## CHANCELLOR BURNETT OUTLINES PROGRESS MADE THIS SEASON

More Direct Supervision Of  
Freshmen; Responsibility  
Given To Council.

Total Registration Greater  
Than Previous Year;  
Few Faculty Changes.

(Editor's Note: The following article, which appears in the June issue of The Nebraska Alumnus, is the annual report prepared for the alumni association by Chancellor E. A. Burnett. It was presented at the alumni luncheon during Round-Up.)

In spite of difficulties this has been a year of progress at the university. A plan has been approved giving responsibility to the student council and better co-ordination to the several organizations participating in student affairs.

Freshmen have been brought under more direct supervision of advisors, resulting in a general stimulating of freshman work. The Honors Convocation and the offer of student prizes gives additional incentive to consistent scholarship. This year the average grade of all fraternity men has been higher than the average of all men registered in the university—a very hopeful sign.

The effectiveness of the faculty along teaching lines is commendable. There is general harmony and friendship among the teaching staff. Such co-operation exists among the faculties of the several colleges that few, if any, important (Continued on Page 3).

## NEBRASKA ALUMNUS FEATURES REPORTS

June Number Contains Annual  
Messages; Reed  
Suggests Plan.

Featuring annual reports by Chancellor Burnett and officers of the alumni association, the June number of The Nebraska Alumnus was released yesterday afternoon. Since the magazine is not published during the vacation period, the next issue will not appear until the opening of school next fall. A picture of the south entrance to Social Science building is shown on the cover of the June number. Round-Up activities, honorary degrees granted at commencement, and an article on the class of 1911 are other features. Class notes, book reviews, athletic section and campus events complete the regular monthly sections.

"I should like to propose a ten year program for the alumni to parallel the ten year program of the chancellor and the board of regents," states Guy E. Reed, vice president of the Harris Trust and Savings Bank of Chicago, in his address on "These Twenty Years" which was delivered at the alumni luncheon during Round-Up and reprinted in the Alumnus. "A pro- (Continued on Page 2.)

## EXPEDITION REMOVES PART OF MASTODON

A party of four geologists of the University of Nebraska, under the direction of C. B. Schultz, who graduated this spring, left Monday for Milford where the expedition is digging out the remains of a huge mastodon skull. Portions of the skull have already been sent in to the assembling room in Morrill hall and are in an excellent state of preservation.

Henry Reider, an assistant in the museum, spent a day with the group, aiding them in some of the more difficult parts of the excavation. Other members of the group are F. Crabill, E. L. Blue, Eugene Vanderpool.

Will Lecture Here

MISS JOSEPHINE RICHARDS.  
Of Pittsburgh who will give free lectures next week in Morrill hall auditorium.

## NOTED EASTERNER TO TALK IN MORRILL HALL

Josephine Richards Comes  
From Pittsburgh To  
Lecture Here.

A series of free illustrated lectures by Miss Josephine Richards, of the department of costume economics of the Margaret Morrison Carnegie college in Pittsburgh, will be one of the features of the current summer school session, according to Miss Grace Morton, associate professor of home economics.

Miss Richards has traveled extensively in Europe and this country and is a specialist in the field of home decoration and history of costume. She lectures here under the auspices of the home economics department and her talks will include such fascinating topics as oriental rugs, old glass, old silver, pewter, history of costume and art appreciation.

She will be present all next week, lecturing at 10 a. m. each morning and 7:30 Tuesday, Wednesday and Thursday evening in Morrill hall auditorium. All university students and the general public is cordially invited.

## LUTHERANS PLAN FOR PICNIC NEXT FRIDAY

Antelope park has been selected as the place for the Lutheran picnic Friday evening, June 26, according to Rev. Henry Erck, Lutheran pastor. All Lutheran students and their friends are invited.

At 5:30 o'clock that afternoon, all those wishing to attend the picnic are asked to meet at the Temple building. As many as possible are requested to bring cars. Students may find the Lutheran pastor in his office at room 103 A, Temple building, from 10 to 12 o'clock every morning.

## Young Vandals Ink Alpha Xi Delt Hall In Red, Blue, Black

A party of housebreakers, evidently juveniles from the type of damage done, entered the Alpha Xi Delta sorority house, Tuesday evening, and did hundreds of dollars worth of damage to the interior without taking anything valuable away with them. The house has been closed since the finish of the regular school session and will not be reopened until fall.

Entrance was made thru the basement dining room windows at the back of the houses. Damage on the first floor consisted in tearing of covers from love-seat cushions over the radiators. On the second floor the rooms were ransacked and red, blue and black ink was splattered over the walls of the hall and on a new set of wicker furniture. Walls and furniture will have to be redecorated.

