LINCOLN, NEBRASKA.

THOMPSON THINKS SUMMER COUNCIL IS IMPRACTICAL

Student Affairs Dean Says Very Few Would Be Interested.

Opinion of Undergraduates To Be Sought by Nebraskan.

A student council for summer students would not be able to get the interests of those attending vacation school, is the judgment of Dr. T. J. Thompson, dean of student affairs, who has just returned from his vacation.

"I am in favor of all the student government that is possible to have," he stated, "but I don't think the students who attend summer school would care about such a thing."

Augmenting his opinion on the matter, Dr. Thompson gave his general idea concerning student government. This phase of student life, he believes, is missing its greatest contribution to the educational world by fostering such activities that are extra curricular instead of co-ordinating some curricular and intellectual factors as well.

Debating Suggested.

"A student council, in my mind," the dean intimated, "should not lay so much stress on the activities that go on outside of the classroom but should take up ways and means of getting more students interested in intellectual attainments.

"For instance, there could be

TOUR OF EUROPEAN NATIONS ATTRACTS HUSKER PROFESSOR

Dr. W. C. Brenke, chairman of the department of mathematics, will sail for Europe shortly after the end of the six weeks summer session.

After touring France and Italy, visiting the larger universities and observatories of those countries Dr. Brenke will attend the meeting of the German Mathematical society which meets in Koenigsberg, Prussia from Sept. 4 to 6. Dr. Brenke is a life member of the organization.

Sept. 10 Dr. Brenke will sail from Bremen, Germany on the Europa for the United States. He expects to arrive in Lincoln about Sept. 22.

BEASTS AND BIRDS ADDED TO MUSEUM

The university museum, located in Morrill hall, has recently purchased a collection of about seventy-five stuffed animals and mounted birds. The purchase was made through a local costume shop, and as soon as the specimens are cleaned and made presentable they will be placed in display cases.

Professor, Druggist

Visit Campus Haunts

W. A. Prout, college of pharmacy '23, M. A. '24, visited last week on the campus. He has just completed a year's work in pharmaceutical research at the University of Virginia, and will be on the staff of the college of pharmacy of the University of Georgia during the coming year. Paul McKenzie, A. B. '29, college of pharmacy, was also a visitor last week.

Moritz Asks Golfers

To Turn in Scores

Qualifying score cards for the faculty men's-graduate student golf tournament should be turned in at the office of R. D. Moritz before Wednesday, July 23, as drawings will be made on that date. New entries should turn in their three best score cards as soon as possible in order that championship play may get under way.

Ag Instructors Hie Away From Here in Summer

Because most of the work during summer months at the University of Nebraska agricultural college is done outside of the classroom, practically one-third of the regular faculty staff is away on vacations, according to the extension publicity bureau.

There are two professors, however, who are out of the city, but not away on vacations. They are teaching summer courses in other states.

Prof. F. E. Mussehl, chairman of the department of poultry husbandry, is at the Colorado Agricultural college, Fort Collins, for the summer, and Prof. H. E. Bradford, chairman of the department of vocational education, is at the Kansas State Agricultural college, Manhattan.

Summer work at Nebraska, the extension officers say, is on experiments which are to be printed in bulletin form and offered to the farmers for scientific help and suggestion.

AUG. 8 IS NEW DATE FOR GEOGRAPHY TRIP

Sightseers Will Not Start Out Today; Have Until Friday to File.

The ambitious student who had his grip all packed, ready to start today on the big western jaunt sponsored by the University of Nebraska geography department, will either have to unpack his clothes or let them get wrinkled.

Now comes announcement from Prof. Leland S. Paine, regular member of the faculty at Texas A. & M., who is teaching here this summer and who is conducting the bus tour, that the dates have been moved ahead — beginning Aug. 8 and continuing until Aug. 28 instead of beginning July 22 and terminating Aug. 10.

"If any are interested in this trip, for three hours college credit, see Professor Paine, room 2, Former Museum building, before 5 p. m., Friday, July 18," reads an announcement from the director of the summer session.

The twenty day tour through the Rocky mountains will take students over 2,800 miles, Professor Paine declares. And it will be more than a vacation, he vouches, as students will study economic conditions, climate and geology of the territory they plan to cover.

