

SOCIETY

More than four hundred guests attended the annual Beaus Arts ball Thursday evening in Morrill hall. Elephant hall was gay with beautiful costumes, many of them having interesting reminiscences linked with them. The Nebraska Art association sponsored the affair.

Sixty Couples Will Attend Pi K. A. Party
About sixty couples will be present at the Pi Kappa Alpha house party Saturday evening. Valentine's day will suggest decorations and the Alpha Theta Chi orchestra will furnish the music. Mr. and Mrs. Charles Glenger and Mrs. Margaret Davis will chaperone the party.

Many Alumni to Attend Kappa Sigma Formal
Kappa Sigma has planned its formal party for Feb. 20, to be held at the Cornhusker hotel. Several out-of-town alumni who will be in Lincoln for the Founder's day banquet on the following day are expected at the party. Among these will be Mr. and Mrs. Eyer Sloniger of Kansas City, Mo., Mr. and Mrs. Audley Sullivan of Omaha, Mr. and Mrs. Bud Hyde of Grand Island and others. Miss Pauline Gellatley, Herbert Yenne, Mrs. and Mrs. Doole, Mrs. Bertha Finn, and Mrs. C. P. Smith will be the chaperones at the party for which Harold Stokes and his Paxton hotel orchestra will play.

Pledges Will Give Valentine Party
Alpha Chi Omega pledges are giving a house party Saturday evening for the actives. A valentine motif will be carried out in the decorations and favors, and Harold Hine's orchestra will play. Chaperones are to be Mr. and Mrs. F. Griess, Mrs. J. F. Stephenson, Mr. and Mrs. I. B. Noble, and Mrs. J. B. Bishop, house mother.

Pledge Pin Will Feature Decoration
Zeta Beta Tau actives will be entertained Saturday evening at a house party given by the pledges. A large pledge pin will form the center of the decorations, which will be added to by a valentine motif. The Golden Rock Serenaders will furnish the music, while the intermission act will be given by Harriet Cruise Kemmer and Harold Turner. The chaperones are to be Mr. and Mrs. Eli Shire, Mr. and Mrs. Guggenheim, and Rabbi Ogle.

A. T. O.'s Schedule Hard Times Party
Members of Alpha Tau Omega have scheduled a Hard Times house party to take place March 2. Rachel Branson To Fets Traveler.

In courtesy to Bernice Lieberman, who will soon leave for an extended Mediterranean cruise, Rachel Branson will be hostess to ten guests on Friday evening. Dinner will be served at 6:30 o'clock and the evening following will be spent informally.

Sixty-Five to Dance at Delta Sigma Lambda House
Sixty-five couples will dance to the music of the Varsity Ramblers at the D. S. L. house Saturday evening. The decorations will carry out the valentine theme, and entertainment is to be provided during intermission. Alumni who will attend the party are Paul Stinson, Wallace Nelson, and Harley Elkhud, Omaha; Chauncey Krotter, Palisade; and Leslie Brinkworth, of Chicago. Mr. and

(Continued from Page 1.)
clubs, girls' glee clubs, mixed glee clubs and individual solos. The instrumental solos will be: piano, violin, viola, flute, cello, stringed bass, piccolo, oboe, clarinet, English horn, bassoon saxophone, cornet, trombone, French horn, tuba, xylophone. In addition bands and orchestras will compete.

Judges Not Selected.
In the state contest cups will be awarded to first and second place winners in every event. Those winning third place will be awarded a ribbon. The prizes in the district contest will be decided upon by the committee in charge. The judges for the contest have not been selected as yet and will be announced at a later date. Each group entered in the contest will present the same numbers, and a suggested list of solos is given to those participating in the individual events. The solo and small group events will be held May 1, and all choruses, glee clubs, bands and orchestras will compete on Saturday, May 2.

The Whole Perkins Family Rants and Raves on University Radio Program

BY HOWARD KOZELKA.

