## UNDER FALSE COLORS.

AGAIN the Interfraternity council has demonstrated its internal weakness. Probation week programs, fil concealed within most fraternity houses, are being carried on this year as before. The move to do away with probation week last year now appears as a subterfuge to escape the scathing criticism leveled at the fraternity system by the state legislature then in session.

Probation week as recognized by the university and Interfraternity council has been abolished. But in fact probation week goes on as always.

Too much blame should not be placed on the shoulders of the council, however, for it is the fra- can officials hope to cope with the "wolves." ternities themselves which are the offenders. Probation is a matter entirely up to the individual fraternities, out of the hands of the council and of the university. The trouble with fraternities is that they fail to recognize that the Interfraternity council is their own organization, that what each of them does has its effect upon the council and whatever it seeks to do.

When probation week was outlawed by the council, fraternities as a whole and as individuals should have regarded that action as definite and pertaining to each of them. Instead they decided to maintain what they consider their "individuality" and not stick by the will of the council.

Had there been no council legislation abolishing the hell week period last year a continuation of the horseplay practices involved would not be objectionable now. But in a proud manner and under the gust." I cannot recollect ever having read an artiname of progress probation week was outlawed. The people of Nebraska were given to believe their fraternity council sailed.

far only out of luck. As an example he cites the Nebraska-Kansas football game here last fall in which he disallowed a Kansas touchdown following an intercepted pass on the grounds that the Nebraska passer had already been tackled. Discussion over this was rampant for weeks afterward and was finally hushed to grumbling silence only after a chance photograph was published proving that the Nebraska man had been tackled.

Comments Referee Grover in the Star: "Suppose that picture hadn't been taken. The wolves never would have stopped. I've just been fortunate over a long string of years. I've had enough and in one more season I'm through. That's final." . . . . .

There is no apparent manner students were to issue the next work; but how often graduates in which to silence this entirely. Yet it is possible for a referee to so gain the respect of the crowd by apparent honesty and fairness and extreme forcefulness that he may make rulings undeterred by boos and hisses.

Students in general and Nebraska undergraduates in particular have it within their power to vindicate athletic arbiters. By evidencing approval of a referee's decisions and by refrainingg from customary catcalls and "wise cracks," they may influence the rest of the audience to believe in the honesty of the official.

Other than this, what is apparently needed is hard, bullying, inexorable officials with the moral courage to back their decisions to the limit. ## MORE ON MORALS.

COMMENTS on sollege morals continue and the Studeut Pulse column seethes with critical remarks on the subject. Regardless of opinions voiced, the whole discussion leads to a wholesome consideration of a genuine problem in the life of the average university student. The main difficulty in wrangling over this controversial matter is the impossibility of coming to a definite conclusion, the To the editor: inability to generalize with any degree of accuracy.

The greater part of Miss Morton's talk was devoted to this last recent years. Fashions are no longer regarded as superficial and worldly but are closely allied with present day economic and social

Contributing factors to the development of this interesting work include increased wealth and leisure, education, improved communication and transportation facilities, mass production as carried on today, and most important of all, the demand for style among great numbers of people.
