VOL. 1 NO. 8

TUESDAY, JULY 8, 1930.

LINCOLN, NEBRASKA.

DR. EARLE R. HEDRICK WILL GIVE SERIES OF LECTURES ON CAMPUS

California Mathematician to
Speak at Convocation
Wednesday.

Noted Visitor Arranges to
Address Departmental
Gatherings.

DR. HEDRICK'S CALENDAR.

Tuesday.

8 a. m., Teachers college 320, to school superintendents in school administration, on "Use and Abuse of Statistics in Applications to the Study of Educational Data."

10 a. m., Social Science 107, to teachers and principals studying curricula of secondary schools, on "Mathematics in the Secondary School Curriculum."

12 noon, University club luncheon in honor of Dr. Hedrick. All professors invited.

2 p. m., Mechanic Arts 304, to advanced students in mathematics.

Wednesday.

8 a. m., Teachers college, to classes of Prof. A. R. Congdon and H. C. Koch, on "Reality of Mathematical Processes."

10 a. m., Temple theater, general convocation, on "Training of Secondary School Teachers in Mathematics in Europe."

Dr. Earle Raymond Hedrick, professor of mathematics and chairman of the department at the University of California at Los Angeles, will give a series of lectures to general and special audiences on selected topics in secondary and junior college fields of mathematics Tuesday and Wednesday.

His lecture series on this campus will terminate with an address at the second general convocation of the summer session which will be held in the Temple theater at 10 o'clock Wednesday morning. He will speak on "Training of Secondary School Teachers of Mathematics in Europe." Prof. W. C. Brenke, his official faculty host while in Lincoln, will introduce Dr. Hedrick.

Doctor Hedrick is one of the
(Continued on Page 3.)

VAN ROYEN TAKES UP WORK HERE AS BENGTSON LEAVES

Dr. Willem Van Royen, newly elected instructor in geography, will teach the classes of Dr. Nels A. Bengtson, chairman of the department, for the remainder of the summer session. Dr. Bengtson left Lincoln July 4 for New York City where he will be in charge of the department of economic geography in Columbia university's school of business for the next six weeks.

Dr. Van Royen, who came to the United States from Holland a little more than four years ago, has been executive secretary of the Netherlands chamber of commerce in New York City for the past two years. Before that time he taught geography at Clark university.

Engineering College Issues News Letter

The college of engineering this week is mailing out 2,000 copies of the nineteenth annual news letter sent to all of its graduates and former students the world over. The letter, prepared by Dean O. J. Ferguson, reviews the activities of the college of engineering, its various departments, and university life in general.

Bone Found in Sand Pit Shoulder Blade Of Fossil Elephant

A large and peculiarly shaped bone was presented to Prof. E. H. Barbour Thursday morning by Chauncey Krotter of Palisade. The bone was taken from a sandpit near Palisade when it formed an obstruction in the suction pump.

Professor Barbour recognized the bone as the lower part of the shoulder blade of a mammoth, or fossil elephant. Mr. Krotter said the bone was pumped up from a depth of twenty feet.

AYLSWORTH ACCEPTS COMMITTEE SERVICE

Civil Liberties Union Asks
Professor to Help in
National Drive.

Prof. L. E. Aylsworth of the department of political science has accepted invitations of the American Civil Liberties Union to serve on two national committees.

The American Civil Liberties Union, an organization which has as its purpose to assure every citizen of his constitutional rights, is forming these two large national groups to deal with what it regards as unfair exercise of court power.

One of these committees seeks to prohibit issuance of injunctions in labor disputes. The other has as its purpose to prevent a judge from trying a contempt case in which he has been the accuser and in which the act of contempt was not committed in the presence of the court. This, Professor Aylsworth points out, is chiefly applicable to cases where the press has been cited for contempt.

The two committees of the union are organized on a state and national basis with Dr. Alexander Fleisher of New York in charge of an executive group which will have charge of promotion work throughout the country.

Orchestra Hired For Mixer Next Friday Evening

To assure the success of the All-Summer School mixer to be held this Friday evening at the women's gymnasium, the faculty committee in charge has engaged an orchestra to play for dancing. To meet the expense of hiring the orchestra, an admission charge of 10 cents will be made.

The mixer will start promptly at 8:30 o'clock with a program of informal games which will be in charge of Miss Frances Ash. Both rooms of the gymnasium will be opened so that several groups may play games at the same time.

Games will be followed by dancing with music furnished by an orchestra rather than volunteer piano players as was the case at the last mixer. Circle dances, square dances, and grand marches will be used to get the students better acquainted.

The faculty committee, headed by E. W. Lantz, chairman, is expecting an attendance of 400 students which is about the same number as attended the other mixer. The committee will meet today or tomorrow to perfect mixer plans.

