LINCOLN, NEBRASKA, TUESDAY, FEBRUARY 18, 1930

PRICE FIVE CENTS.

MANY THRILLERS SCHEDULED FOR HUSKER FUNFEST

Handbills Promise Death Dive, Balloon Race, And Tumblers.

TICKETS FOR 35 CENTS

Bizads and Teachers Will Scrap for Title; Two Hours Dancing.

Plans for staging the third annual Cornhusker carnival in the coliseum Friday night are rapidly taking definite form. Spectacular handbills appeared yesterday announcing the events on the program, which starts at 7:30 with a championship basketball game and closes at 11:30, after two hours of dancing.

The bill, printed in vivid red, blares forth the fact that the carnival is to be a hundred shows in one. Vaudeville acts, a thrilling dive of death, novelty relays, needle-threading relay races, a balloon race, tumblers imported from Arabia (?), gymnastic stunts, a special exhibition of lightning bugs, jousting between knights in armor, boxing, wrestling, an exhibition by the Pershing Rifles, and the famous Cornhusker derby are only part of the attractions billed for the evening.

Championship Game. The basketball game, which starts at 7:30 o'clock, is between the teachers and bizad teams, in a clash which is to determine the intercollegiate champion of the university. At 8 o'clock the regular program begins.

Ray Richards is in charge of the horse and rider contest. Felber Maasdam is scheduled to run the Indian wrestle. Russell Syggs is in charge of the jousting contest. Jimmy Lewis has been assigned to the task of managing the Cornhusker derby.

The derby has become traditional at Nebraska, according to Herb Gish, director of athletics. In this event, letter men representing the various sports having a place in the intercollegiate program, mount on vehicles of their own choice, are given handicaps accordingly, and circle the track once.

Many Thrills. Slated to appear in this thriller are Adolph Lewandowski, representing basketball; Peterson, representing wrestling; Frank Mock-

BLOOD GIVES SPEECH AT AD CLUB MEETING

Uni Professor Comments On Use and Results Of Advertising.

Professor F. C. Blood, professor of advertising and sales management at the University of Nebraska, spoke before the Lincoln Ad club at their meeting Monday noon, analyzing the value of advertising.

He explained that the average reader of a newspaper looks for advertisements as much as he does for news, and that about ninety-six percent of the readers are bargain hunters. Only about one percent of the readers omit the advertisements entirely.

Professor Blood stated that the more frequently a merchant advertises, the better results he gets, other things being equal. The regular and constant advertiser builds up a habit in the reader of looking for his announcement every day.

He expressed the opinion that radio publicity exerts an influence chiefly among the people already accustomed to buying through mail order houses.

Proportional Representation Plan

- The purpose of this amendment is to set up a system of proportional representation for the election of members to the Student Council.
 - The Student Council is empowered to set forth requirements for the recognition of student parties or factions. No party or faction shall have the right to file candidates until so recognized by the Student Council.
 - Each party or faction shall file a list of its candidates for membership to the Student Council in the Student Activities office on the Friday prior to the day of the election, such lists to be made up in their respective caucuses.
 - The ballots containing the names of the several candidates for office shall also contain the names of their respective parties or factions.
 - There shall be given to each qualified student voter a separate ballot which shall contain the names of the various parties or factions which have been permitted to file candidates for office. Each student voter shall be privileged to designate, on this party faction ballot, his party preference.
 - The ratio of representation is one seat for each 125 votes. The strength of each faction shall be determined by the number of those who have designated their preference for that party on the party ballot slip.
 - After the results of the election as they are now held are computed, the representation in the Student Council shall be apportioned as follows:
 - The representation of any party shall be raised, if in the election that party has received less than one member for each 125 votes cast for it, to bring the representation of that party up to the ratio of one seat for each 125 votes cast.
 - When the representation of any party is so raised, those of its candidates in the election who have received the highest number of votes shall be declared elected to the council. (For example, if a party is entitled to two additional places, its two highest unsuccessful candidates in the election shall be made members of the council.)
 - If any party shall secure, in the election, more than one place to each 125 votes cast in its favor, then that party shall be entitled to the advantage so secured.
 - In all cases, a major fraction of 125 shall constitute a unit of representation.
- Nothing in this amendment shall be construed to deprive any student of the right to file as an independent candidate.

