BY BUREAU

### February Issue of Research Publication Is Third To Be Published

Educational Research Record for February, the third to be issued, has recently been sent out by the extension division of the University. The Record, published bi-monthly, September to June inclusive, is the official publication of the Teachers College and the Bureau of Education Reference and Research, of which Dr. C. C. Wiedemann is the director. The issue contains the results of various researches carried on by several of the school superintendents throughout the state.

Emil Bentback, superintendent of schools at Arnold, Nebraska, has reported his research on "Standards for the Selection of Arithmetic Textbooks." After tabulating data obtained from several writers and publishers of arithmetic books, Mr. Bentback discovered that a score card for judging textbooks may be divided into five main divisions, under which many details are listed. (1) Authorship; (2) objectives of teaching arithmetic; (3) subject matter; (4) organization of subject matter; and (5) mechanical features are the five divisions which Mr. Bentback explains in his research report.

A second report on "Exploitation" is also being prepared.

## AG MEN TO COMPETE FOR JUDGING HONORS

### Dr. Campbell, Kansas State, Will Act as Judge of Annual Contest

College of Agriculture men will compete for honors in livestock judging, Saturday, March 30. Sophomores, juniors, and seniors who have not taken part in Interstate judging contests are eligible to participate in this annual contest according to an announcement made by the department of animal husbandry.

Dr. C. W. Campbell, chairman of the animal husbandry department at the Kansas Agricultural College, has been secured as official judge for the contest. The animals owned by the University of Nebraska will be used for the students to place. Reasons for placings will be given on some of the classes.

### Winners Get Names on Plaque

Winners in the judging competition will have their name engraved upon plaques in the Block and Bridle club room of the Judging Pavilion. The two students placing highest in judging all classes of livestock will have their names engraved upon the center plaque. The winners' names in previous years are already on these plaques and it is becoming a traditional honor.

## Students Are Asked to Remove Incomplete Reports

Students with "incomplete" reports during the past two semesters, and who wish to have their names considered in the preparation of the lists for the Honors Convocation, must make up their deficiency and have the report in the office of the registrar not later than Monday, April 1.

### Committee on the Honors Convocation.

## PLAYERS WILL GIVE EASTER PRODUCTION

### 'The Supreme Sacrifice' Is Religious Number by Wesley Group

### RAMAY HAS MALE LEAD

Wesley Players, Methodist dramatic organization, will present "The Supreme Sacrifice," a religious drama in three scenes, at Grace M. E. church, 27 and R streets, Sunday evening at 7:45 o'clock. The cast for the production is rehearsing daily this week.

"The Supreme Sacrifice" is particularly designed as an Easter play and centers about the crucifixion of Christ. It was written by Mrs. Harriett Dell Barr of Chicago, who for the past two seasons has coached the work of Wesley Players. The drama has never before been presented in this part of the country.

### Ramay Takes Lead

Elwood Ramay plays the part of Judas, the principal role in the play. Coral Dubry enacts the character of Pontius Pilate, whose place is an impressive one. Other characters that motivate the scene are familiar to all from Bible stories and are portrayed by veteran members of the organization. Miss

## EVENSONG SERVICES ARE HELD AT CHURCH

### University Episcopal Will Have Holy Week Tarks Throughout Week

Evensong service will be held today at five o'clock at the University Episcopal church, Thirteenth and R. The Rev. R. Leland, Presbyterian student pastor, will speak on "Jesus at Home."

C. D. Hayes, general secretary of the university Y. W. C. A., spoke last evening in the Holy Week service held at the University Episcopal church, on "The Day of Conflict."

The character of Jesus, as revealed by the events of the "Day of Conflict," was described by the speaker. His hatred of hypocrisy, as shown by His scathing denunciation of the scribes and Pharisees His courage, shown by this statement, and His compassion, as shown by His lament over Jerusalem, were discussed in detail.

### Evensong services will be held each afternoon at five o'clock, in

Continued on Page 2.

## Police Officials Will Repair Traffic Lights Within Next Few Days

Three automatic traffic signal lights in the vicinity of the campus will be in operation within the next few days, police department officials announced Tuesday.

A short in the cable leading to the lights has been the reason why they have not been working recently. The defect in the cable was discovered and a new cable is now being installed.

The lights which have been affected by the short circuit have been at the intersection of Twelfth and R streets, Thirteenth and Q streets, and Twelfth and Q streets.

## PARES SPEAKS AT UNIVERSITY CLUB

Sir Bernard Pares of the University of London, who spoke to Phi Beta Kappa and Sigma Xi Monday night, addressed a group of about sixty people at the University Club, Tuesday noon. Included among his listeners were members of the University of Nebraska faculty and Lincoln citizens. Sir Bernard told of a few of his experiences in Russia and gave some insights on Russian character. He left Tuesday afternoon for Miami, Ohio, to speak at Oxford college.
