

DELTA CAPTURE FIRST HONORS IN TRACK CARNIVAL

Delta Chi Finishes Second Annual Interfraternity Cinder Compet

QUESTION ELIGIBILITY

Totals Are Unofficial as One Tracker Is Doubtful In Eligibility

Delta Tau Delta scored a decisive victory in the intramural track meet held yesterday afternoon in the stadium. Hokuf was the big factor in the team's victory, registering seventeen and a half points in five events. Delta Chi, according to unofficial scoring, won a close second over Kappa Sigma, there being but four-fifths of a point difference between the two teams.

Petz, Delta Chi, was second high point man of the meet, winning the high hurdles, the low hurdles, and the 100 yard dash. In addition, he ran on the relay team.

Unofficial scores, as compiled last night, place the fraternity teams as follows:

Delta Tau Delta	50.9-10
Delta Chi	29.1-2
Kappa Sigma	28.7-10
Farm House	19
Theta Chi	19
Phi Gamma Delta	17.1-2
Theta Xi	16.1-5
Delta Sigma Lambda	13.1-2
Delta Sigma Phi	10.7-10
Sigma Phi Epsilon	4.1-2
Beta Theta Pi	5.1-2
Tau Kappa Epsilon	5
Pi Kappa Phi	3

These totals have not been verified by the athletic department, and are tentative, pending a ruling on the eligibility of one of the participants on a high-scoring team.

The Greek-Barb track meet, if scored on a dual basis, gives the Greeks, represented by Delta Tau Delta, an overwhelming victory, with the score 15 to 21.

The summary:

100 yard dash (finals) — First, Petz, Delta Chi; second, Smutny, Theta Chi; third, Rubrecht, Phi Gamma Delta; fourth, Keyes, Kappa Sigma; fifth, Mathis, Kappa Sigma. Time: 20.1.

440 yard dash — First, Carlson, Delta Tau Delta; second, Casford, Kappa Sigma; third, Nevine, Theta Xi; fourth, Wickwire, Delta Sigma Lambda; fifth, Erick, Nonfraternity; sixth, Moeller, Farm House. Time: 54.3.

1 mile — First, Neurenberger, Farm House; second, Hopewell, Phi Gamma Delta; third, Manning, Kappa Sigma; fourth, Morrison, Farm House; fifth, White, Theta Xi. Time: 4:55.

High hurdles — First, Petz, Delta Chi; second, Jackson, Delta Chi; third, Carlson, Delta Tau Delta; fourth, Pabek, Kappa Sigma; fifth, Smutney, Theta Chi.

Low hurdles — First, Petz, Delta Chi; second, Jackson, Delta Chi; third, Smutny, Theta Chi; fourth, Wickwire, Delta Sigma Lambda; fifth, Craig, Phi Gamma Delta. Time: 25.5.

550 yard dash — First, Watson, Nonfraternity; second, Carlson, Delta Tau Delta; third, Young, Tau Kappa Epsilon; fourth, Meana, Farm House; fifth, Dyas, Theta Chi; sixth, Redmers, Delta Sigma Phi. Time: 2:14.

220 yard dash — First, Rubrecht, Phi Gamma Delta; second, Smutney, Theta Chi; third, Mathis, Kappa Sigma; fourth, Walker, Delta Sigma Phi; fifth, Nevine, Theta Xi. Time: 22.1.

Two mile — First, Rumer, Nonfraternity; second, Witt, Nonfraternity; third, Neurenberger, Farm House; fourth, Manning, Kappa Sigma; fifth, Swanson, Farm House; sixth, Laughlin, Delta Tau Delta; seventh, Schure, Tau Kappa Epsilon. Time: 10:28.

Half-mile relay — First, Kappa Sigma; (Keyes, M. Casford, Keyes, B. Mathis); second, Theta Xi; third, Delta Sigma Lambda; fourth, Delta Tau Delta; fifth, Delta Chi. Time: 1:42.

High jump — First, Meldrum, Beta Theta Pi; second, Robinson, Kappa Sigma; and Cook, Delta Tau Delta; third, fourth, Gabrielson, Delta Sigma Phi; fifth, Jackson, Delta Chi; and Brady, Beta Theta Pi. Height, 5 feet, 9 inches.

Pole vault — First, Stevenson, Theta Chi; and Eisenhart, Delta Sigma Lambda, tied; in a tie for the remaining three places were Warwick, Delta Sigma Phi; Kohler, Theta Xi; Cook, Delta Tau Delta; Hokuf, Delta Tau Delta; and Kronkright, Kappa Sigma. Height, 10 feet, 6 inches.

