## FAMED SOCIALIST WILL SPEAK AT UNI CONVOCATION

Norman Thomas Scheduled To Talk at 11 O'Clock Friday, March 7.

RAN FOR PRESIDENT

Was Candidate for Highest Office in 1928; 'Y' Groups Sponsor.

Norman Thomas, famed socialist leader, author, and candidate for the presidency in 1928, is scheduled to talk at a university convocation at 11 o'clock Friday, March 7. He will also speak at a luncheon at the chamber of commerce.

Thomas is a man of wide education, an editor of great experience, a well known author and a noted politician. His talk will offer students an opportunity to hear a nationally known man.

He received his A. B. degree from Princeton and the B. D. degree from the Union Theological seminary. In 1911, he was ordained to the Presbyterian ministry and has since served as pastor of several churches in New York City.

Founded 'World Tomorrow'

Mr. Thomas was founder of 'The World Tomorrow' and acted as editor of that publication from 1918 to 1921. He acted as associate editor of 'The Nation' from 1921 to 1922. He is now a contributing editor of 'The World Tomorrow', 'The Nation', and 'The New Leader.'

As an author Mr. Thomas is well known for the writing of such works as 'The Conscientious Worker in America', 'The Challenge of War', 'Is Conscience a Crime?', and other well known books.

Always an ardent socialist, Thomas has been affiliated with the work of that party for a number of years. He was director of the League for Industrial Democracy in 1922, and in 1924 was candidate for governor on the socialist ticket. The next year he was a candidate for the mayoralty of New York for the socialists. In the presidential race of 1928 the socialists named him as their standard bearer. In the race for the mayoralty of New York last fall he again was the socialist candidate.

Mr. Thomas comes here under the auspices of the university Y. W. C. A. and Y. M. C. A.

## CHEMISTRY FACULTY MEMBERS CONTRIBUTE

Professors Brown, Hamilton Publish Articles in Chemical Journal.

The Journal of the American Chemical Society, in its January and February issues, carries articles by members of the chemistry staff of the University of Nebraska. "The Oxidation Potential of the Lead Dioxide Electrode in Perchloric Acid Solution" is the name of the article by Prof. D. J. Brown and John C. Zimmerman in the January number of the journal.

Professor Cliff S. Hamilton and F. E. Cislak have an article in the February issue on "A Method of Determining the Arsenic Content of Organic Arsenicals." Dr. John G. Meier and Dr. W. Albert Noyes, jr. of Brown university also have an article in the February number on "The Electronic and Photochemical Decomposition of Potassium Chlorate."

## GRAMLICH GOES TO SOUTHWEST FEEDERS' MEET

Prof. H. J. Gramlich, chairman of the department of animal husbandry, attended the southwestern feeders' meeting, which was held at McCook, Wednesday, O. O. Waggoner, extension agent in animal husbandry, also attended the meeting.

Thursday noon Prof. Gramlich spoke to the chamber of commerce at Holdrege. He was principal speaker at the farmers-merchants banquet, which was held at Grand Island Thursday night.

## LOCAL FRAT AT IOWA STATE TO BECOME T. N. E.

AMES, Ia.—Tau Gamma Nu, local social fraternity at Iowa State college, will become a member of the national fraternity, Theta Nu Epsilon, at an installation.

## STUDIO DATES.

Friday, Feb. 21. Engineering faculty, 12 o'clock. Fine arts faculty, 12:15. Phi Sigma, 12:30. Monday, Feb. 24. Corncobs 12 p. m.; Phi Lambda Theta 12:15 p. m.; Vesper choir 12:30 p. m. Tues. Feb. 25. Pershing Rifles 12:00; A. S. C. E. 12:15 p. m.; Elementary education club 12:30 p. m. Wednesday Feb. 26. Theta Nu 12:00 p. m.; Kosmet Klub 12:15 p. m.; Y. W. C. A. 12:30 p. m. Thurs. Feb. 27. Colonel Jewett and staff 11:30 p. m.; Nebraskan editorial staff 12:00 p. m. Sigma Delta Chi 12:15 p. m.; Nebraskan business staff 12:20 p. m.

