## BRIGGS, CARTOONIST, DIES AFTER ILLNESS

### Former Nebraskan Attended University in Lincoln For Four Years.

A former Nebraskan who has reached fame passed away Friday afternoon, Jan. 3, in the person of Clara A. Briggs, nationally known newspaper cartoonist. Mr. Briggs had been ill for some time preceding his death.

Mr. Briggs was born in Reedsburg, Wis., fifty-four years ago. He later moved to Lincoln where he attended the University of Nebraska for four years. Following his journalistic work at Nebraska he worked in the employment of various papers in St. Louis, Chicago and New York.

An interesting fact which Mr. Briggs recalled was that he received his inspiration to become a newspaper man thru a "hawking out" by Gen. John J. Pershing, who was then a Lieutenant at Nebraska, and under whom Briggs was taking a mathematics course.

## BURNETT PICKS COMMITTEE FOR RALLY RULINGS

### New Body to Form Program for Conduct of Future Pep Exhibits.

### TO START WORK NOW

### Faculty and Students Are To Collaborate on Proposals.

As the latest step toward the solution of the rally problem at the University of Nebraska, a committee of six has been appointed by Chancellor Burnett to formulate a program for the conduct of future organized demonstrations on the campus, according to an announcement made last night by Dr. C. H. Oldfather who has been named as chairman.

Other members of the committee are Dr. J. P. Senning, Coach D. N. Bible, Dr. W. C. Breske, Prof. T. T. Bullock, Dr. T. J. Thompson, dean of student affairs—ex officio, and Ralph Raikes, president of the student council—ex officio.

"The committee shall begin its operations at once," declared Dr. Oldfather. "It shall try to formulate something definite for the conduct of future rallies and such demonstrations, and, if need be, it shall canvass the students for their opinions as well as to consult representative student leaders."

### Two Proposals Submitted.

At a recent meeting of the university senate consideration was given two proposals relative to rallies, one drawn up by the student council and the second presented by a faculty committee. Neither was adopted, but the chancellor was empowered to appoint a committee to weigh the matter thoroughly. This group may consider further the two proposals already made or may draw up a new one of its own. In any event, the findings of the committee are to be reported back to the university senate for action.

The proposal drawn up by the student council and presented to the senate favors rallies when they are properly conducted on the grounds that "they help to promote a university consciousness in the student body and provide the only occasion aside from athletic contests in which all students can meet on a common ground."

As a means of tempering school spirit, provision is made for an advisory committee composed of from three to five members of the faculty, to be appointed by the chancellor, and the presidents of five student organizations, the Student council, Innocents, Mortar Board, Corn Cobs, and Tassels.

The report of the faculty committee, entitled "Regulations for Governing Student Rallies," reads as follows:

1. Delegation of Authority: Full responsibility for authority, regulating and supervising university rallies is hereby vested by the university senate in the student council. Hereafter all such rallies shall be conducted as the student council may direct by appropriate legislation.

2. Powers and Duties of the Student Council.  
The council in consultation with deans of student affairs shall enact rules and regulations for approving university rallies and for holding them under responsible supervision. But before such rules and regulations may become effective concurrence thereto must be secured from the university senate or from a committee designated by it.

3. Administrative Authority.  
The administration of these rules and regulations is the recognized function of the dean of student affairs.

This proposal bears the signatures of Dr. N. A. Bengtson, Dr. H. H. Marvin, Dr. C. H. Oldfather, Dr. J. P. Senning, and Dr. D. A. Worcester.
