PORTER APPEALS FOR HELP IN WORLD WORK

Student Christian Movement Embraces 35 Nations, 3000 Schools.

David R. Porter, executive secretary of the World's Student Christian movement, with headquarters at Geneva, Switzerland, stated Friday that India and China were asking for Y. M. and Y. W. C. A. secretaries to aid them in the reorganization of their social and religious life.

The organization which Mr. Porter represents has 300,000 members in thirty-five different countries, and in 3,000 schools and colleges. He said that in the United States the work was being carried on by the Y. M. and Y. W. C. A. organizations. Mr. Porter's headquarters are in New York City.

"The movement is spreading across the world," Mr. Porter said. He attended the world conference of the movement which met in Mysore, India, last summer. "We are tackling the problem of world brotherhood and Christian fellowship between all countries," Mr. Porter stated.

He pointed out that many different lines of study were being pursued by the students interested in the movement, dealing with social, moral and religious ideals of students.

Mr. Porter told of the discussion groups with students of the non-Christian faiths, which were conducted at Mysore, to learn the value of their religions worth preserving. "We found that all religions have a great deal of worth in them," he continued, "but that most of them fall down because of the social consequences which result from their teachings."

Call Is Made.

UNIVERSITY WOMEN SUPPORT MEMORIAL

Fund Established in 1916 For Grace Coppock, Y. W. Worker.

The memory of Grace Coppock, '05, has been kept alive on the university campus, and her work continued in China by the memorial fund established in 1916 and financed entirely by the university women under Y. W. C. A. At the death of Miss Coppock in 1921, after sixteen years as Y. W. C. A. secretary in China, she was lauded by the Chinese newspapers as one of the greatest foreign women in China, and one who has made the greatest contribution to the women of China.

Her policies in building up Y. W. work in China, according to Erma Appleby, campus secretary, were first of all, that Chinese women and secretaries should govern the Y. W. C. A. in China. Her next big move was to do away with bound feet and introduce outdoor sports and gymnastics to Chinese women. As a direct result bound feet are now forbidden, and a physical education school for women was founded under the sponsorship of Y. W. C. A.

Grace Coppock saw the approach of industrialism to China and the resulting evils, and immediately began to educate the people by sending out special speakers who emphasized the importance of good working conditions, shorter hours, and the evils of child labor.

In this way she solidified public opinion so that they are now better able to cope with the ever growing question of regulation of industry. Through her extensive activities and her great constructive work, she is remembered as "The best loved woman in China."