## HOME ECONOMICS TEACHERS ATTEND TEXTILE MEETING

Miss Grace Morton and Miss Gladys Winegar, home economics instructors in the college of agriculture, went to Manhattan, Kas. recently to attend a conference of research on textiles and clothing. Dr. Ruth O'Brien, graduate of the University of Nebraska and now connected with the bureau of home economics in Washington, D. C., Mrs. Pauline Berry Mack, assistant professor of chemistry at Penn State college, and Dr. Margaret Justin directed the conference. Representatives from Oklahoma, Missouri, Minnesota, Ohio, Illinois, Indiana and Nebraska were present.

tion ceremony to be held here Saturday. Eleven active, nine pledges, and about twenty-five alumni will be initiated as members of the new fraternity. Russell Weaver, Sterling, Ill., will be installed as president.

## PLEDGE ELIGIBILITY WILL BE OUT MAR. 1

Greek Letter Societies Will Learn Initiates Stand Then.

## HARPER STATES RULES

Sororities and fraternities will be unable to check the eligibility of their initiates until Mar. 1, according to statements made by Dean W. C. Harper yesterday afternoon.

The fraternity rulings according to the Interfraternity council are: A pledge is eligible for initiation into a fraternity when he has a minimum of twenty-four hours of university credit upon the records of the University of Nebraska and provided that he is carrying a minimum of twelve hours. (These credit hours may have been earned either in the University of Nebraska or some other institution.)

An exception to this rule is: A freshman may be initiated at the end of the first semester provided that he has registered for a minimum of twelve hours and that he has at the end of the first semester successfully completed each course carried. This means that he can have no incomplete, conditions or failures.

His average grade for the first semester must be above the average grade for the preceding year of all male students in the university.

Panelistic lists the rules for sororities as:

A pledge is eligible for initiation into a sorority if she has registered for a minimum of twelve hours, and she has at the end of the first semester successfully completed each course carried. This means that she can have no incomplete, failures or conditions.

For initiation into a sorority, a pledge must be carrying a minimum of twelve hours at the time of her initiation.

According to the Interfraternity council the names of all candidates for initiation must be submitted to and approved by the president of the council before initiation takes place. These are the university rules for initiation and do not include the individual sorority and fraternity rules.

Grades for the preceding semester may be secured about the first of March says Dean Harper.

## HOLCH, COTLE TALK AT SIGMA XI MEETING

Illustration Will Supplement Lectures to Honorary Fraternity.

Prof. A. E. Holch, on leave of absence from Peru State normal, and Prof. H. C. Cottle, gave illustrated lectures at the regular meeting of Sigma Xi honorary scientific fraternity Monday evening, Feb. 17, in Morrill hall auditorium.

Professor Holch discussed the development of forest trees during the first three years in three kinds of natural habitats. Results of his pioneer work are the determination of daily manufacture of food, use of water, correlation with light, humidity, and other factors, solving the problems of distribution of forest trees into groups or communities.

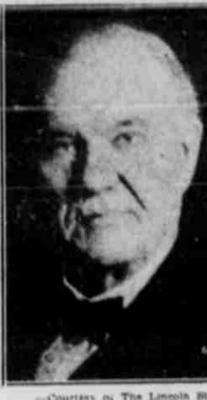

Professor Cottle, who has studied the extensive range lands of extreme southwestern Texas, near the Rio Grande, discussed the results of continuous and long over grazing and pointed out the methods of bringing lands back to normal productivity.

Both of the lectures were open to the public.

## 'Cakes' Take Notice—Delta Gammas Will Offer Kisses for Sale!

Now that Doctor Lyman has proved that there are no harmful results from kissing, the Delta Gammas have snatched the opportunity and are preparing to make the best of it. As someone has said, kissing is a great outdoor sport. Life is not shortened by freely indulging and the Delta Gammas want to give everyone the chance to enjoy himself. They're offering a bargain—only a nickel for two, and no counterfeits either! This will be carried on under expert supervision. Don't miss the greatest opportunity of a lifetime. The Delta Gamma kissing booth at the Cornhusker Carnival is not going to pass up lightly.

## Prominent Speaker.

—COURTESY OF THE LINCOLN BRANCH.

DR. W. O. THOMPSON.

Popular lecturer and president emeritus of Ohio State university who will talk at a university convocation in the Temple Thursday morning, Feb. 27, and will deliver a series of addresses in the First Presbyterian church next week.

## MRS. EVA MORSE TALKS TO ALUMS OF OMICRON NU

Mrs. Eva Morse who has charge of adult home-making education in the Omaha public schools addressed the alumni chapter of Omicron Nu of the college of agriculture this week. About fifty members were present at the home management house to hear Mrs. Morse, who is interesting and unique in that she has developed classes in social and family relationships which are attended by both men and women.

