

BOB SIMPSON BOASTS OF MILE RELAY TEAM

Cyclone Track Coach Thinks His Quartet Best Iowa State Has Had.

AMES, Ia.—Bob Simpson, Cyclone track coach, will go to the annual Kansas Relays Saturday with a two-mile relay quartet which he believes is one of the best he has ever produced at Iowa State. He believes that the team that heads his crack four will have to shatter the existing Kansas Relay record of 7:52.4 for that event.

The veteran runners, all of whom have proved themselves capable of beating the clock to two minutes in leisurely tryouts this spring, are Charles Henderson of Coia, Lloyd Nagel of Ames, Earl Labertew of Indianola, and Lyle Chapman of Chicago, Ill.

Labertew holds the Big Six half mile record of 1:55 and has been clocked in 1:58 this spring. Nagel won the conference indoor championship this year, Chapman won the K. C. A. C. mile and set a new record at the meet in Kansas City this year, and loafed around the track a half mile in 1:58 this spring, and Henderson has been winning honors in the 440-yard dash this season.

Glenn Cooper of Marshalltown, pole vaulter, Roland Meyers of Clear Lake, discus thrower, and Ike Nelson of St. Joseph, Mo., will accompany the relay team to Lawrence and compete in the events named.

POOL DENIES PINES WON'T THRIVE HERE

(Continued from Page 1.)

ton became sufficiently interested in arguments of Dr. Bessey to establish a federal reservation near Halsey in Thomas county.

First trees in this reservation were planted in 1903, and were seedlings from the northern forests. Dr. Bessey was also interested in finding grasses and plants suitable for forage in the sand hill region.

Dr. Pool, in his statement declared that botanists and other scientific men throughout America and in other parts of the world have agreed it was because of Dr. Bessey's vigorous recommendations that tree planting in the sand hills was started. In conclusion Dr. Pool stated:

"The success that has followed the work from its beginning has been a remarkable contribution to the wise forethought and detailed suggestions that Dr. Bessey made throughout his life in the state."

"That anyone should state that he was opposed to or that he endeavored to discourage tree planting in any form in Nebraska is obviously an admission of a very slight acquaintance with Dr. Bessey and the service which he rendered to Nebraska during his residence here from 1886 to 1915."

NEW GROUPS NAMED FOR ENGINEER WEEK

(Continued from Page 1.)

leges in the university endeavor to show the public what they have been doing was started by the engineers several years ago. All arrangements for the program and its execution are made by the students in the engineering college.

A general chairman is selected by the entire student body of the college at an election, and he appoints the chairmen and members of the numerous committees which direct the program from the names of students which are placed, by themselves, on lists provided for that purpose.

The general chairman selected by the engineers this year is William Dann. John Hutchings was elected general secretary-treasurer for the week at the same election.

Various committees which he appointed this year include those which will arrange the banquet, program, field day, convocation, open house, campus development, traffic, tickets and publicity. A general chairman for every department in the Engineering college was also appointed.

The first week in May has been designated as engineer's week this year.

DR. GINSBERG TO SPEAK

Significance of the Russian Revolution on literature will be discussed by Dr. Michael Ginsberg, department of the classics, before members of the Nebraska Writers' Guild in Lincoln next month.

ALL crew managers, supervisors, team captains, and student assistants themselves of the opportunity for free scholarships made possible through the courtesy of the Leading Magazine Publisher's again this year are requested to apply to the national organizer, M. Anthony, Jr., Box 241, San Juan, P. R.

Will Defend Track Marks

Rhea of NEBRASKA and Chamberlain of MICHIGAN STATE

Two of America's greatest athletes who set records in the special events at the Drake Relays last year are expected to defend their marks at this year's classic April 29 and 30. Hugh Rhea of Nebraska, all-American football tackle pitched the 16 pound shotput 50 feet, 7.2 inches last year for a new Drake record. His big opposition will come this spring from Wayne Munn of Minnesota, Big Ten titleholder and winner of the Penn Relay championship in 1931.

VESPERS TO HEAR BARBOUR

Scientists' Idea of God Is Subject of Discussion Tuesday at 5.

"The Struggle of Science" will be the subject of Prof. E. H. Barbour in his talk at Vespers service Tuesday at 5 o'clock at Ellen Smith hall. In his talk Professor Barbour will give the scientist's idea of God. There will also be special music.