List of Candidates For Student Honors In Tuesday Election

STUDENT COUNCIL.
Woman from Agricultural College: Georgia Wilcox.

PROM GIRL.
Blenda Newlen
Mildred Orr
Virginia Randall
Nyle Spieler
Helen Whitmore
Faye Williams
Marjorie Williams

IVY DAY ORATOR.
Russell Mattson, Blue Shirt
Christian Larsen, Yellow Jacket

SENIOR CLASS PRESIDENT
John R. Brown, Yellow Jacket
Adolph Simic, Blue Shirt
JUNIOR CLASS PRESIDENT
Robert Kelly, Blue Shirt
Roger Robinson, Yellow Jacket

SOPHOMORE CLASS PRESIDENT.
William Comstock, Yellow Jacket
Lloyd Jeffries, Blue Shirt
Evelyn Lee, Barb

FRESHMAN CLASS PRESIDENT.
Gliddon Brooks, Blue Shirt
Duane Lyon, Barb
Arthur Pinkerton, Yellow Jacket

The checking of eligibilities eliminated one in the race for Student Council, one in the race for senior class president, and one in the race for junior class president.

BLUE PRINT IS PLACED ON SALE YESTERDAY

February Issue Contains Articles on Modern Engineering.

GRADUATES CONTRIBUTE

The February issue of Nebraska Blue Print, monthly publication of the engineering college, was placed on sale Monday. The number includes several interesting articles on various phases of modern engineering as well as comments by Dean O. J. Ferguson of the engineering college and several undergraduate engineers.

Feature articles include an account of a project now in the process of construction by Willard Dann, a graduate of Nebraska university, by which the Grand Canyon will be spanned with a bridge which is over three hundred feet above the river below it, so high that an airplane can fly under it in safety. To build this bridge it was necessary to extend the arch from both sides of the cliffs out into space to meet each other, since there are no center supports.

Swoboda Writes Article. Another feature of the Blue Print is an article on "A Thousand Ampere Choke Coil" by A. R. Swoboda, at present a member of the technical staff of the Bell Telephone company and a graduate of Nebraska in 1903. Swoboda returned to Nebraska in 1907 to act as an instructor in electric engineering while obtaining his E. E. degree.

L. A. Kilgore, a graduate of Nebraska in 1927, furnishes the publication with an article on "Development in Turbine Generator Design." "The Story of the Rubber Tire" is the subject of an article by Joan M. Clemen, student of the engineering college and one of the student representatives of the engineering publication board.

Oil Condition Reported. A report by Leon J. Pepperberg, who received degrees from Nebraska in 1905 and in 1909, on the Nigger Creek oil fields of Limestone county, Texas, furnishes some very interesting information on the conditions, essential from a

FELLMAN'S PLAN GIVEN APPROVAL BY ALL FACTIONS

Fate of Proportional Idea Rests With Outcome Of Election.

BARB COUNCIL IN FAVOR

Author Says Scheme Won't Entail Complicated Machinery.

Having received the approval of every representative group on the campus, David Fellman's plan of proportional representation for the Student Council goes before the student body today for final approval.

On Jan. 22, the Student Council passed favorably on the scheme, and the faculty committee on student activities gave it provisional sanction, at its regular meeting last Wednesday. Both the Blue Shirt and Yellow Jacket factions voiced their endorsement of the plan in caucuses last week. Likewise, the Barb Council has given the measure favorable comment.

Both Deans Favor Plan. Both Dean T. J. Thompson and Dean Amanda Heppner have stated their commendation of the plan in the faculty committee on student activities.

Contrary to popular conception of the plan, Fellman states that the plan is quite simple, and will not entail any complicated machinery for its operation. The entire text of the plan can be found elsewhere in this paper.

With the present arrangement, the plan is not permanent, and will receive its test in the spring election should it be passed today. The approval of the faculty committee was provisional, and will give its final consent after the spring election. Should it pass this final hurdle, the plan will be a permanent fixture in Nebraska's Student Council constitution.

College Representation Remains. College representation on the Student Council will not be altered from the present system, and will afford the Barb faction its first real opportunity for representation. (Continued on Page 2.)

NAVAJOS GIVE FINAL EXHIBITION TODAY

Redskins Demonstrate Their Crafts the Last Time This Afternoon.

