

SOCIETY

Tiny pages dressed in satin and blowing golden trumpets, will announce the entrance of the pigge, lying on a huge platter on the shoulders of four negroes dressed in white, at the annual traditional pigge dinner of Sigma Nu at the chapter house Saturday evening. The pigge with an apple in its mouth and garnished with parsley will be placed on a table in the center of the room, behind which Vernus Pace of Chicago, Ill., former chef at the Sigma Nu house, who for the past twenty years has returned to serve the pigge dinner, will attend.

As the active chapter rises, Gene Taylor, president, will step forward and pierce the pigge with a carving knife after due ceremony. The chef will carve the pigge along with several baked meats.

White, Gold and Black.
White roses in black vases on gold doilies will decorate the tables. A similar color scheme of white, gold and black will be used throughout the rooms. Secrecy surrounds the crested favors which will be presented to each guest of the chapter members.

About 100 guests will be seated at 6 o'clock. During the dinner Leon Larimer and his orchestra, assisted by Abe Hill, will play behind a screen of palms and ferns. Marjorie Whitney of Lincoln will present a clever song and dance number between courses.

Mrs. Kemmer to Sing.
Following the dinner the guests will retire to the chapter room for coffee, after which they will return to the drawing room to dance. During the intermission Harriett Cruise Kemmer, accompanied by Harold Turner, will sing several new numbers.

Sponsors for the affair will be Dean and Mrs. J. E. LeRossignol, Mr. and Mrs. Arthur A. Dobson, Mrs. Anna Hood and Mrs. Clara Skiles Prouty. Alumni who will return for the affair are John Trout, Omaha; Herbert Morrison, Oberlin, Kas.; Marr McGaffin, Lincoln. Burton Bridges is in charge of arrangements for the dinner.

Gamma Phi Will Give Christmas Tea Dance.

Gamma Phi Beta's annual Christmas tea dance will be held Saturday afternoon at the chapter house. The Christmas idea will be carried out in the decorations. Sponsors for the party will be Prof. and Mrs. R. L. Reynolds, Miss Mary Fischer and Mrs. F. Beedle. Music for the afternoon will be furnished by the High Hats.

Delta Gamma to Wed On New Year's Day.

Of interest to the university are the plans made by Miss Elizabeth Adams, former student and member of Delta Gamma, for her marriage to Ferris Borden, of Venice, Calif., son of Mr. and Mrs. A. W. Borden of Hastings, which will take place on New Year's afternoon at 4 o'clock at the home of the bride's parents, Mr. and Mrs. E. E. Adams of Omaha. Miss Betty Harrison of Lincoln will be the maid of honor and the bridesmaids will be Misses Katherine Pickett of Wahoo, Jane Allen Scott of Beatrice, Dorothy Ramsey and Betty Haines of Omaha. After their marriage Mr. and Mrs. Borden will reside on the western coast. Mr. Borden is a graduate engineer of the university and is affiliated with Beta Theta Pi.

D. S. L. Mothers' Club Presents Gift to Actives.

Seventeen members of the Delta Sigma Lambda Mothers' club met Tuesday afternoon at the chapter house and discussed plans for the coming year. Refreshments were served by Mrs. H. C. M. Burgess, house mother, and the mothers' club presented the chapter with a set of silver as a Christmas gift.

Fraternity Colors Decorate Delta Sigma Phi Dinner.

and white in keeping with the occasion decorated the room. Ralph Fitzsimons gave the after dinner talk concerning the founding and progress of the organization. Among the guests present were Dr. Rufus Lyman, Prof. Joseph B. Burt and Prof. H. Decker.

Fourteen guests were seated at the Theta Sigma Phi dinner Thursday evening at the University club.

Rev. W. C. Fawell, Methodist university pastor, and family, were dinner guests at the D. S. L. house Wednesday evening.

Mardale Rucker, Gamma Phi Beta, Omaha, will be a guest at the chapter house this week end.