There will be several hours of leisure every day, though, the professor assures his fellow tourists. The average daily mileage will be less than 150, giving plenty of time for fun and recreation.

WORKS OF FAMOUS ARTISTS DISPLAYED

Unique Collection Is Shown At Morrill Museum During July.

Facsimile drawings by old masters such as Michaelangelo, Raphael, Da Vinci and Rembrandt comprise the Albertina collection now on display in gallery B, second floor of Morrill hall.

The collection was sent to the fine arts department by the American Federation of Arts and will be exhibited during the month of July.

The Albertina group, containing works from Italian, Flemish, Dutch, German and French schools of art, is replacing the student collection which formerly hung on the walls of the gallery.

CHURCH GROUP TO HOLD FINAL PICNIC FRIDAY AFTERNOON

The last all-Lutheran student picnic of the summer session is set for Friday, July 25, according to an announcement made Monday by Rev. H. Erck, student pastor.

Students who plan to attend the picnic, which will be held at the Auto club are to gather at the Temple at 5:30, Friday. The same committee as appointed for previous Lutheran picnics will function.

Prefer Nebraskans

L.S. DEVOE, GENEVA, NEBR.
E.L. WEAVER, SCOTTSBLUFF, NEBR.

These men always give preference to aspirants for teaching positions endorsed by the University of Nebraska placement bureau.

SCHOOLMEN PRAISE PLACEMENT BUREAU

Outstate Educators Employ Only N. U. Graduates As Teachers.

Two Nebraska schoolmen from almost opposite corners of the state have like opinions on the University of Nebraska teachers college placement bureau. They are Superintendent E. L. Weaver, Scottsbluff, and Superintendent Lowell S. Devoe, Geneva.

For the past two years, Scottsbluff, 430 miles from Lincoln has employed only University of Nebraska teachers to fill all high school, junior high school and junior college vacancies, according to Superintendent Weaver.

The superintendent himself a Nebraska graduate speaks highly of the university placement service.

FIRST ALL-SUMMER PICNIC IS SUCCESS

Affair Attended by 700 Promises to Be Tradition.

A new tradition is in the making for the University of Nebraska!

The unqualified success of the first all-student picnic, held last Friday at Capitol Beach and attended by 700 students, carries an assurance that possibly the affair will be made an annual event.

"A very representative crowd of students attended this picnic," says Prof. E. W. Lantz, "and from appearances everyone enjoyed themselves. The variety of amusements and recreational features which were offered enabled each student to do the thing which he or she enjoyed the most. There have been so many favorable comments on the picnic that we hope to have annual repetitions of it."

The program, which included water sports, games, dancing and a free show, was featured by a get-together meal at 6:15 p. m.

Nebraskans May Not Have Eastern Status But They Work Hard

"Nebraska students are harder workers and more earnest, though they lack the background and intellectual independence that characterizes the eastern students," declared James Woodward, instructor in sociology at the University of Pennsylvania, who is teaching here this summer.

Mr. Woodward finds the middle west to his liking. Even the heat, he says, is not so humid as around Philadelphia. The people here he finds are of a more friendly disposition, more open and wholesome.

He is at present at work on a scientific methodology for the social sciences. The biggest problem in his field today he believes is personality adjustment. This, he says, can be solved only by a synthesis of anthropology, psychology, psychoanalysis, and sociology.

Guest Prof Sees Waning Light in Visual Education

Educational movies are not what they have been cracked up to be, in the opinion of Dr. Thomas Milton Carter, visiting instructor in Nebraska's summer session from Albion college, Mich.

The popularity of visual education in the schools has waned, he declared, partly because its importance was overestimated and partly because it has not proved adaptable to a number of subjects.

Of course, certain subjects lend themselves well to movie representation, Dr. Carter said. But it is necessary to use only relevant subjects and relevant material so that the point at issue may be clarified through the movie and not blurred by it.

And then he gives an example to illustrate his point:

"Supposing you are showing a movie to illustrate coal mining. You want to show the transportation of the coal. You cast a picture of a locomotive pulling a train loaded with coal across the pic-

PHI DELTA KAPPAS SCHEDULE MEETINGS

Sessions Today, Thursday, Planned for Current Weeks' Doings.

With just a few weeks left of the 1930 summer session, Phi Delta Kappa, men's educational fraternity, is planning several meetings, attendance to which will be restricted to present members and newly elected members.

