

COMPANY 'D' LEADS CADET TRACK MEET

Several Outstanding Marks
Made by Cadets in
Annual Event.

LAMBERTUS SETS PACE

With less than a week remaining in the Military Science Track meet, company D is preparing to cop the distinction of winning first place in the meet. There have been no outstanding performances recorded in company D, but the record of each man has been quite uniformly high. Especially was the record of company D good in the broad jump.

Some of the best records made this year have been those of Harold Fetz, Heye Lambertus and Bill Green. Lambertus holds the record for the 256 yard run for this year. His time was 29.8, which is four tenths of a second below the time set by Jerry Lee in 1931. Lambertus also showed up very nicely in the broad jump, with a mark of 20.9.

Petz, captain of company F, came through the 256 yard run with a time of 30.1 which is only three-tenths of a second below that of Lambertus. Green still holds the record for the shot-put with a mark of 40 feet, five inches.

Ishhart of company F, is holder of the high jump record for the year. His mark was five feet, five inches, which is three inches below the mark set by Leonard Jacobs in 1931, and Jerry Lee in 1930.

Roby performed in his consistently good manner. In the broad jump he twice hit the 20 foot mark. Roby has made no outstanding marks so far this year, but his performances have ranked near the top.

The score for the ending of the first week of the meet, shows the score of company D to be 874. Company G is next in line with a score of 856. The third highest company is company E, and company B ranks fourth. The scores are 842 and 840.

In the two events so far recorded, shot-put and fifty yard dash, company D and E copied the honors. In the dash the score of company D was 610, but its average was only 6.7, which is below the average of some of the other companies. Company E has high score in the shot-put, with a score of 292, and an average of 25' 2" which is also high.