## JEWETT ANNOUNCES NEW APPOINTMENTS

Junior Officers in Military Department Receive New Positions.

## TRANSFERS ARE MADE

Junior officer appointments were announced yesterday in the university military department. According to the appointments which were made by order of Lieutenant Colonel Jewett, G. Allen Schrimpf, company C, was made master sergeant. New first sergeants are George H. Barber, Headquarters company, Henry G. Armistead, company C; Winston J. Behn, company F; Richard F. Ferguson, company K; John H. Beatty, company L.

Staff sergeants appointed are Burton F. Bridges, attached company M; Leroy C. Jack, attached company E; Robert B. Kinkead, attached company E; Merrill Plimpton, attached company E; Raymond D. Murray, attached to company C.

New men coming into advanced military work and securing appointments as sergeants are Vincent J. Barlow, company D; Harold W. Bradford, company C; Elbridge Brubaker, company E; Maldon D. Crabbill, company A; Frank R. Denton, company D; Lawrence Petersen, company I; Barc T. Resler, company L; Edward A. Rosen, company G; and Roy A. Welsh.

Several transfers and assignments were made in a number of the companies. Those who were shifted retain their same offices, however.

## Miss Martenas Takes Position in Cafeteria

Helen Martenas, graduate of the University of Minnesota, has taken a position as assistant director in the college of agriculture cafeteria.

## VON DEWALL IS SCHEDULED FOR FORUM SPEAKER

German Representative Is To Appear Today at Convocation.

WILL TALK IN TEMPLE

Teuton Expresses Optimism About German-U. S. Relations.

Dr. Wolf von Dewall, who is speaking Friday at 11 o'clock at the Temple auditorium on the topic "Germany, France and the League," is optimistic concerning the relations between Germany and the United States and Europe. Dr. von Dewall will also speak at the World Forum luncheon at the Lincoln chamber of commerce at 12 o'clock on "Dominating Ideals of Germany Today." He is stopping here on his trip through the United States.

This will be Herr von Dewall's second lecture tour in this country within eighteen months, he having made a two months tour of the east and midwest last winter.

"I am an optimist as regards Germany's future, despite the pessimism now prevalent," Herr von Dewall stated when he arrived in this country. "Conditions on the surface are not satisfactory. Two million persons are unemployed, trade and industry have had a difficult time and there have been industrial failures. Another alarming thing on the surface is the increasing strength of the radical parties, the extreme right and the extreme left. It should not be concluded, however, that this increase seriously affects the general sentiment of the nation."

## Reparations Were Important.

Speaking of post-war problems Herr von Dewall said, "In my lectures in the midwest last winter I pointed out that two great difficulties were standing in the way of Franco-German conciliation; that the problem of reparations had to be solved before evacuation of the Rhineland could be faced. This was of supreme importance to Germany. I looked at the situation with optimism. I thought that in spite of the greatness of difficulties we would solve the two problems of reparations and evacuation. When I said this people sometimes accused me of being too great an optimist."

"However, the political development has shown that my optimism was well-founded. The reparations problem has been solved and evacuation has already begun and will be carried out before June 30. June 30 will thereby become the turning point in Franco-German relations. The last obstacle that stood in the way of reconciliation between Germany and France will be removed."

## Former Chancellor Now Research Prof

Dr. Samuel Avery, former chancellor of the university, is now research professor in chemistry. Dr. Avery, acting as host in the absence of Chancellor Burnett, gave a radio address as part of the university charter day program Feb. 15.

## Van Buren and Billings Visit Chem Department

Mr. Van Buren of the Proctor Gamble company and Dr. Earl Billings of the Eastman Kodak company visited the chemistry department recently, interviewing students who expect to go into industrial work.

## Do Coeds Neck to Date or Date to Neck? This Is the Question Raised After Editorial Comments

The Daily Nebraskan, after the storm of comment stirred up by the editorial contributions on College Women and the article by J. S. appearing in Wednesday's issue, undertook an investigation of its own, endeavoring to get the campus' reaction to the viewpoint of J. S. Opinions vary as to whether the question should be asked from Greeks, and non-Greeks, both men and women, selected at random. Here are the results of approximately twenty such interviews.

## Cornhusker Panels Are Not Yet Filled

"There is still room in the junior and senior panels of the Cornhusker for a few more pictures," said Kenneth Gammill, managing editor of the Cornhusker yesterday. "Will those wishing to use this space please call the Cornhusker office before Friday night as all the panels are to be completed this week."