At 12 o'clock noon today the fraternity will gather in room 203, Temple building, for a special fifteen minute session to hear the report of the membership committee.

A dinner meeting is on deck for Thursday, July 24, 6:15 p. m., at the Y. M. C. A., when Dr. Thomas M. Carter, chairman of the department of education, Albion college, Albion, Mich., will speak and new candidates for membership will be considered.

The last meeting of the group will be held Thursday, July 31. Members and candidates for membership will assemble at 4 p. m. on that day for a picnic. The members taken into the fraternity since June, 1929, will be responsible for the arrangements for this event.

LAW BULLETIN WILL SOON BE PUBLISHED

University Professor Gives Contents of State Legal Paper.

The July issue of the Nebraska Law Bulletin is nearing completion and will be ready for distribution in the near future, according to Maurice H. Merrill, professor of law at the University of Nebraska, who is the editor.

The current issue contains all the accounts of the meetings of the state bar association, which were held in December, 1929.

The lectures of Anan Raymond, president of the association, and Frank J. Loesh of Chicago, who has distinguished himself in the Chicago crime war, are included in this issue.

Recent Graduate Gets

Navy Medical Position

Dr. George W. Wright, Lincoln, a graduate of the 1930 class at the University of Nebraska medical college, has received a commission that has taken him to the Mare island navy yard in California. He will be a member of the navy medical corps.

Y. W. Secretary Goes to Wisconsin Lakes

Miss Irma Appleby, who has been engaged as secretary of the Y. W. C. A. on the campus during the past year, is attending the Y. W. camp at Lake Geneva, Wis., this summer.

GREEKS PRESAGE SANER PLEDGING FOR NEXT SEASON

Interfraternity Councilmen Agree on Fourteen New Rules.

'There'll Be Enforcement,' Says Chairman of Rush Group.

Different days are ahead for Nebraska fraternities and their rushing programs.

The interfraternity council has decreed that no shady tactics can be employed by Greek letter societies this fall when the scramble for filling the houses with freshmen from high school begins.

Fourteen rules in all have been made up by the rushing committee appointed last spring, headed by Wray Russell, McCook, and in the words of the chairman, "there will be enforcement of the rules this year and strict enforcement."

"Penalties for infraction," he continued, "will be adjudicated by the interfraternity council judiciary committee, which will receive all complaints and investigate all violation of the rules. The punishment for violation will range from a fine to suspension of rushing privileges."

Here are the rules:

1. No rushee may have more than one date with one fraternity for the first two days, which time shall be set aside for rushing only. No rushee shall display in any way a pledge button for the first two days. On the third day, (Tuesday), the rushee may designate his choice by displaying his button.

2. The responsibility for keeping the dates for the first two days will be centered upon the rushee whether pledged or unpledged.

3. Violation of these rules by the rushee will be punished by the denial of the right to pledge for one semester.

4. Should the rushee care to break any

SKINNER IS ORDERED TO CAMP PERRY, OHIO

Army Officer on Leave From Duty Gets Called Back Ahead of Time.

Capt. Russell Skinner, former member of the University of Nebraska military department, has been ordered to report to Camp Perry, O., where he will be one of the officers for the supervision of the national rifle matches.

The captain had been granted a three months leave of absence from military duty of any kind but will have to report one month earlier than he expected because of recent orders from the federal war department.

From Ohio, Captain Skinner will go to Vancouver, Canada, where where he will be located in the future. His successor, Capt. Walter Scott, of Fort Benning, Ga., has arrived in Lincoln and has assumed his four year service with the university department of military science.

Other Nebraska men who have been assigned to report to Camp Perry August 15 include Captains Lyon, Lahman, Baumeister and Krissy.

GRADUATE GETS PURDUE AWARD

Robert H. Westbrook, Dunbar, who received his master's degree at the University of Nebraska this spring, has secured a fellowship at Purdue university, where he will work toward his doctor of philosophy degree.

Students Have Many Minor Ailments This Term, Doctors Aver

The student health service has been busier this summer than during any other summer session of its existence.

A variety of ailments including boils, infections and stomach disorders have been given attention.

The unusual rush has been attributed to the intense heat, and to the advertisement that the service has been given this year, according to physicians in charge.