SUMMER STUDENTS TAKE TRIP THROUGH RUDGE & GUENZEL'S

A large delegation of university summer students visited the Rudge & Guenzel department store Monday afternoon under the guidance of Prof. Willem Van Royen, departmental instructor in geography. Company representatives conducted the student party through the entire plant.

The next student tour conducted by the department of geography will be through the valley of the Blue river and will leave the Former Museum at 8 o'clock next Saturday morning. Special busses have been chartered for the trip. Students wishing to go should sign on the bulletin board in Teachers college or in the office of the geography department.

JULY 12 DEADLINE NEARS IN FACULTY GOLF TOURNAMENT

Herbert D. Gish, Hal Bowers and R. D. Moritz are co-operating in plans for the faculty men's summer golf tournament. Deadline for entries has been set for July 12. Faculty men are to file the three best course cards made between June 24 and then. From these qualifying scores the handicap rating for the final rounds to begin July 15 will be fixed.

'Uncle Sam's English' Is Manuscript Title

Dr. Wilhelm K. Pfeiler and Miss Elisabeth Wittman of the department of German have finished their manuscript on "Uncle Sam's English."

SUMMER ATTENDANCE WILL SHOW INCREASE

Enrollment Now 2,607 With
Nearly 200 Students
Yet to Register.

That summer school registration this year will show a marked increase over the 1929 figures is practically assured, according to Prof. R. D. Moritz, director of the session, who points out that 2,607 students already have enrolled in Nebraska's vacation school.

While this number is seventy-three less than 1929 total of 2,680, registrations for field trips, the medical college in Omaha, and the social workers' conference to be held here July 28 have not been reported, and the graduate enrollment is not yet complete. Computing registrations on the basis of last year's attendance in departments not yet heard from, the enrollment should approach the 2,800 mark.

The following recapitulation shows the enrollment in the university's thirty-sixth summer session up to the end of the fourth week. The twenty-eight students who registered for the college of medicine's short course are not included.

REGISTRATION BY COLLEGES	
Agriculture	92
Arts and sciences	371
Arts and sciences and fine arts	41
Business administration	92
Dentistry	110
Engineering	115
Fine arts	106
Graduate	486
Law	108

Five	173
Four	107
Three	111
Two	135
One	23
Auditing	7
These only	6
Not given	127

Two End Ph.D. Courses; Three More to Do So

Two graduate students of the University of Nebraska within the past few days have taken examinations in organic chemistry for their Doctor's degree. They are: Edward Franklin Degering, who was examined last Thursday, and Edwin A. Fluevog, who took his final examination Monday.

They with three other graduate students are to receive Ph. D. degrees at the end of summer school. Robert Eugene Eitzelmler and Charles Richard Saunders, who will be examined later this month, are also scheduled to receive Doctor's degrees in organic chemistry. Reginald Percy Gage is to get his Doctor's degree in history and principles of education.

Mr. Degering's Doctor's thesis is on "Catalytic Oxidation of d-Glucose and Related Sugars by Iron Pyrophosphates." His major has been organic chemistry, his minors, bio-chemistry and bacteriology. He received his M. Sc. degree from Nebraska in 1929, his A. B. from Union college in 1924. Prior to that time he was an instructor at the Canadian Junior college and principal of the Oriens high school in Seattle. Examining Mr. Degering were: Professors F. W. Upson, M. J. Blish, Denton, J. Brown, C. S. Hamilton, B. C. Hendricks, G. L. Peltier, J. E. Weaver and D. D. Whitney.

Mr. Fluevog's Doctor's thesis is on "The Solubility of Sugars and Related Compounds." His major was also organic chemistry and his minors, bio-chemistry and zoology. Mr. Fluevog received his M. Sc. degree from the University of Nebraska in 1928, his B. Sc. and A. B. degrees from the University of North Dakota in 1926 and 1928. He has been a teaching fellow in the department of chemistry here since 1926. The committee in charge of his examination was made up of Professors F. W. Upson, M. J. Blish, D. J. Brown, C. S. Hamilton, C. C. Camp, R. A. Lyman, R. H. Wolcott and D. D. Whitney and Associate Professor T. J. Thompson.

P. T. A. COMMENDS NOVOTNY'S COURSE

Local President Hopes It
Will Be Given Again
Next Summer.

Hopes that the university will add E. L. Novotny's parent-teacher association course to its regular summer school curriculum have been expressed by Mrs. Howard Smith, president of the Lincoln Parent-Teacher association.

"The course in parent-teacher work offered by Mr. Novotny was remarkable," Mrs. Smith declared. "I have never heard a person with such complete understanding of the subject nor with such a wonderful background. My only regret was that the course lasted only for two weeks. All of us who heard Mr. Novotny's lectures felt it was entirely too short."

Mr. Novotny's course began June 16, lasted to June 27, had an enrollment of fifty plus a number of auditors. The course was limited to two weeks because summer school officials felt a shorter period would draw a greater enrollment. Mr. Novotny has taught in the university summer session in previous years but never before devoted an entire course to parent-teacher work.