TOURING UNITED STATES

Colonel Berton I. Staples, and three members of the Navajo tribe are exhibiting their work at Morrill hall for the last time Tuesday, Feb. 18, from 9 to 12 a. m. and from 2 to 4 p. m. They are making an extensive annual tour of the United States visiting all of the large cities, in an effort to educate the people in the true ways of the Navajo Indians, and to awaken an appreciation for their art.

The Navajos call Colonel Staples "Tsi-Na-Jini," "the white man who keeps his word." Twelve years ago he came to the Navajo reservation to live and during that time he has so completely won the confidence of the Navajo people that they have adopted him into the tribe with full initiation ceremonies.

In his trading post are silversmiths whose work he directs and (Continued on Page 3.)

FOSSIL REMAINS OF RHINOCEROS IS GOING TO LONDON

A fossil rhinoceros from Nebraska is now on its way to the British Museum in London. Although rhinoceroses are not found in North America now, but one must go to Africa and Asia to find them today, yet in the days represented by the famous bed of bones at Agate, in Sioux County, they must have been here in great numbers, according to F. G. Collins, assistant curator of the museum. In the slab of the Agate bone bed on exhibition at the museum, there are five jaw bones of the Rhinoceros.

When these animals were living here, some of them seem to have migrated to Europe because their bones are found in parts of France, Collins said. A fossil skeleton of a rhinoceros was mounted in Morrill in 1928.

STUDIO DATES.

- Tuesday, Feb. 18.
Cornhusker staff, 12 o'clock.
Engineering Executive board, 12:15.
Engineering Publication board, 12:30.
Blue Print, 12:30.
- Wednesday, Feb. 19.
N club, 12 o'clock.
A. S. C. E., 12:30.
- Thursday, Feb. 20.
Dramatic club, 12 o'clock.
Basket ball, 12:15.
Swimming, 12:20.
Cross country, 12:30.
- Friday, Feb. 21.
Engineering faculty, 12 o'clock.
Fine arts faculty, 12:15.
Phi Sigma, 12:30.

Commencement Speaker

Dr. Paul Sherry, professor of Greek at the University of Chicago, will be the orator at the commencement exercises, which will be held June 7 in the coliseum.

PI PHIS TAKE FIRST WITH FOLLIES SKIT

Winning Number Entitled 'Popular Magazines,' Phi Mus Second.

FIVE ACTS ARE GIVEN

Pi Beta Phi won first place and Phi Mu second for their skits at the annual Coed Follies at the Temple theater, Saturday evening. The program, consisting of five full length acts and two curtain skits, was presented by coeds and for coeds under the supervision of the A. W. S.

The winning skit, "Popular Magazines," opened with Katherine Ruegge, in male attire, looking over the magazines of a news stand. As she gazed at them the curtain parted and girls dressed in appropriate costumes appeared as Elude, College Humor, Saturday Evening Post, Home and Garden, Vogue, Sports, Photoplay and the French publication, La Vie Parisienne.

Phi Mus Give Burlesque. For the Phi Mu skit, "Her Final Sacrifice," Augusta French read while the "minutes passed," a burlesque on the minute men of Lexington. Gamma Phi Beta presented a toy shop revue, featuring a hobby horse chorus, tin soldiers, building blocks and a jack-in-the-box announcer.

The contribution of Sigma Kappa, "College Melancholies," and of W. A. A., "Jo's Triumph," portrayed phases of college life with original songs and dancing.

The curtain skit by Alpha Phi centered about Grace Cathan, blues singer, and that of Delta Delta Delta, "White Shadows," formed the connecting link for the other numbers of the program, with Mildred Orr as master of ceremonies.

UNI GRADUATE EARNS DEGREE AT HARVARD

Gerald Almy Passes Exams For Title of Doctor Of Philosophy.

Word has been received by Prof. John Almy of the department of physics, that his nephew, Gerald Almy, passed the examinations for a degree of doctor of philosophy, Jan. 23, at Harvard university. Mr. Almy will receive his degree in June.

Mr. Almy received the degree of bachelor of science in 1924 and master of science in 1926 at Nebraska. He has been an assistant in the department of physics at Harvard since his graduation here. He had a fellowship this last year.

Mr. Almy has written several articles in conjunction with F. H. Crawford in "The Physical World." The most recent article which appeared in the December number was "Zeeman Effect in the MgH Bands."

High School Pupils to Study Lincoln Schools

Students in university teachers high school will study physical factors of Lincoln schools in observations to begin Friday. This assignment will be a section of the regular observation work to be completed by normal training students this semester.

