When Dignity Drives a Flivver.
Now of course, if dignity means much to a person's ego, he should maintain it at all costs.

There are many other reasons why we hope for a successful Kollege Kar Klassic. To revive interest in a passing custom, next spring.

Telephone Impressions.
When one calls some fraternities and sororities he is greeted by a voice that is positively discourteous, while from other houses comes a 'hello' which pleases the caller tremendously.

College Comment
College is a pipe.
We toss out this gristly morsel to be chewed over as you blink at a sickly marked card.

Another significant point brought out by the rating sheet for this term is the comparative rise in men's averages as contrasted with the relative drop in women's grades.

Why not, then, a 75 average for initiation into Nebraska fraternities? Much progress has already been made in raising the deplorable scholarship of the men's organizations by passing a '72' rule.

Why not, then, a 75 average for initiation into Nebraska fraternities? Much progress has already been made in raising the deplorable scholarship of the men's organizations by passing a '72' rule.

under men instructors than there are not taking gwork under women."

Not one of the volunteer informers admitted that women were more intelligent than men. On the contrary, no one seemed convinced that there was any marked difference in intelligence quotients, in favor of either sex.

Naive or not, we maintain that if a raise of 2 points in initiation requirements can bring about such a radical improvement in men's grades, then a raise of 5 points should accomplish miracles.

Yes, America was undoubtedly free of evils in the good old days—the good old days prior to 1492!

"It is not the office of education to toss Chicago pineapples at the cosmic urge. Petting is an institution more lasting than marble or bronze or steel or concrete. If that makes the deans gloomy, then the gloom is all theirs!"—St. Louis Post Dispatch.

College boys can ride in old flivvers, for instance, and do so unashamedly. Of course, others also pilot wrecks. Some because they have no better method of transportation, some to establish a conscious individualism, and some because of a natural indifference to public opinion, dignity and such matters.

A couple of windshield stickers, a few collegiate signs and a battered fender or two will do the trick . . . for no one frowns upon the driver of a flivver when he explains by saying, "It's all right; my dignity is intact. I'm a college student."

It wasn't long ago that I heard a prominent Lincoln publisher make the remark that he thought the University of Nebraska should be run on a more efficient basis.

This man said he didn't see why the school couldn't be run on a more efficient basis. He cited the college of agriculture in backing his statement. There he said there are many rooms which are not used but at varying times. Then he referred to the student activities building. He said a business could not be successful with only a portion of its plant in operation and a school should be the same way.

Perhaps this man of wide experience is right. But attempting to run a school on such a basis as a business concern seems impractical. For instance the student activities building has paid for itself in the physical development students have been able to make.

With the barb political faction meeting sometime this week it begins to look like there will be an election here in the college of agriculture soon. Just what candidates the barbs will put in the field for positions open in the spring election is unknown.

Mother's day, the most sacred day of the year, is past. But then there will be other national days celebrated this and every other week.

Mother's day, the most sacred day of the year, is past. But then there will be other national days celebrated this and every other week.

HAY SEED and HAYWIRE BY GEORGE ROUND

But then speaking of other institutions hiring our professors, reminds me that we are having the same trouble in the college of agriculture. It isn't all uptown. For instance within the past few years we have lost and are losing such men as A. D. Weber, Oscar Sjogren and W. W. Derrick. Then there is a hint that Harold Hedges may leave. All of these men are outstanding in their respective fields.

Sjogren was with the agricultural engineering department at Nebraska and became recognized as an authority in his department. Now he is in California. Bigger opportunities awaited him. Just this year the college of agriculture lost W. W. Derrick. He was attracted to the extension service field. While in the college he was an instructor in the animal husbandry department. Weber is leaving the animal husbandry department for Kansas this summer.

If Harold Hedges should happen to leave Nebraska, we will lose one of the outstanding rural economists in the country. It is only rumor that he might leave but it is sure that we cannot hold him long on the present salary basis.

It is my opinion, however, that Nebraska should not attempt to keep pace with some of the richer institutions in the country with unlimited finances behind them. Nevertheless, the Cornhusker school should be able to pay as well as neighboring schools.

But reverting back to the animal husbandry department. Kansas State college has a department of eight men. Nebraska has one with four instructors. Now one of them is leaving. Surely we should be able to keep up with Kansas. Number doesn't make quality but it helps a lot and that is the reason that Kansas has a good department. It goes without saying, however, that the Nebraska department ranks with the best.

This man said he didn't see why the school couldn't be run on a more efficient basis. He cited the college of agriculture in backing his statement. There he said there are many rooms which are not used but at varying times. Then he referred to the student activities building. He said a business could not be successful with only a portion of its plant in operation and a school should be the same way.

Perhaps this man of wide experience is right. But attempting to run a school on such a basis as a business concern seems impractical. For instance the student activities building has paid for itself in the physical development students have been able to make.

week. Last week there was a Chesterfield day in Lincoln. Next fall there will be dog days. Perhaps the crippled rats will have their day next.

All of which doesn't mean to reflections upon Mother's day, the greatest of them all. But it does indicate that everyday is being commercialized in some fashion or other.

DEAN RELEASES GRADE RATINGS (Continued from Page 1.)

above and one grade point is also hour carried with a grade of 70 or above an done grade point is also awarded for each credit hour carried with a grade of 60 to 80. Zero grade points are awarded for each hour incomplete, one grade point hour is subtracted for each credit hour deducted or dropped in unsatisfactory standing. To obtain the average for each group, the total grade points are divided by the total number of hours carried by the group.

Relative scholastic rating of undergraduate groups, according to the dean's report:

Professional Societies. Theta Sigma Phi, 3.133. Phi Chi Theta, 3.148. Phi Upsilon Omicron, 3.115. Kappa Epsilon, 2.843.

Women's Dormitories. 1332 R St., 2.948. 423 No. 13th St., 2.725. 1230 R St., 2.645. Chi Omega, 2.685.

R. P. CRAWFORD COMES FROM PRESS (Continued from Page 1.)

Following are the titles of articles reprinted in the appendix, the publishing magazine and the author: "Lost in the Great Wind Cave," American Boy, Paul Bancroft; "Working His Way Through College by Digging Up Old Bones," American Weekly, Aubrey S. Hurren; "Young Fossil Hunters Dig Their Way Through School," American Magazine, Maude E. Schroeder; "I Recommend Housework," Better Homes and Gardens, Hazel Gertrude Kinsella; "Trailing the Harvesting Machine From Texas Into Canada," Boston Evening Transcript, Samuel S. Diehrichs; "A Banker-Farmer Cycle in Nebraska," Burroughs Clearing House, C. L. Dow; "Amateur Agriculture," Nebraska Farmer and Oklahoma Farmer-Stockman, Jim Wilson; "The Lure of the Trail," Outdoor Recreation, Verna Edgren; "Two Boys and a Pail of Type," Personality, Ruth S. Pike; "Aristocratic Produce for Aristocratic People," Poultry Culture, William G. Taylor; and "Just All in Knowing How," Woman's Home Companion, Martha Brinkerhoff.

Gives Facts. Starting with a chapter on "Why Learn to Write" the book shows first how to find something worthwhile to write about. It makes plain to the writer where and how to get the needed facts and information and how to arrange them for use. Then it tells exactly how to prepare the entire article, from title to illustrations, interestingly and effectively. Catching, arousing and holding the reader's interest are three of the problems considered at some length by the author.

After assuming that the article is written, Professor Crawford considers the market for articles, basing his requirements, extent and possibilities of the market for the completed product from the field of his own experience.