Broad jump — First, Craig, Phi Gamma Delta; second, Gray, Nonfraternity; third, Cook, Delta Tau Delta; fourth, Ely, Phi Kappa Phi; fifth, Baylor, Delta Sigma Lambda; sixth, Hokuf, Delta Tau Delta. Distance, 21 feet, 3 inches.

Shot put — First, Hokuf, Delta Tau Delta; second, Justice, Sigma Phi Epsilon; third, Hubka, Delta Tau Delta; fourth, Eno, Delta Sigma Phi; fifth, Horner, Delta Chi. Distance, 42 feet, 3 inches.

Discus — First, Hokuf, Delta Tau Delta; second, Hubka, Delta Tau Delta; third, Eno, Delta Sigma Phi; and Oshrich, Sigma Phi Epsilon, tied; fifth, Horner, Delta Chi. Distance, 122 feet.

Javelin — First, Hokuf, Delta Tau Delta; second, Clancy, Theta Xi; Horner, Delta Chi; fourth, White, Theta Xi; fifth, Raugh, Delta Tau Delta. Distance, 147 feet, 4 inches.

Archery, long a sport of woods exclusively, is being taken up by the men of Ohio State university. More than 50 recently signed a petition, asking that a men's team be formed by the intramural department. This is the first time any interest in archery has been evidenced by the male portion of the campus, according to the intramural manager.

SCHEDULE OF EXAMINATIONS

(Continued from Page 1)

THURSDAY, JUNE 6

8:00 a. m. to 10:00 a. m.—Classes meeting at 11:00 a. m. Mon., Wed., Fri., or any one or two of these days
10:15 a. m. to 12:15 p. m.—Classes meeting at 11:00 a. m. Tues., Thurs., Sat., or any one or two of these days
1:15 p. m. to 3:15 p. m.—Classes meeting at 4:00 five or four days, or Mon., Wed., Fri., or any one or two of these days

3:30 p. m. to 5:30 p. m.—Classes meeting at 4:00 p. m. Tues., Thurs., Sat., or any one or two of these days

FRIDAY, JUNE 7

8:00 a. m. to 10:00 a. m.—Classes meeting at 5:00 p. m. Mon., Wed., Fri., or any one or two of these days
10:15 a. m. to 12:15 p. m.—Classes meeting at 5:00 p. m. Tues., Thurs., Sat., or any one or two of these days
1:15 p. m. to 3:15 p. m.—Classes meeting at 7:00 p. m. Mon., Wed., Fri., or any one or two of these days
3:30 p. m. to 5:30 p. m.—Classes meeting at 7:00 p. m. Tues., Thurs., Sat., or any one of these days.

Physical Education Develops Health Of Student Body, States Dr. R. Clapp

BY RALPH DEXTER.

"Greatest good to the greatest number," declared Dr. R. G. Clapp, professor of physical education, Friday afternoon, when asked of his conception of physical education in America and Germany.

The American idea of physical education, Dr. Clapp stated, is to improve the health of the student body while that of Germany is militaristic. He then went on to explain how physical education helped one to learn how to control his muscles.

Protect Father Land

"The main reason why Germany's plan of physical education is militaristic is the protection of the fatherland. It is not for the development of the people's bodies for their own sake, but better men and women to make Germany stronger."

"Do you believe that there is any benefit derived from intramural athletics?" I asked him.

"Yes, it is a better program than the varsity competition. It keeps the students as a mass in training and not only a few."

"The main reason for intramural athletics is the development of new men and often a good one is found, this being the chance to compete while the varsity does not. Then too intramural athletics are helping those who are competing from the physical education standpoint."

Is Nationally Known

Dr. Clapp is nationally known for his ideas and interest in the development of physical education. At one time he was a world record holder in the pole vault. It is through his ability as an instructor that Nebraska has come to the top in physical education.

"What is your idea of physical education?" I asked him.

"Teaching of character and development" was his answer. "My idea of physical education in the future is to spend more money on athletic fields and not so much in trying to teach in the school. It is all right to try and teach in the school but the students do not get the benefit from it as if they could go through the movements."

"Do you think that character development can be taught through physical education?" was my next question.

Athletic Field Is Place

"Oh, yes," Dr. Clapp declared positively. "I believe that the best place is on the athletic field and in the gym classes. Character development is first taught or should be in the home. It can be taught in the home but I don't believe that it can be taught there as well as by the coach of some sport. The coach has a great deal of influence upon the person."

"For instance," he continued, "a student or any individual will do things for the glory he gets out of it, while often at home he doesn't see any glory in doing a thing."

I then asked him: "Do you think there will be the increase in rec-

ords the next six years as the past six years?"

