Dr. Lowry C. Wimberly Receives Recognition From Eastern Critic

By HARRY FOSTER.

The story is told in dialect in a loose manenr but the apepal of the "White Man's Town," by Dr. Lowry Charles Wimberly, professor of English in the University of Nebraska, has achieved the distinction of being one of the best stories of the year. This story, which deals with the problem of race prejudice, is included in Ed-O'Brien's "Best Short Stories of 1931."

Loudon Kelley in the Rocky Mountain News, of Denver, Colo., says that "White Man's Town" is the best story included in O'Brien's

"This story," Kelley wrote, "is told introspectively, related in a rambling but gripping manner by a convict condemned to die to a casual visitor."

Professor Wimberly had two stories receive the three star rat-ing on O'Brien's "honor roll" tais In speaking of the requisites that a story must have to appear upon his honor roll O'Brien says. "I have recorded the names of a small group of stories which possess, I believe, the fine distinction of uniting genuine substance and artistic form in a closely woven pattern with such sincerity that these stories may fairly claim

a position in American literature."
"Apropos of Asses," which appeared in the March issue of Harp-ers' was the other story to receive a three star rating. Professor Wimberly feels that he accomplished more in this story than he did in "White Man's Town" because it was much more difficult to portray a story with a univer-sity setting and with university people as characters.

Contributors Mentioned.

Four contributors to the "Prairie Schooner" of which Professor Wimberly is editor, received recognition in O'Brien's book by hav-ing stories placed on the list of "Distinctive Short Stories." The writers thus honored were Edythe Squire Draper, Evalene Parsons Jackson, Cornelius Mullenburg, and Frederick Christensen.

In speaking of the events lead-ing to the writing of "White Man's Town" Professor Wimberly stated that he was at the time working on a short story that had as its theme the practice of black magic. White Man's Town was an offshoot of this one. One paragraph gave him the inspiration and he developed it into the story. It look him about two days to complete

the story after he once got started. "White Man's Town" appeared in the March number of the Forum at the same time that "Apropos of Asses" appeared in Harper's

"White Man's Town" has as a setting a small town in Missouri where the populace is prejudiced against negroes.
