Tire a Hall!---University Realtors.

"Three bucks a dance, that's what they pay me. . ."

Education is a fine, uplifting proposition, but we feel sorry for the Nebraska collegian who must go through college with one hand on his billfold and a pistol in the other hand to keep from being "exploited." This term has been used by The Nebraskan and the administration several times during this semester, with the inference that Lincoln firms should stop trying to drain the collegiate purse. Now, however, the scramble for student gold has been dragged into the campus itself.

Paul Whiteman, famous "king of jazz." is playing in the university coliseum next week for a Junior league dance. We have no criticism of the league itself, nor of its motives in staging a charity dance. Since charity begins at home, however, we are wondering if the university is giving its financially depressed students a fair deal in allowing this Lincoln organization to use its coliseum.

Does not the university frown upon subscription dances? When students attempt to promote such dances, they are quickly silenced, vet the Junior league is allowed to bring an expensive dance to the campus itself. Three dollars may be a fair price for tickets, but Nebraskans are not rolling in wealth. And the boy who has a date for that particular Friday is apt to be "stuck."

. . .

Another angle to the coliseum-renting problem is drawn out by an understanding of circumstances attending King Whiteman's momentous appearance on the campus. Although official announcement was never made, the Interfraternity council nearly completed a plan to bring the Whiteman orchestra to Lincoln for the annual Interfraternity ball. By dint of strenuous efforts, the council secured necessary permission from the faculty committee and made a contract with the band, only to find that the arrangements were impossible.

The university had rented its coliseum to the Nebraska hardware dealers for their annual conclave! Since floor space had been subrented to hardware men for their pot and pan

MORNING MAIL

TO THE EDITOR: A Leg to Stand On.

Admitting that enforced military drill is ineffective in preparing university students for war, Prof. H. F. C. (Lieut. Col. 306th Infantry. U. S. Army Reserves) justifies the training because he believes it teaches the young men to be courteous. As one who is fully familiar with all the phases of military training he defends it on no other grounds.

I should like to ask the colonel if he does TO THE EDITOR: ing polished gentlemen out of raw recruits? Army Reserves, with the message that com- as hat-doffing, and as to chivalry as such, that Would not university men become more adept pulsory military training courses inculcate in is out of the question. But it seems pretty in the art of social graces if they were herded into Ellen Smith hall and taught to balance tea cups on their knees? Not that I advocate such a thing, but could not such a process attain the desired end in a more efficient and effective measure? It also would have none of the undesirable effects of militarism. Military training at Nebraska fails to accomplish the desired result of making gentle men out of its students. The editor has already during the break between hours, which centers \$10,000 Left of Pledges The dirt will be hauled directly complished during the summer and largely on the women who pass by. In addition I would like to mention the incident which occurred with the petition proposing the abolition of enforced drill passed around in the companies of our local regiment. A cadet offieer got hold of it and tore it up: a fine example of courtesy, In the May 23 issue of The Daily Nebraskan ing the Stadium." into a bitter opponent. Just because 1 had my should be removed. This will do away with insolent boisheviks such as myself who mar the smooth running of the campus army,

I will graduate this June. As I look back over the courses in this university that have been of intrinsic value to me, I hang my head when it comes to military science. This compulsory drill brought out all my bad characteristics in a big way. Therefore, 1 do not hesitate to condemn military science in the forced form as an evil in this or any other university's curriculum. May I offer my congratulations to a wise Student council for advocating its G. L. K. abolishment.

We Don't Think So.

not our experience. In fact, if personalities can be permitted, quite the reverse was true. Among the chief benefits the writer derived from the military science course was the ability to "chaw" tobacco neatly, and spit with dispatch. That, in fact, is about the only thing learned in many dreary hours. Now let's see, Is the ability to masticate Masterpiece in any way related to "courtesy, precision, and orderliness ?" Maybe, but we don't think so.