## EDUCATIONAL FILMS AT TEMPLE MONDAY

Students May Obtain Excuse  
From Classes to Attend  
Talking Pictures.

In case of conflict with classes, students may see the films depicting subjects in which they are particularly interested in making arrangements with their instructors, stated R. D. Moritz, director of summer session, yesterday afternoon, referring to the eight hour program of educational talking motion pictures which will be shown at the Temple theater, Monday, June 22.

The program, which is being given under the direction of the university through the courtesy of Electrical Research Products, Inc., of New York City, will be continuous from 8 until 5 o'clock except during the noon hour. No charge will be made and the public is invited to attend.

"These programs will be of exceptional value to teachers, students, parents, and the public generally," stated Mr. Moritz. "The subject matter is authentic and has been prepared under the direction of leading educators of the country. Here one may see types of classroom technique demonstrated, difficulties of pupils diagnosed and studies made of infant behavior. Educational philosophy and vocational guidance will be discussed by the ablest scholars in those fields."

Among the leading educators who appear in the educational talking pictures are Dr. W. H. Kilpatrick, Dr. David Eugene Smith, Dr. Arthur I. Gates, Mrs. Ina Craig Sartorius and Dr. Harry D. Kitson, all of Columbia university; Dr. E. H. Bode, Ohio State; Dr. Guy Thomas Buswell, University of Chicago; Dr. Arnold Gesell, Yale; Dr. Charlotte Buhler, Psychology Institute of Vienna; Dr. Richard D. Allen, Harvard; Hughes Mearns, New York university, and Dr. George Clyde Fisher, curator of university, college and adult education at the American Museum of Natural History.

## STUDENT GROUP IS FIRST CHOSEN DURING SUMMER

For the first time in the history of summer session work, students at the University of Nebraska have been given authority to outline a program of recreational and extracurricular activities. All plans will be made by an executive committee composed of eight students appointed Tuesday afternoon by faculty members.

A series of parties, baseball games, horseshoe and golf tournaments are being planned by the student committee. Their summer program opens with a party at the coliseum Friday evening.

The eight members of the committee are: Arthur Jones, superintendent of schools at Elk Creek, baseball chairman; Wendell Dodd, superintendent of schools at Belgrade, entertainment; Verne Jones, Phoenix, Ariz., horseshoe tournament; W. R. Colson, principal, Alliance, golf tournament; George Dunn, Omaha, publicity; Sara Upton, Union women's athletics; Gladys Zutter, Lincoln, women's activities other than athletics, and Margaret Huston, Osceola, reception. Prof. E. W. Lantz will act as faculty adviser.

## STUDENT PICNIC IS PLANNED SATURDAY

A picnic for all Methodist summer session students and their friends is to be held at the Antelope band stand, Saturday, June 20, at 5:30 in the afternoon. Students will meet at St. Paul's church, Twelfth and M, and transportation will be provided. The Epworth league, which is sponsoring the affair, announces a program of ball games, jokes and ghost stories. Twenty-five cents is charged for the lunch.

## Ball Players Asked To Report to Jones

All men who are interested in playing playground ball should get in touch with Arthur Jones, 609 South Seventeenth street. The telephone number is B2741.

A league is being organized and will commence playing a round robin schedule soon. Both students and faculty members are invited to take part.

## VOCATIONAL AG GROUP HOLDS PROGRAM TODAY

Meet Continues Tomorrow;  
Today's Events For  
Future Farmers.

About sixty instructors of vocational agriculture in Nebraska high schools opened their annual state conference at the agricultural college Wednesday afternoon. The program, which will last until Saturday evening, consists of talks from state and nationally known educational men.

Charles W. Taylor, state superintendent of schools, opened the Thursday morning program and was followed by Allen Cook, who gave a report of the national convention of the organization. C. A. Fulmer, in charge of vocational education in Nebraska, discussed non-technical obligations. Orris Hatch of Falls City reported for district No. 1.

Mr. Hulbert of the farm board told what the farm board is and what it has done in his discussion yesterday afternoon. V. J. Morford of Seward and H. A. Millen of Neligh reported for districts Nos. 2 and 4. P. A. Downs and I. L. Hathaway gave the instructors some pointers on coaching dairy products judging teams and training boys for Babcock testing contests.

Dairy and Poultry Discussed.  
Wednesday afternoon's program was devoted to dairy and poultry topics under the direction of the faculty of the dairy and poultry and animal pathology departments. H. P. Davis opened the program with a discussion of new de- (Continued on Page 2.)