27 Register for Social Institute; Bruno to Teach

Twenty-seven registrations for the Summer Institute of Social Workers, sponsored by the university extension division, to be held from July 28 to August 8, have been received from various parts of the state. Only three more persons may register for the class, which is limited to thirty.

Prof. Frank J. Bruno, head of the George Warren Brown School of Social Work at Washington university in St. Louis, will again teach the course.

One lecture session will be held each day from 8 to 10 in the morning. Evening meetings from 7 to 9 o'clock will be in the form of conferences for the discussion of welfare problems. Afternoon trips to state institutions and welfare agencies in and near Lincoln are being planned.

Registrations which have come in thus far are scattered over the entire state. Sixteen come from Lincoln, two from Omaha, and one from each of the following counties: Madison, Seward, Saline, Platte, Otoe, Antelope, Cedar and Burt. Of the total group, twenty-three are actively engaged in professional or volunteer welfare work in Nebraska.

M'CARTNEY, DEAN ARE NEW FELLOWS IN BIZAD COLLEGE

E. Ray McCartney and Raymond Dean have been appointed fellows in the college of business administration for the coming year. Mr. McCartney will work on his Ph.D. and Mr. Dean on his M. Sc. degree. Both will teach part time.

Mr. McCartney is taking special summer school courses in business administration. He received his A.B. and A.M. degrees from the University of Wisconsin and the past few years has been professor of economics and business administration at Southwestern college, Winfield, Kas.

LUTHERAN STUDENTS WILL HOLD SECOND PICNIC NEXT FRIDAY

The second picnic for Lutheran students this summer will be held Friday, July 11, at the agricultural college campus. Students who desire to attend should meet at the Temple at 5:30 o'clock where cars will be provided to take all to the picnic grounds.

Thirty-six students attended the first Lutheran picnic two weeks ago. More are expected to go on the one this week, according to Rev. H. Erck, student pastor.

Sealock, Hosman Go to Convention

Dean W. E. Sealock of the teachers college, and E. M. Hosman, secretary of the Nebraska State Teachers association, attended the convention of the National Education association at Columbus, O., last week.

MANY MEN WILL GO TO STAG PICNIC AT SEWARD TOMORROW

Between 150 and 200 Are
Expected to Attend;
Tickets 50c.

Cars Will Be Provided for
All; To Leave Teachers
College at 4 p. m.

Between 150 and 200 men are expected to attend the All-Men's Stag picnic at the Seward park tomorrow afternoon and evening. Lowell DeVoe, general chairman, declared Monday afternoon.

The advance ticket sale ends at noon today. Tickets are 50 cents. A number of men, chiefly principals, superintendents, and graduate students have been enlisted by E. Bize, ticket chairman, to canvas every classroom this morning. Men who purchase tickets are given a tag to wear to advertise the picnic.

Cars will leave the Teachers college at 4 o'clock Wednesday afternoon. Transportation will be provided for all, according to William Roselius of Hebron college who is in charge of that committee.

On arrival at the Seward park the men will be divided into several groups and games will be played until shortly after 6 o'clock when the picnic supper will be served. Baseball and volleyball games have been arranged. Tennis courts and a swimming pool offer recreation for those who do not wish to participate in the group sports.

Following the picnic supper, which is in charge of W. R. Colson, all men will join in a song fest to be conducted by Glenn R. Case, director of public school music in the Lincoln schools. The singing will be followed by a social hour in charge of O. H. Bimson and talks by Dr. Henry Lynn and Professor Earle E. Hedrick, guest of honor.

SHARP WINS THIRD PLACE IN BOEING'S AVIATION CONTEST

Charles Willard Sharp, organizer of the University Glider club, first university student to fly the glider, and June graduate of the college of engineering, has been awarded third place in a national essay contest conducted by the Boeing School of Aeronautics.

Third prize gives him the option of taking a mechanic's or pilot's course in the Boeing school. Mr. Sharp has not decided which course he will pursue.

His prize-winning essay was on "Development of Safety Features of Established Air Transport Lines." First prize went to a student at Leland Stanford university, second to one at Mount Union college in Canton, O., and the fourth one at the University of Washington.

Miss Shanafelt Talks Over KMA About Roses

Miss Marjorie Shanafelt, curator of visual education, talked on "The History of Roses" over radio station KMA, Shenandoah, Ia., at 8:30 o'clock Monday night. This talk was a part of a museum lecture she is preparing for next season.

All Candidates for Degrees in August Should Apply Now

Candidates for degrees and certificates who have not previously done so should apply at Administration building, room 9, anytime today or tomorrow. In order to make the necessary arrangements for certificates and degrees to be issued at the close of the nine weeks session August 7, it is imperative that all candidates make application immediately, according to Miss E. Hewitt.

There are no summer commencement exercises and degrees will be issued only at the conclusion of the nine weeks session this summer.