## THREE HEADLINERS SCHEDULED TO TALK

Von Dewall, Wilson and Miss Read Will Speak This Week End.

## GERMAN AT THE TEMPLE

Aside from the headline attraction of the famous German, Dr. Dewall, who will talk at university convocation in the Temple at 11 o'clock Friday morning, University of Nebraska students will have the opportunity to hear two other prominent speakers this week end. These are Miss Margaret Read, former secretary of the British Student Christian movement, and Frank Wilson, prominent negro Y. M. C. A. worker.

Saturday Miss Margaret Read will conduct an all day institute in the Ellen Smith hall. The meeting will be attended by students of the University of Nebraska, of Wesleyan university, and of Colner college. The institute is open to both men and women, and will commence at 9 o'clock continuing until 3:30, with a break at the noon hour.

## Graduate of Cambridge.

Miss Read is a former secretary of the British Student Christian movement. She has had five years experience in India under the direction of the Y. M. C. A. Miss Read is a graduate of Cambridge university, where she received a masters degree with honors in history.

She is visiting the colleges in the United States under the joint auspices of the Council of Christian Education, and of the Episcopal church. Miss Read will also speak at Miss Adeline Reynolds' English history class, which meets in the Social Science auditorium at 3 o'clock. The class will be open to all who care to attend.

## Connected with Y. M. C. A.

Frank Wilson, national executive secretary of the Y. M. C. A., will speak at 10 o'clock Saturday in Mrs. Hattie Plum Williams' sociology class, which meets in Social Science 105. Anyone who cares to attend this class may do so. "Interracial Relations," will be the subject of Mr. Wilson's talk.

At 8 o'clock he will speak to the interracial commissions of the university Christian associations in Ellen Smith hall. The Cosmopolitan club has been invited to attend this meeting. Mr. Wilson was one of the six delegates who represented the United States at the World Student Christian federation, Mysore, India.

The verbal warfare began with a male jibe at sorority girls who were termed linestringers and ultra-sophisticated creatures with no individuality. It has evolved into a free-for-all debate on college morals. Coeds have fired back heated replies, painting men as the cause of the whole trouble. The men, they contended, were at least as much, and probably more to blame than they were. The male responses placed most of the blame for the objectionable conditions said to exist upon the girls.

## The Entertaining Girl-Friend.

"If a girl can show a man a good time—if she's a reasonably clever conversationalist, or a good dancer, or has a sense of humor, she lowers her rating by necking. She loses a little of the respect of her escort by doing so, and decidedly doesn't need to," one well-known and popular man about the campus says, in summing up the situation.

"If, on the other hand, she can't dance, or carry on a conversation, or be entertaining in some manner, then she'd better neck. And I do not think that necking is really distasteful to girls," he concluded. "I think most of them like it."

This point of view was flatly contradicted by a popular and acknowledgedly clever coed who entered the discussion with this opinion: "I think girls must neck to be popular. That is, to date regularly and most of the time. Men like to date girls who neck, not necessarily promiscuously. The girls who do not neck get dates, too, but fewer of them, and not necessarily better dates."

"The trouble is that most of the girls get started wrong. In high school, perhaps, she establishes a reputation as a girl who will neck at times. . . . If she tries to stop, later on, her dates will stop at the same time."

"Then, too, many a girl comes to college and gets a date" (her

(Continued on Page 4)

## Early Training.

"The trouble is that most of the girls get started wrong. In high school, perhaps, she establishes a reputation as a girl who will neck at times. . . . If she tries to stop, later on, her dates will stop at the same time."

"Then, too, many a girl comes to college and gets a date" (her

(Continued on Page 4)

## FARMERS FAIR BOARD SPONSORS AG MIXER

Informal Dance to Be Held On Ag College Campus Saturday Night.

An Ag mixer will be sponsored by the Farmers Fair board Saturday night, Feb. 22. This informal dance will be held at the student activities building on the agricultural college campus.

The Persians radio artists will provide music for the mixer. Identification cards must be shown at the door to gain admittance.

Three mixers will be sponsored by the fair board during the next several weeks. Proceeds will be used to defray a part of the expenses of the annual fair held in May, according to Ed Janike, member of the board.