SIGMA DELTA CHI BEGINS WORK ON HUMOR MAGAZINE

(Continued from Page 1.)

in colleges and universities, and the divergent view of leaders as to the proper course of action.

According to Professor Walker the field rather divides on the question as to whether the journalistic training shall be highly technical or whether the college days shall be devoted to general education. Between these fields is a medium, taking the views of both extreme parties.

Training a New Thing.
Professor Walker also pointed out the fact that journalism training in schools is a relatively recent development having been introduced within the past quarter century. Missouri and Wisconsin universities vie for the distinction of being first in this field, according to Professor Walker.

In discussing the organization of the various journalistic groups, he stated that perhaps Sigma Delta Chi and other collegiate societies are the most comprehensive in their scope, as their members are in every field of journalistic effort.

William T. McCleery, president of Sigma Delta Chi, gave a report on the activities of the national convention recently held in Columbus, Ohio. He outlined the outstanding points brought out by the various speakers in regard to the fields of journalism, both in the metropolitan and country newspaper work.

A business meeting of the organization will be held next Monday evening in The Daily Nebraskan office to consider work on the first issue of the Awgwan. At that time, the advisory committee, consisting of Robb, Gomom and McCleery will make its report.

BAPTIST LEADER TO ADDRESS STUDENTS

Dr. Allyn K. Foster Will Speak at Several Meetings.

Dr. Allyn K. Foster, traveling secretary of the Baptist board of education, will give an address Friday night at 8 o'clock in Baptist student house 1440 Q street in charge of Mary Douglas. A party will proceed the lecture. The house will be decorated in keeping with the holiday season by a committee headed by John Carter. Carol singing will form a part of the evening's entertainment.

Saturday evening at 7:30, Dr. Foster will lead a discussion group meeting in the Baptist student house, Sunday at 11 o'clock he will deliver a sermon at the First Baptist, preceding which he will speak before young people's class at the Second Baptist church. At noon he will address the university class at First Baptist church.

Plan Cradle Service.
A Christmas lighting candle service will be held at 5 o'clock at the First Baptist church. Dr. Foster will give a brief address at this meeting. At 6:15 a social hour will be held where opportunity will be given students to meet Dr. Foster informally. The main address at 7 o'clock at First Baptist church will be given by Dr. Foster.

Monday noon Dr. Foster will speak to students and faculty members at a luncheon at the Chamber of Commerce. All students are invited to attend this meeting.

Dr. Foster is the author of "The Coming Revival of Religion," which is regarded to be one of the more outstanding books recently published on religious life. He is a native of Baltimore. After taking a special course in Johns Hopkins university, he studied at the Southern Baptist Theological seminary from which he received his Th. M. degree in 1894.

Attended Yale.

He took his master from Yale in 1901. Dr. Foster also holds an honorary D. D. degree from Brown university. Ordained to the Baptist ministry in 1894, he has held pastorates at the Olivet Baptist church, New Haven, Conn. (1895-1901), at the First Baptist church, Worcester, Mass. (1904-1916) and at the Washington Avenue Baptist church, Brooklyn, (1916-1917).

In 1901 he founded the Foster school and continued as headmaster from 1901 to 1907. In the World war he served as a Y. M. C. A. secretary in the United States, France and Germany. Since 1920 he has been student secretary of the board of education of the Northern Baptist convention and has visited colleges in every state in the union. He is a trustee of Newton Theological institution and is the author of "Cartoons in Character."

BURNETT THINKS INVESTMENT IN DORMS IS WISE

(Continued from Page 1.)

building. The chancellor said that the charges made the girls would include both board and room. He stated that he did not expect the total expense for room and board would exceed \$40 or \$45 per month.

As yet, he said, no plan for deducting the board bills of students who frequently go home for week

we want to please you we will gladly prepare your favorite dish tasty pastry shop hotel cornhusker

ends has been made, but some system will probably be worked out later.