INSPECTOR WILL DECIDE STANDING CADET REGIMENT

(Continued from Page 1.)

spection which begins at 9 o'clock Thursday.

The Thursday program, starting with a conference and explanation of the method of inspection, includes an examination of the practical second year basic course under Captain Lehman. Exercises in musketry, the automatic rifle, and scouting and patrolling will be given at 9 o'clock.

To Inspect Advanced Course.

At 10 o'clock, the inspection of practical first year advanced course men, under Capt. G. W. Sperry, will take place. This includes military sketching with ten men selected by the inspector, work with machine guns, and work with the thirty-seven millimeter gun and the three inch trench mortar.

At 11 o'clock the inspecting officers will call upon Chancellor E. A. Burnett for an inspection of facilities for practical instruction and for offices and class rooms.

From 1 to 2 o'clock, the theory of the first year advanced course, under Captain Lehman, will be taken up. This examination will include drill and command, map reading and military sketching, the machine gun, the thirty-seven millimeter gun and the three inch trench mortar, and combat principles.

Examination on Theory.

At 2 o'clock, the theory of the second year advanced course, under Captain Crispy, will be taken up. The inspection will cover military law and O. R. C. regulations, military history and policy, field engineering, administration, drill and command, and combat principles.

Captain Raumeister will lead the second year advanced course men in the inspection of their practical work, which includes field engineering with a map problem to be furnished by the inspecting officer, and a tactical exercise.

At four o'clock the inspection of the practical first year basic course work will start. The following instruction will be taken up: first aid with a squad of first year basic students, rifle marksmanship with ten students, and scouting and patrolling with ten students.

Facilities to be Inspected.

From eight to nine o'clock on Friday morning an additional inspection of facilities will take place. At that time a check and report of the inspection so far will be made.

At nine o'clock, the theory of the first year basic course, under Captain Baumeister, will begin. This inspection will include military hygiene and first aid, drill and command, the rifle and rifle marksmanship, and scouting and patrolling.

Captain Lyon will lead the second year basic men in an examination of the theoretical second year basic course. This will include inspection of knowledge on drill and command, musketry rifle marksmanship, the automatic rifle, scouting and patrolling and combat principles.

Parade Scheduled.

The inspection will end Friday afternoon with a regimental parade, an inspection of the whole regiment and examples of work in close order drill by a squad, a platoon and a company; extended order drill by a platoon; pitch and strike shelter tents and a display of equipment by one platoon; calisthenics and mass commands by one platoon and a tactical exercise.

BACK from the Kansas Relays, a bunch of determined Huskers are setting to work preparing to give a better account of themselves at the annual Drake carnival at Des Moines Saturday. The truth of the matter is, the boys are disgusted with their showing in the Kansas meet. It won't happen this week, they aver.

Bright spots among Husker performances. The wonderful burst of speed displayed by Heye Lambertus, who was running as anchor man in the 440 yard relay, compared by Ed Weir to the speed exhibited by Roland Locke in the latter's heyday. In fifth position as the final touchoff of the sprint relay got under way, Heye opened up to run circles around his opponents and put the Huskers in second place behind Illinois at the tape. The Illinois won the event in 42 seconds flat, with Nebraska placing third in final time comparisons.

Clark Chamberlain of Michigan State last year raced two miles in 9:23.1 for a new record. He will face stern opposition this season in Henry Brocksmith, Indiana's sensational runner, and Myron Pilbrow of Grinnell college, who defeated Chamberlain at the Central Intercollegiate.

Clark Chamberlain of Michigan State last year raced two miles in 9:23.1 for a new record. He will face stern opposition this season in Henry Brocksmith, Indiana's sensational runner, and Myron Pilbrow of Grinnell college, who defeated Chamberlain at the Central Intercollegiate.

MEMBERS of the Nebraska squad were unanimous in the opinion that the rain was the outstanding feature of the relays this year. Beginning Friday night, showers fell steadily and continued throughout most of the meet program. The Scarlet team began to believe they were just a flock of ducks. The shot putters were having their troubles, as the lead ball insisted in sinking clear out of sight on the soft, sod field.