Goeds Will Inspect Gooch's Mill Today

The women in the industry group at the university will make an inspection trip to Gooch's mill this afternoon. Goeds belonging to the group will meet at Ellen Smith hall at 3 o'clock, driving from there to the mill.

Thompson Appointed Nebraska's Delegate To Medical Congress

Dr. T. J. Thompson, dean of student affairs, has been appointed by Governor Weaver as delegate to the Congress of Medical Education, Licensure and Hospitals, which meets in Chicago Feb. 17, 18 and 19. Dean Thompson was unable to leave for the conference until late Monday. The appointment came as the result of his work as chairman of the Basic Medical Sciences board.

NOTED GERMAN COMING TO UNI CAMPUS FRIDAY

Dr. Wolf von Dewall Will Speak at World Forum Luncheon.

ADVISER TO STRESEMANN

Margaret Read and Frank Wilson Are Scheduled For Talks.

Dr. Wolf von Dewall, a close friend and adviser of the late Minister of Foreign Affairs, Stresemann of Germany will be in Lincoln this week and is scheduled to speak at the World Forum luncheon, which will be held on Friday.

Dr. von Dewall is national president of the Rotary clubs in Germany. He is also national president of the League of Nations association in Germany. Dr. von Dewall is a newspaperman by profession, being editor of the "Frankfurter Zeitung."

World Forum Postponed. He comes to Lincoln under the auspices of the university Y. M. C. A. and Y. W. C. A. World Forum will be postponed from Wednesday to Friday as Dr. von Dewall is unable to arrive in Lincoln earlier.

The luncheon will be held at the Lincoln chamber of commerce rather than at the Nebraska hotel in order that a larger number of people can be accommodated. Meredith Nelson, co-chairman of the Y. M. C. A. committee in charge of the World Forum stated that two or three hundred people were expected to attend.

The Lincoln Rotary club and Wesleyan university are co-operating with the forum committee in conducting the luncheon. Nelson said that tickets would be offered for sale in some of the university classrooms. They can also be obtained from C. D. Hayes, secretary of the university Y. M. C. A., in the Temple, or from Miss Erma Appleby, secretary of the university Y. W. C. A. in Ellen Smith hall. The price of the tickets is seventy cents.

The university Christian association are also bringing two other (Continued on Page 3.)

MRS. LELAND SPEAKS ON PICTURE EXHIBITS

Explains Technique Used In Various Displays; Favors Siesta.

CHAPIN HAS PAINTINGS

Mrs. Dean R. Leland, wife of the Presbyterian student pastor, in a discussion of the exhibits of the Nebraska Art association shown at Morrill hall, Sunday, stressed the color used in art, saying that the term "color" does not denote purity or intensity especially, but might represent the subtle gradations in such cooler tones as grays and browns.

Her discussion began with "The Marvin Family" by James Chapin, said to be the most spectacular picture in the gallery. In this picture, she explained, Chapin was able to create beauty through common and homely characters and surroundings, being most apparent when one notes the pictures juxtaposed. In her opinion it did not equal his other works, being more representative than creative.

Chapin Has Others. "His other pictures—"read," "Ploughman" and "Pork Chops"— (Continued on Page 3.)

HONORARY GROUP POSTPONES DATE OF OPEN MEETING

Sigma Xi, national senior scientific honorary group, has changed the date of its meeting from Feb. 17 to Feb. 24, at 8 p. m. in Morrill hall. The meeting will be open to the public.

Two papers will be presented at the meeting: "Studies in the Vegetation of Southwestern Texas, with Special Reference to Grazing," by Prof. H. C. Cottle, and "The Development and Causes for Distribution of Certain Forest Trees in Nebraska," by Prof. A. E. Holch, instructor in botany.

CAMPUS CALENDAR

- Tuesday, Feb. 18.
Cornhusker staff, 12 o'clock.
Engineering Executive board, 12:15.
Engineering publication board, 12:30.
Blue print, 12:30.
- Wednesday, Feb. 19.

Fine arts faculty, 12:15.
Phi Sigma, 12:30.

POLITICIANS SET ELECTION STAGE

Factions Spend Evening Electioneering, in Preparation For Battle; Sororities Canvassed for Support; Barbs Poorly Organized.