Have you ever let the dials on your radio lean toward 770 kilocycles between 12 and 12:30 p. m.? If you did, you probably heard Si Perkins complaining about his rheumatism or John Perkins raving about to put in winter wheat. You see, John Perkins is Bill Perkins' son and Si Perkins is Bill Perkins' father. Then there is Emma Perkins, Bill's wife, who always has something to say about everything.

By this time you would assume that we are talking about the Perkins family. The "Perkins Family" is a radio family, in fact it is a radio dialogue put on the air every once in a while by the college of agriculture during the farmer's half hour over station K. P. A. B.

Novel Farm Program.
This dialogue is just a novel way of presenting a lot of agricultural facts and ideas to the farm folks of Nebraska. Ordinarily, facts are uninteresting, but when they are offered in this unique way, they are not only interesting, but are also entertaining as the comments on the program indicate.

SOUTH AMERICA FRIENDLY TOWARD UNITED STATES, SAYS GEORGE HOWARD, FORMER INTERPRETER FOR ROOSEVELT.

(Continued from Page 1.)
Argentina is unable to sell her agricultural surplus, while the Brazilian coffee market has dropped disastrously. Revolutions which have overturned the previously existing governments in several South American countries during the last year are seen by Dr. Howard as the direct outcome of this economic crisis. America has shut out the South American agricultural products by tariff walls. Europe has almost entirely ceased buying. The result has been dire hard times. When you get such a large number of people dissatisfied, it isn't difficult to start something.

Howard Accompanies Roosevelt.
When Mr. Roosevelt made his trip to South America in 1913, Dr. Howard was chosen as his interpreter and it was through him that Mr. Roosevelt made his speeches which did so much in making for better relations between the two continents of the western world.

Mr. Roosevelt's visit was, of course, unofficial. He was no longer president of the United States. He went to South America principally to explore some of the jungle regions of Brazil. It was inevitable, however, for so great an American figure to go to South America without doing a good deal of speaking.

Roosevelt Speaks.
In his speeches to the South Americans Roosevelt, however, steered clear of definite current questions, related Dr. Howard. He chose to speak of the broader things of political theory. He emphasized the noble and high ideals in government and stressed the need of private integrity to insure a good public official.

This was at that time a new doctrine to South America where a public official's private life was nobody's business. This gave the South American a different picture of the United States than that of a nation of dollar worshippers.

Today the relations of the two western continents are not settled. At present both, probably South America the more severely, are suffering from a difficult economic situation. The feelings of South America toward the United States is one of mixed good will and animosity. United States and Europe are competing for the South American trade. United States is handicapped because of the additional ill feeling produced by her tariffs against agricultural products. The United States, Mr. Howard believes, is feeling the unfavorable results of her tariff policy.

ART MEETING OPENS WITH COSTUME BALL
(Continued from Page 1.)
His murals in the new telephone building in Denver are particularly interesting, in that they are placed in open vestibules and also because of their symbolic content, which is decidedly modern and appropriate to the telephone industry.

Mr. True particularly understands western traditions and uses western subjects. His work is distinguished by exquisite drawing, fine composition and color balance, and especially by its distinctly spiritual quality.

Another delusion—that of fond parents thinking that Stanford university students study hard just before examinations—has been shattered.

FRANK TO SPEAK AT K. U. COMMENCEMENT

Will Address Fifty-Ninth Graduation Exercises At Lawrence.
LAWRENCE, Kas.—Glenn Frank, noted educator and publicist, will be the speaker at the fifty-ninth annual commencement at the University of Kansas, June 8. Announcement of President Frank's acceptance was given by Chancellor Lindley.

President Frank, who is a native of Missouri and a graduate of the Northwestern university, DePauw, and the University of Michigan, has been president of the University of Wisconsin since 1925.