The first unit of the building program will house between 350 and 380 girls. The chancellor said the administration would go slow at first on the dormitory program and if the initial structure proved by experience to be successful the building program would be expanded later. He said there was at present no proposal for building dormitories for men.

Equal to Sorority Houses.

The proposed building, Chancellor Burnett said, would be as tully attractive as the newer sorority houses on the campus. The girls living in the dorm would be governed by the same rules which are applied to sorority houses. One matron will be employed. She will be assisted by an upperclass woman on each floor who will serve as a proctor.

The building will be three stories high, fireproof and modern in every respect. It will be located on the east side of Sixteenth street about where the Sigma Chi fraternity house now stands. The building will have an east and west wing connected by a central unit. The entire first floor will be given over to dining rooms, matrons' quarters, administrative offices, parlors, library and the like.

Men will not be allowed to go above the first floor although they may be entertained in the basement. The chancellor explained that due to the sloping character of the lots the east end of the basement would be entirely above the ground. Elaborate plans have been drawn for an auditorium and recreation rooms where the girls may hold parties.

Girls to Live Upstairs.
The rooms for the girls will be located on the second and third floors. A kitchenette and bath-tub, but that the poorer ones there will be a piece in the basement where the girls will be permitted to do washing. A toilet will be located in each room, the chancellor said. The girls' rooms will be twelve and a half by sixteen feet. Two girls will occupy a room. One difference between the proposed dormitory and the sorority houses which the chancellor pointed out was that the girls would sleep in their rooms and not on a sleeping porch such as many sororities have.

The girls will not be expected to keep their own rooms in order. The chancellor said maids would be hired for that purpose. He did say, however, that some girls who wished to earn some money to finance their educations might be employed to do some of the lighter work.

Needed Badly.
Chancellor Burnett said that a survey made two years ago re-

vealed that dormitories were badly needed to provide housing facilities. He admitted that although many rooms were vacant in rooming houses and that the present cottage dormitories were not filled to capacity, many rooms now occupied were inadequate as desirable living quarters. He said that the better girls' rooming houses would not be affected by the dormitory, but that the poorer ones would be discontinued.

The chancellor stated that many people who operated rooming houses would not spend any money on their upkeep since they eventually planned to sell them to the university and consequently many of the older houses were in poor repair.

According to the chancellor the university experienced difficulty at present in dealing with unorganized students. He said the only way at present he could reach the bars was to call on them individually. On the other hand, the chancellor said fraternity houses could be very easily communicated with, through the chapter house presidents.

At present, the university has no way of protecting its students and looking after their welfare to as great an extent as it would like to do, according to the chancellor. He said that it was especially desirable that the university extend some protection to the freshman women.

COUSINS SPEAKS ON EDUCATION FOR LIBERATION

(Continued from Page 1.)
was being given out. In Dr. Cousins' words, "We have scrapped every teaching of the Lord Christ to which the people of the western world give lip service—mostly lip service."
Under the present system of education, believes Dr. Cousins, science is stressed at the expense

of philosophy. Science, he says, is the field of knowledge which looks outside the individual to his environment. Philosophy looks inward at himself. The "I" is all important and more of our study should be directed at finding out about ourselves, he declares.

Fine Art Deserving.

Another field which deserves a more prominent place in the curriculum is fine art, he asserts. "Creative activity is the mother tongue of the soul within us and is being starved in education. Because of lack of a chance for self expression—creative activity—children are driven to abnormalities in the attempt at creative activity and juvenile delinquents result. America is consuming her genius in curing juvenile delinquencies when common sense dictates that the activity be directed toward prevention."

Dr. Cousins has taught in Indian universities for thirteen years and based many of his ideas of a more perfect educational system on his experience there.

The Irish educator is recognized along with George Russell, A.E., who addressed university students at a convocation in November, as one of the men responsible for the revival of Irish culture.