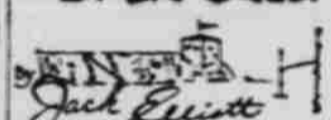

Due to Better Men

"No, I do not," he replied. "I do believe that records will still continue to fall." The reason he stated for the increase in the past few years is due to the development of ideas, like in pole vaulting the new spring pole. "I don't believe that it has been due to better training but to better men."

The conversation turned to some recent developments and happenings here in the University. Dr. Clapp told of what Yale required of the freshmen, and how the east had the advantage over the west due to working students in the west.

"Everybody ought to participate in some regular activity," Dr. Clapp declared. "I want to encourage every student to get in some activity, with a free idea as to what that activity will be."

ON THE COLLEY

Leading the Big Six teams down the home stretch, the Nebraska baseball nine under the direction of Coach "Choppy" Rhodes, takes on the Missouri Tigers at Landis field next week in the deciding battle for the championship of the Big Six conference. The games with the Columbia nine were originally scheduled for this week but due to examinations on Missouri campus it was agreed to play off the title games next week. Coach "Choppy" Rhodes has brought his Scarlet nine from a cozy position in the cellar to the first position in the conference. And with no material on hand from last year's team, he developed a crew of inexperienced players that only remained in the league basement for four games. June 5 and 6 are the dates set for the Tiger-Husker games and from all indications the old Tiger-Husker spirit will be at its top pitch as the two teams again fight for honors in the conference. To win one of the two games is all that is necessary for the Nebraska nine to take the championship.

Coach "Choppy" Rhodes has been fortunate this year in having an excellent pitching staff to work in the conference games. In Ted Pickett, Rhodes probably has the most outstanding pitcher in the Big Six. Pickett has kept up almost an unbroken string of victories for the Nebraska team. He got away to a bad start in the opening games but once his pitching arm got into working condition he soon whiffed the Big Six teams out of the way for a Nebraska championship. Clair Sloan and Armatis are the other two hurlers who also have assisted the Nebraska ball club to its first position among Big Six sisters.

Rumor around the camp of the Cornhuskers and in the cities have

it that Nebraska and Iowa may form some athletic agreement in the near future. We don't know enough about it to go into detail except that great rivalry could be worked up between University of Iowa and University of Nebraska. The two schools are so located that should athletic relations be renewed between the two schools, another Nebraska-Missouri spirit would be the outcome. Iowa was one of the first if not the first football team to meet Nebraska and if our figures are correct it was a 20 to 0 battle with the Cornhuskers on top. There has been some trouble up at Iowa City in regard to their athletic conditions, but we are not probing into the conditions of other schools outside our own Big Six which in its infant stage is fortunate in having a clean athletic plant in every one of the Big Six schools.

And there is another rumor following the above one. And that is that Nebraska may enter the Big Ten conference. As to that we can say that the possibility is so small that it is not worth considering. Nebraska has, it is true, sought to enter the Big Ten on several occasions but would not consider it now with the Big Six conference but one year old and the enthusiasm that prevails in the Nebraska camp.

Professors at Princeton university are to write the history of New Jersey, a \$100,000 fund created by Lloyd W. Smith, being used for the task. It is estimated that about 10 years will be required for the collection of necessary data and documents. The work itself, which will consist of about 2,000,000 words, is to deal not only with economic, political and military aspects of the state's past, but with various phases of the life of the people as well.

Two women at the University of Washington turned in 100 per cent scores in a women's varsity rifle match with the University of Nebraska, the University of Cincinnati and Louisiana State college. They were Florida Browne and Helen Nesbit. The Washington team made a score of 485 out of a possible 500.

A new building for women has just been completed at the University of Michigan, including lounges, dancing floors, a tea room, beauty parlor, chapel, library, committee rooms and 25 guest rooms. This is said to be one of the most elaborate women's buildings in any university.

Many Unusual Books and Curious Covers Are Found in Andrews Hall

(By Helen McCheaney)

Delving through old books and curious specimens of book lore has been a pleasant pastime to students throughout the ages. Medieval monks spent many a weary hour poring over ancient manuscripts, copying and revising them. The Renaissance revived this interest in classical books, and students reverted to the intensive study of the origin of old books and their contents. The pendulum of learning always turns back to the past for appreciation of literature and art so that even today the study of old books such as these is valuable and interesting.

Casual students find old Greek and Latin manuscripts lurking unobtrusively on the shelves of the classic library in Andrews hall. Some are a bit discolored, some are worm-eaten, and others are in odd coverings, yet they all carry distinctive personalities and are invaluable in their individual characteristics.