Although the rain prevented any attempt at record breaking, some excellent marks were made. Schute's sprinters praised the work of Thompson of Minnesota in winning the century in 9.7 seconds, while Capt. George Saling's performance in equaling the 120 yard high hurdle record of 14.6 also came in for many laudatory remarks. Bryce Beecher, Indiana pole vault star, defied a slippery runway to clear 13 feet 5-1/2 inches. Orlin Dean barely missed 13 feet.

Buster Long, that wise cracking Wyoming cowboy, is on the campus for a few days. One of the most determined football players ever to win an "N," Bus has not lost any of the fire that made him a valuable member of Coach Bible's 1930 team.

Long has been kidding Hugh Rhea about the latter's 47 foot heave with the shot at the Kansas relays. He calls Hugh, "forty-seven." Rhea's toss happened to be good enough to win first place and also beat Munn of Minnesota, the Big Ten champ, but still does not compare with Hugh's usual marks.

When Jerry Lee was telling Monday afternoon about how he endeavored three different times to lay the baton in Heye Lambertus' grasp during the 880-yard relay at Kansas, Bus offered: "Why didn't you mail it to him?"

Carl Sandburg appeared recently before an Ohio State audience. Intoning selections from his poetry, he accompanied himself with a guitar.

Seven Girls Named Members Golf Club

New members of the girls' intramural golf club are:
Susan Gibbs
Marian Gugenheim
Jean Beachley
Helen Haxthausen
Esther Abbott
Naomi Henry
Katherine Stevenson

There will be a short club meeting in the golf room at 12 today, April 26. Any girl desiring to turn in a qualifying score for the club may do so this week.

Colorado U. Student Flies Over Plains to Vacation in Nebraska

Attending the University of Colorado and spending the weekend in Omaha, Neb., or other points of interest in the country offers no difficulty to Henry Cuneo and Wesley Schorr.

A friend of Mr. Cuneo, Henry Meyer, flying on his way to Omaha from California, picked up his two friends at Denver Friday evening at 7:15 o'clock. A five and a half hour spin landed them in Omaha. The party spent two days in the city and in cruising about the plains of Nebraska.

The trip was a sort of reunion jaunt for Mr. Cuneo and Mr. Meyer—they were "buddies in the marines." The plane sailed into Denver Sunday at 7:30 o'clock. Just a nice quiet little week-end!

PLAY BASKETBALL FINALS

Coeds Complete Intramural Tournament Schedule This Week.

The coed intramural basketball tournament is drawing to a close. This week will see the end of the consolation tourney and the last round of the elimination tourney for championship.

Schedule for games are:
Tuesday, April 26, 5:00—Delta Zeta vs. Alpha Chi Omega.
Wednesday, April 27, 5:00—Phi Kappa Delta vs. Winner of Delta Zeta and Alpha Chi Omega. Finals in elimination tournament: I-X-L and Ne'Eds vs. K-B-B.

Deck tennis and baseball intramural arrangements are being prepared. Groups should watch the bulletin board in the women's gymnasium for further announcements.

ECONOMIC GROUP TO MEET TUESDAY FOR DISCUSSIONS

Melvin Mas, '33 Lemoyne, and Sid Smith, '32 Amherst, both students at the college of business administration, will speak on "Bimetallism and Inflation" before a meeting of the Economics Round-table, student-faculty discussion group on current economic questions, in Social Sciences, room 107, at 7:15 Tuesday evening.

Jerome Petr, president will preside. A discussion of the question will follow the talk.

BOTANY CLASS HONORS POOL'S 50TH BIRTHDAY

In observance of his fiftieth birthday and the approach of the end of his twenty-fifth year of teaching at the university, Dr. E. J. Pool, chairman of the department of botany, was honored by his eight o'clock botany class yesterday morning.

Pictures of Dr. Pool, a snapshot taken at the commencement exercises last June, were distributed to the members of the class and later autographed by Dr. Pool. The room was decorated with vases of flowers supplied by assistants in the department.

Dr. Pool started teaching botany at the university in the year 1907. He was created acting director of the department in 1914, was made director of the department the following year, and has held that position since.

He was born in Wabash, Neb., on April 23, 1882. He was graduated from the University of Nebraska in 1907, studied at the University of Chicago in 1908, and holds the following degrees: A. B., 1907, A. M., 1908, and Ph. D. 1913. He is a member of Alpha Theta Chi, Phi Beta Kappa, Phi Sigma and Sigma Xi.