FATE PROPORTIONAL VOTING TO BE DECIDED

Groups Have Challengers at Polls to Prevent Fraud; Circulation of Printed Matter Prohibited; No Electioneering Allowed in Temple.

BY POLITICUS

After a somewhat hectic pre-election campaign, extending over a period of a week, the three unrecognized and unofficial student factions have laid their cards on the table and now are expectantly looking forward to the counting of the ballots after 5 p. m. today.

Caucuses occupied the time of the factions up to the eve of election day, when old time rallying was the main number on the program. House-to-house canvassing of sorority row was the specialty of the fraternity politics—the blue shirts and the yellow jackets—thereby trying to get one of the strongest determining factors in University of Nebraska elections: The sorority vote.

Barbs Unorganized. The barbs, unorganized and scattered as they are, have had to content themselves with rather extended methods of campaigning. They had no premeditated scheme outlined to get their clientele together, so they are awaiting the outcome at the polls with the expectation that anything might happen.

Regardless of the diverse points of view said to be possessed by the three political tribes, they at least have come together on two points. First, they believe that today's election, aside from the proportional representation plan being decided upon, is relatively unimportant. They are pointing for it only because they wish to test their comparative strength at the ballot box.

At the last election, similar to the one being held today, when class presidents and an honorary council were selected, a total of 1,470 votes were cast. Of these, the blue shirts had the most with the exception of the freshman class president, who was chosen among the yellow jackets.

The average number of ballots cast for blue shirt candidates last year was 212. The yellow jackets were able to amass enough votes to have an average of 180, while the barbs were trailing with an average of 47. None of the barb candidates was elected.

The second point on which the three segments have been able to mesh is the proportional representation plan. All have given out word through their respective leaders that the respective groups will give the plan solid backing on the ballot today. To assist the student voter in understanding what the new system entails, a copy of the original plan as drawn up by David Fellman appears elsewhere in this issue of The Nebraska.

In their Monday evening search for votes, the blue shirts divided the sorority populace into three groups under the direction of three committees. Stanley Day, president of the freshmen, Don Carlson and Jimmy Williams were at the helm of the three committees.

Canvass Sororities. Every sorority on the campus was visited by the blue shirts during the dinner hour, according to reports. The freshmen "balloteers" were given a list of the blue shirt candidates together with a resume of the party's platform—all orally, the spokesmen being different each time.

Two factors were stressed by the committees: First, the blue shirt faction's approbation of the Fellman plan; second, the party's announcement of forthcoming minor class elections sometime within the next few weeks, thereby giving the sororities a chance to get some of their members to the front at that time.

Music, furnished by an orchestra brought along by each of the (Continued on Page 3.)

SUIT FILED IN COURT INVOLVES UNI FUNDS

Case Is Intended to Test Governor's Power Of Veto.

An original bill has been filed in the supreme court by Winfield M. Elmen, to test the validity of Governor Weaver's veto of items totaling \$400,000. A suit which had been introduced in district court and in which the University of Nebraska was intervenor has been dismissed.

Included in the items vetoed by the Governor is support of the university. The veto cuts the items to the amounts recommended by the governor in his budget. The suit is to obtain an interpretation of apparently conflicting sections of the state constitution, one providing that the governor has authority to veto separate items in an appropriation bill and a later provision prohibiting the governor from vetoing appropriations in excess of his budget recommendations if the bill passes by a three-fifths vote of each house.

Dr. Avery 'Gets Kick' From Making Research on New Organic Compounds

By Margaret Tinley. "I get," said Dr. Samuel Avery yesterday, "more kick out of making a new organic compound, or improving methods of organic analysis, than those things we do for pleasure which are usually considered hobbies."

Dr. Avery, who is professor of research in chemistry and assistant chemist of the University of Nebraska, says that he is particularly fortunate because his university work now corresponds with his hobby, which is doing original research work in organic chemistry.

Scientific as they sound, "organic compounds," which chemists technically explain as "carbon compounds," are among the most interesting chemical mixtures known. "For many years," Dr. Avery explained, "cotton was only cotton. Then it was nitrated in a certain way and found to be explosive—and called 'gun cotton.' Discusses Chemical Processes. "Cotton nitrated in a certain way and dissolved in alcohol and either became collodion, which is so important in photography; then camphor is added to collodion and, presto change! collodion becomes celluloid and celluloid can become many things—pen, dolls, lamp-
