FRANKFORTER TELLS C. M. C. T. PURPOSE

Physical Fitness, Leadership And Morals Emphasized, He Declares.

The chief aim of the citizens Military Training camps is to teach citizenship thru emphasis on morals, leadership, and physical fitness," according to Prof. C. J. Frankforter of the chemistry department who will soon leave for Fort Leavenworth where he will command a batallion for two weeks at a C. M. T. C. encamp-

"The purpose of these camps is generally misunderstood," Pro-fessor Frankforter said. "A lot of people get the fallacious idea that they are training grounds for killers and professional soldiers."

Four courses are offered dependent on the previous training a man may have had. The first year be takes the basic course, the second year the red camp, the third year the white camp, and the last the blue camp. If he returnes after that he goes as a cadet officer.

Camp life consists of drill in the morning and athletic contests in the afternoon. Men between 17 and 24 years of age are eligible for the basic course. Uniforms and railway fare are furnished by the government.

Professor Frankforter holds the rank of Lieutenant-colonel in C. M. T. C. WOITE.

STUDENTS HAMPERED BY SCHOOL SYSTEM (Continued from Page 1.)

almost militaristic. Training in that country, he declared, is a wholesale weeding out process. The few who emerge come out of training hardened, experienced teachers.

Need More Rigor. "America," Dr. Hedrick declared "must get a little more blood and iron in her educational system for she is becoming weak and effemi-

nate in that field."

He compared the junior college movement in America with that in Europe, pointing out that the equivalent of high school training there includes courses taught in American junior colleges.

"Why we permit instructors to teach subjects about which they know little or nothing in our secondary schools." he declared.

endary schools," he declared. "American educators should study schools of Germany, France and England that they might equal their schools in efficiency and advancement."

Dr. Hedrick was the guest of honor at the All-Men's Stag picnic at Seward Wednesday evening and left Lincoln Thursday morning.

NOSING FOR NEWS With George Dunn.

IOWA STATE college, Ames, has planned in addition to the regular classes which start at 7 o'clock each morning several extra-curricular activities. These include a music appreciation class every Tuesday night, the "Yale Chronicles" under the direction of the history and visual instruction departments each Wednesday evening, a concert by the summer school band each Friday evening and vespers each Sunday evening with the churches co-operaing.

BEQUESTS received by Colum-D bia university in the city of New York total \$1,292,042. Of this amount \$675,000 for the support of the work of the Council for Research in the Social Sciences was donated by the Rockefeller Foun-dation and Edward S. Harkness

gave \$600,000 the income from which is to be used for the benefit of the department of surgery.

totalling Three contributions \$7,539.34 were made by the Social Science Research Council. Of this amount \$1,592.82 is for a study of the trends of recent corporate development; \$1,500 for investigation of the racial and social dif-ferences in mental ability and \$4,056.52 for a study of the administration of labor laws.

OLD style numbers in which some of the figures drop below the line of print have an advantage over modern numerals and should be used for speedier and more accurate reading of textbook material that contains htatistical information, it was revealed in a study recently made by Miles A. Tinker, assistant pro-fessor of psychology, at the Uni-versity of Minnesota.

"Because the ease as well as the speed and accuracy of reading should be considered in the hygiene of reading, it is recommended that old style numerals be employed in any printing where such numerals are grouped in a series," he said.

The particular old-style numerals referred to are 3, 4, 5, 7 and 9.

HUSBAND and wife are A among the thirty-three who Warren W. Leonard, Make Strong.

Warren H. Leonard, B. Sc., Coloado A. & M. '26, M.Sc. in agronomy.

POOL WILL GO TO EUROPE IN AUGUST

Dr. Raymond J. Pool, chairman of the department of botany, now conducting a six-weeks field trip in Rocky Mountain national park, will return to Lincoln at the close of the term for a few days before leaving for the International Botany Congress to be held at Cambridge, England, next month. He will also spend several weeks in continental Europe before returning to the university for the winter term.

F. G. COLLINS PLANS TRIP TO MINNESOTA

F. G. Collins, assistant curator of the museum, will leave Lincoln Saturday for a trip through Minnesota. He and Mrs. Collins, who will accompany him, will visit their son, O. C. Collins, university mathematics instructor, at Pelican Lake before proceeding northward to Duluth and Isle Royal in Lake Superior.

BARBOUR MAY BUY SHULL COLLECTION

Dr. E. H. Barbour, chairman of the department of geology, went to Verdon, Neb., last week to inspect a miscellaneous museum collection offered for sale by Rev. G. L. Shull. No decision was made

concerning its purchase. The collection consists of rocks, minerals, and fossils. Dr. Barbour said it was an excellent small collection.