Book Has Wooden Cover

One curious Latin book with a wooden cover dates back to 1521. The carved leather binding, now somewhat worn, the strong pine cover, and the marks where the old-fashioned metal clasp held it intact, are distinctive features on the outside of this book. Notes in Latin, done by a contemporary of the author, show an extensive study of the contents, and the decorations and figures in the notes show the originality of this contemporary note-maker. Modern readers could defy any modern cynic to surpass the cynical passages which appear in the preface of this book.

A codex of Homer's Iliad in Greek, comprising 327 pages with the dimensions of a modern newspaper, beckons to lovers of curious books. This enormous tome, which was imported from Leyden, is a facsimile of Homer, and includes photographs of the original Greek pages, surrounded by comments and pictures drawn by the monks. Though the pictures are somewhat mutilated and crude, the customs of the age may be deduced from the disproportionate outlines of

men on horseback, men marching and shooting arrows.

A companion codex to this of Homer, is also enclosed in a wooden covering, but it is a facsimile of Parnassus, and contains pictures, notes and decorated letters.

Yellow from age, some pages from a Greek Bible are found carelessly bound in a book on Latin architecture which is dated 1588. Pictures of Bible stories such as Joseph at the well, and Jonah and the whale can be distinguished. The Greek lettering is unusually clear, and the type is bold.

From Verona, in Italy, have been brought three books containing medieval poems by illustrious authors. These books are bound in paper, brightly painted in water colors which are a bit faded now. The edges are worn and ragged and the covers warped, but the inside pages remain white, and the printing is still very clear.

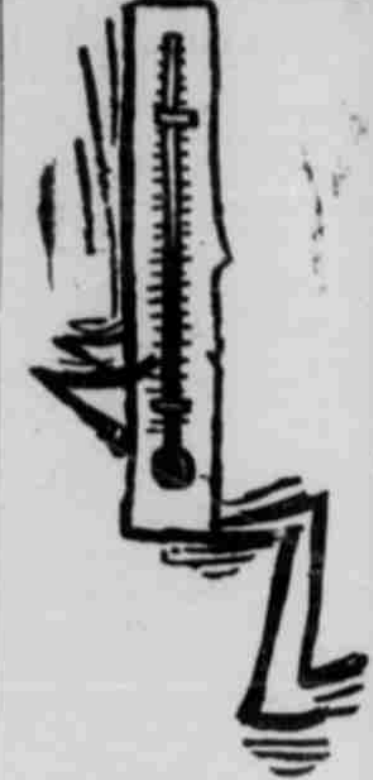

Another Latin book is Bucolica of Georgius by Virgili Maronius, which is bound in lamb skin, and opens when a tricky spring catch is touched. The pages of this book are yellow, but the typography is still legible.

There are many more curious and interesting copies of old books in this little classics library in Andrews hall and each month more "new old" books are imported from Europe, so that lovers of book lore find here ample material to satisfy their insatiable desire to delve through old books.

Typewriters For Rent

... but think what you get at PARKS

It is one of the finest air colleges in the world... elaborate buildings... complete equipment... located on a metropolitan airport, twenty minutes from the heart of a great air city.

50... 150... 1,050 students continue to pour into Parks, believing in its superiority and finding there all that they expected... and more.

The student at Parks lives in royal comfort. Parks Hall is a large modern dormitory that holds the luxury of a palace with the feeling of home. Here is elysium, where self-respect takes on a swagger... comfortable lounge... club rooms... bed rooms... showers... barber shop... dining rooms... recreation rooms... yes, and tennis courts.

This is just one of the things that make Parks worth while. There are many others.

You should not trust your career... your whole future as a successful airman... to any method of instruction or to any institution that is not the very finest. It isn't worth the gamble.

At Parks you are guided, coerced, cautioned, and disciplined always. You follow a regular curriculum of study with thoroughness as the keynote.

Let us send you our illustrated book free. Fill out the coupon NOW.

*Parks Air College has a corps of 54 instructors, 14 buildings with a floor space of 75,000 square feet and a total investment of more than \$400,000.00.

A Dayton Steel Racquet adds 20% more SPEED to your game

A workman can be no better than his tools. A tennis player can be no faster than his racquet. The Dayton is the fastest.

Perhaps you can't teach some old dogs new tricks—but the new generation turns always to the rising mode, to the mode of whip-steel speed. It asks for all-steel in its roadsters, its airplanes, its tennis racquets.

Certified laboratory tests prove that the Dayton Steel Tennis Racquet has 43% less air resistance than the average wood-and-gut racquet. They prove further that the same effort drives a ball 20% faster with a Dayton.

And that extra 20% gives you the jump on spindier players. Dayton Steel Racquet Co., Dayton, Ohio.