## Official Bulletin

June 19, Friday: Party, Coliseum.  
June 22, Monday: Registration for course in Operation and Care of School Plants.  
Open Art Display: Galleries A and B, Morrill Hall; until July 10.  
Open Textbook Exhibit: Grant Memorial hall; until June 27.

## MOTION PICTURE PROGRAM

An eight-hour program of educational talking motion pictures will be shown at the Temple theater on Monday, June 22, under the direction of the university and through the courtesy of Electrical Research Products, Inc., of New York City. It will consist of one and two reel features prepared in an authentic manner by leading educators over the country. The program:

- 8:00—"Plant Growth," a complete life history of the pea showing by means of stop-motion photography every stage in the actual growth of the pea, from seed to maturity.
- "Fungus Plants," picturing and describing the actual growth of many forms of fungi such as the mushroom and toadstool.
- "The Dodder," showing and describing in talking motion pictures how parasites live and grow on other plants.
- "The Frog," the life and characteristics of the frog, showing every stage of development from the egg to maturity.
- 9:00—"Dynamic Learning," in which Dr. W. H. Kilpatrick of Columbia presents the philosophy underlying creative activity methods.
- "The Creative Approach to Education," by Hughes Mearns, professor of education at New York university.
- 10:00—"Acoustic Principles," two reels demonstrating the underlying principles in recording and reproduction of speech and music by Dr. Harvey Fletcher of the Bell Telephone laboratories.
- "The Elementary Teacher as a Guide," by Dr. E. H. Bode, professor of education at Ohio State university.
- 11:00—"Finding the Right Vocation," in which Dr. Harry D. Kitson of Columbia university develops methods which the pupil can use in choosing a vocation.
- "The Study of Infant Behavior," by Dr. Arnold Gesell, director of Yale Psychob- Clinic.

- 1:00—"The Builders," a picture aiming to give to the junior high school pupil a comprehensive outlook on building as one of the broad occupational groups.
- "Guidance in Public Schools," by Dr. Richard D. Allen, assistant superintendent of schools, Providence, R. I., and lecturer at Brown and Harvard universities, who demonstrates and explains the working of a comprehensive system of guidance in the public schools.
- 2:00—"The Play of Imagination in Geometry," by Dr. Eugene Smith, professor emeritus of mathematics, Columbia university.
- "Classroom Demonstrations," for class from the first to the sixth grade.
- 3:00—"Individual Differences in Arithmetic," by Dr. Guy Thomas Buswell of the University of Chicago.
- "Teaching of Reading," by Dr. Arthur I. Gates of Columbia university.
- 4:00—"The Testing of Child Intelligence," as demonstrated by Mrs. Ina Craig Sartorius, assistant principal of the Horace Mann elementary school.
- "Accomplishment Tests for Babies," by Dr. Charlotte Buhler of the Psychology Institute of Vienna.

## SECOND PARTY PLANS ARE COMPLETED FOR FRIDAY NIGHT'S FETE

Coliseum Is Scene Of Fun  
Program For Coming  
Week End.

Committee Assures Students  
Of Cool Breezes Thru  
Ventilation.

With the coliseum floor for a ballroom summer school students are assured of a roomy, cool evening of dancing for the second all-student party, Friday night, according to members of the new Student Executive committee.

The coliseum ventilating system, which keeps the temperature of the building at a comfortable level for all university fetes which are held there during the regular year insures relief against the hot weather.

In order to give adequate publicity to the party, posters have been placed in the Library, University and Andrews halls, Teachers college, Social Sciences, Mechanic Arts and the Temple.

These posters will be kept up to date as to when the next parties and other affairs will be held. In the future, arrangements will be made far enough ahead of time so that The Summer Nebraskan will be able to publish the date and plans a week in advance as is the case during the current week.

## Features Planned.

New features of entertainment are to be introduced at each party, giving students something novel to look forward to at each event, members of the committee have announced. Anything in the line of suggestions will be appreciated as they wish to arrange the summer's social affairs in accordance with the wishes of summer session students in general. Any such suggestions may be given to Prof. Lantz who will in turn submit them to the Student Executive committee for consideration.

Present recreational plans include at least one party or picnic each week. Later in the summer, if satisfactory arrangements can be made, contests in various summer sports will be held.

The same orchestra which played last week will again be used for Friday night's party due to popular satisfaction expressed by a number of summer school students over its music. Admission to the affair remains at ten cents per person.