Maybe the writer learned another thing, and if he did, that was to sneak out at any and every occasion. The course represented nothing but a waste of time, so why not? Who wouldn't rather sleep on a fraternity house davenport than on a hard chair while some sergeant who murdered the king's English did his best to keep the class awake through a dreary lec-college graduates or were going to ture? And where, oh where, is the "courtesy, precision, and orderliness" in that?

displays, it was considered a physical impossibility for the Interfraternity council to hive the hall. So the Greeks used the telephone wires again to cancel their engagement with ising Whiteman.

Just how the Junior league managed to talk the Hardware association out of its convention quarters is beyond our understanding, but the facts remain. The coliseum should never have been rented to hardware dealers, the Junior league or any other organization of that nature.

. . . .

This is not the first time that students have been inconvenienced in regard to the coliseum. On the night before its Thanksgiving morning revue this year the Kosmet Klub scheduled a dress rehearsal for the coliseum stage. After the floor space had been properly engaged, it was discovered that the Lincoln firemen had rented the coliseum for their annual dance The Kosmet Klub had a few censored words with the fire fighters and retired to the base ment, which may be a passable gymnasium, but will never be a decent site for dress re hearsals.

Lincoln is probably a fine town, but the university should not play host to the Greater Lincolu Exposition by renting its coliseum for the occasion. We feel the same about automobile shows, flower shows, and other activities of that sort.

The University of Nebraska coliseum should be used for educational, cultural and student social events only. It should not provide the city of Lincoln with a convention headquarters, or the village civic organizations with a public dance hall, properly located to stimulate student interests. As a state university building it should not give Lincoln an advantage over other cities in the state who support the institution and might crave a convention now and then.

If renting the coliseum for Greater Lincoln cifairs did not interfere with the affairs of niversity students, it might be excuseable. tut it does. Further, the university has no rounds to complain about exploitation when is a party to such practices. Why not adver--e the university with an electric sign on the liseum, saying: "Hire a Hall!"

it's the Fomen Who Pay-

University women, evidently, will be exsected to pay \$300,000 for living quarters, if the plan suggested by the chancellor proves workable. Land for a dormitory is in possession of the university. If the legislature approves a request for another \$100,000, then work on a new dormitory, to house comfortably nearly 400 women students, will begin . . . With a bonded indebtedness of \$300,000 remaining, to be paid off by profits of the building.

Interest on these bonds, at a moderate rate. will total at least \$2,000 per month, when divided up among the nine months of the school year. This means, then, that the stulents living in the dormitory must pay \$2,000 by his militaristic friends, ridiculed by cynics. is to landscape the terraces lead-more than their room and board actually costs. and actively opposed by students who are tak-

To prove his contention that it does, the the difficulty in acquiring enough colonel says that the young men who wore ready cash to meet their stadium hats into his office were without exception. those who had in some way escaped military training. Now I would not for one moment is true that Nebraska was not able However, for practical reasons the doubt the colonel's veracity and yet to me it to escape the general tendency in would be very interesting to know just how the colonel made his calculations. Has he "payment problem" on the \$500,-made a practice of inquiring from the young 000 memorial stadium, where the colonel made his calculations. Has he men whom he sees conversing with unremoved hats to young women, as to whether or not they have had military drill? Since practically all male students in this university are compelled

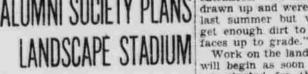

to take military drill, the men on our campus athletic offices show that the enshould be polished gentlemen to the nth thre stadium project, as it now stands, has been paid for in full. In addition, the building has been degree.

The colonel ascribes laziness as the motive back of the opposition of military drill. I am better shape today than it was the lazy, all people are, but the colonel is mistaken day it was built. "It is true," stated Ray Ramsay, in his diagnosis. Many of the students who are pushing the movement for the abolition of compulsory drill are women, who could not be completed-there are the two end affected by the outcome, by any stretch of the wings yet to be built-but as the imagination. As for me, I have already had structure now stands, every cent my stunt with the musket, as have many other of it has been paid." of the male students who oppose compulsory by popular subscriptions and gate drill.