## STUDENTS IN IOWA STATE CONSTRUCT NEW TYPE GLIDER

AMES, Ia.—A glider is being constructed here by a group of students interested in aeronautics who last fall organized the Iowa State College Glider Club. The craft will have a wing spread of 38 feet, will weigh about 150 pounds, and will have a minimum flying speed of twenty miles per hour. Use of the new M-84 wing design, recently developed by the United States government, will make the glider nearly fool proof.

## Nebraska Children Will Get Chickens From Ag Hatchery

The poultry husbandry department has somewhat changed the old adage, "a bird in the hand is worth two in the bush." They figure that 100 baby chicks are worth a dozen roosters.

Boys and girls wishing to join the poultry club work can receive one hundred chicks from the hatchery operated at the college of agriculture, or they will return a dozen young cockerels next fall.

Redditt, Claybaugh Direct. The object of the project is to increase the number of purebred poultry flocks in Nebraska. The work is under the direction of J. R. Redditt and J. H. Claybaugh, state extension agents in poultry husbandry.

All of the chicks sent out are of purebred stock. A limit of 300 has been set as the number which any one boy or girl can receive. A club member getting 300 chicks will be expected to turn back thirty-six cockerels.

## ANNUAL CARNIVAL STAGED TONIGHT IN UNI COLISEUM

'N' Club Will Present Varied Program in Third Yearly Cornhusker Affair.

WILL COMMENCE AT 7:30

Everything from Basketball To Dancing Will Be on Evening's Bill.

The third annual Cornhusker Carnival, presented by the "N" club of the university, is scheduled to start at 7:30 o'clock tonight in the coliseum. A varied program, including everything from basketball games to dancing, is on the bill.

The curtain raiser, a basketball game, is to bring together the teams representing Teachers college and the College of Business Administration, in a tilt which will decide the intercollegiate champion of the university. The game is the climax of a series which have been in progress throughout the winter.

## Relays and Novelties.

Several relays and novelty contests have been arranged, in which fraternities will compete against each other. Because of the large number of entries, preliminaries to most of these contests are to be run off starting at 7:30 o'clock.

The horse and rider affair, a wrestling match between contestants mounted on the shoulders of fraternity brothers, will have its preliminary round at this time, as will the barrel boxing matches and the Indian wrestling matches.

## First Round At 7:45.

At 7:45 o'clock, the first round of these same contests will be run off. Starting at 8 o'clock, there will be preliminaries in the business of jousting on barrels, and the second round of the horse and rider contest, barrel boxing, and the Indian wrestle. At the same time, there will be an inter-company relay, a freshman-varsity hurdle race, and a dressing contest in football, baseball and basketball.

An interfraternity obstacle race against time is on the program at 8:15. In this event, racers will carry basketball bats, and as additional obstacles to progress, will walk planks, climb parallel bars, and do other things. At 8:30 the thread and needle relay starts, and the freshmen will compete against the varsity in the high jump and sprints.

## Tumbling At 8:45.

A tumbling act starts at 8:45, as does the barrel relay against time, in which men try to slip through barrels without losing momentum. The shuttle hurdle relay, and the pole vault also take place at this time.

From 9 to 9:30 o'clock, the major portion of the time will be devoted to finals in the various events. During this period, there will be a feature dancing act, some heavy apparatus work, Gregg Waldo's far heralded dive of death from the top of the coliseum, and a gymnastic drill.

## Cornhusker Derby At 9:30.

To climax the program at 9:30 o'clock, comes the Cornhusker Derby, and a specially prepared

(Continued on Page 2)

## CORN COBS START PROM TICKET SALE

Novel Decorative Plan is Arranged, Says Head Of Committee.

Tickets for the Junior-Senior Prom to be held on March 7 at the Lincoln hotel are now on sale and may be obtained from any member of Corn Cobs. Tickets were distributed at a special Cob meeting last night. The price will remain the same as last year, three dollars.

A plan of decoration has been tentatively decided on, it was announced this morning by Don Carlson, general chairman, but, because of a possible change, the details will not be announced until later. Both the main ballroom and the Venetian room will be used and appropriately decorated for the occasion. With an orchestra in each room and a special runway connecting the two, forming the background for decorations and the same scheme of decoration carried out in both rooms, this year's plan will be the most novel ever attempted at any major university function, according to the committee.

Students desiring tickets are asked to get in touch with any member of Corn Cobs. Corn Cobs have an exclusive franchise on the sale of tickets and they cannot be obtained in any other way.

## CAMPUS CALENDAR

Friday, Feb. 21. Methodist Student council, Temple, 12 o'clock. Costume party, young people's department First Christian church at 7:30 p. m.