President Frank's connection with academic administration began in 1912 when he became assistant president of Northwestern university. After four years of this work he went into the research work, and in 1919 became associate editor of the Century magazine. Two years later he became its editor in chief, continuing in that position until he became president of the University of Wisconsin, on Sept. 1, 1925.

President Frank was a member of the group headed by ex-President Taft, which drafted the covenant for a league of nations, which was considered by the peace conference in Paris, 1918-19.

He is author of "The Politics in Industry," "An American Looks at the World," and has assisted in other articles. He is a member of Phi Beta Kappa, Delta Tau Delta, Delta Sigma Rho, the American Sociological society, and the American Economic association.

FIRST BOOK ON RADIO EDUCATION PUBLISHED

400 Page Volume Printed By University Press; Many Contribute.
COLUMBUS, Ohio—"Education on the Air," a 400-page book on the growing use of the radio for educational purposes, is just off the university press. The book is the first of its kind in the United States.

The volume contains approximately fifty papers and addresses presented last summer at the institute for education by radio held on the campus. It was published jointly by the university, by the state department of education, and by the Payne Fund of New York City.

The book is divided into seven sections dealing with the following topics: administration of education by radio, activity at home and abroad, radio in educational institutions, schools of the air, college stations, investigations of education by radio, and educational techniques in broadcasting. The book is intended primarily for broadcasters and for educators dealing with radio.

Among the contributors are Judge Ira E. Robinson of the Federal Radio commission; John W. Elwood, vice president National Broadcasting company; W. S. Hedges, president National Association of Broadcasters; Armstrong Perry, United States Office of Education; C. H. Mercer, Daihouse university; R. S. Lambert.

King Winter No Longer Holds Sway In Nebraska Says Weatherman Blair

By MARVIN SCHMID.

If the winters in Nebraska continue to grow warmer in succeeding years at an equal rate to this one compared to last year, it apparently won't be long until the university heating system will be eliminated, fur coats will be a thing of the past, students of the agricultural college will be raising bananas instead of live stock, and Californians will make Nebraska their winter home.

For it now appears that the three winter months, December, January and February of 1930-31 will break all previous high temperature records. This month need only continue to run an average temperature in its remaining six days not lower than that of the first 22, and this new high record shall be established, according to T. A. Blair, meteorologist.

Average Is Lower.
The average temperature for December, 1930 was 32 degrees compared to 28 degrees of past years—Jan. 1931 ran an average of 34 degrees compared to 26, and this month up to the present time

has averaged approximately 34 degrees in comparison to 26. It was impossible to obtain an accurate average for this month, however, for the U. S. weather bureau checks generally only at the end of each month.

Similar to this year's temperature is the snow fall. It now seems evident that if the average snowfall declines in the future, as it has this winter, tales of skiing and sleighing will be listened to by the next generation as we now listen to weird stories of medicine men and witches.

Little Snow Has Fallen.
Only 4.3 inches of snow have fallen this year. When collated with past averages, 16.02, for the winter months the assertion appears to be fairly plausible, if not definite proof.

Persons who cherish their winters warm have expressed great enthusiasm over these indications for future winters that are milder with less snow. Their hopes are now falling lightly, for the weather forecast reads: probable snow and colder today.

editor of the Listener, British Broadcasting corporation publication; Levering Tyson, director, National Advisory Council on Radio in Education; Morris Salisbury, chief of radio service, United States Department of Agriculture.

These Ohioans also are among the contributors: Dr. W. W. Charters, director of the Bureau of Educational Research; Dr. J. L. Clifton, state director of education; E. H. Darrow and C. M. Koon, Ohio School of the Air; F. J. Prout, Sandusky superintendent of schools; Dr. Allen Charters of the university's division of parental education; Dr. R. G. Jones, school superintendent, Cleveland; and R. C. Higgy, director of WEAQ.

The volume was edited by Josephine MacLachy of the Bureau of Educational Research. Its foreword is by Dr. W. W. Charters and the cover design by Hoyt L. Sherman of the fine arts department.
