Editorial Fight Of 1911 Ends in Boycotting Cabs

A vigorous editorial campaign waged by the editor of The Daily Nebraskan, C. J. Lord, at the present time vice president of the New York Telephone company, caused the Phi Delta Thetas in 1911 to publicly announce that they were going to forego the use of cabs in taking the dates to formals.

"NO CABS FOR PHI DELTA" was the headline in The Daily Nebraskan on Thursday, Jan. 12, 1911, halting the success of the anti-cab campaign. One of the heads was "Fraternity Vote to Walk or Take Street Car Publicly in Social Affairs is the Latest Student Move."

The story in The Daily Nebraskan concerning the great "humanitarian" move of time follows: "Marks New Epoch." "For the first time in many years an organization of state university students is to give a formal dance without the use of cabs in going to and from the dance hall. The affair is expected to mark the beginning of a new epoch in university school life, since it is considered almost certain other organizations will follow the newly established custom.

"Phi Delta Theta is the fraternity which has decided to do away with the cabs. The fraternity gives its biennial party next Friday evening, this being the first of the series of university formals. Members of the active chapter, realizing the strategic position in which the organization is placed and the influence it may wield by cutting out cabs at the first formal of the season, this week voted to walk to the dance or to ride on the street cars. The only exception permitted under the resolution passed by the fraternity is inclement weather of such severity as to make the cabs a necessary comfort rather than a more or less useless luxury.

Boycott is General. "While the action of the fraternity binds only its own mem-

bers, it is expected that other organizations will take similar action as the occasion demands. Six of the twelve fraternities each give an annual formal. In addition to these there are two class formals, the senior and the junior proms. All of these are dress suit functions and at all it has been customary in past years to utilize cabs. Now it is believed that the cabs will be discontinued almost entirely, being perhaps continued in use by a few alumni and undergraduates who will refuse to be bound by the general custom.

"The discontinuance of the cabs is but one step in the general movement for greater social simplicity which has been in progress at the university for the past two years. One of the steps taken last year was the action of the men's fraternities in deciding to give biennial instead of annual formals. The girls sororities refused to join in a similar agreement, but nevertheless materially simplified their functions.

Regulated Menus. From time to time the girls have established strict limitations on the character of entertainments, including regulations as to the number of edibles to be served their guests.

"This year's anti-cabo agitation was started by a rumor that Lincoln hackmen were planning to boost the charge for cab service. Despite denials on the cab owners' part, the fraternity men aroused themselves and since that time the

agitation has continued with considerable warmth. "The situation finally simmered down to a point where everyone thought that the cabs should be abandoned but where each group of individuals was afraid to take the initial step. For this reason it seemed that the movement might fail, but the action of Phi Delta Theta seems now to have opened the way for the actual practice of the theories which the cab 'insurgents' have been supporting."

Doane college, Lincoln high school and alumni, Colorado College, Grinnell College, University of Minnesota, University of Missouri, Haskell Indians, University of Kansas, Knox College, Creighton, and Northwestern football teams played Nebraska in 1909. All were defeated.
